KRISTI
Get back to sleep Spooky what's
you chirping for?

Spooky jumps onto window slab, aggressively scratches window, makes cricket-chirps.

KRISTI (CONT'D)
Spooky what is it?

Kristi glances at the window first then at Spooky.

KRISTI (CONT'D)
You want to go out?

Kristi gets up, enters the kitchen and takes cat food and bowl.

KRISTI (CONT'D)
Here you go eat I want to sleep.

Spooky jumps predatory, playfully, leaping about on the window slab. Constantly makes cricket-chirps aggressively.

Kristi stealthily gets up, scared, flips the curtain open. Peers outside. Kneels by the cat, grabs it. Spooky wriggles, makes cricket-chirps even louder.

Perfect line of army boots comes into view. A dozen soldiers or more on attention, right arms raised, makes the oath of enlistment. Among them PRIVATE BRANDON, 20, high and tight hair style, green hooded close-set eyes, masculine, at the center of the perfect line.

PRIVATE BRANDON
(at attention, raised
hand)
I private Brandon do solemnly
swear...

Aerial view of all soldiers at attention before focusing back on Private Brandon.

PRIVATE BRANDON (CONT'D)
...and that I will obey the orders
of the President of the United
States and the orders of the
officers appointed over me.

An eagle circles above before it disappears.

PRIVATE BRANDON (CONT'D)
...So, help me God.

Kristi opens the door, a fresh breeze hit her face. Walks into the living room. Curtains dances, floating being blown by the wind. Stops stares at the open window. Squints her eyes.

KRISTI
Spooky, where are you?

INT. BEDROOM - DAY

Spooky licks milk in a bowl. There are two bowls. Instantly curtain opens, and a fresh breeze hit Kristi in the face.

KRISTI
Did I leave this window open as
well?

Glances, walks to window flip open curtain, scans outside.

KRISTI (CONT'D)
Spooky did I leave the window
open?

Pulls window handle and closes it but stops and squints her eyes.

KRISTI (CONT'D)
Why two bowls?

Kristi spots milk droplets and trails the drops to the window slab. Cast haunted face before she smiles, grabs the cat goes to living room.

EXT. OUTSIDE - NIGHT

The frog croaks in a distance. It's dark but the torch of a lit fire lights the otherwise dark night. A well camouflaged, slithering body comes into view, it's a soldier, the fire flame reflects in his glittering eyes. Stealthily he pulls his rifle close to his right eye, squints left eye, slowly clips the trigger.

EXT. CITY - NIGHT

A cat dawdles across building and disappears in the dark. JED, ex-soldier, homeless, scruffy sleeps rough.

BEGINNING OF DREAM

EXT. OUTSIDE - DAY

A pair of close set green eyes with extra mascara cast a flirtatious look before the woman plants a passionate kiss. The man plants back a passionate kiss. Jed laughs and looks down on his side. He kneels by the cat and picks it up, with clasped hands, couple strolls away.

END OF DREAM

EXT. OUTSIDE CITY - NIGHT

Jed wakes up and squats pressing his thighs, groans in pain, holds his head, squints his eyes and cast an agonized look. Cries profusely.

In the other dark corner, a cat meows and jumps up scared and frightened. Instantly Jed wears a dreamy face. Press his eyebrows closes his eyes.

JED

Damn it. I know that woman.

Press his thighs against the leg bones before pressing his side temple. Sufferers severe migraine, cries in agony.

ETHAN, 35, high taper fade haircut, average built, radiant face, is with OLIVIA, 26, loose curly side braid, busty chest, talkative.

ETHAN

Been a great night, I enjoyed every bit.

Stares at her, ogles her.

OLIVIA

Let,s spend the night together. I
am all yours.

Stops and hugs her by the waist, kisses, her fervently.

ETHAN

Love to but I can't. Got to go.

Olivia folds her arms and cast a sullen resentful look.

OLIVIA

You just use me and push me away.

Stops takes out a rubber-banded bunch of rolled notes.

ETHAN

You know what? Get a friend and go
shopping tomorrow. Come I will
drop you off.

Put arm round her back and walks to a car. Olivia's face
becomes radiant. A big smile and a thank you kiss the
couple walks to the car off.

EXT. OUTSIDE - NIGHT

A SOLDIER, 24, firmly holds a rifle, holds in his breathe,
aims at a man sitting around a fire. Instantly a
grasshopper jumps colliding with the barrel of his rifle.
Briefly looks at the grasshopper then back at the man who
stares in his direction. The man gets up, rifle in hand and
walks toward the soldier.

The soldier clips the trigger and squints his eye. The man
stops and stare in his direction.

SOLDIER

(whispering) One more
step and you are toast.

EXT. OUTSIDE - NIGHT

A red Ferrari cruises at high speed.

EXT. MOVING VEHICLE - NIGHT

Ethan runs his fingers on Olivia's thigh until he can see
her pink knickers.

OLIVIA
You coming to pick me up tomorrow?

Breathes heavily, quick glance at her and eyes back on the road.

ETHAN
Honestly kind of busy tomorrow
but.

Olivia pulls up her dress, reveals pink knickers, giggles.

OLIVIA
Yes?

Ethan slides hand between her legs. Instantly curses and harsh brakes causing the car to skid. Car jerks up.

ETHAN
Oh my God what was that?

Ethan gets out leaves door open and runs back to look. Olivia looks back, cast a fear-creased face, worried. Ethan jumps back into the car and drives off.

OLIVIA
What was that?

Ethan glances at her and drives silently. Olivia sees blood on Ethan's jeans.

INT. BEDROOM - NIGHT

Kristi's smiles, eyes move slowly beneath closed eyelids, instantly she tears her eyelids open and pulls down her knickers. Slides her hand down before sobbing herself to sleep.

Spooky jumps onto the bed and sleeps next to her. Kristi feels a cool breeze on her face.

KRISTI
Spooky get down! I want to sleep.

She stretches her hand looking for the cat eyes closed. Quickly she opens her eyes. Instantly a cool breeze blew on her.

KRISTI (CONT'D)
Spooky!

She peeps outside the window before the cat meows under the bed. Strange feeling paralyzed her. She closes the window, sleeps.

INT. BEDROOM - NIGHT.

SPECIALIST HINKS, 23, burr cut, sleeps fidgetiness. He is having a nightmare. He turns his head left then right fast. His eyes are moving under closed eyelids. He sweats, cast an agonized tormented face.

SPECIALIST HINKS

No, no no.

Instantly he snaps open his eyelids, presses hard his thigh muscle and screams in agony, he is pressing his side temples as if having a migraine.

He lays on top of the bed and searches the table with a stretched hand. Retrieves his medals puts them on and sleeps.

EXT. OUTSIDE - NIGHT

The soldier aims the rifle lying down on his stomach, his index finger on the trigger. The man instantly stops and removes the rifle from his shoulder before a bullet blast open his left chest blowing him backward. The soldier cocks up the rifle before a loud scream slices the otherwise silent night. The soldier slumps down looking in the sky. Aerial view shows a young boy kneeling by the man and the fire burning beside them.

INT. BATHROOM - NIGHT

Specialist Hinks squints his eyes in front of the bathroom mirror. He doses his face with water.

INT. BEDROOM - NIGHT

Face-up he lays on top of the bed and searches the table with a stretched hand. Retrieves his medal wears it on and sleeps.

EXT. OUTSIDE - DAY

Specialist Hinks is training with CORPORAL AIDEN, 25, burr cut, masculine and deep-set eyes. Corporal lunges, knees Specialist Hinks in the rib cage, kicks him on the shoulder. Staggers backward and ferociously lunges back firing a series of kicks using both legs. Corporal Aiden blocks all before he attacks, throws the front jab, the cross, the hook and the huddle so fast leaving Specialist in agony. Staggers backward and attacks, a series of kicks leaves the corporal nursing his ribs.

SPECIALIST HINKS
Since coming back, I
haven't been myself. I
have horrible
nightmares.

Corporal stops and laughs.

CORPORAL AIDEN
Is that an excuse or it's the end
of the game whilst you are still
winning?

Specialist cast a haunted look. Breathes heavily.

SPECIALIST HINKS
Seriously. I feel like there are
voices in my head. I nearly lost
my leg the other night.

Grabs the specialist's soldier.

CORPORAL AIDEN
Specialist. This job is not for
the weak. Find a way of
controlling these nightmares.

Walking to the benches.

CORPORAL AIDEN (CONT'D)
You must go back out there, with
time all this will go away.

Specialist casts a quizzed face.

SPECIALIST HINKS
You know what? Once I wear the
medal of honor all this stop isn't
that funny?

Corporal takes a towel and dries the sweat off his face.

CORPORAL AIDEN
Not just a medal. It protects me.
It could have been even harder
without it. I never take mine off.

Flips t-shirt to reveal a medal of honor underneath.

CORPORAL AIDEN (CONT'D)
One day you might say differently.

SPECIALIST HINKS
Until next time.

EXT. OUTSIDE DAY

MASON, 37, burr cut, heavily built, stops and scans the area. He pulls the belt. A huge tailless dog follows sniffing everywhere. The huge gates slowly open LAYLA, 28, walks in.

INT. LAB - DAY

A hug dog stands up as the door opens.

LAYLA
Hey boy.

EVAN, 40s, reading glasses, medium built, reads a report.

EVAN
Failure!

LAYLA
Are you sure.

EVAN
What else did you expert. You are trying to play God. Just not good enough.

Looks at Layla unimpressed.

LAYLA
In theory it works.

EVAN
Device destroys otherwise good genes.

LAYLA
This is the future Evan.

Evan cast a disapproving face unlike Layla who cast a radiant face.

EVAN
Even though sperm production is increased the sperm is abnormal, missing or altered genes talking about genetic disorders.

Evan shakes his head and twists his lips.

EVAN (CONT'D)
All babies will be born with defects. Will never work unless you just want to create more jobs.

Walks closer to Evan and leans forward.

LAYLA
Give it a chance the medical
device will work.

EVAN
This is not playing God but being
the ruthless devil himself.

Evan sighs heavily.

LAYLA
If mankind was scared as you
surely, we could not have achieved
all this.

EVAN
You can't tell me that when it
takes days to manufacture sperm
naturally this device will produce
good quality sperms in hours.

LAYLA
Why not?

Evan looks disappointed and upset.

EVAN
Look at the results of the DNA
genetic structure. A lot of
strands are damaged or missing.

LAYLA
It's not that bad. Early stages.

EVAN
Speaking of high disability rates,
suicides and gender related
problems.

Evan squints his eyes twisting his lower lip.

EVAN (CONT'D)
You deliberately trying to cause
all this? Political thing ha?
Increased health budget and more
jobs? How do you sleep at night?

EXT. OUTSIDE - NIGHT

The cries of a young boy slice the night. The soldier
stealthily walks away ducking like early-man. Cricket chirp

and frogs croak before a crackling radio sound from EAGLE, a carpet bomber startles him.

SOLDIER
Receiving loud and clear.

EAGLE
Approaching clear the area. Got to blanket sweep the area.

SOLDIER
Negative! Civilians. I repeat civilians.

EXT. MOVING SUV - DAY

Very sunny but roads jammed with traffic. Specialist Hinks is with Corporal Aiden. Background music Angels on Earth by Carolinadeivid.

BACKGROUND SONG
Will you protect me?
Will you save me?
I should be protecting you from
above. Yet I am an angel on earth.

Corporal taps his fingers on the steering wheel.

CORPORAL AIDEN
How are the nightmares?

