Jergens

KWIK-LOK®

SPECIALTY PINS & FASTENERS

Kwik-Lok® Pins provide quick, easy, positive engagement and high-holding strength for applications requiring frequent, repetitive use. If you need safety, speed and dependability, then you need Jergens Kwik-Lok Pins. Over 6,000 standard items are in stock and a quick turnaround is available on special grip length, handles, materials and ball configurations. Jergens is an ISO 9001:2015 certified government QSL-approved manufacturer. Find the right one for your application!

Visit www.jergensinc.com/pins.aspx to use our Kwik-Lok Pins Online Selector!

TRUE-LOK™

TOGGLE CLAMPS

Jergens toggle clamps are a top quality alternative to more expensive brands. We maintain a large inventory and are happy to help identify the right product for your application!

Spring & Ball Plungers

Our unique Solid Drive™ design allows the entire plunger to move, eliminating the need for set screws that often result in hard-to-remove plunger bodies and lost springs.

Handles, Knob & Hand Wheels

Jergens offers a wide variety of easy-to-use specialty hardware solutions.

Keylocking Inserts

Easy-to-install Jergens Keylocking Inserts do not require special drills, taps or other installation tools, rising them above the competition. Rated among the highest pullout strength, Jergens Keylocking Inserts are available in MS/NAS product options.

PULL DOWEL PINS, LEVELING MOUNTS, ROD ENDS, YOKE ENDS & MISCELLANEOUS FASTENERS

Jergens **BALL LOCK** MOUNTING SYSTEM

Jergens **ZPS** ZERO POINT SYSTEM

Quick-Change Fixturing

Jergens is the world leader in quick-change fixturing systems that help you maximize efficiency and uptime. These productivity-boosting systems include the Ball-Lock® Mounting System and the Zero Point System.

Jergens **FIXTURE PRO** QUICK-CHANGE FIXTURING

Jergens **QUICK-LOC**

Jergens Fixture-Pro® is a unique modular workholding system for maximum flexibility. The line has a variety of subplates, risers, quick change pallets and top tooling to get the spindle and cutting tool close to the workpiece.

Production Vises

Production Vises are ideal for vertical, horizontal, and 5-axis machining. Production Vises are an integral part of Jergens' Quick Change Systems, providing maximum productivity and flexibility. Production vises are available in manual and hydraulic configurations as well as a complete line of jaws and other vise accessories.

Jergens **OK-VISE** WORKHOLDING CLAMPS AND ACCESSORIES

Low-Profile Clamping

OK-Vise® and Micro Clamps bring 3D machining to your work flow. These devices extend cycle time and provide more efficient usage of space compared to traditional vises.

Power Clamping

Durable, reliable clamping solutions from Jergens provide cost-effective performance, with a wide selection of boosters, clamps, cylinders, pumps, swing cylinders, hydraulic controls and more.

Workholding & Locating Components

With one of the largest selections of workholding and locating components available, Jergens has everything you need to design and build fixtures, jigs and other workholding devices.

Center-Pull Style Hoist Rings

Jergens center-pull style hoist rings are available in varying U-bar sizes, all proof tested to 200% of rated load capacity. The NEW Lift-Check™ Hoist Ring assures safety with a patented built-in visual tension indicator in its hex head cap screw to eliminate calibration.

Shackle-Lok Hoist Rings

Shackle-Lok™ combines the strength of a hoist ring with the versatility of a shackle. The below-the-hook lifting device has a unique, three-piece design, ideal for a variety of lift methods with interchangeable shackles.

Forged Center-Pull Hoist Rings

The domestically forged, high strength, alloy steel Forged Center Pull Hoist Ring has a compact construction ideal for OEM and Industrial use.

Side-Pull Style Hoist Rings

The full swivel and pivot action of the Jergens Side Pull Hoist Rings allow you to flip and turn parts without unhooking. Plus, extra-large diameter rings let you use almost any size hook.

Pivoting Lift-Rings

Jergens Pivoting Lift Ring is a low-profile lifting device that pivots 180°. It is one of the most economical lifting devices available and is ideal for non-swivel applications. The easy-to-install, alloy steel lift ring is load rated from 2,000lbs. - 20,000lbs.

Side-Swivel Hoist Rings

Jergens Side-Swivel Lifting Ring is designed specifically for OEM type applications. It replaces potentially dangerous eye bolts on commercial, military, and industrial lifts requiring full swivel and pivoting action.

Eye Bolts & Nuts

Eye nuts and bolts, recommended for vertical lifting are manufactured from C-1030 Forge material. Eye bolts are rated at a 5:1 strength factor and are ASME B 18.15 certified. Eye nuts are ASTM A 105 certified.

Jergens®

WORKHOLDING SOLUTIONS

SUPPORT, LOCATE AND HOLD:

From standard components to vises and quick change fixture systems like Ball Lock®, ZPS, Fixture-Pro® Multi-Axis and Quick-Loc™.

SPECIALTY FASTENERS

FASTEN, STRENGTHEN AND SECURE:

From threaded inserts and toggle clamps to Kwik-Lok® Pins.

LIFTING SOLUTIONS

LIFT, TURN AND TRACK:

From chain sling and eye bolts to hoist rings and our proprietary Lift-Check™ hoist rings.

 WORLD HEADQUARTERS:
