INDEPENDENT DRIVING

MINI STAMP PEDAL EXTENSION

Pedal extensions are an innovative solution for those that have trouble reaching a vehicle's pedals. They are designed to be used for those who are of short-stature, pregnant, over-weight or those with hip or knee limitations. The space between the pedals can be adjusted, as well as the height to ensure you are driving in a safe position.

The **Mini Stamp Pedal** is perfect for those who only require a minor extension of the pedals with a range of up to 9cm in extension. When they are not in use, simply fold them up, out of the way so others can also comfortably drive the vehicle safely.

The **Mini Stamp Pedal** can be installed into both *automatic* and *manual* vehicles.

FEATURES

-  Adjustable distance and height
-  Available for both *automatic* and *manual* vehicles
-  Fold away when not in use

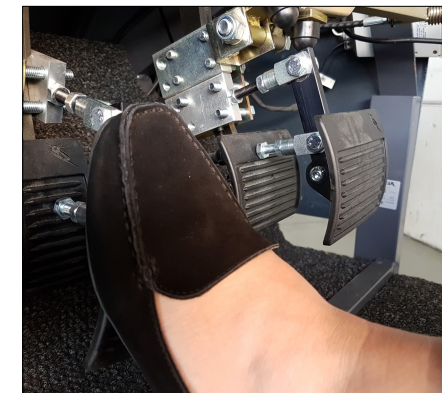

BENEFITS

-  Independence to use your own vehicle
-  Provides a safe driving environment
-  Discreet and simple to use

SPECIFICATIONS

-  Provides 3-9cms of extension to your pedals
