

# Fiber Laser - Plate Cutting

Fall/Winter 2023

## LX3015

DH Series

DHT Series

The **Anvil LX DH Series** plate cutting machine represents state-of-the-art in Fiber Laser cutting technology. With available power from **1Kw to 6Kw** the DH series machines are suitable for small to medium sized manufacturing facilities.

The **Anvil LX DHT Series** combines plate and tube cutting capabilities into one compact machine. Perfect for smaller shops or where space is limited. One cutting head serves both plate and tube cutting operations.

The **DH Series** bed is constructed from welded 6mm material for excellent rigidity and support. The **DH Series** X-axis beam features aviation grade welded, heat treated aluminum for high precision and excellent rigidity.

### Product Standard Features ~ Variants & Optional Configurations

Standard Working Size: 1500x3000mm (60x120 inches)	DHT Model tube working size: 6m x 220mm (20' x 8.8")
Italy Wkte/PEK Linear square rails	Optional: Hiwin Rails, YYC Gear
Inovance/Delta Servo Motors & Driver	Optional: Fuji Servo Motor, Yaskawa/Panasonic Servo Motor
German SDI BORG/J&T Taiwan Gears	
Italy Motovario/Desboer Reducer	
S&A Hanli Water Chiller	
Au3Tech Controller + Au3Tech Laserhead (1.0Kw Standard)	Bochu Controller options available (Standard on some models)
Fiber Laser Source: MAX (made in China)	Raytools, Boci Laserhead options available
Transformer: 20Kva @ 220V/3P - 330V/3P	1.5Kw to 30.0Kw options available
Nest Software & Training included	Warranty: 3 Years
	Model LX4015DH Working Size - 1500x4000mm (60x160 inches)
	Model LX6015DH Working Size - 1500x6000mm (60x240 inches)

**ANVIL LX**  
LASER TECHNOLOGIES

Specifications are accurate at time of publishing. Prices quoted in US dollars and include estimates for shipping and import tariffs FOB in Long Beach, California. Duties, local use/sales taxes (if applicable) and transportation to other destinations in the USA or elsewhere will be quoted upon request. We cannot guarantee tariffs and shipping costs as those are subject to change without notice. ANVIL LX will provide a firm price quote upon contract.

SINCE 2004

© 2023 Anvil LX, Inc. Anvil man™ Anvil LX, Inc.

**All Anvil Lx Fiber Laser Machines** are available with German made Atlanta Gear Rack Systems, Japanese Yasakawa Motors and Hiwin Rails from Taiwan. Positioning accuracy of 0.02mm and cutting acceleration

All **LXShow** Fiber Laser Machines include an Intelligent **Auto Focus Cutting Head**. Software calibration: **10X faster** than manual operation. Cuts **25mm Carbon Steel in <3s @ 3000W** Collimating and focusing mirrors are **water cooled** to prolong service life.

### Safety & Environment

The full Protection Cover is the choice for manufacturers with smaller industrial workspaces. Featuring 220mm Ø extraction ducts and CE approved laser protection glass in the observation window for smoke/dust free work area with less noise

**Monitor Camera** included with enclosed units

### Dual Exchange Tables

Optional automatic exchange table allows rapid transfer (10s-15s) between finished work and raw materials greatly increases efficiency and productivity

### Bochu Control System

Easy to operate with intuitive command structure and GUI - Improves stock layout and material utilization by 20%. Supports all popular graphics files DXF, DWG, PLT, etc. Multiple user language options

### Control Cabinet

Electrical components and laser source are built-in to the Independent Control Cabinet with dust proof and climate control to prolong service life