SPECIALIST HINKS
Some days it's better but my legs
are giving me pain. Been to the
doc everything is OK.

CORPORAL AIDEN
It's a war Specialist. It's better
than being dead.

SPECIALIST HINKS
It's not the war or the combat. My
problems started when I came back.

Silence slices through only background song.

CORPORAL AIDEN
You must go back in there. When
you have a medal of honor
everything will stop. Life will be
easy.

Specialist Hinks glances outside before a man appears in front of the car nearly hit by the SUV.

SPECIALIST HINKS
Watch it fool.

Specialist Hinks curses at the homeless scruffy man. The Corporal opens the glove compartment, drives, and gives money to the man.

Specialist's lips curled contemptuously.

SPECIALIST HINKS (CONT'D)
Lazy bastard.

Corporal laughs and points in the rear-view mirror. The Specialist removes sun glasses and glances. Instantly the man salutes at attention, cast a serious face.

SPECIALIST HINKS (CONT'D)
Is he one of us?

CORPORAL AIDEN
They told him they were helping him forget, to stop the nightmares.

SPECIALIST HINKS
So?

CORPORAL AIDEN
Mashed up his brain and branded him an Oxygen-thief.

Specialist cast an agonized look.

SPECIALIST HINKS
Lying bastards. I think it's them deliberately causing these nightmares. It only starts after I feel my thighs vibrating followed by a migraine.

Corporal shrugs one hand on steering wheel, raises his eyebrows.

CORPORAL AIDEN
That's what they call therapy?

SPECIALIST HINKS
Therapy my ass? It's them trying to damage my brain. That thing won't stop rotating. They said it was to protect us.

Specialist Hinks curses, glances outside.

SPECIALIST HINKS (CONT'D)
Is this protection? Just imagine I
nearly sacrificed my life only to
be brain damaged by them. Is this
not betrayal?

CORPORAL AIDEN
For him it's too late.
He is just waiting to be
auctioned.

Specialist Hinks cast a forced smile, sniffles.

SPECIALIST HINKS
You make me laugh. Why
joke with something like
this?

Corporal cast a serious haunted look.

SPECIALIST HINKS (CONT'D)
You are joking right?

CORPORAL AIDEN
Only a medal can protect you.

Specialist's facial expressions changed to incredulity.

SPECIALIST HINKS
That's bullshit. The government
must protect these men. We took an
oath to serve this country to die
for this country yet after we
return we have nothing, leaving in
the streets.

CORPORAL AIDEN
He did not get a medal.

SPECIALIST HINKS
Not for everyone.

Corporal looks ahead and drives the car.

CORPORAL AIDEN
Safeguards you. Gives you
protection. Easy access to bank
mortgage, retraining and steady
income.

SPECIALIST HINKS
But they say there is no monetary
value and can't be sold how can
they safeguard you.

CORPORAL AIDEN

You are asking me that? Have your nightmares stopped?

INT. BEDROOM - DAY

Kristi sleeps peacefully on the bed. Suddenly feels a cold breeze and shivers, pulls extra bed linen. She feels the cat jump on the bed. Spooky meows in her face. She opens her eyes.

KRISTI

What is it?

Spooky jumps off and onto the window slab and scratches the window playfully, cricket-chirps. Predatory cat moves as if following a flying butterfly or insect outside. Cat jumps back onto the bed and meows looking at the window.

Bit scared but curious Kristi looks on.

KRISTI (CONT'D)

No. It's freezing. We can't open the window.

The cat jumps back on the window slab. Kristi look on before dosing off. Kristi feels the cat jump on her and climb on her but instantly feels a sudden shivering. She feels the cat on top of her. She opens her eyes and sees the cat on the floor drinking milk.

KRISTI (CONT'D)

(thinking out loud)

Then who is on top of me.

She raises her head; all her hairs rise. Instantly something jumps down and sprints outside through the open window.

Flips curtain, scans outside and closes the window. Realizes she had closed the window before. A scream echoes wakening up all the neighbors.

INT. CONFERENCE ROOM - DAY

CHUNKS, 50, grey hair, slim build, dark circled eyes. Reporters, journalist and photographers fills the room.

CHUNKS

A great stride for mankind. Gone are the days when we are going to leave things to chance.

(MORE)

CHUNKS (CONT'D)
Ladies and gentlemen this small
device (raises a capsule size
instrument) will revolutionize
humanity as we know it.

Stares at the crowd chin raised oozing with confidence.

CHUNKS (CONT'D)
Diseases, aging wrinkles, genetic
disorders you name it are all
going to be the things of the
past.

He pauses and looks at everyone, cast a radiant look, with
much conviction and belief he continues.

CHUNKS (CONT'D)
Having said that this doesn't come
cheap however we have made
arrangements with banks and all
loan providers.

DICK, 34, short curls, long faced, strong jawed, is among
the reporters.

DICK
Mr. Chunks are you trying to play
God or the devil?

CHUNKS
Trying to safeguard our health and
our way of life if that means
playing God so be it.

DICK
What are the side effects? I
understand you are just going
ahead despite the failures
observed in trials.

Chunks steps in front closer to Mr. Dick.

CHUNKS
No system is perfect. We weighed
the benefits over the cost we
believe this will bring tremendous
benefits.

DICK
Do you think man made genetic
disorders are even tolerated no
matter what the benefits are?

CHUNKS
We will do our best.

Mr. Dicks anger is revealed by his voice patterns.

DICK
Best to do what? Replace natural processes with these man-made devices. Do you know that this device is the one causing all these genetic disorders? What are your real intentions?

CHUNKS
What do you mean Mr. Dick?

DICK
(cast an aggressive look)
Is this your idea of creating jobs in your government?

Crowds went crazy, huge buzzes.

CHUNKS
Watch your mouth.

DICK
Ladies and gentlemen, I have just found out that they implanted this device when my baby girl was born and deliberately rotated nonstop this device until the day she died.

CHUNKS
I want to make it clear that Mr. Dick's daughter was born with a genetic disorder we used the device to try and help.

DICK
Ladies and gentlemen, myself and my wife we are the first victims of Mr. Chunks.

The crowd went berserk.

DICK (CONT'D)
Yes, without our consent they raped us in the name of research.
(MORE)

DICK (CONT'D)

They shook us and artificially, electronically stimulated our nerves to increase sperm and egg production using this device. So, I ask you if it is not also reasonable to say that the resultant baby had genetic disorders?

CHUNKS

We are not God? The device was used to try and help.

DICK

If the device can imitate the body's good system and functions like fighting disease what stops the device from imitating the bad conditions or causing the bad conditions?

Crowd went berserk. A huge buzz fills the room.

DICK (CONT'D)

Ladies and gentlemen, Mr. Chunks and his government are not just playing God but the devil himself. Just to increase jobs. So why not cause more diseases, have more people with genetic disorders then provide people with jobs?

Chunks find it hard to breathe.

CHUNKS

Mr. Dick be careful what you say.

DICK

Or what? Kill my daughter for the second time or kill me? Or get me struck by the lightning again.

Dick removes his cap reveals a balding head. Some reporters laugh.

CHUNKS

Mr. Dick, I apologize for your loss but it's absurd suggesting that I am responsible for the lightning that struck you causing you baldness, this is just absurd.

DICK

They fried me just one night only
to wake up like this. Imagine what
they will do? The time you will
believe me it will be too late.

YUNIS, 39, brunette, smooth and straight hair.

YUNIS

Mr. Dick your story is hard to
believe. If Mr. Chunks' doctors
raped, you as you call it why
didn't you go to the police or
report them. Grief for your loss
can make you easily point fingers.

Dick wipes a tear down his cheek.

DICK

Mrs.?

YUNIS

Yunis, Mr. Dick.

DICK

Mrs. Yunis have you been
mouse-trapped-blind before as they
call it?

Yunis did not reply just sits
down.

DICK

They are using this device to
terrorize the people. They are
blinding people, mouse-trapping
them as they call it and
blackmailing us, so we can't
complain. They used that device to
try and make my wife a bitch
making her horny twenty-four-hours
a day to destroy her credibility.

A huge buzz instantly feels the room.

DICK (CONT'D)

They are using this device to
reverse everything.

Dicks glances down and wipes another tear.

DICK (CONT'D)

You all know that you can take out petrol from a car tank by siphoning?

Crowd all agrees.

DICK (CONT'D)

That's how they used the device on my daughter siphoning fluids using air pressure and circulating this until the day she died. Who on earth would do that apart from this evil, Mr. Chunks.

All eyes on Chunks but Chunks remains silent.

DICK (CONT'D)

It does not stop there this device is being used also to wipe out memory. The device vibrates like a cellphone continuously shaking your brain for hours until it's jelly. Can you not say that this is inhumane?

INT. RESTAURANT - DAY

Specialist Hinks is sitting on the table, Corporal Aiden is there with PRIVATE BARNES, 21, burr cut hair, deep set eyes, and PRIVATE FLIPPER, 20, crew cut.

SPECIALIST HINKS

What I don't understand is that why these medals of honor protect us. Do I have to wear this everywhere?

PRIVATE BARNES

I haven't got one, is that why these nightmares won't stop.

Private Barnes cast an inquisitive look.

CORPORAL AIDEN

Once I got my medal everything was back to normal. Life was better for me. I had billionaires offering to buy the medal.

SPECIALIST HINKS

What's the catch? These medals are valueless why would someone pay a lot of money? Something just doesn't seem right.

Specialist Hinks cast a skeptical doubtful look.

PRIVATE FLIPPER

I don't have any nightmares.

CORPORAL AIDEN

Private Flipper what makes you special?

PRIVATE FLIPPER

How am I supposed to know that?

The three men stares at each other.

SPECIALIST HINKS

What do we have in common the three of us?

EXT. OUTSIDE - DAY

A large crowd gathers outside a government building with placards and posters. People are fighting with security service among them LILY, 34, short fluffy hair and bulging hazel eyes.

LILY

The government is causing untold genetic disorders just to create jobs and justify the huge budget this is inhumane and absurd. We want them to be accountable for the suffering of every woman and child.

The crowd applauds hysterically.

CROWD

It's time we hold them to account. They can't do like king Herod, use midwives and illegally implant medical devices and tag innocent young infants then abuse them in later years.

INT. PRESIDENTIAL OFFICE - DAY

MR PRESIDENT, 52, low taper fade, masculine confident look, walks to the window and glances outside. A knock at the door startles him. The VICE PRESIDENT enters, 41, short curly hair, green glittering eyes.

MR PRESIDENT

I don't know how we let it go this far?

VICE PRESIDENT

How were we supposed to know?

MR PRESIDENT

A lot on the table right now. The likelihood of a war, uprising at home and dwindling coffers.

VICE PRESIDENT

We need to clean this mess first.

INT. CONFERENCE - DAY

The place is filled with journalist, reporters. The President is answering questions and addressing the nation. ENOCH 38, taper faded hair, among the reporters.

MR PRESIDENT

We have a moral obligation to go to war and protect the rights of those affected no matter how harsh it may sound. We pledged to defend the powerless and nothing is going to change that.

ENOCH

Mr President what is your real motive? Most people believe you are going to war in order to steal resources.

MR PRESIDENT

If that means providing peace and upholding of human rights so be it.

EXT. OUTSIDE - DAY

Human rights campaigner BRIAN, 34, average built, is addressing the crowd.

BRIAN

It's just coming to light it seems
this medical device has altered
the genetic makeup of mankind.

Glances down then at the crowd.

BRIAN (CONT'D)

So much that now it's rare to find
"pure people" with natural genetic
makeup. The device not only
damaged good genes but caused
mutations of otherwise normal
genes.

