

Erdem Erbaba

System Engineer & DevOps

Timeline

Certificates

Computer Science Program

The certificate program organized by Harvard University teaches a comprehensive computer engineering requirements.

Tech Essential

This training provided by Huawei is a certification program where current technologies are practically applied.

Production and Manufacturing

This training provided by SMC Company provides training on production processes.

Digital Workshop

The certification program offered by Google teaches how to establish a startup in partnership with Google.

Server Network

This training provided by Huawei is about developing cloud projects.

Quality Management

This training provided by Istanbul Business Institute includes quality and control processes.

Control Training

This training program, which is an initiative of the IEEE community, includes components used in automation such as PLC RTU.

Effective Presentation

This training organized by the Rotaract Community includes effective presentation techniques.

Communities

MekMuhDer

Association of Mechatronic Engineers

IEEE

Institute of Electrical and Electronics Engineers

Rotaract

Rotary Foundation

MMO

Chamber of Mechanical Engineers

IEF

Izmir International Fair

Hackerspaces

A non-profit community based on Productivity and Production

TMF

Turkish Motor Federation

Mechatronics Club

Izmir University of Economics Club

achievements

TÜBİTAK 2209-B

Otonom su altı aracı geliştirme üzerine sağlanan destek programı

Endeavour

Entrepreneur Summit Ideathon birinciliği

Hack4Art

Sıfırdan proje geliştirme hackathon üçüncülüğü

Design Build Race

Tasarla Yap Yarıştır Organizasyonu üçüncülük

Teknofest

