Packaging Clinic & Research Institute

OUR HISTORY

PCRRI, which stands for Packaging Research Institute, was founded in early 2012 by Prof. BK Karna, a prominent figure in the field of packaging with over three decades of experience. It is located in Hyderabad, Andhra Pradesh (now part of Telangana), India. The primary goal of PCRRI is to address the growing demands for packaging research and provide support to various stakeholders including institutes, industries, communities, societies, universities, and government agencies.

OUR VISION

PCRRI is dedicated to driving positive change in the packaging industry, leading the way towards innovative, sustainable, and excellent packaging solutions that contribute to a resilient and thriving global society. Our vision is to inspire and educate packaging professionals, businesses, and consumers alike, instilling a deep understanding of the crucial role packaging plays in shaping a resilient and environmentally conscious future.

OUR MISSION

"The mission of the Packaging Institute is to advance the packaging industry through innovation, education, and collaboration. We are dedicated to promoting sustainable practices, fostering excellence, and serving as a catalyst for positive change in packaging design, manufacturing, and disposal. By providing education, advocating for sustainability, and facilitating industry collaboration,

ABOUT US

PCRRI plays a role in promoting and advancing the Indian packaging industry, likely through research, training, and collaboration efforts. PCRRI appears to be a comprehensive institution dedicated to all aspects of packaging, from research and education to industry support and advocacy for consumer interests.

WHY CHOOSE PCRRI?

Choose the Packaging Institute for a holistic approach to packaging education, innovation, and sustainability, positioning yourself at the forefront of positive change in the industry.

Testing

Package testing is indeed a crucial aspect of quality assurance and improvement in the packaging industry.

Training

PCRRI is imparting proper packaging education for E2 ie. Employment and Entrepreneurship

Consultancy & Audit

Services for Proto-type design & specification and development with cost effectiveness.

"A deep-dive diagnostic of your packaging ecosystem"

- A Packaging Audit is a structured and systematic review of all packaging-related activities in an organization—from material sourcing to final product dispatch.
- It helps identify areas of improvement, cost-saving opportunities, and compliance gaps while promoting safety, sustainability, and efficiency.

Why PCRI for Packaging Audit?

- Backed by decades of packaging expertise.
- Cross-sector knowledge (food, pharma, industrial, FMCG).
- Strong focus on compliance and sustainability.
- Access to a network of testing labs for material validation.
- Customizable approach based on client's
