## ORGANIC

### FRESH RUM

Hailing from the world's first Organic Sugar Mill, located in Arroyos y Esteros Paraguay, this incredible organic rum is crafted in small batches using time-tested long fermentation techniques and copper pot distillation. It is a single-estate rum drawing its intense and complex flavors from the terroir of the rich Arroyos y Esteros valley and from the slow and purposeful fermentation process. Rich in amazing esters, this rum will excite the taste buds and make any rum cocktail better.

Our robust bittersweet organic sugar cane molasses provides the base for Legado Organic Fresh rum. The spirit is organic certified NOP and EU and is also Fair Trade certified. So, not only can consumers enjoy a world-class rum imbued with tremendous flavor, they can also feel good knowing that this unique rum is produced in a way that respects nature and the people that help us produce it!

Blended to **43% ABV** using water drawn from one of the world's largest and cleanest aquifers

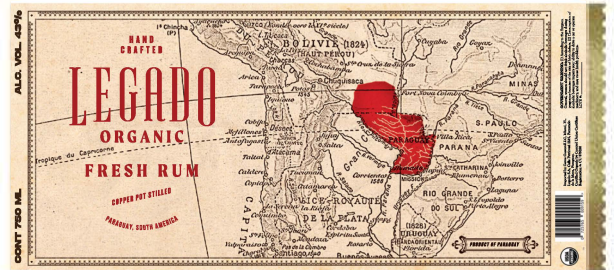

**Legado Organic Fresh Rum**  
(750ML)
