

Hope From Above Ministries

3 Opportunities to Support

Hope From Above Ministries (HFAM) is a Canadian registered charity operating in Haiti. We operate a mission aviation program out of a small village called Bombardopolis in North West Haiti. Our base is near a rural hospital, from which we regularly transfer patients requiring further medical care at larger, more equipped centres. While we primarily fly medical transportation/evacuation flights, we also move supplies and personnel around the country as we are able. We operate the only Canadian registered aircraft in Haiti, and are also the only fixed-wing aircraft dedicated to medi-vac service in Haiti.

Airplane

Pay off Cessna 207

In 2021 we purchased a Cessna 207 aircraft to better meet the growing demand for aviation services in Haiti. This aircraft seats up to 7 passengers, has plenty of cargo room, is equipped with a stretcher and oxygenator, and performs almost as well as the smaller Cessna 182 both in regards to its operating costs and its ability to get in and out of short airstrips. The cost to purchase, import and equip the 207 for mission service was \$420,000. We launched our Sky is the Limit fundraising campaign in July 2021 to pay off this debt, and now only have \$63,000 remaining until the airplane is paid in full.

Hangar

Complete Construction

Hangar construction is underway at our base in Bombardopolis. Thanks to local labourers, the exterior walls, metal roof, and door are all up, however we require further funding to complete the interior construction and furnish the hangar. Not only will this hangar protect the aircraft from the elements (especially during hurricane season), but the vision is to create pilot and medic quarters on the mezzanine level, so that we can bring in pilots on rotation, and house the Haitian and expat medics and doctors supplied by our partner, HERO (Haitian Emergency Response Operations).

Airstrip

Lengthen Runway

Through a variety of community partnerships (local landowners, government representatives, and nearby NGO's), we were able to establish an airstrip in Bombardopolis in 2020. The runway is currently 2120', however, we would like to extend this by 380', for a total runway length of 2500'. This will allow us to fully utilize the Cessna 207, and provide added safety for takeoff and landing. We are seeking funding for costs associated with lengthening the runway, including heavy equipment operation (operators, fuel, etc.).

In addition to these opportunities, we are also looking for monthly partners to assist with ongoing fuel and maintenance costs.

! All donations will be matched up to **\$120,000** !

Donations can be made by cash, cheque (payable to Hope From Above Ministries), e-transfer (to donate@hfamhaiti.org) or credit card (via our website hfamhaiti.org/donate).
