

Dear Family Members:

At our 1990 family reunion in Monroe, North Carolina, Henry Harris gave to me information he had gathered over the years of our family heritage.

While reading through the charts and correspondence that Henry had gathered over the years, I came to realize the extent of his effort and time it took him to gather the information of our family heritage. His effort has created a solid foundation of our family heritage that we can be proud of and shared for all future generations to come.

My sister Michelle and I, have taken this information and loaded it into a computer and have printed several copies for the 1992 family reunion in Charlotte, North Carolina.

The format of this document will change, however, the information that it contains will be forever maintained. It is by no means complete. There will be many family members at the reunion that are not listed. Michelle and I welcome any new information, corrections or ideas. Please fill out the enclosed form and forward to Michelle Henderson, 1380 Mourning Dove Drive, Conyers, Georgia 30207. Her phone number is (404) 918-8545. All new information that we receive will be included for our 1994 reunion in Baltimore, Maryland.

The most difficult part of any project is getting started. Henry has completed that part for us. For this project to be successful it must not have an ending. It requires the participation of all family members. We look forward to receiving your correspondence.

Sincerely,

Calvin Henderson

The Roots of Our Family Tree

Lest we forget our heritage and the roots from whence we came, study well this history of our ancestry and the circumstances under which our forebearers lived and reproduced their offspring. According to the records available to our historian, Minnie Belle Steele-Woods, it is evident there were those of our "roots" who chose to "pass" and attempt to bury their roots. However, the blood of their forebears will always flow in the veins of their descendants.

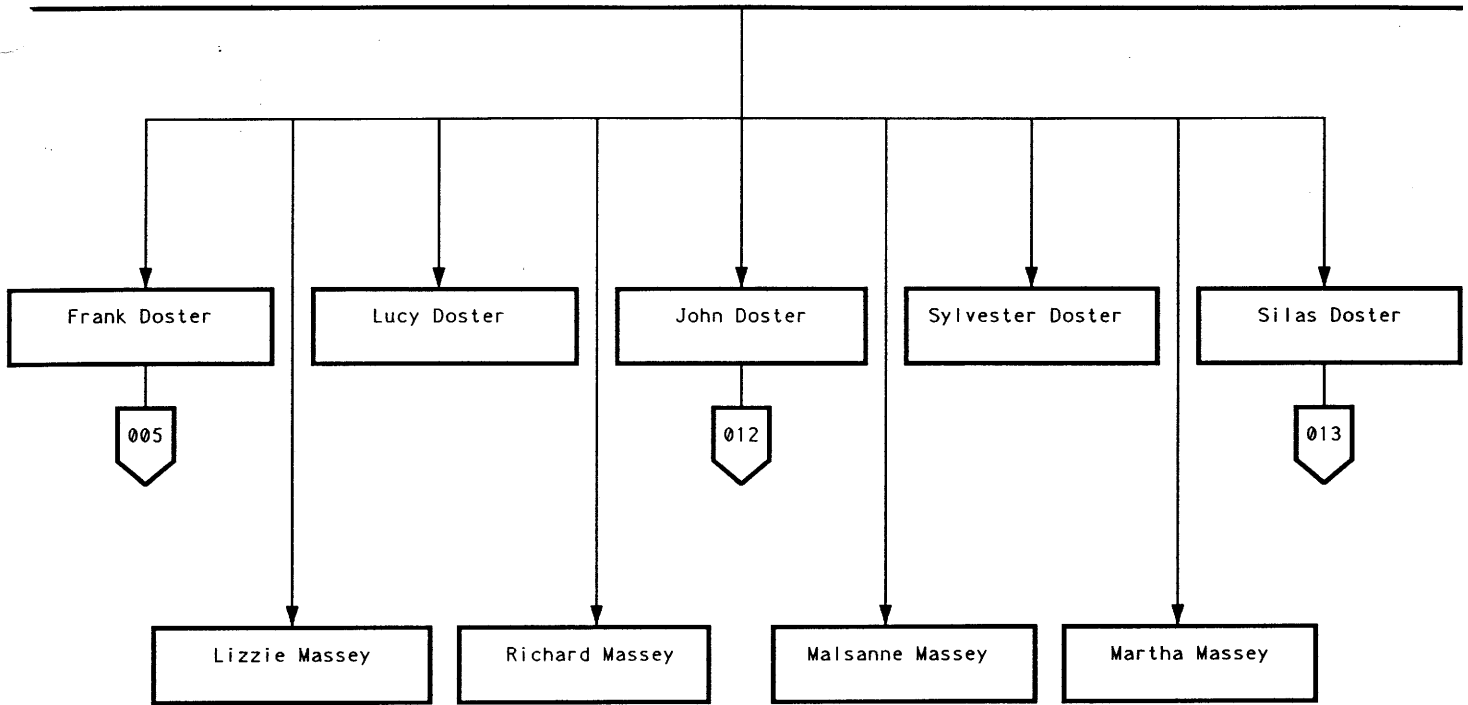

In order not to omit any branch of the family tree at this time, allow the historian to say, there are branches that are not recorded by the grand and great grand children of Susanna Honeycutt. For those who are not familiar with our family tree, and for your children and their children's children and ad infinitum this history was compiled.