Crowd shouting and chanting.

CROWD

We want an end to all this.

BRIAN

It just not stops there. Using
these medical devices, they have
created viruses. Yes, man-made
viruses which they are loading our
women and kids and deciding how
and when they die through this
device.

VOICE OVER BACKGROUND INFORMATION

Since the introduction of these
medical devices normal people have
become rare. The world waged war
after war killing each other.
Diseases had ravaged the people.
It was like back in the old days
with the population riddled with
viruses. The medical devices
started malfunctioning and people
would explode like bombs.
Humankind was headed for
extinction as the device after
implantation becomes part of the
nervous system that can't be
removed.

INT. PRESIDENTIAL OFFICE - DAY

KAYLEE, 31 short hair, close set eyes, enters the
Presidential office. Inside are other people the PROFESSOR,
62, grey hair is there, security officers, the President
and the Vice President.

KAYLEE

Mr President we have reasons to believe that we have found an antidote. This person has shown near to human genetic makeup. Somehow the device is not causing any mutations.

The president sighs.

MR PRESIDENT

Do you know why?

PROFESSOR

Now we have no clue all tests were normal. We don't know if this has to do with the fact that he is a billionaire.

VICE PRESIDENT

A billionaire? So, money can stop these mutations?

She glances at the President with the corner of her eyes

MR PRESIDENT

Have you checked other billionaires?

PROFESSOR

In fact, we checked but no one like him.

MR PRESIDENT

Then find out more about him before jumping into conclusion.

INT. PRESIDENT OFFICE - DAY

The Vice President and the President are talking

VICE PRESIDENT

Mr. President a ray of hope for mankind would you say?

MR PRESIDENT

There have been benefits you know? People live longer just these genetic mutations. If we don't do anything we are going to lose support.

VICE PRESIDENT
Hospitals filled with people with
these genetic disorders.

The Vice President shrugs.

MR PRESIDENT
It was a good idea at first
driving our campaign, providing
jobs and driving the economy.

VICE PRESIDENT
What if that happens to your son
or daughter let them suffer like
that just so that we remain in
power?

EXT. CITY - NIGHT

An SUV, parks outside a flat in the city center BRAYDEN,
41, burr cut, masculine and armed. TYLER 35, crew cut,
average armed, ADRIAN 29, undercut, masculine armed, get
off the SUV.

INT. FLAT - NIGHT

Olivia is with TRISTAN, 26, straight low fade. A knock
startles them. They throw each other a quick glance.

TRISTAN
Are you expecting someone.

Olivia shakes her head. Walks to the door.

BRAYDEN
Mrs Olivia can we talk.

The men flash their badges.

DOMINIC
You can let us in or you can come
with us.

OLIVIA
(hesitant)
It's regarding what?

ADRIAN
Ethan.

Olivia removes the chain lock and slowly opens the door.

TRISTAN
 (looking at Olivia)
 Who? Ethan the Ethan? Are you
 still seeing that cunt?

OLIVIA
 Go I will call you Tristan ok?

DOMINIC
 On second thought I think he
 should stay if he feels this way
 about Ethan.

EXT. CEMETERY - DAY

Kristi is kneeling near a grave. Sunny with a cool breeze.
 A bird chirp and flies and lands at the grave's pillar.
 Kristi removes her sun glasses.

KRISTI
 Darling is that you? I don't know
 what to think. A lot is happening
 at home which I can't explain.

INT. HOUSE - DAY

REX, 32, straight low fade taper, masculine and TITUS, 35,
 burr cut, masculine are seated in the lounge. Kristi enters
 with cold drinks. They talk about Jed her dead fiance.

REX
 So, what are you saying?

Kristi cast a haunted look.

KRISTI
 I think Jed is alive or somehow,
 he is trying to communicate with
 me. Strange things have been
 happening lately.

TITUS
 What strange things?

KRISTI
 I felt someone on the bed the
 other day.

Instantly Spooky meows and jumps on the sofa.

REX
 There is your answer speaking of
 the devil.

Every smiles Kristi hugs and kisses the cat.

KRISTI

I don't think he died like they said. Few days ago, a bird flew and lands on the grave pillar not bothered by my presents at all.

REX

What are you suggesting?

EXT. CEMETERY - NIGHT

Kristi is sitting in the parked SUV. Two men Rex and Titus are digging up the grave. The van's lights are flashing at the two men.

EXT. CEMETERY - A FEW MOMENTS LATER

The two men glances at each other and stops. Kristi gets out. Silence slices through the graveyard.

KRISTI

Open it.

Hesitantly the men open the coffin.

KRISTI (CONT'D)

So?

The two men threw each other a quick glance.

INT. RESEARCH - CENTER

Kaylee is with the Professor, The President and the Vice President.

VICE PRESIDENT

So, what are you saying?

PROFESSOR

Up to now we don't know the main reason, but the interesting thing is that he is possessed.

The President cast a quizzical look.

MR PRESIDENT

Are you telling me that the two most renowned scientists of our time would believe that?

KAYLEE

Only explanation is that somehow, he has other people or something within him that is changing the behavior of the medical device. It is imitating whatever is within him.

Kaylee is not convincing enough crackling voice patterns knows the President is skeptical

VICE PRESIDENT

If that's just imitating, then it could just be a short-term thing.

PROFESSOR

The mutations are clearing. Somehow its reversing the bad genes.

The President walks to the window glances outside.

MR PRESIDENT

All these years we thought we were heading for extinction at last there is something to smile about.

VICE PRESIDENT

Have we tried removing this device?

PROFESSOR

Yes, but with severe results, from the day it's implanted it merges with the nervous system and permanently becomes the person's nervous system.

KAYLEE

We need to act fast as well. Some have started exploding like bombs.

MR PRESIDENT

Exploding?

A knock on the door startles everyone.

MR PRESIDENT (CONT'D)

Yes. What do you have for us?

BRAYDEN

He had a hit and run.

VICE PRESIDENT

How is that related to this?

BRAYDEN
He killed a homeless man.

VICE PRESIDENT
Did you check him Professor?

MR PRESIDENT
What do we know about this
homeless man?

INT. HOUSE - DAY

Rex, Titus and Kristi are in the lounge.

REX
What do you suggest?

TITUS
Where do we start?

REX
I think there is a lot we don't
know. Honestly whoever is behind
this has a plan for us too.

TITUS
Rex is right. I think it will be
safe for you to leave this to us.

Kristi sniffles.

KRISTI
What are you saying? He was my
fiance.

REX
Listen whoever is behind this has
more power it will be safe for you
to pretend everything is okay.
Leave this to me and Titus. OK?

EXT. PARADE CEREMONY OUTSIDE - DAY

A lot of people are seated. The President is in front of a
crowd addressing the crowd.

MR PRESIDENT
Let everyone know that those men
are sacrificing their lives for
the good of mankind. We say thank
you and will never forget them.
(MORE)

MR PRESIDENT (CONT'D)

For those who have managed to come back we say thank you too. To all these brave men as the President I honor them with medals of honor. These medals will remind them of their courage and our gratitude.

Crowds applauds. Soon names of returning soldiers are named one after the other. The soldiers get up and approaches the President who hands the medal of honor.

People applauds hysterically. Corporal Hinks (former Specialist) smiles and looks over his shoulder, Sergeant Aiden (once Corporal) smiles back and applauds.

MR PRESIDENT (CONT'D)

Corporal Hinks, I would like to represent the gratitude of the country and award you this medal honor for acts of courage.

CORPORAL HINKS

Thank you, Mr. President.

Crowd applauds.

INT. HOUSE / LOUNGE - NIGHT

Corporal Hinks and Sergeant Aiden with their wives are in the lounge having dinner.

CORPORAL HINKS

After I got the medal of honor the nightmares somehow stopped. Isn't that strange?

SERGEANT AIDEN

It doesn't matter now Corporal. It's in the past now.

CORPORAL HINKS

There is more to it than meets the eye.

The corporal catches a glimpse of the President as he speaks with the sergeant.

SERGEANT AIDEN

What do you mean?

CORPORAL HINKS

Are you saying that we are now protected just because we have been given medals of honor?

SERGEANT AIDEN

Even though they can't be sold Corporal we have achieved something like a status.

INT. HOUSE - DAY

SPECIALIST KAYDEN, 26, crew cut, watches the game on television. Corporal Hinks enters the lounge with drinks.

CORPORAL HINKS

How has it been?

SPECIALIST KAYDEN

The nightmares. I can't sleep. Deprived of sleep. How did you cope?

CORPORAL HINKS

We all go through that. Mine were worse especially when I am not in combat.

SPECIALIST KAYDEN

So, what happened?

Briefly looks at the games on television.

CORPORAL HINKS

After the medal of honor, they just stopped, or I just got excited and forgot about them. Ever since I have never removed the medal. Always on.

SPECIALIST KAYDEN

What's the catch? Is it like an incentive to keep us fighting in the army? Makes no sense that just because you are awarded the medal of honor then the nightmares stop.

CORPORAL HINKS

No matter how stupid it sounds that's what happened.

The corporal sips his drink.

SPECIALIST KAYDEN

I made an oath to serve this country not to be abused by the system. Sleep deprivation then I can't seem to function after that. A lot of time I am worrying about these nightmares.

CORPORAL HINKS

If you ask me if I would redo this. I would say no.

He sighs.

SPECIALIST KAYDEN

Why is that? You have everything you love, you love the army, didn't you?

CORPORAL HINKS

In my days the army was respected, and soldiers honored. Every time we return home people greeted us like officials or celebrities. Nowadays they are protests and name calling.

INT. HOTEL - DAY

JESSICA, 30, curly hair, brunette watches the news.

ANCHORWOMAN

Just in a homeless man jumped from the bridge to his death. But eye witness suggests that he exploded first then fell. His state suggests the eye witnesses accounts. This is one of several accounts of homeless people committing suicides. Aria reporting for Touchladybirdlucky.

INT. OFFICE - DAY

Jessica is with her friend GABRIELA, 26, striking blonde, hazel eyes.

JESSICA

Seems humanity is headed for extinction. What did we get us into?

GABRIELA
Seems like a good idea.

JESSICA
Why the suicides?

GABRIELA
Tough life I guess.

JESSICA
So, what's with the exploding?

GABRIELA
That I am not sure maybe let's go
and find out.

INT. CITY CORONER'S OFFICE - DAY

Jessica and Gabriela are in the coroner's office. CORONER BANKS, 60, grey hair, sits down.

CORONER BANKS
Assume all were homeless nothing
much we gathered as you all know
they exploded.

EXT. CITY - DAY

Jessica stops and glances at Gabriela.

JESSICA
What if they are not suicides and
were detonated?

GABRIELA
Coroner said it's likely because
the medical device can explode at
impact.

JESSICA
But what if someone deliberately
detonate them like bombs assuming
its possible.

A drone passes on top of them delivering parcels. Gabriela looks at the drone and stops.

GABRIELA
Unless if it can be operated like
a drone. Bearing in mind the
accounts of the eye witnesses that
they exploded first before impact
with the ground.

JESSICA

So, you are saying someone is trying to destroy evidence. BY destroying them? First who would want these men dead and why?

GABRIELA

What do we know about these men?

JESSICA

Could these be related to the genetic mutations?

INT. CITY - DAY

Mr. Chunks sits in his seat comfortably.

CHUNKS

What can I do for you ladies?

JESSICA

The men who are committing suicides were they your men? Did they work for you?