2020 Su altı aracı kategorisinde çeyrek final

DesignX

Project Development Program Birinciliği

IEEE

Robotic Automation Society Labirent yarışması üçüncülüğü

Regional Marathon

İzmir Bölge Yarı maraton Koşusu Dördüncülüğü

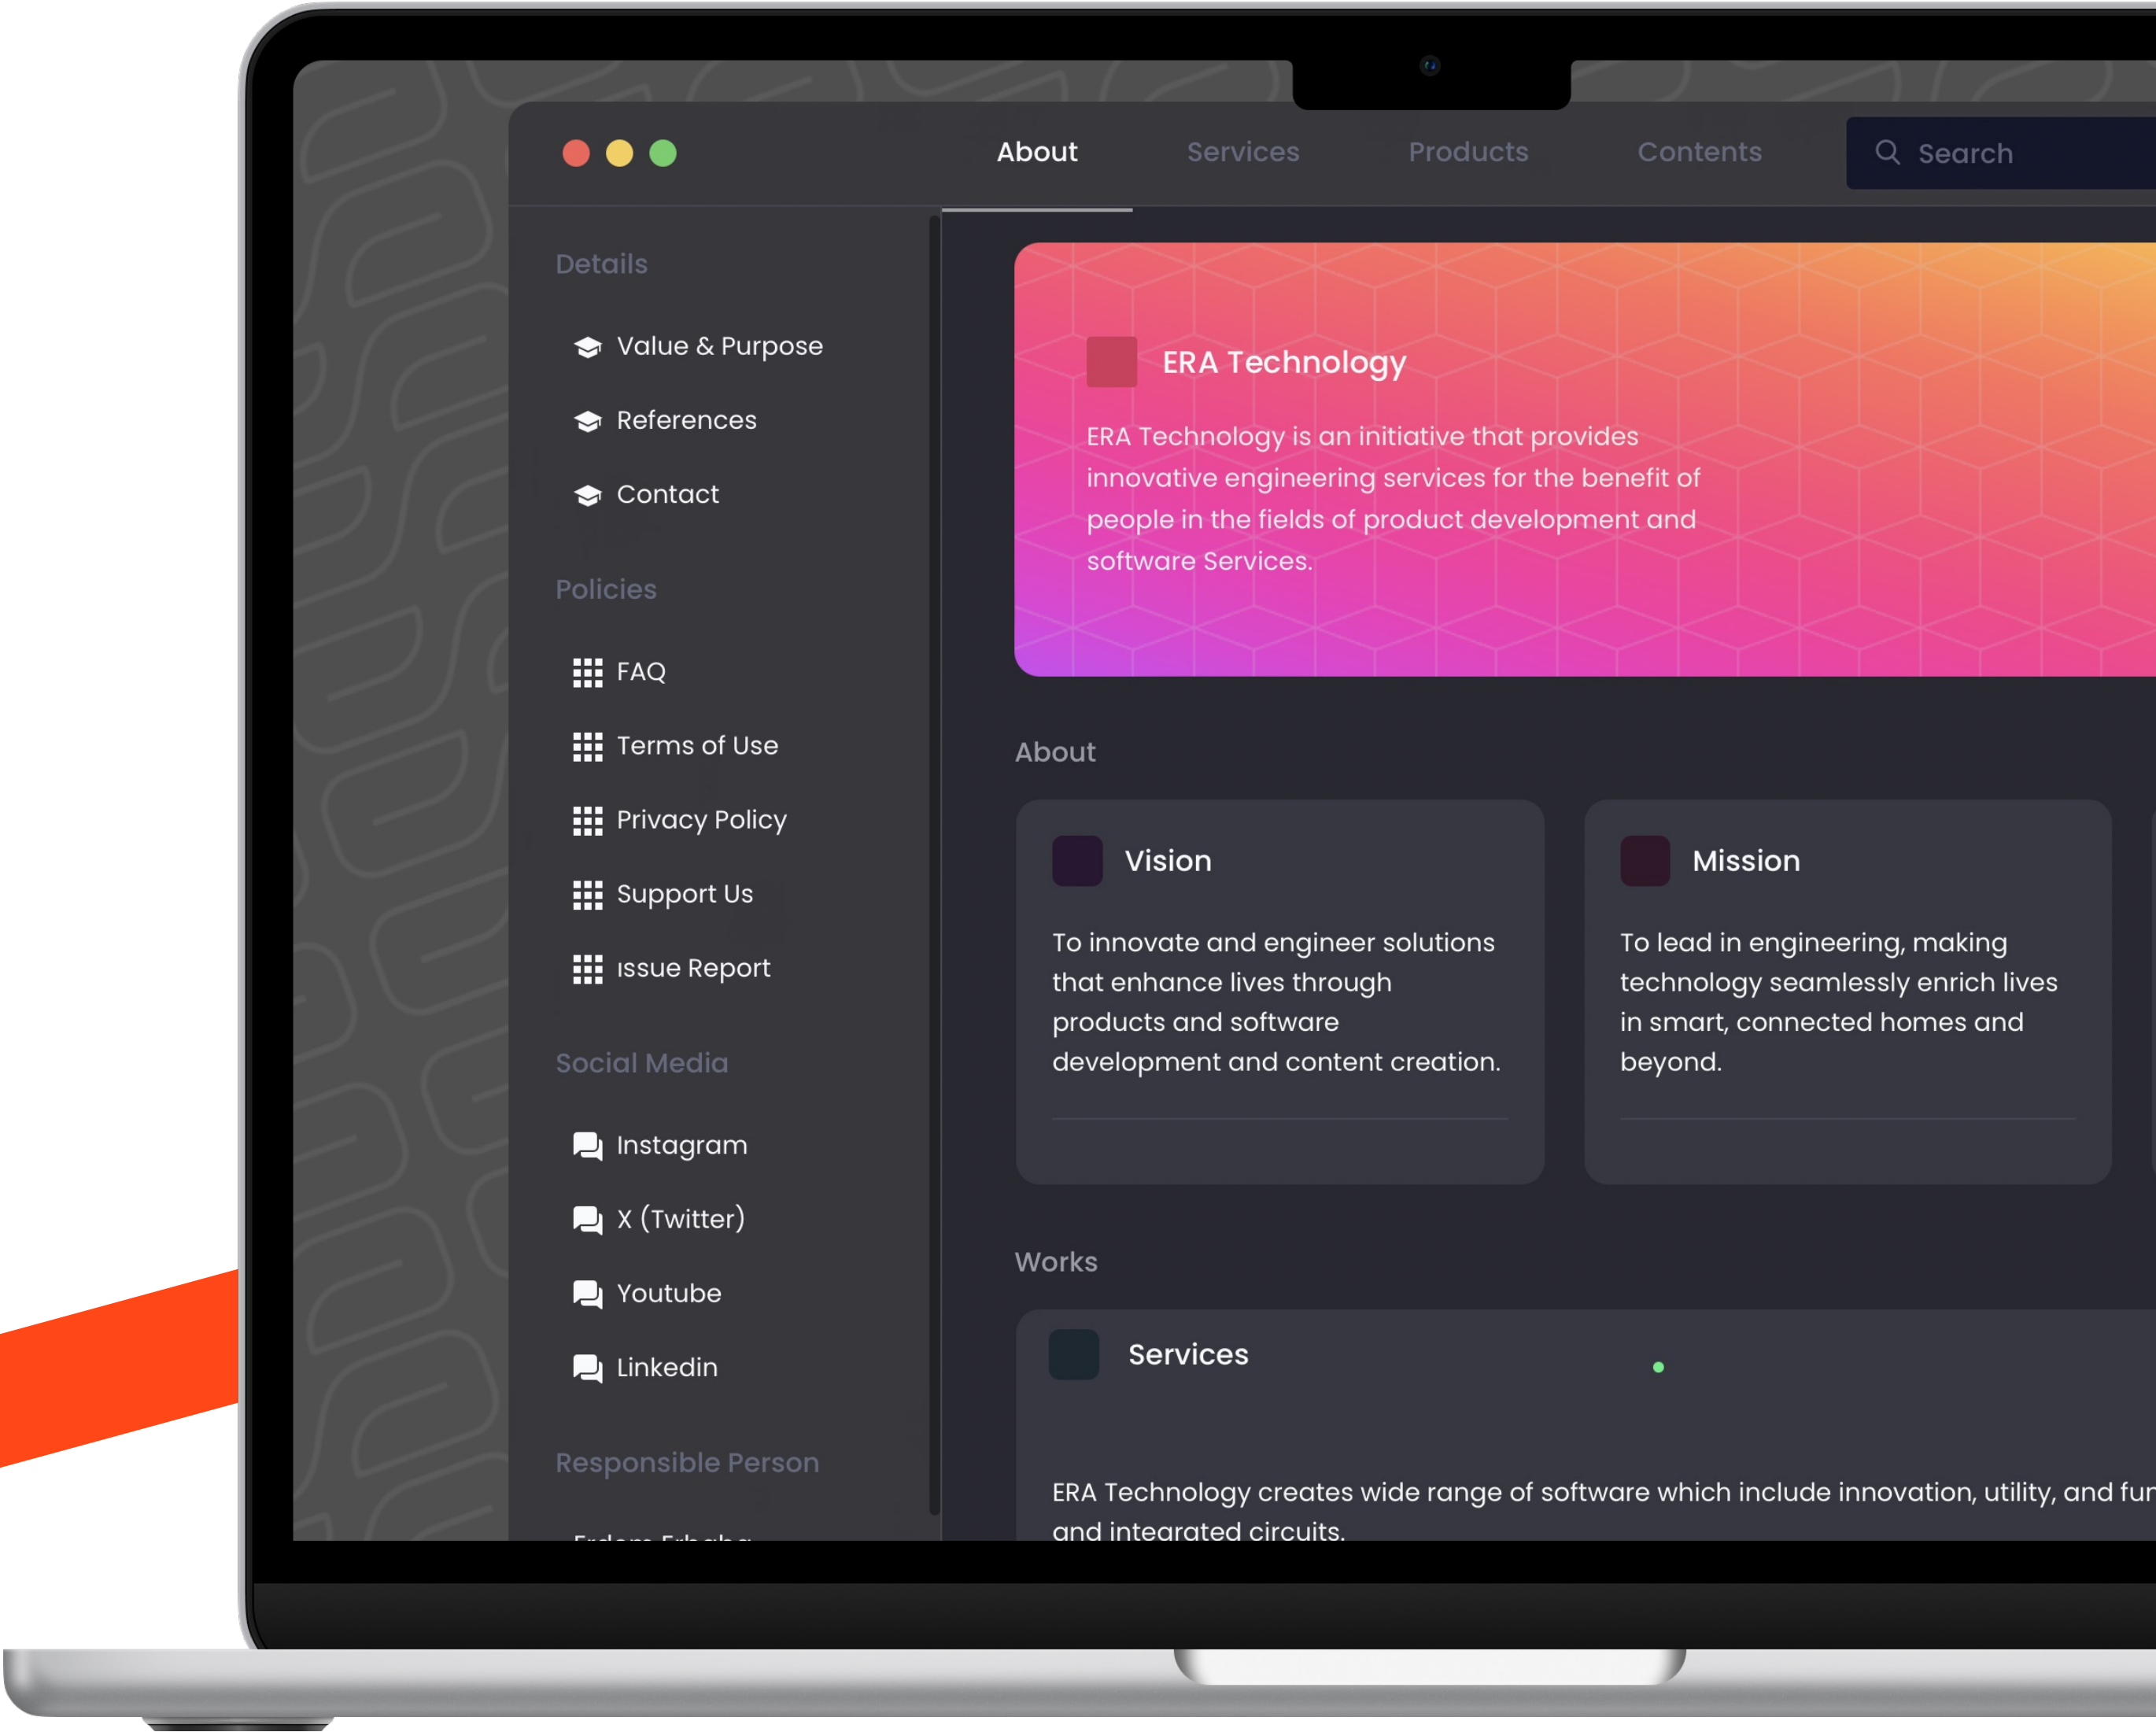

Purpose

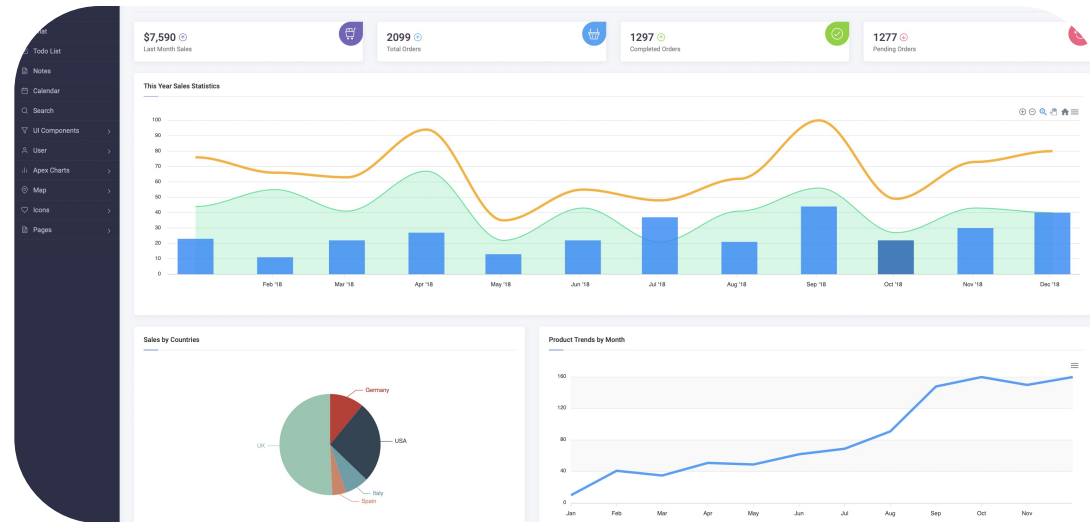

I am an engineer working on development and system design and have the goal of making a beneficial impact in these sectors. I am involved in organizations and initiatives in these areas. I also collaborate with communities to contribute to the people involved.

Services

I do special developments such as stock, product, ERP, MES and more.

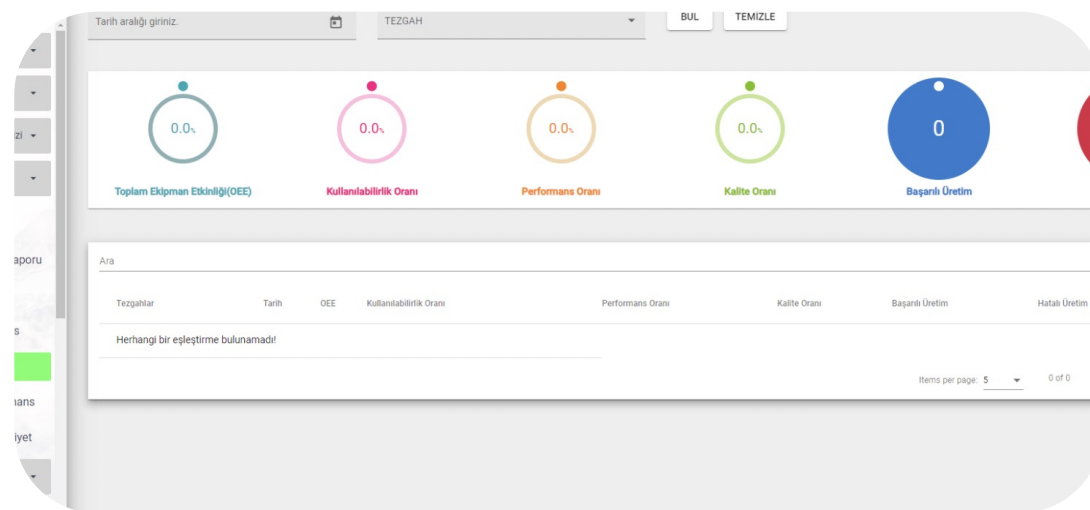

Services

ERP - Enterprise Resource Planning

This software that organizations use to manage business activities such as manage, supply chain etc