Susanna Honeycutt, slave, bore four children sired by Daniel Tomblin, her slave master. There were two girls, Ellen and Mary, and two boys, Daniel and Frank.

The Doster Family Tree

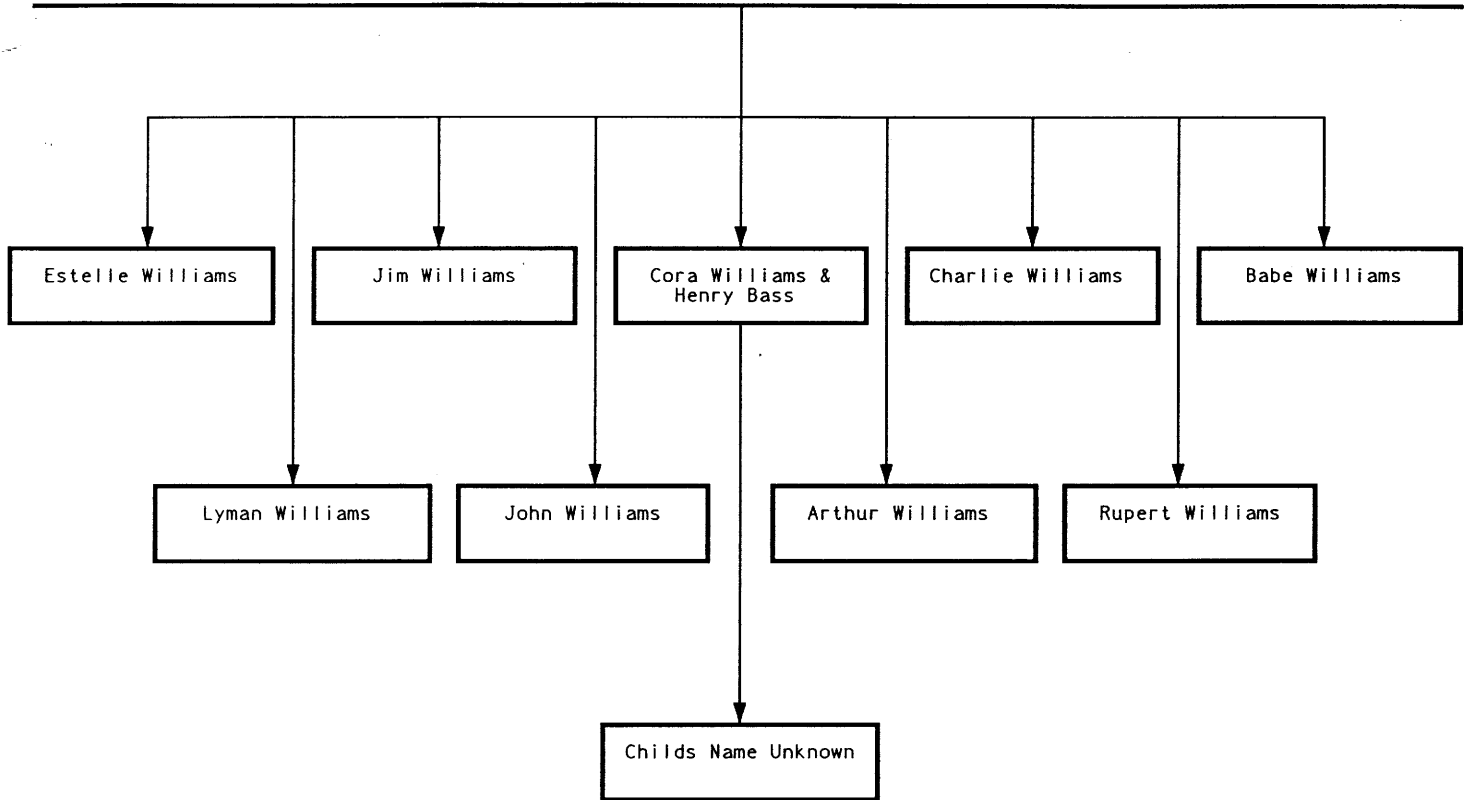

Charlie Frank Doster & Sally McManus-Massey

"Big Charlie" married Sally McManus-Massey who had been previously married and had two children Richard and Malsanne by her former husband. Her union with "Big Charlie" bore five children; Frank, John, Silas, Sylvester and Lucy. There is no record that Richard or Malsanne married and had descendants. Sally McManus-Massey was a Native American (Indian).
