COURSE AIMS

The course aims to give the participants the knowledge & practical training necessary to undertake the Department of Transport written and practical examinations and receive a Short-Range Certificate of Competency to operate GMDSS equipment on successful completion.

COURSE OBJECTIVES

On successful completion of the course participants will understand the requirements and responsibilities of a radio operator and be able to participate in search and rescue situations. Specifically, participants will understand:

- How to react in a Distress, Urgency or Safety situation.
- How to call for assistance for other vessels involved in a Distress or Urgency situation.
- How to operate EPIRB, SART and portable VHF equipment.
- How to operate NAVTEX for the reception of Maritime Safety Information (MSI).
- The correct maintenance and test procedures to be carried out on GMDSS equipment.
- The Rules and Regulations pertaining to the use of GMDSS equipment and SOLAS best practice.

COURSE DURATION AND COST

Course duration: Two days (including the examination)

Cost: €235 per participant to include Examiner/Dept of Transport fees.
