

PRODIGY

NEXT GENERATION INSULATED SIDING

When you are building or remodeling your home, there are many decisions to make. Thanks to innovative technologies that blend intelligent design with exceptionally beautiful features, your choice for an excellent siding is an easy one. Prodigy insulated siding achieves a superb appearance and enduring performance.

Prodigy. Inspiringly beautiful.
Amazingly energy-efficient.†

Imagine that you could keep every corner of your home at the perfect temperature year-round. And yet conserve energy consumption. That's the *Prodigy ComfortFactor*.

With the exceptional R-value of its industry-leading thermal barrier – up to 1½" thick insulation* – Prodigy delivers outstanding performance and energy efficiency. It creates a powerful blanket of insulation around your home and, with a Perm Rating of up to 5, also breathes freely to allow moisture vapor to escape. The result is a comfortable interior climate all year long.

INSPIRINGLY BEAUTIFUL

Double 5" Dutch Lap

Double 6" Clapboard

SEE AND FEEL THE DIFFERENCE.

ENERGY EFFICIENCY*

ProdigyComfortFactor

A Comfortable Home Year-Round
Prodigy ensures outstanding all-weather protection and can help reduce your energy use, thanks to the exceptional R-value of its industry-leading thermal barrier – up to 1½" thick insulation,* the thickest EPS foam available in a one-piece insulated siding system.

ThermoSphere

Energy Gap Protection
With innovative features such as RigidLock and TrueForm combined with a full line of insulated trim and accessories, Prodigy creates a blanket of insulation around your home.

ENGINEERED PERFORMANCE

TrueForm

One-Piece Insulated Siding System
Precision-contoured insulation – up to 1½" thick* – bonds securely to the siding panel, creating an integrated system that delivers strength and energy efficiency.

RigidLock

Secure Interlocking Panel Design
Prodigy's strong interlocking panel design provides a tight, secure connection between stacked panels. This ensures your siding will be securely locked in, have straight and even course lines, and look great for a lifetime.

MonoWallIntegrity

Structurally Independent Wall System
Structural integrity and rigidly interlocking panels mean Prodigy stands tall on its own. The siding that stands on its own will stand up to almost anything.

INSPIRED BEAUTY

TrueCourse

The Look of Hand-Installed Boards
Designed and expertly manufactured to capture the look of traditional plank siding. Available in double 6" clapboard and double 5" dutch lap profiles.

ExtendedLength

More Panel. Less Seams
More than 38% longer than standard 12' siding, the 16'8" Extended Length panel creates fewer installation overlaps for a straighter, cleaner exterior finish.

TrueWoodLook

Crisp, Clean and Subtle
We drew our inspiration from nature and designed Prodigy with a less-is-more sensibility. Crisp, clean and subtle, the appearance of finely milled wood attracts admiration without seeking attention. The understated look is timeless and genuine.

Traditional vinyl siding is no match for the Prodigy insulated siding system. Prodigy provides protection against energy loss and the distortion and fading caused by challenging weather. Prodigy's system bonds an inner core of the thickest, high-density EPS insulation with a durable and beautiful outer layer – creating an integrated system that delivers remarkable strength and performance. **The result:** Your installer can achieve a uniform outer layer with a beautiful finish that holds true.

CONTEMPORARY COLOR COLLECTION

ARCHITECTURAL COLOR COLLECTION