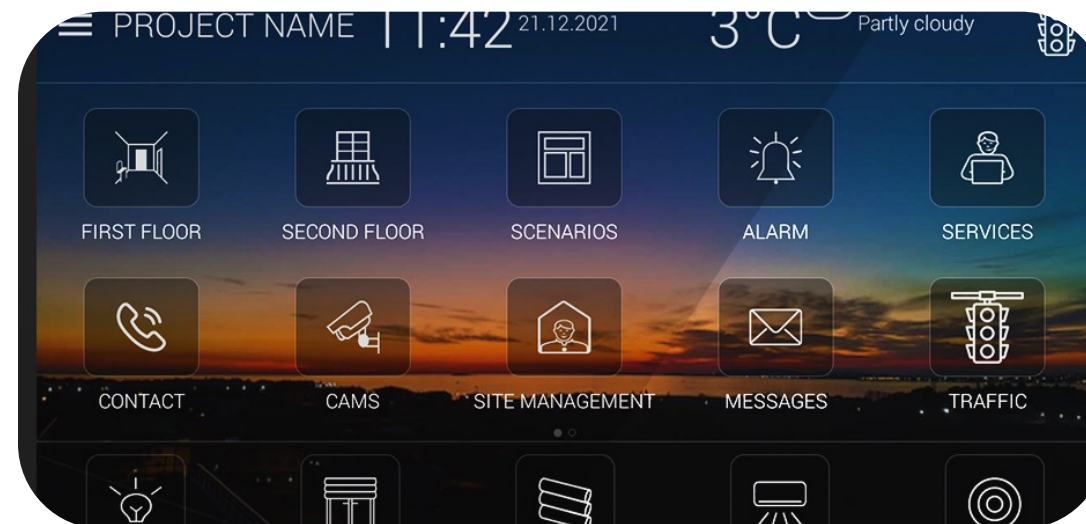

CVT - Computer Vision Technologies

This script allow you to improve company technology and efficiency

Malzeme Adı:	SKF 6206 ZZ	Adet:	10
Özet İstatistikler			
Koşullar	Firma	Birim Fiyat (₺)	Birim Fiyat (₺)
Maksimum Fiyat	ENDEKS	200	7200.00
Minimum Fiyat	MGK	2.79	100.44
Ortalama Fiyat		101.39	3650.22
Satin Alma Geçmişi			
Yeni Satın Alma Ekle			
Satıcı Firma	Fatura Tarihi	Fatura No	Ürün Adedi
			Birim Fiyat (₺)
			Birim Fiyat (₺)
			Toplam Fiyat
			Eylemler

EMS - Employee Manage System

This script allow you to tract employee working time

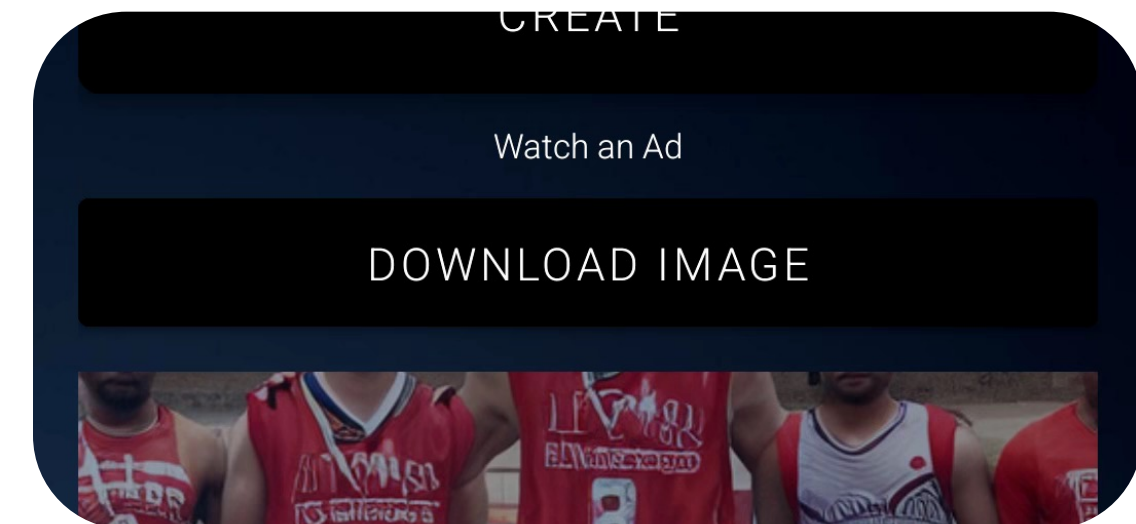

KNX - Smart Home Systems

It offers solutions in the fields of lighting management, curtain control, socket control

MES - Manufacturing Enterprise Solutions

It is an integrated software and sensor system that provides real-time data on factory activities.