CHUNKS

Let me see. They were all homeless with no IDs and not paying taxes so definitely not my men. What else?

GABRIELA

Who on earth would want these men dead and why?

CHUNKS

You said it yourself that they committed suicides.

JESSICA

We believe they exploded first. Were these your former subjects?

CHUNKS

Speculation.

GABRIELA

Let me guess. They sued you after your experiments went wrong and then you explode them to get rid of the evidence.

CHUNKS

Listen ladies you right now you have our instruments protecting you so how come you are not exploding?

GABRIELA

Exactly these were part of the first-generation experiments when everything was out of control.

CHUNKS

Makes no sense we let them live for these years. If we had done something wrong, we could have killed them a long time ago.

JESSICA

Maybe they are part of the groups that lodges a lawsuit against you so in that case you can't touch them.

CHUNKS

Still just speculation.

GABRIELA

Or the story is true that the device somehow destroys the person's memory. I read a court case that the device was used to shake his thighs and secretly his brain simultaneously. The man would press down his thighs and the sides of his head as well.

JESSICA

I know. The main reasons you did not worry about them was that you knew in the end they will not remember anything.

GABRIELA

Still makes no sense why all now within a short time?

CHUNKS

Ladies we have a contract with the government these deaths have nothing to do with us.

The ladies get up to leave.

JESSICA

One other thing so initially these devices were used for artificial exercising who on earth is that lazy to require your device?

CHUNKS

Can't help.

GABRIELA

They were not disabled. Who were your first clients?

CHUNKS

Classified.

INT. OFFICE - DAY

JESSICA

What percentage of people ends up homeless and why?

GABRIELA

People on drugs. But in fact, people on drugs can't be in the streets.

JESSICA

Initially it seems these people were rich. Chunks and his company are crooks. They must have targeted the rich. Destroyed their memory as well during artificial exercise making them homeless in the end.

GABRIELA

Relatives? They might have told their relatives, so they don't fit the profile. Unless no one else know. Someone has paid for them and asked them to sign a secretive clause?

The two women through each other a quick glance.

JESSICA

Army!

INT. ARMY POST - DAY

Private Kayden is sleeping. He fidgets on the bed. A close-up reveals his eyes moving under the closed eyelids.

He sweats. A huge loud, boom sound shakes the ground and wakes him up. He picks up his helmet and his rifle and runs outside. A huge blast in front of him sees him flying in the air before landing on the ground.

Blood comes out of his nose. He slithers on the ground going to the trenches. Instantly PRIVATE GIDEON, 24, dives next to him.

PRIVATE GIDEON

Are you hurt Private? Seems you are bleeding.

PRIVATE KAYDEN

I think I will be okay I landed on my face.

EXT. OUTSIDE - NIGHT

A cool breeze blows the leaves of the trees and the night creatures sing in the dark forest. Private Gideon is with Private Kayden. They signal each other before stealthily advancing forward. Voices startles them that they lay on their stomachs. Private Kayden signals to Private Gideon who in turn pulls a hand propelled grenade and loads it. He kneels on one knee. The propelled grenade on his shoulder and waits.

Private Kayden signals with his fingers and aims with a rifle. A whistling sound made them duck and a huge boom followed by screams and shouting sees the two retreating fast. They stopped and threw each other a quick glance.

INT. HOUSE - DAY

Kristi picks up the cat and opens the door.

KRISTI

How can I help you?

GABRIELA

We understand you registered a missing person and for reason which we will explain later we find your case odd.

KRISTI

Sounds silly that I look for the person I buried.

The two women look at each other. Kristi cries.

KRISTI (CONT'D)

All this time I thought he was dead.

JESSICA

Is he not?

GABRIELA

Go on?

KRISTI

Weeks ago, I started feeling things and seeing things I could not explain. I woke up one night the window was now open. Something quickly jumped outside as the curtain instantly flips wide open. I thought initially that it was the cat.

JESSICA

Was it not?

KRISTI

Not the cat. The cat was under the bed. Then the other night whatever it was sat on me. I woke up thinking it's the cat. Wasn't. Instantly the curtain flips wide open.

INT. RESEARCH LAB - DAY.

Kaylee glances at the President.

MR PRESIDENT

You said that you have news for us.

PROFESSOR

The medical device is imitating something. At first, we thought the victim the man he ran over but we checked the man's genetic makeup.

VICE PRESIDENT

What do we know about the man killed.

KAYLEE

Decorated war veteran. Awarded a medal of honor but somehow ended up in the streets.

PROFESSOR

We think he was under trauma treatment. He had to have his memory wiped maybe went too far.

MR PRESIDENT

A war hero. So, I awarded him the medal of honor?

PROFESSOR

Someone or some spirits are inside him.

They all stared at the Professor.

KAYLEE

Yes. The medical device is imitating their DNA makeup clearing all the abnormalities and the genetic disorders.

VICE PRESIDENT

What kind of people are in him?

KAYLEE

Women and children.

They all looked shocked.

MR PRESIDENT

Are you saying these souls of women and children were inside the soldier?

PROFESSOR

The billionaire accidentally killed the soldier ending up getting the souls of women and children he killed. The device then imitates their DNA and their genetic makeup clearing all the abnormalities.

VICE PRESIDENT

Mr. President do you know what you are saying?

PROFESSOR

Yes exactly.

MR PRESIDENT

Wait a minute. Did you check the soldier's genetic makeup?

KAYLEE

Yes, but they are not affected still the device malfunctions and still cause mutations.

MR PRESIDENT

Are you saying the soldier does not react to the souls?

KAYLEE

Yes Mr. President. He is just a transporter of souls. He is just a vessel.

MR PRESIDENT

Are these souls of men as well?

PROFESSOR

Genetic make up only women and kids.

MR PRESIDENT

Son of a bitch. I want you to arrest Chunks and close his company.

VICE PRESIDENT

Now I understand he said there was an antidote. This is the language you understand.

MR PRESIDENT

I am the President of the people not a blood murderer. I want him arrested.

PROFESSOR

Now I understand why he kept pushing you to go to war. If he had told you his real motive, you were going to refuse.

MR PRESIDENT

Betraying these men. They put trust in me and I let them down.

VICE PRESIDENT

He tricked you. You didn't know the men will understand.

MR PRESIDENT

Son of a bitch. These men took an oath to defend the constitution.

(MORE)

MR PRESIDENT (CONT'D)
I did not send them to go and
harvest souls of women and
children.

KAYLEE
Harvesting souls to serve
humanity.

VICE PRESIDENT
The deaths of homeless people are
it linked to this.

KAYLEE
Yes, I think they were all former
soldiers.

INT. OFFICE - DAY

Chunks opens his laptop and smiles.

AUTOMATED MESSAGE
\$10 billion successfully received
and transferred to offshore
accounts.

At knock at the door startles him. Instantly the door opens
. The President is with ZAYDEN, 34, crew cut, his
bodyguard.

CHUNKS
Mr. President what brings you
here? Is everything alright?

MR PRESIDENT
Let's just say that I am visiting
an old friend.

Chunks' face changed from sullen to radiant.

CHUNKS
Come on in.

Four President's bodyguards got in as well.

MR PRESIDENT
Sit down you son of bitch. I am
the chief commander of my
soldiers. Do you know what is
trust and loyalty in military
circles? It's a bond so strong
that you will put your life on it.
To make things worse you let me go
to war for wrong reasons.

CHUNKS

Mr President.

MR PRESIDENT

Shut up! I'm talking. Now it makes sense why you told everyone we were going to war to take the oil and resources. Killing women and children that is a crime against humanity.

CHUNKS

No one can prove that. Only you know. I did this deliberately, so you know there is a way for all these disorders.

President punches Chunks heavily that he fell together with his chair.

MR PRESIDENT

Who gave you the right to blow up my men and kill them like that.

CHUNKS

They made an oath to die for you. To serve their country and that is what is happening saving humanity from extinction.

The President grabs and lifts Chunks by his collar and knees him in the groin, punches him in the ribs.

MR PRESIDENT

From day one this was a business scheme to you. So, you can steal \$ billions from billionaires. In the process nearly caused the extinction of humanity.

CHUNKS

I saw an opportunity and took it.

MR PRESIDENT

Why not rob a bank like everyone else? You let me send my men to kill women and children?

CHUNKS

The souls can reverse everything.

MR PRESIDENT

I know you are receiving money for my men after blowing them up. Only you that evil.

CHUNKS

Mr President with all due respect.
I helped you.

A jab and a huddle followed by a knee in the ribs. Pain explodes within his rib cage.

CHUNKS (CONT'D)

You are a warmonger. I did you a favor. I gave you a good reason to go to war.

MR PRESIDENT

Me a warmonger? A cold blooded killer? Do cold-blooded killers kill their own men? I am going to kill you.

CHUNKS

I protect all humanity and the money is my pay, my reward.

The President looks at his bodyguard.

CHUNKS (CONT'D)

No, no, no. Don't kill me the life of the vessels, I am the soldiers are in danger.

The President raised his hand.

Zayden grabs Chunks up and gives him a set of punches and kicks. A fist blows him backward. He staggers backward before a series of right and left kicks sends him tumbling to the ground. Pain explodes inside his rib cage. He touches his rib cage and gets up, wipes blood off his lips.

Zayden drags him up and lifts his head just in time to see a knee in his face. He let out a huge groan of pain. Blood rushes out. He wobbles and falls to the floor.

Zayden attaches a silencer to his gun; the President walks out leaving Chunks hand raised at him. A quick glance with corner of his eyes at the President and a bullet in Chunks head. He soon leaves the office.

EXT. OUTSIDE - DAY

Specialist Kayden holds his thighs and presses them hard against the leg bone. He felt the calves vibrating.

Instantly he touches the side of his head. Dawdles to the window squints, glances outside.

BEGINNING OF FLASHBACK

EXT. OUTSIDE - DAY

Young private Kayden, then, raises his right hand.

PRIVATE KAYDEN

I Private Kayden do solemnly swear
that I will support and defend...

END OF FLASHBACK

EXT. PARKING SPACE - NIGHT

A car parks next to another car. Cigarette smoke comes from the window.

CORPORAL HINKS

The nightmares again.

SPECIALIST KAYDEN

Voices of women and kids. I can
hear them. I thought I am losing
it.

CORPORAL HINKS

We all go through that. A way to
keep us fighting. When you are not
there it's these nightmares.

SPECIALIST KAYDEN

I went shopping a few days ago.
This young baby stares at me. I
felt like something jumped out of
my body, body pressure subsided.

CORPORAL HINKS

Go in.

SPECIALIST KAYDEN

The baby crawls in front of me and
starts touching the air giggling
crawling and running away as
playing with some other invisible
baby. Everyone looked at the baby.

CORPORAL HINKS

What are you saying?

SPECIALIST KAYDEN

A soldier suddenly appeared behind the baby. The boy instantly gets up looking at me and stretched his arm as if motioning, signaling and calling me moving it's fingers, starts crying and comes near my sullen face. I instantly felt this pressure pain. The baby starts crying.

Corporal Hinks nods his head.

SPECIALIST KAYDEN (CONT'D)

Corporal what are we?

CORPORAL HINKS

Soldiers Specialist Kayden.

SPECIALIST KAYDEN

The other day a woman sat next to me. She said oops you got a lot of demons. She pauses then asks if I was a soldier?

CORPORAL HINKS

The war is ending.

SPECIALIST KAYDEN

There is no more war. Everyone has come back home. My questions are what are we?

CORPORAL HINKS

Soldiers the best honorable men out there.

