

# SHOWCASE

## Alpine Match Grade Yukon

The new Alpine Yukon comes alone or in this Match Grade version outfitted with a fall away rest, an Alpine MR2 Stabilizer, and a Montana Black Gold sight. The bow uses the company's vibration dampening VX-1 pocket system, now designed for use with a solid limb. The parallel limb design, Bi-Polar and Mid-Plane Dampeners, string silencers, and cable guard dampener, all help the Alpine Yukon to be vibration free shot after shot. The one cam has a rotating element to adjust draw length over a 5 inch range. Call Alpine Archery in Idaho at (208) 746-4717.

# Unwrap The Sweetest Deals Of The Year!

**Twister Safari**

This new rest from APA Innovations has a stronger, more streamlined cradle construction and a new style bracket that's easier to install and adjust. The Twister Safari offers more clearance for vanes and it comes with the Slick Tubes Teflon sleeves. Reach the firm in Saskatchewan by calling (306) 948-5101.

**Carson XM Compacts**

Carson Optical is expanding the XM series of premium binoculars with compact 8x25 and 10x25 models. They use BaK-4 phase coated roof prisms for bright images and good low-light performance. Clad in rubber armor, the XM compacts are waterproof and weigh just 12.5 ounces. They have twist-up eye cups and offer between 17 and 18.5 mm of eye relief. Reach Carson Optical at (800) 9-OPTICS.

**Contain Changes Fiber For Scent Reducing Clothing**

Contain's manufacturer has switched from using an acetate fiber impregnated with a scent control feature to using an acrylic fiber. "The new acrylic fiber in Contain uses a safe, organic additive which is commonly found in soaps and underarm deodorants," a company spokesman said. "Contain blends this deodorant acrylic fiber with Coolmax fabric which is proven to quickly move moisture away from the skin, providing excellent moisture management, breathability and insulating properties. The deodorant built into Contain hunting clothes won't wash or wear out and lasts for the life of the garment even after repeated washings." Reach Contain/VSI in Minnesota at (800) 804-8588.

## Head-Lite Offers Lighted Kid's Cap

The Head-Lite company introduces the G2 for kids. Based on their newest design, the G2, this smaller model is customized to fit children ages 7 and under. Utilizing ultra bright LED technology, the built in light can be seen up to a mile away. This low profile, six-panel cap is both comfortable and durable, allowing parents a simple and fun solution to outdoor safety for the whole family. For more information on Head-Lite products, call 1-877-HEADLITE or visit [www.head-lite.com](http://www.head-lite.com).

## Camoclad Introduces Custom Accent System

Known for innovative camouflage systems, Camoclad now has custom camouflage accents for hunting and outdoor products. By reducing camo patterns to 25 percent their original size, even the smallest accessory can be intricately detailed with today's leading patterns. Each product is fitted with its own tailored kit that is developed to enhance the eye appeal and make it more woods-ready. Each design is cut from waterproof, scratchproof, fade-resistant 3M vinyl, which provides a great, long lasting look. For more information, call 1-800-585-8550 or visit [www.camoclad.com](http://www.camoclad.com).