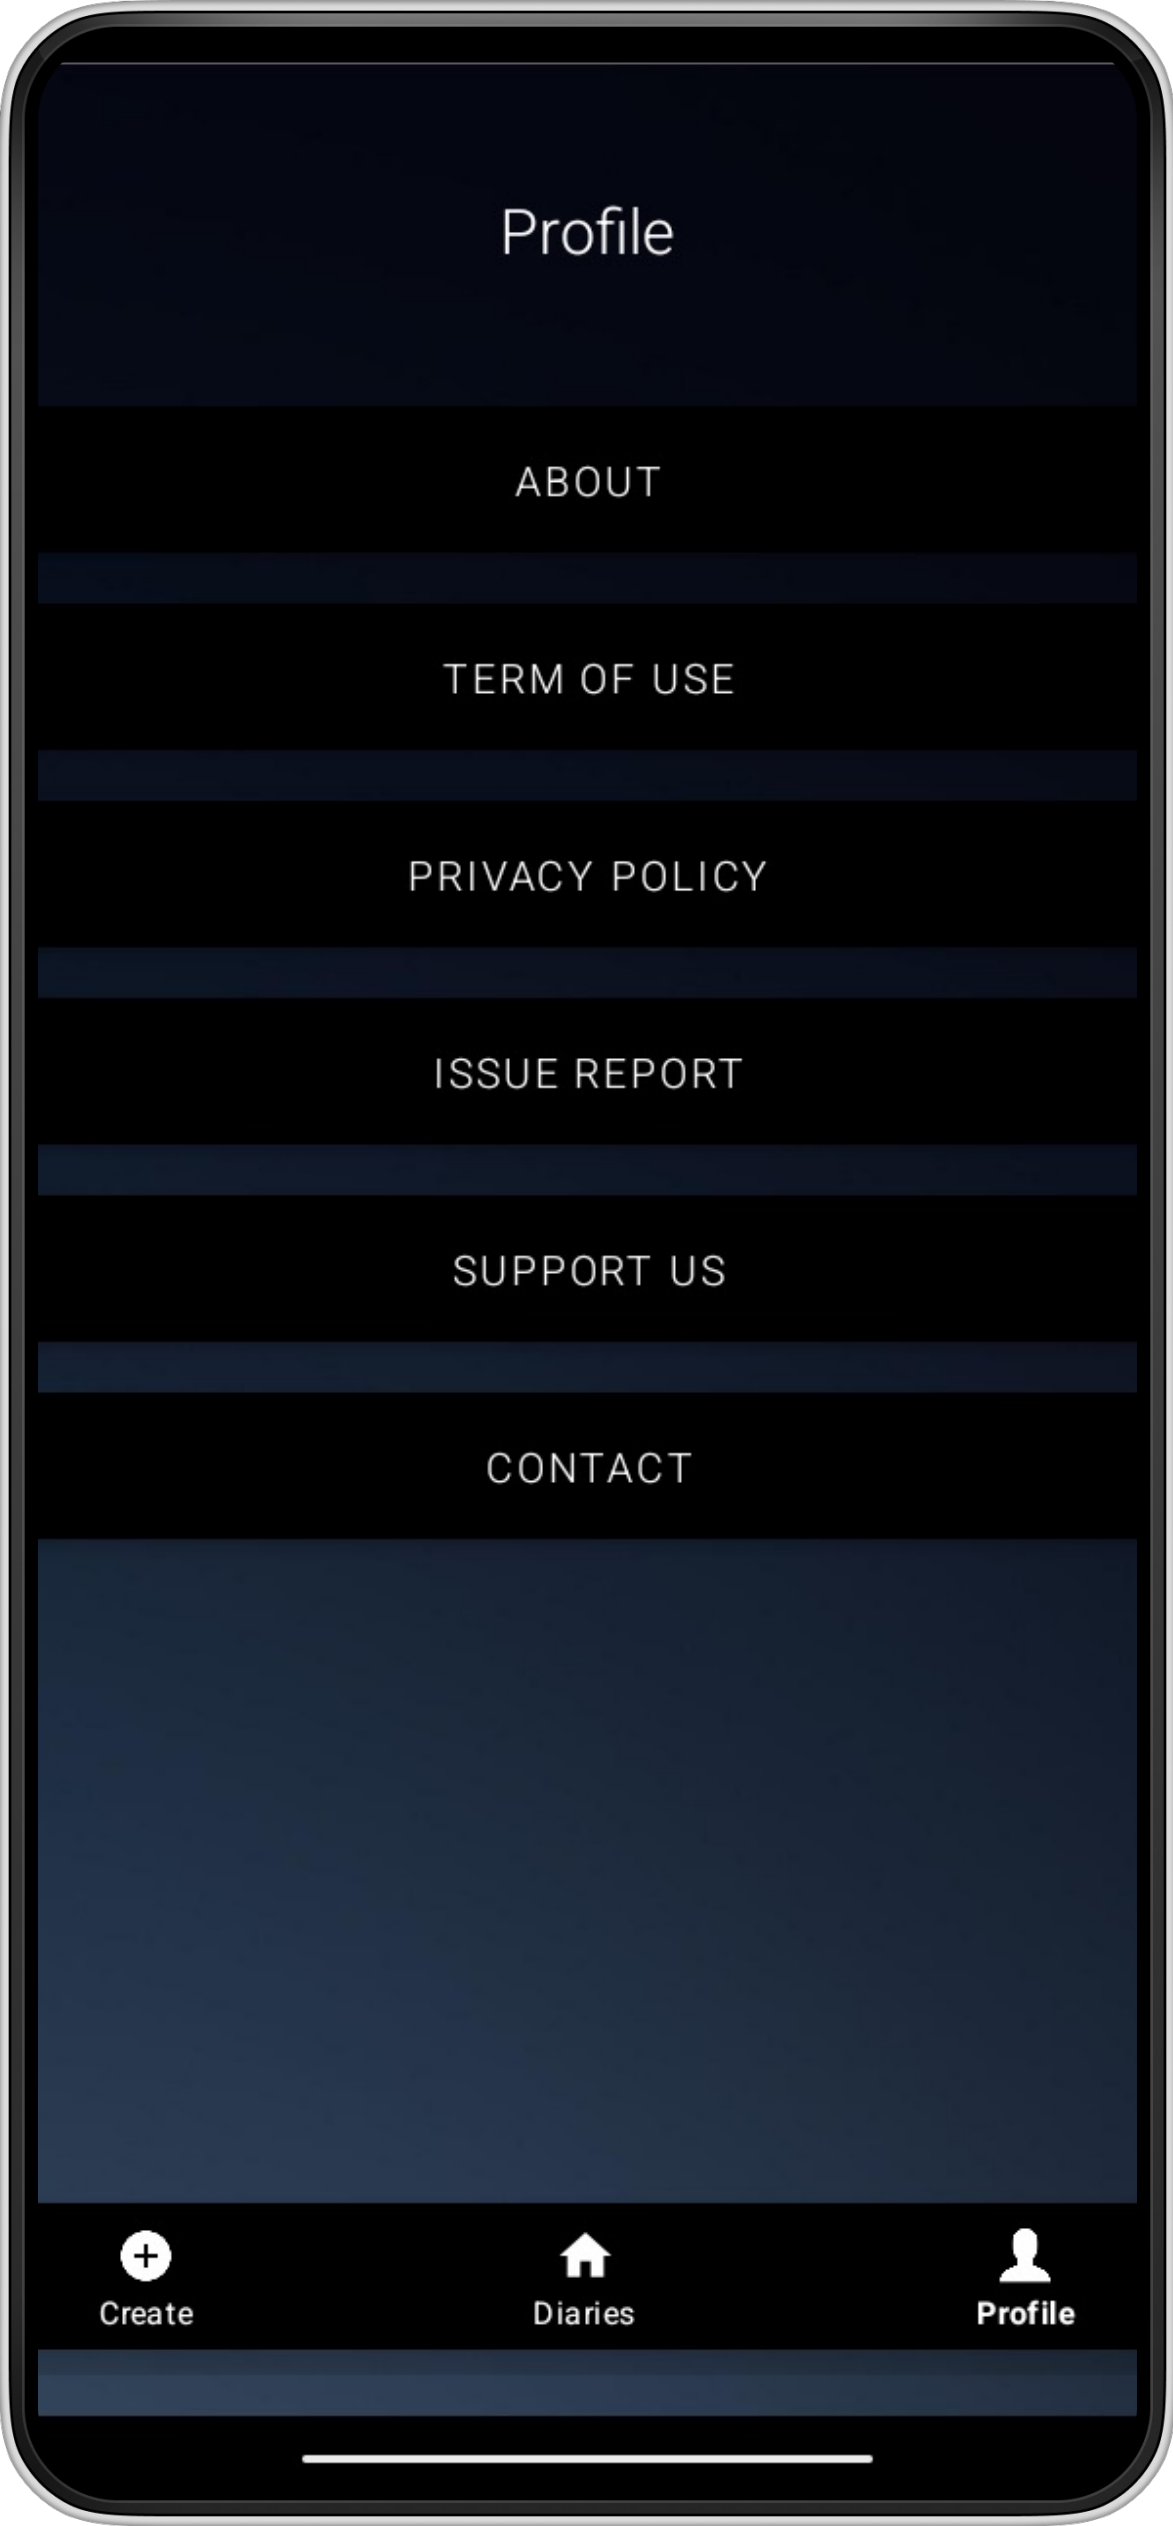

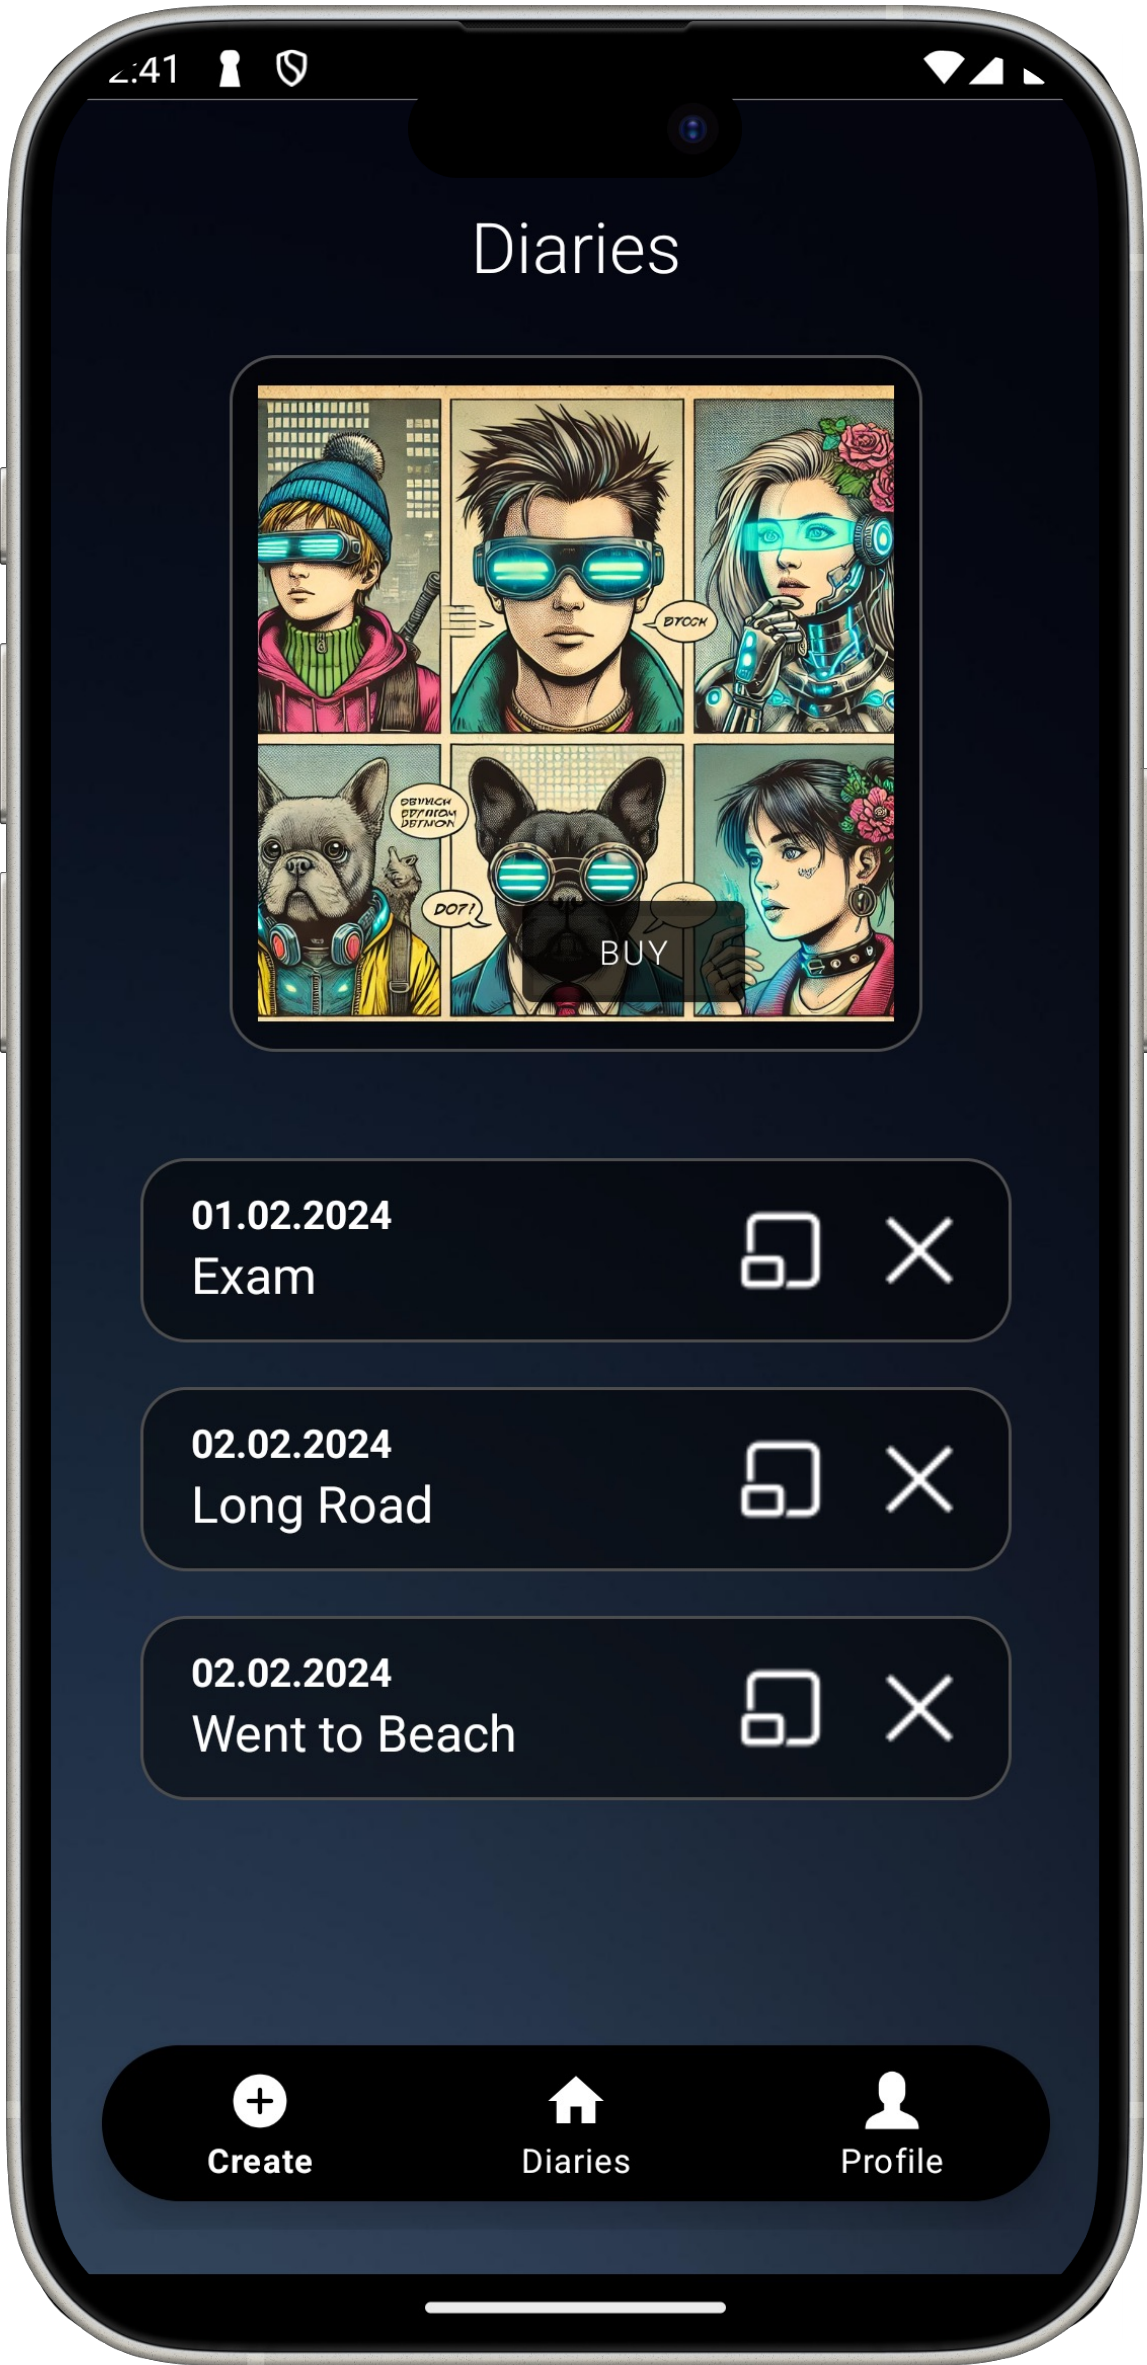

End to End Project

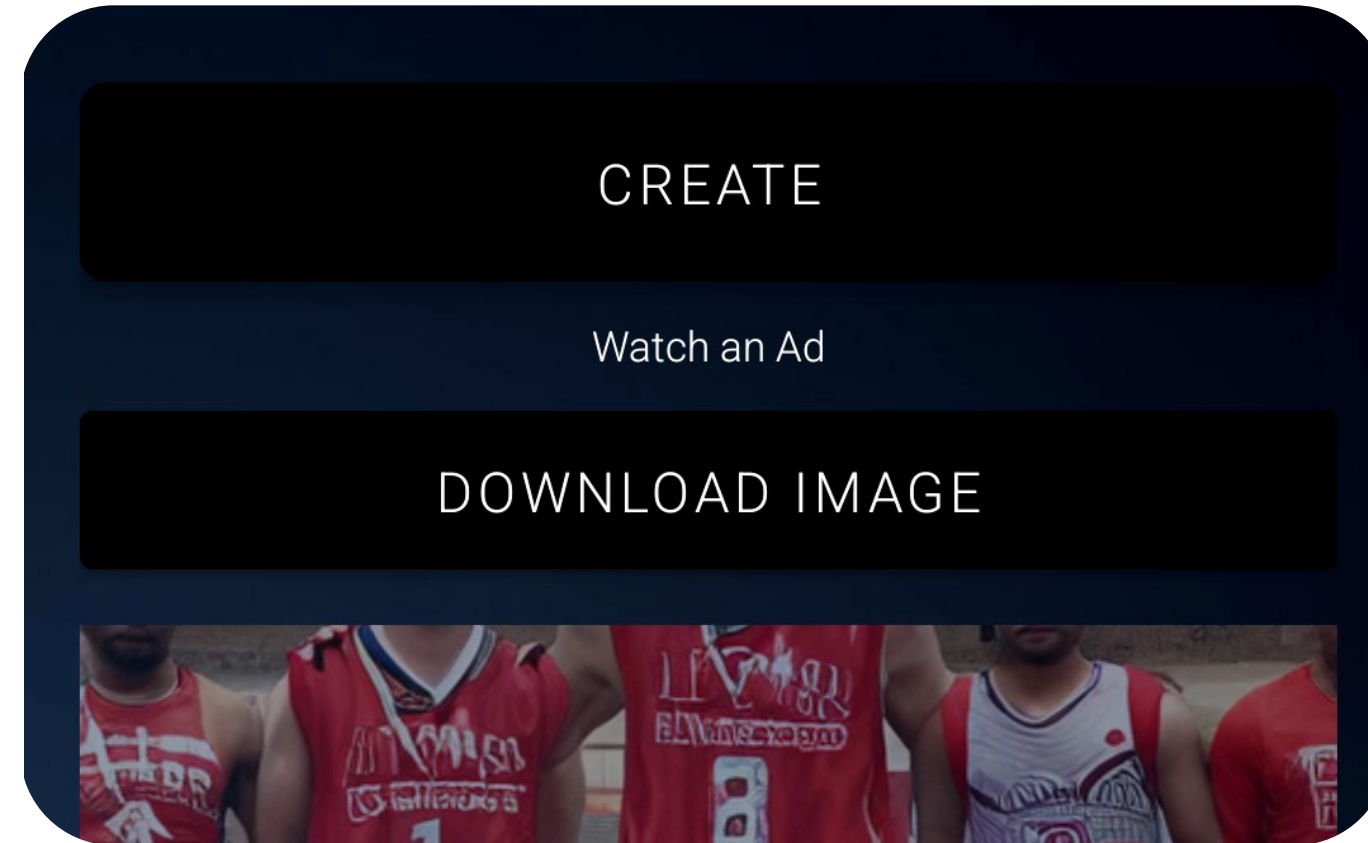

This offer allow you to make a project without any effort

Products