SPECIALIST KAYDEN

Admit it corporal we are bloody transporters of souls. We are bloody women and kids' soul's smugglers.

Instantly the Corporal punched the Specialist very hard.

CORPORAL HINKS

Behave soldier. We are honorable men. We took oath to defend this country. We are man of principle.

Specialist Kayden rubs blood from the split lip.

SPECIALIST KAYDEN

Yes, Sir Corporal but I am afraid
you are in the dark even worse
than me.

CORPORAL HINKS

Behave son. You are just upset you
think I go to war, so I can be a
vessel for souls of women and
kids.

SPECIALIST KAYDEN

No sir. We are men of honor,
loyalty and trust is within our
bones. But the President betrayed
us.

CORPORAL HINKS

Maybe you should see a shrink.

SPECIALIST KAYDEN

You know they double crossed us.
We are just a bunch of soul
hunters, souls' collectors, soul
transporters, you name it.

The Corporal's face changed. Creased with rage, he shook
with anger. Gets out walks in front of the car and grabs
the Specialist out of the car. He knees him in the ribs and
punches him in the face.

CORPORAL HINKS

Maybe take out for you these
demands in your head son.

Specialist Kayden laughs nursing his rib cage and his lips.

SPECIALIST KAYDEN

You know why your nightmare
stopped. Do you?

CORPORAL HINKS

Say it!

SPECIALIST KAYDEN

They groomed you like a chicken
now you are ready to be
harvested. The medal is like a
watermark a seal that no one
takes you until your buyer some
crazy, rich billionaire comes to
buy you.

Corporal lost it and lunges, throws a series of punches and kicks only stops when the Specialist wobbles and falls to the ground. Pain detonates inside his rib cage.

SPECIALIST KAYDEN (CONT'D)

It does not stop there.

Corporal clinches his first.

CORPORAL HINKS

Maybe I kill you myself.

SPECIALIST KAYDEN

For the billionaire buyer to take out his souls you are carrying he must kill you.

The corporal sits down next to the Specialist.

CORPORAL HINKS

I suspected it Specialist. Stupid me taking it on you. I apologize. I am like a sitting duck. Betrayed all these years.

SPECIALIST KAYDEN

They created viruses that flies in the air using the medical devices which were presumed to protect us then searches for billionaires and trillionaires.

CORPORAL HINKS

And then.

SPECIALIST KAYDEN

The virus then links us and synchronize our movements so that in the end we meet somehow. The medal device has a digital electronic number unique to you.

CORPORAL HINKS

Meaning?

SPECIALIST KAYDEN

Whoever buys that medal's certificate knows exactly where you are through satellite positioning.

Corporal looks scared and looks around.

CORPORAL HINKS

So, what's wrong with these
billionaires why they need me? I
mean the souls.

SPECIALIST KAYDEN

It's a big \$trillion-dollar
business. The health bill made it
compulsory for the government to
insist that everyone has this
medical device to protect us.

CORPORAL HINKS

Funny they said it was for
artificial exercise when we are in
combat.

SPECIALIST KAYDEN

They use this to wipe out your
memory too as a nightmare therapy
when they are the ones depriving
you sleep.

CORPORAL HINKS

Is this why decorated soldiers end
up in the streets? What do these
souls do for these billionaires?

SPECIALIST KAYDEN

The device cause mutations
weakening humans. Somehow these
souls reverse the side effects.

CORPORAL HINKS

These bastards destroying mankind.
Those days they used to call us
soul harvesters we thought it's
because they thought we went to
war to steal resources oil and the
like.

SPECIALIST KAYDEN

Yes, oil but oil for these
devices, in the form of women and
kids' souls.

CORPORAL HINKS

I pray that the President is not
involved in this. So if we have
these souls why the genetic
mutations don't change in
soldiers?

SPECIALIST KAYDEN

They created a virus they call a blocker remember all the immunization jabs at the beginning of combat? The device acts like a CD player. It must to be loaded to play music hence the making of viruses.

CORPORAL HINKS

So, some of the soldiers do consume the souls?

SPECIALIST KAYDEN

It's like a yardie smoking his stash his boss won't be pleased with him. They blow them up like bombs.

The two men laughs.

INT. OFFICE - DAY

Jessica and Gabriel are in office.

JESSICA

Speaking of evil people. Just imagine these soldiers were sent to war to kill women and children just to cover for the side effects of these medical devices.

GABRIELA

Chunks company tricked the government so that the government will clean its mess.

JESSICA

They are not side effects. They created viruses and deliberately caused these diseases so that they extort money from billionaires.

GABRIELA

Would that not fall under crimes against humanity?

INT. PRESIDENT - DAY

The corporal knocks briefly the door which was open and enters in. The President is in the bathroom, the door is

open, water runs out of the tape. Corporal looks around before a beep noise startles him.

MESSAGE ON SCREEN

Money just received \$1 billion for medal 2102.

The corporal looks, leans forward, close-up look at the message.

INT. BATHROOM - DAY

MR PRESIDENT

We need to push harder with the medals. I took care of Chunk?

INT. OFFICE - DAY

The President came out rubbing his hands with a hand towel looking down. He glances at the corporal and instantly at the computer screen. He closes the screen.

MR PRESIDENT

Where is the Vice President?

CORPORAL HINKS

That's my medal number \$1 billion for what?

MR PRESIDENT

It's not what it seems son.

Corporal pulls out the gun and points at the President.

CORPORAL HINKS

You lied to us how could you. We are men of honor. You betrayed us. We trusted you but you turned us into murderers, worse women and children killers.

MR PRESIDENT

Think about the oath. The oath to obey the President. Put the gun down son.

CORPORAL HINKS

You just sold me. I saw my medal number.

MR PRESIDENT

It's not what it seems I am on your side son.

Corporal lifts the gun. A bullet sound rockets in the building

INT. PRESIDENT OFFICE - A FEW MOMENTS LATER

Specialist Kayden stands in the room. The corporal is on the floor shot in the stomach.

CORPORAL HINKS
Specialist Kayden what did you do that for?

SPECIALIST KAYDEN
The nightmares. He said they will stop. I took an oath remember?

President smiles and stretches his hand.

MR PRESIDENT
Give me your gun Specialist.

CORPORAL HINKS
Don't give him he has already sold my medal.

Specialist Kayden hands the gun to the President.

MR PRESIDENT
Go on son. Take his gun finish him off.

Specialist Kayden walks and picks up the corporal's gun.

SPECIALIST KAYDEN
I took an oath to protect the President.

Specialist pulls the trigger, then again and again and again. Two bullet sounds rocketed in the sky.

INT. HOUSE - NIGHT

Olivia is watching the television.

ANCHORWOMAN.
Mr. Chunk was shot dead by Corporal Hinks and specialist Kayden who were in turn shot dead by Chunks bodyguards before they were arrested.

(MORE)

ANCHORWOMAN. (CONT'D)

This comes in the wake of Chunks Ltd being sued by people around the world after a series of genetic disorders and mutations. The court cases will financially cripple Chunks Ltd.

EXT. OUTSIDE - DAY (SEVENTEEN YEARS LATER)

After the wars, oil burns in the air after sabotages. This resulted in pollution for a while and this increased the demand and need for sophisticated medical devices. And with these came other unforeseen problems, or let's just say business opportunities for the cold blooded.

NARRATIVE VOICE OVER

After the world human rights wars claimed many lives the seven most developed countries after being defeated and marginalized formed a pact. These seven countries became one and known as the Territory of Riches and Prosperity the rest of the world become known as the Territory of Carolinadeivid even though countries had their own governments. The most profitable five coastal countries were now under the kingdom of Carolinadeivid. This kingdom controlled most of the trade routes and most of the oil producing regions. After the wars oil had become very scarce and expensive outside Carolinadeivid territory. Carolinadeivid territory controlled all the natural resources mainly oil where the Kingdom of Riches and Prosperity controlled software and business.

INT. CITY BUILDING - DAY

KAYLYNN 36, striking blonde, close set deep blue eyes, with pronounced face cheeks and HAYDEN, 40, masculine, taper faded hair, are now the leaders of the territory of Riches and Prosperity even though the other countries had their leaders they were all subordinates to them.

KAYLYNN

I think we should go on with the plan.

HAYDEN

Willing to take that risk?

KAYLYNN

What other option do we have this is the only option.

Hayden stands up and breathes heavily.

KAYLYNN (CONT'D)

Send them.

INT. CAROLINA DEIVID TERRITORY / OFFICE - DAY

CAYDEN, 28, masculine, crew cut, hooded eyes, is with KAYDENCE, 32, brunette, curvy figure.

CAYDEN

(touches forehead as if in pain) What's wrong with the system?

Looks at Kaydence and quickly drags seat close to the screen. Types very fast frequently touching his forehead.

KAYDENCE

Not sure but I am receiving stress signals as well. See if you can pinpoint from where exactly.

CAYDEN

Trace the signal from within our territory I will trace it from outside.

They both touched their foreheads frequently entering information in the computers. A few seconds later they had clasped hands looking at each other. A beep noise instantly comes from the screen.

CAYDEN (CONT'D)

Come on! Show the location.

A circle forms on the screen that spins before two arrows approached together and join, instantly a flag is inserted on the map. The couple threw each other a quick glance.

CAYDEN (CONT'D)

This is the tower we have possible
intrusion or security alert please
send backup at coordinates ...

EXT. OUTSIDE - DAY

medium built and BRYCEN, 29, crew cut, loaded, jumps into
the patrol SUV.

BRYCEN

Go! Go! Go! Go, drive!

The car traveled very fast passing other cars before
stopping miles away. They got off and pointed guns at a
building. Shouting after the other they entered the
building.

INT. BUILDING - DAY

RYKER

Oh my God! What happened here?

DONOVAN

Headquarters we need back up asap.

HEADQUARTERS

your emergency.

DONOVAN

We need back up a lot of
casualties. Send emergence vans.

People lay on the ground. The men run around checking if
some were still alive. Some had already died, and some were
still alive.

INT. TOWER - DAY

Cayden stares at the screen and then at Kaydence.

KAYDENCE

What happened out there? Find out,
will you?

CAYDEN

This is the tower do you copy?

HEADQUARTERS

Loud and clear. A lot of casualties. We sent backup already.

CAYDEN

(stress patterned raised voice)

I want an estimate! Asap!

HEADQUARTERS

CAYDEN

Cayden stands up and paces in the tower.

INT. BUILDING - DAY

A crackling sound on the radio startles everyone.

JASPER

CAYDEN

Quickly count how many people have died and how many are alive and what's their status.

JASPER

More than twenty casualties and some alive upstairs.

Cayden stops and touches his forehead. Then enters the figures.

CAYDEN

Touch one of the deceased on the forehead and send me the details hurry.

Jasper touched the forehead of one victim and touches himself on the forehead.

INT. TOWER - DAY

The computer beeps and Cayden sit down quickly.

CAYDEN

Come on.

An alert beep went off and a flashing radiating circle appears on the screen.

CAYDEN

minutes or perish there.

JASPER
What? We have already called for
backup? Some they are alive.

BRYCEN
What did he say! Tower what's the
status?

Cayden remains silent he stares at Kaydence and points to the screen. Kaydence instantly gets up and removes the head phones. A voice keeps on asking on the radio. That goes for a while before Caydence answered.

CAYDEN
This is the tower. (pauses)

BRYCEN
Yes, go on. We can hear you.

JASPER
Tower are you receiving? We are
waiting for backup. What is the
status?

KAYDENCE
You know the drill. Let's go there
is nothing you can do? Let's
evacuate.

