MUSIC

Al3xAndroVA bridges Classical Piano with Electronic Dance Music, incorporating bioenergy medicine. She writes in 432HZ - a healing frequency resonating in sync with mother Earth that helps individuals to adjust to a healthier, happier state of being. She still does acoustic concerts and recitals, encouraging and empowering the younger generation to play an instrument. She is the founder of Alexandrova School of Music LINK [/AlexandrovaSchoolOfMusic/](https://www.AlexandrovaSchoolOfMusic/) She composes classically based EDM incorporating 432HZ, sometimes performs it live, weaving some classical piano into the mix.

Recent collaborations with Mark Zimmer and Justnice gave a different perspective to Al3xAndroVA, proving that she is an outstanding, humble, efficient, understanding and highly effective collaborator.