I develop not only services but also various projects with mobile applications, electronic hardware and similar products.

Products

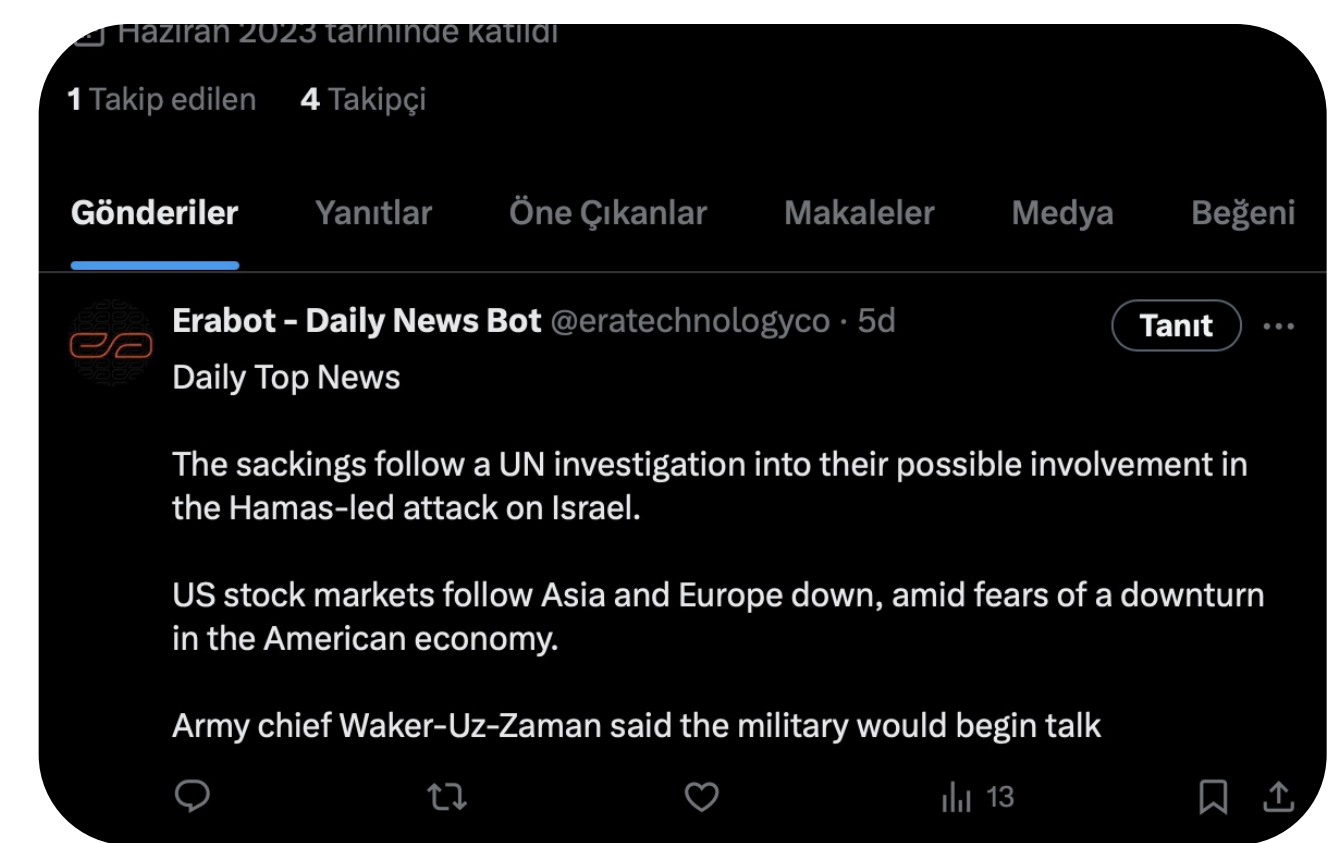

Mobile Apps

A personal journal app designed to capture and reflect on your daily thoughts, experiences, and emotions. Diera provides a serene and private space for you to document your life journey, day by day.

Pocket Computer

Eracom is a compact computer, it has a processor, ram and memory unit. The device can be connected to electronic equipment and can perform calculations in most environments

Content Bot

Eracom is a compact computer, it has a processor, ram and memory unit. The device can be connected to electronic equipment and can perform calculations in most environments