INT. BUILDING - DAY

Brycen and Jasper simultaneously radioed the tower with no reply. Cayden took a deep breath and puts radio closer.

CAYDEN
This is the tower.

BRYCEN
Yes, go ahead!

CAYDEN
I am sorry it's not a 7 its a 10.

BRYCEN
What! You said a 7. Why you called for backup if it was a 10.

CAYDEN
I sincerely apologize. Good luck.

JASPER
Son of a bitch! It's a 10.

All the men stare at each other.

INT. TOWER - DAY

Kaydence leaves the tower when Cayden receives more stress signals.

CAYDEN
Damn it. Kaydence! Come back!

Runs outside shouting.

CAYDEN (CONT'D)
Kaydence! Come back.

KAYDENCE
No, we must evacuate!

CAYDEN
We have more stress signals!

Kaydence stops instantly.

KAYDENCE
What? Are you sure? (pauses) Oh
God we are going to die.

Hesitantly she runs back upstairs.

KAYDENCE (CONT'D)

What is the problem? We can't stay here. We must evacuate.

Cayden quickly enters information in the computer.

CAYDEN

All five coastal areas wiped out.

KAYDENCE

So, there is no point. Let's go then.

CAYDEN

We can only go if it's a 10 otherwise the door out of this building won't open.

KAYDENCE

Oh my God all five? Impossible.

INT. CAROLINADEIVID TERRITORY - DAY

DAKOTA, 44, masculine, short volumized hair overseer of the territory of Carolinadeivid is startled by a siren. He glances at the screen and quickly calls LAYLEEN, 27, ginger hair, slim and tall lady his wife.

DAKOTA

Level 8. Run to the bunker quickly.

Layleen runs out and into the elevators followed by Dakota.

INT. BUNKER - DAY

Several other men are already inside.

DAKOTA

Tower are you receiving? This is the overseer. I repeat tower are you receiving?

INT. TOWER - DAY

Kaydence's face suddenly become sullen. She threw a quick look at Cayden.

KAYDENCE

Don't answer. If you answer we are all dead.

(MORE)

KAYDENCE (CONT'D)
We can't abandon the tower. Let's
go I don't want to die. Come
Cayden.

Cayden stares at her and takes a deep breath.

KAYDENCE (CONT'D)
Activate the bunker let's go.

CAYDEN
I will active the bunker for you
close it from the inside.

Kaydence stops and looks at Cayden.

CAYDEN (CONT'D)
Go ahead! I will be with you.

KAYDENCE
Liar! You know the drill last man
standing the man in the tower.

INT. BUNKER - DAY

Dakota waits and radioed the tower again.

CAYDEN
Yes sir. Doesn't look good. Three
already are level 10 category.

DAKOTA
Is it an attack all five that's
impossible?

CAYDEN
Friendly it seems radiating from
within.

DAKOTA
(looks shocked and
scared) That can't be
right. Check again.

CAYDEN
Affirmative.

DAKOTA
Give me a profile.

Cayden retrieves information from the computer. Breathes
heavily.

CAYDEN
Subjects all under 30.

Dakota cast an agonized look.

Layleen hugs him tightly.

LAYLEEN
What is it darling you look like
you have seen a ghost?

Dakota did not say a thing he stares at Layleen.

CAYDEN
Dakota are you still there! Dakota
are you receiving!

DAKOTA
Loud and clear.

CAYDEN
Sorry to tell you this but Layleen
has the same batch number. Let her
out of the bunker.

Dakota puts the radio down and looks at Layleen.

LAYLEEN
What is it darling? Why you look
at me like that? (Starts sobbing)

INT. TOWER - DAY

Cayden sits at the desk and a tear drops down. Instantly the elevator doors suddenly open. Kaydence runs back into the tower. Cayden shocked and surprised gets up.

CAYDEN
Why you came back? I told you to
lock the bunker from inside. I am
not going with you!

KAYDENCE
Don't shout! I love you. Come with
me. Abandon the tower. Someone
just radioed that they have
started exploding. Come with me.
Come Cayden. I am not living you
here. Save yourself.

A beep sound startles both. Instantly a countdown time begins. Kaydence walks to the flashing screen.

KAYDENCE (CONT'D)

Oh my God! Who on earth would do that? That's so evil.

Cayden looks down and hugs her, he snogs her for a while their foreheads touch.

KAYDENCE (CONT'D)

Layleen! Does the overseer know?

Cayden nods agreeing.

INT. BUILDING - DAY

Brycen, Jasper, Donovan and Ryker are in the building with the dead and the other people still alive.

BRYCEN

Damn it. It's all our generation.

JASPER

What are you saying?

BRYCEN

What do you think? They sent us to die here.

DONOVAN

You saying the Headquarters sent us here to die? Do they know?

RYKER

Don't play games.

BRYCEN

I checked everyone here they are all under thirty years.

RYKER

Meaning?

BRYCEN

I checked those who died all of them are under thirties and below 27 years old. All those still alive like us are above 27 years but below 30.

RYKER

So?

BRYCEN

All the dead have the same immunization batch number.

DONOVAN

So, are you saying this is an inside job? Who is doing this?

BRYCEN

The previous government before the war they immunized everyone. They made it compulsory.

DONOVAN

The tower said that there was an attack?

BRYCEN

Attack just to kill only people of the same age? I don't think so.

RYKER

What are we waiting here for? Let's go if it's an inside job then let's fight this.

BRYCEN

You don't get it you go out there you will explode. The area is marked already.

DONOVAN

So, you are saying that the previous government laced their own people with what? Who would do that?

BRYCEN

These five coastal areas were the most profitable. This was first implemented as a population control, but no one knew that they would end up lacing everyone with viruses and blow them up.

RYKER

So, we are going to die here?

BRYCEN

He said we wait for backup we radioed for.

JASPER

What exactly did he say?

BRYCEN

He said wait for the backup and good luck.

Ryker looks astonished and very scared.

RYKER

Code name for death! I am going I
am not waiting to be blown up
here?

Ryker picks up his gun and sprints outside. Brycen sprints after him and jumps and grabs him the two men tumbles on the floor.

BRYCEN

Don't go they will blow you up.

RYKER

Let me go. Either way we are going
to die.

BRYCEN

Do you here any sirens? So, there
is a chance stay put.

Ryker lunges at Brycen and punches him in the face, kicks him in the ribs. He sprints away. Brycen gets up and chases tripping him to the ground. The men exchanged punches.

BRYCEN (CONT'D)

I am your leader. Wait inside or
you will activate the sirens and
gets everyone blown up. Sensors at
the door see?

RYKER

I want to go. The corpse will
explode first. Either way we are
toast. I bet I take my chance. So,
let me go.

Brycen kicks him to the ground and sits on him pinning him to the ground. Somehow, he hooks Brycen's neck with his legs and slams him to the ground. Ryker gets up and points the gun at him. The other men tried to stop him, but he points the gun at them.

RYKER (CONT'D)

Don't even think about it? (points
the gun)

EXT. OUTSIDE - DAY

Ryker steps outside and jumps into the car. He quickly changes gears and drives away from the building screeching the car's tires. A huge fire ball engulfs the building as an explosion shatters the cars windows. He looks in the

rear-view mirror and cursed. Instantly a beep went off and he looks at his watch.

RYKER

Oh no!

The car explodes. The ground shook.

INT. BUILDING - DAY

Kaylynn and Hayden just finished having sex and lay on the bed.

KAYLYNN

We can take back what is ours. We can be rich again.

HAYDEN

I got the feeling Dakota somehow will survive this.

Kaylynn gets and sits down frowning.

KAYLYNN

How can he survive this? Layleen remember? Did you do like I said?

HAYDEN

I don't know just gut feeling. How many times has he escaped?

KAYLYNN

By tomorrow all that will be ours. I told you I will never beg for oil. Tomorrow everything will be okay.

HAYDEN

Wait a minute are you telling me that you are detonating everyone, every batch.

KAYLYNN

Those who are left will all run away. Leave some under 27 intact these will rot there and drive everyone away. The rest booms!

HAYDEN

I never understand you. We have everything we need here you didn't have to do that.

KAYLYNN

You forgot already just seventeen years ago they nearly killed us all. We had to run from the coastal areas. By tomorrow we get back our coasts and all the oil will be ours gain.

INT. TOWER - DAY

Cayden gets and walks to the window tears down his cheeks. The explosion startles him as the tower shook. He looks outside. It was like the end of the world. Buildings on smoke everywhere. He cries and looks at his watch. He pulls a gun and touches his head with it. A beep sound came from the tower computer. He runs to check.

MESSAGE ON SCREEN

It's Dakota how many minutes do we have?

CAYDEN

Dakota it's the tower are you receiving.

There was silence for a while.

DAKOTA

Receiving loud and clear. How much time we have. Are you sure it's this batch?

CAYDEN

Layleen. OK wait a minute.

Cayden enters some information in the computer.

CAYDEN (CONT'D)

Quickly give me Layleen's date of birth. I repeat quickly give me Layleen's date of birth we don't have time.

DAKOTA

It's too late we left the bunker the two of us.

CAYDEN

You can't do that? Save yourself first. You are the overseer of the people. If you die we will all perish.

DAKOTA

If I die. I will save all of you
because there won't be any war
after that.

Silence breaks out.

CAYDEN

Somehow, they activated all the
batches except yours.

DAKOTA

Why? Let me see. What are you
suggesting?

CAYDEN

I was thinking of isolating
Layleen's number that she won't
explode after she dies. That way
you will survive but you must be
in the bunker yourself. Go back in
the bunker.

DAKOTA

Clever manipulating Bitch!

CAYDEN

Excuse me! What?

DAKOTA

I get it. Kaylynn is using Layleen
as a bomb she is not trying to
spare my life. I think she figured
out that I would never leave her.

CAYDEN

OK quickly give Layleen date of
birth. I will try and isolate
this. The system is open some have
exploded already.

Cayden frantically entered functions after functions. He
sweats, very fast types frequently checking the time.
Cayden said something to Dakota.

DAKOTA

What? No, I can't do it.

CAYDEN

Listen to me that's your only
chance now. No time to go to the
banker. Quickly you know the
drill.

INT. BUILDING - DAY

Dakota stares at Layleen. She looked back at him like she had seen a ghost. Dakota kisses her and asked her to close her eyes. She slumps to the ground.

A huge explosion is heard on the radio.

CAYDEN

Dakota are you receiving? Dakota
are you still there?

INT. BUNKER - DAY

Kaydence is in the bunker underneath the tower when a huge explosion shook the roof of the bunker. She slumps down and weeps like a baby.

INT. BUILDING - DAY

Hayden and Kaylynn are talking together. Kaylynn gets up and walks to the big screen.

KAYLYNN

Get the antidote darling tomorrow
we will send our men first to
secure the five coastal areas.
First, we secure our coastal
borders. The money we have
collected will be like protection
money. We establish a new
territory, and everyone shall pay
protection money to us.

INT. BUNKER - DAY

KEYON, 33, masculine, handsome with dimples on the chin and cheeks looks at his watch. He looks around. Normally the overseer would be addressing the people, but Dakota was nowhere to be seen.

KEYON

If I don't get back in ten minutes
lock the bunker from inside okay?

Keyon gets into the elevators and is taken up.

INT. BUILDING - DAY

Layleen and Dakota lay down on the floor. Layleen is bleeding heavily. Keyon kneels and checks her pulse after

stopping the blood. Lifts her up into the elevator. Dakota is injured as well as window fragments had caused an injury. Keyon takes the couple downstairs into the bunker.

INT. BUNKER - DAY

Keyon and the others are nursing Dakota and Layleen's wounds. Layleen has stopped bleeding. Dakota wakes up and nurses his wife. He smiles but she had lost a lot of blood.

KEYON

How are you? She will be okay, but she lost a lot of blood.

DAKOTA

She has been through a lot maybe good idea to let her sleep for a while.

KEYON

Just in time. I understand the system is open now.

DAKOTA

Exploded seconds after removing it. I hope she will be okay.

Dakota addressed everyone before everyone heard a beep sound. They all looked at Layleen who lay peacefully.

KEYON

I thought you said you removed it?

DAKOTA

Yes, I did.

Keyon and Dakota examine Layleen before another beep sound comes out of her. Dakota kneels by her side and ogles her Layleen.

DAKOTA (CONT'D)

How can she have two?

KEYON

I don't know. Unless...

INT. BUNKER / ROOM - DAY

Keyon gets up and paces in the other room in the bunker.

DAKOTA

Damn it! Its Kaylynn.

KEYON

What do you mean?

DAKOTA

She knew I love her and would not
let her die.

KEYON

Are you saying the first one was
just a decoy?

DAKOTA

Carry her bring her in here.

A female scream echoes in the bunker. Later Dakota examines
a small device.

KEYON

Makes no sense what do they want?

DAKOTA

Good question check what's
missing.

EXT. COASTAL AREA - DAY

A helicopter drops two armed men. They advanced toward the
city pointing guns as they proceed wearing face mask. They
searched everywhere but the coastal city was deserted there
were limbs of people here and there.

KYLA, 34, short hair and DANTE, 35, have scanned the city.

KYLA

Total wipe out. Proceeding inside.

The two headed further inside.

EXT. COASTAL AREA TWO - DAY

A helicopter hovers above but stationery in the air and
two men KEEGAN, 44, and KARSON, 35, crew cut, armed, slides
down on ropes ready to shoot anything. They pick up the
bags as the helicopter hovers away. The beach area is
deserted. Armed the men proceeds shooting everyone, the
massacre style.

Body's scatters around some getting second bullets once
they have twitched. The men stare at each other before
heading to the bank.

INT. BANK - DAY

Strangely there is no resistance everyone is already down some seem like they choked to death. Anyone who shows sign of life is shot. The cashier spreads her hands as if blind.

KEEGAN

Don't try anything stupid. Main computer frame. Move!

Keegan holds her shoulder pushing her with the other hand holding the gun. A man is seated on the desk but seems can't see as well but suddenly opens his eyes.

KARSON

Get down right now!

Keegan connects a device from his beg and presses a button. A beep sound startles everyone.

INT. BUNKER - DAY

AUDRINNA 37, brunette, short and curvy nurses Layleen before Dakota and Keyon enters the room.

DAKOTA

How is she doing?

AUDRINNA

Raised temperature.

Dakota and Keyon quickly threw each other a quick glance. The two leaves the room.

DAKOTA

I knew it. That must have happened when I removed the decoy.

KEYON

So, removing the seal causes the seal to be broken?

DAKOTA

Exactly.

INT. BUNKER / BIG ROOM - DAY

The two men addresses the few in the bunker.

DAKOTA

Please don't panic. I want everyone to grab oxygen masks just as a precaution and can you go to the other rooms in the bunker you have everything you need there and stay there for now.

KIARA, 46, long straight hair, slim raises her hand.

KIARA

How long are we going to be in here? Are we at risk why we need the oxygen masks?

KEYON

One more day in here the wind should clear the area but we can stay in here for as long as two weeks.

DAKOTA

We have enough supplies.

BRAYDON, 49, high faded taper, very masculine.

BRAYDON

Is there risk of exposure? We can see that Layleen isn't feeling that good.

Dakota cast an eye at Keyon. Breathes heavily.

DAKOTA

She lost a lot of blood, but we safely removed the device. So, nothing to worry about.

BRAYDON

Are they chances that this thing might explode in here?

KEYON

If that was the case it could have detonated by now.

Dakota and Keyon remain standing after everyone has dispersed.

KEYON (CONT'D)

What's happening?

DAKOTA

I don't know they must have loaded that thing with viruses lets go and check.

INT. BUNKER / LAB - DAY

Dakota and Keyon put face masks and enters a small room in the bunker tightly sealed. They wore body suits.

DAKOTA

Damn it. We need an antidote fast. Look! Bitch! Must have happened when I removed the decoy that tore open the seal.

KEYON

That could explain the fever. How much time we have. Only Kaylynn knew the antidote.

DAKOTA

Did you find out what's missing?

KEYON

They looted all the money from all five coastal banks.

DAKOTA

Money? So, it's a total wipe out. Which batches remains?

KEYON

Some 27 years one and those above who didn't get immunized by the previous government.

The two men hears a knock at the door.

DAKOTA

It's Braydon.

Keyon looks at Dakota with talking eyes.

DAKOTA (CONT'D)

No, he is concerned we all should be. So, they robbed all the five coastal banks. Released viruses? What do they want?

KEYON

Protect the coastal borders. Send reinforcements. Secure oil resources. Clean the place then move in. Damn it. They are going to follow your plan.

DAKOTA

Kaylynn. I taught her well. Now she is using my plan against me.

The two men stares at each other.

KEYON

So, this is lethal. Total take over. We have only one antidote. Everyone will require at least one. I guess this is for Layleen.

DAKOTA

We are running out of time. They will send people soon. They are after the oil.

KEYON

I will go.

DAKOTA

You will die without the antidote.

INT. BUILDING - DAY

Kaylynn looks outside the window.

KAYLYNN

Just can't believe that some people are still alive?

HAYDEN

Over the years they have created bunkers I guess.

KAYLYNN

That means Dakota could still be alive.

HAYDEN

I doubt it. Layleen could have finished the job.

KAYLYNN

I don't think it's a good idea going there soon.

(MORE)

KAYLYNN (CONT'D)

Send the men safeguard the oil.
Get extra men around here.

HAYDEN

You think he will come here?

KAYLYNN

After antidote. He will realize I
will use his plan.

INT. BUNKER / BIG ROOM - DAY

Dakota and Keyon leave the lab room and talks to Braydon.

BRAYDON

How can I help? I can't just sit
there.

DAKOTA

Someone must go to the oil plant.

BRAYDON

I can go. But I will need the jab.

Dakota and Keyon look at each other.

DAKOTA

We have only one.

KEYON

I will go. You stay here. Jab for
Jayleen.

BRAYDON

Let's go together.

EXT. OIL PLANT - NIGHT

Braydon comes out of the oil plant and calls Dakota. They spoke, and he walks to his car. He opens the door and a car in front flashes it's headlights. Instantly he was punched on the back of his head. He bangs on the open door and a jab in the ribs leaves him in pain that he drops down on his knees. A kick in the head left him partly dizzy. He sees a blurred figure that stamped on him.

He lies down for a while before grabbing the man's leg and twisting it. The man tumbles. He jumps on him and ferociously delivers a series of left and right punches to the head. The clicking of a gun halts him instantly.

He slowly gets up raising his hands up. The man on the ground gets up and kicks him in the ribs. The man holds his head by the hair and delivers a punch to the face. Instantly he blacks out.

EXT. OUTSIDE - NIGHT

Black smoke blows up into the air rising very hard covering the once clear skies. Down on ground level the oil is burning ferociously. The whole night is lit, and two men stands and stares. Soon after they get in the car and drives off.

Later the car swerves from left to right before spinning over a cliff and blowing into flames. Thick black clouds cover the dark skies giving the end of the world feeling.

INT. BUILDING-DAY

Hayden is talking to Kaylynn.

HAYDEN

I just received a message. The men we sent there have somehow choked to death.

KAYLYNN

The place should be okay now. How did this happen. Dakota must be alive. That son of a bitch.

HAYDEN

Maybe he copied your style and retaliated?

KAYLYNN

Send men to retrieve one and send him to the lab.

HAYDEN

I don't think that's a good idea. What if it is something more serious and we don't have an antidote.

KAYLYNN

We need the oil the soon the better.

INT. BUILDING - DAY

The PROFESSOR and other scientist are in the conference room with Kaylynn and Hayden.

KAYLYNN

Why people are dying at such a rate? Are you telling me that no one knows why? What am I paying you for? Hundred thousand people dying, and no one knows why?

PROFESSOR

We think they have retaliated and created even more stronger poisons and all the people who have died have the old medical devices.

HAYDEN

Are you saying whatever it is its air borne?

PROFESSOR

Precisely. The new medical device can purify the air itself that could explain why no one with the new device hasn't died yet.

CYNTHIA, 34, blonde enters the room breathing heavily.

PROFESSOR (CONT'D)

What is it Cynthia?

CYNTHIA

Professor! I know why!

HAYDEN

Go ahead we are listening.

CYNTHIA

They laced the oil with a genetically modified virus. It's like a watermark, like a seal. I think you are using stolen oil. That's is what is killing all these people.

KAYLYNN

How come they are not dying their side. Antidote?

HAYDEN

Yes, they must have immunized everyone there.

CYNTHIA

You should stop using the oil.

KAYLYNN

Damn it. Dakota. He laced the oil with viruses. Bastard. What are we going to do? We need the oil others everything will come to a standstill.

PROFESSOR

If we keep on burning the fuel more people will die.

KAYLYNN

Can you work on the antidote?

CYNTHIA

Why not negotiate and buy the oil from them?

HAYDEN

You mean give them back their money?

PROFESSOR

Or create a super virus then exchange antidotes.

KAYLYNN

Good idea professor.

HAYDEN

(really upset shaking with rage)

You people. Everything about you is about viruses. You spend \$ billion making viruses are you fucking stupid. When will this end. You are like primitive people. All that money you should have invested it into research. Find other sources of energy maybe go to another planet. You spend time fighting each other creating viruses instead of finding a way of eradicating viruses. Look around you. You steal the world's money so that you can make super viruses? These people are funding you to commit a crime against humanity does that make sense?

KAYLYNN

(raving with rage)

Don't talk to me like that.
You forgot already they nearly
wiped us off the earth?

HAYDEN

What else do you expect when you
go and rob their resources and
their oil? All that money you
spent making viruses you should
have invested it into other energy
resources.

KAYLYNN

An eye for an eye.

HAYDEN

You started it. You robbed their
oil and killed at will. You alone
nearly caused the extinction of
humanity when will you stop or
maybe someone must stop you?

KAYLYNN

Whose side are you on?

HAYDEN

There has been too much blood of
innocent women and children. I am
tired of these wars. How many men
died needlessly in the rights
wars, in the oil wars and now you
want to start a virus war.

KAYLYNN

What do you suggest?

HAYDEN

We go and negotiate if they refuse
we fight for the love of God spare
the women and children.

INT. BEDROOM - NIGHT

Kaylynn wakes up and walks to the dressing table. She stops and stares at Hayden who is sleeping peacefully. She stealthily opens the drawer. A tear runs down her cheek and she inches forward to where Hayden sleeps.

HAYDEN
(opens his eyes and sees
Kaylynn standing next to
him staring at him) Are
you okay darling?

Kaylynn remains silent. A tear drops near Hayden instantly
he notices a gun in Kaylynn's hand.

HAYDEN (CONT'D)
(sits up on the bed)
What is the matter with
you.

KAYLYNN
We don't share the same vision.
You humiliate me in front of
everyone. No matter what, you must
stick to me.

HAYDEN
What is this about?

KAYLYNN
I want you to go there and kill
Dakota but first give him so much
pain until he tells you the oil
antidote. Give him just one chance
if he refuses. You know the drill.
Let him look for the antidote.

She hands him a small tube.

EXT. OUTSIDE - DAY

Dakota is addressing the crowd.

DAKOTA
I think it's time we pay our
friend a visit. They looted our
money and our oil, but I think now
they must have learnt a lesson
that looting is not good for them.
I think they are weakened now.

KEYON
We shall sacrifice our resources.
Our oil until we have won the
battle.

DAKOTA

We want you all to stay indoors.
We shall burn the oil for days
choke some to death.

INT. BUILDING - DAY

After the oil war the Carolinadeivid territory although weakened by having their five coastal banks robbed there was no invasion thanks to the use of oil laced with viruses. The only problem was that they had to keep burning the oil to deter invasion. Oil was going fast. They had to come up with a new plan. Maybe hire the deadliest assassin money can buy to deal with the corrupt and evil world.

DAKOTA

We don't know how long we can sustain deterring them at a cost of losing oil resources or maybe we just need to send an assassin.

JOCELYN, 40, blond now Dakota's second wife enters the building.

JOCELYN

I understand that the seven countries making the other territory have been tasked each with special functions.

KEYON

Country number one it's task is to develop aerial and ground warfare. Country two specializes in biochemical warfare. Country three in cyber warfare etc. They are in all together on this one that's why it's widespread.

JOCELYN

You should negotiate come together and build a stronger future.

DAKOTA

They have evil engrave to the bone. Why would you steal everyone's resources just to make viruses to use on them later?

KEYON

The world is fucked up. We spent billions making viruses when people are dying because of lack of basic needs.

DAKOTA

If you consider me as a friend
would you spend billions making
viruses to use on me or you would
build me a yacht, a car or
something?

EXT. OUTSIDE - DAY

A car screeches it's tires skidding in the road before making U-turn in the road. Keyon revs the car and pulls a gun. Fires consecutive shots shattering the window screen. A man suddenly ducks. The car soon disappears leaving the man shaken.

INT. OFFICE BUILDING - NIGHT

Keyon enters an office carrying a bag. He opens the bag and takes out his laptop and places this on the desk. He takes some pieces and assembles these. He walks to the chair and places the assembled pole there. Walks back again and leaves another assembled pole. He takes his gun switches the poles on. Looks at his watch. Synchronize them and waits.

A beep sound is instantly released from the laptop. Keyon fires three consecutive shots and instantly the blue lights on the pole disappears. The man leaves the building.

INT. OFFICE BUILDING - DAY

AYDEN, 52, smartly dressed, head of the biochemical warfare sits in his chair. The phone starts ringing ANONYMOUS CALLER.

ANONYMOUS CALLER

Is it morally correct to make
viruses to use on other people?

AYDEN

We will do whatever it takes to
defend ourselves.

ANONYMOUS CALLER

What are the chances that women
and children will end up being
affected by your weapons say if
you use them?

AYDEN

Slim.

ANONYMOUS CALLER
So, you are telling me that your
weapons will only kill men?

AYDEN
Intended to be used on our
enemies. Yes.

ANONYMOUS CALLER
Would you say that it's justified
to make biological weapons because
they nearly wiped us out?

AYDEN
I am just doing my job.

ANONYMOUS CALLER
Even if it means killing women and
children unnecessarily?

Silence for a while.

ANONYMOUS CALLER (CONT'D)
Do you know the ten rules?

AYDEN
Listen go and find someone else to
harass.

Three bullet sounds rocketed the building. Ayden slumps
onto the desk. Blood oozes from his head onto the desk and
drips down onto the floor.

INT. HOUSE - NIGHT

Kaylynn is watching the news with BRODERICK, 45, handsome
and average build.

ANCHORMAN
We all know that after the oil
wars the other side laced the oil
with synthetic viruses as a
deterrent to looting. This has
seen the introduction of small
medical devices implanted on
everyone to help purify the air
and fight these viruses. Every
time we use fuel these viruses are
released in the air. On the other
hand, it seems some evil people
have started making viruses
feeding them into these devices
and causing death and extorting
billions from the richest.

Kaylynn flicks channels.

ANCHORWOMAN

Just in the Head of the bio warfare was shot dead. No one knows by who, but a footage has been released and according to local people a ghost has shot him dead.

BRODERICK

Is it true that a synthetic or electronic virus can be used with this device to cause death?

KAYLYNN

Nothing is impossible.

INT. BUILDING - DAY

Dakota is with Keyon.

DAKOTA

We must find a way, or we are toast.

KEYON

What do you mean?

DAKOTA

They have found a way of creating software that acts the same way as all the viruses. Software that imitates all diseases.

KEYON

Still nothing to worry about.

DAKOTA

Imagine an Mp3 player that vibrates, massages and soothes all your nerves.

KEYON

Yeah.

DAKOTA

Imagine also an MP3 player that is loaded with a viral software that cause havoc to your nerves. The device is used to load viruses as it vibrates to stress out nerves and cause diseases in the body.

KEYON

So, this oil pollution thing is just a smoke screen?

DAKOTA

Yes, this was her idea anyway she had planned all this a long time ago.

KEYON

You? What was your plan?

DAKOTA

Hayden. But she knew somehow and got rid of him. Maybe I should pay her a visit.

INT. BEDROOM - NIGHT

Stealthily Dakota contortion himself through the door. Quietly tip toed to where Kaylynn is sleeping.

KAYLYNN

Where is Broderick? I was expecting you.

DAKOTA

Broderick smoking outside.

KAYLYNN

And he let you come in here.

DAKOTA

I told him I am visiting a friend.

Kaylynn gets up and lunges at Dakota who in turn grabs her.

DAKOTA (CONT'D)

You killed my love. You must die too.

Kaylynn laughs first.

KAYLYNN

I gave you that lady and you killed her.

DAKOTA

I did not lace her with viruses, you did.

KAYLYNN

People die. Look you have a new wife already.

DAKOTA

She gave me a present for you.

Dakota put his arm across her shoulders and gave her a present.

DAKOTA (CONT'D)

I find it hard to tell you how she suffered I just thought it's better for you to tell yourself.

EXT. HOUSE - NIGHT

Dakota walks out. Rage and pain exploded inside Kaylynn. She took out the gun and shouted. Dakota stopped and turned around.

KAYLYNN

Where do you think you are going?
It's either you give me the
antidote, or we go together!

Kaylynn aims the gun at Dakota shaking with rage. Dakota smiles.

KAYLYNN (CONT'D)

You think this is funny?

DAKOTA

No. But it's not loaded. You gave me Layleen and I gave you Hayden, but you killed him, so I gave you Broderick. He removed the bullets.

Dakota turns around and walks away.

KAYLYNN

Dakota! You son of a bitch stop before I shoot you in cold blood!

Dakota laughs and stops. He turns around and instantly a bullet jerked him blowing him backward.

KAYLYNN (CONT'D)

You think I am joking? The
antidote or you die first!

DAKOTA

(soft voice)
Ah Broderick.

KAYLYNN

I knew you would try to mess up
with me!

She inches forward pointing the gun.

DAKOTA

I think it's better we die
together. We have caused a lot of
unnecessary suffering. If I let
you live I think God will punish
me.

KAYLYNN

Your choice. Broderick or Keyon
will tell me. Or I will kill all
including Jocelyn your new wife.

Dakota gets up holding his shoulder.

DAKOTA

The antidote is blood of
septuplets mixed together followed
by immersing yourself in a pool of
oil.

INT. HOUSE - NIGHT

Kaylynn points a gun at Dakota and pushed him back in the
house.

KAYLYNN

Where are these septuplets?

DAKOTA

You believe that? Are you stupid?
You are going to die just like
everyone you killed.

KAYLYNN

Don't play games with me or I will
bloody shoot you!

Dakota cast a mocking smile.

KAYLYNN (CONT'D)

You are not taking me seriously.

Kaylynn fires consecutive shorts and Dakota slumps to the
floor. She starts feeling unwell, sweating and breathing
heavily. She opens the clothes wardrobe and Broderick
slumps onto the floor lifeless.

INT. LAB - NIGHT

Kaylynn is with the professor.

She is lying on the bed with drip tubes, the professor is running around.

PROFESSOR
Did he tell you the antidote?

KAYLYNN
I think same as Layleen's.

PROFESSOR
Okay we will try that and see but
I asked because I don't want to
sit and wait I would rather be
working on something.

Kaylynn scared for the first time in her life. She looks like she has seen a ghost.

PROFESSOR (CONT'D)
Something you want to tell me?

KAYLYNN
He said I need blood of
septuplets.

PROFESSOR
What?

INT. BUILDING - DAY

Keyon is with DANTE, 22, geek, programmer.

KEYON
I have a big challenge for you. I
have serial numbers I want you to
locate see how fast you can
triangle them.

DANTE
You not trying to make me hack
into the FBI, are you?

Keyon laughs mockingly.

KEYON
As if you can.

DANTE
Do you want to bet?

KEYON

No that's okay just these for
today. Okay.

The boy tries and tries but still failed. I can't break in
I need a government id.

INT/EXT. CAR - DAY

Keyon drives away from Dante's house and soon after an SUV
follows. The chase begins. He changes gears very fast,
looks in the rear-view mirror. The car drives fast and
bumps the back bonnet of his. He jerks forward losing
control of the car.

Instantly a bullet rocketed smashing the back-window
screen, but he had already ducked. The horn blast by the
oncoming car gives his heart beat a push. He pulls his gun
and fires back swerving in the act.

Turns into a side road and steps on gas. Keyon checks in
the rear-view mirror and steps on gas passing other cars.

INT/EXT. CAR - DAY

A bullet smashes the side mirror, he ducks and loses
control of the car, slams on the brakes, bumps into a
parked car. The alarm of the parked car goes off. He
quickly changes gears. A reverse gear clicks, he looks over
his shoulder and sees the car approaching at full speed. He
revs the car, wheels spinning in one place and blue smokes
coming from the tires, before reversing into the front
bonnet of the car, fires consecutive shots before spinning
out of the car and blasting the side door.

He ducks, and fling opens the door. Surprise, surprise,
it's empty he raises his head. A man staggers away limping.
He gets up and aims one shot, then another at a low angle.
He swiftly puts the gun down and breathes heavily.

INT. DANTE'S HOUSE - NIGHT

I have this ID can you use this social security number.
Dante grabs the card and starts entering codes after codes.
Keyon starts dosing off before a beep goes off.

DANTE

We are in I don't know for how
long though. What are you after?

KEYON

Link these serial numbers to name,
face, place, current location,
medical file, spouse, kids, dogs,
cats I mean everything. Load on
here when done.

After a few minutes a message appeared on the screen.

MESSAGE ON SCREEN

Three minutes before automatic
shutdown.

KEYON

How many you got so far?

DANTE

Just 4

KEYON

4! Come on I need all.

Dante starts typing very fast. The only 60 seconds left
message on the screen startles him. He stops and casts a
look at Keyon. The countdown begins.

MESSAGE ON SCREEN

45 seconds,
30 seconds,
15 seconds,

Dante starts sweating. At three seconds the screen froze.

KEYON

How many?

DANTE

6!

The system suddenly starts shutting down.

KEYON

OK we will find out who is the
lucky one.

Keyon takes a tablet from his jacket. He retrieves a screen
pen and inserts the card memory.

Instantly the list appears on the screen. Matching their
faces to their current location.

KEYON (CONT'D)

Want to play?

DANTE
Is that a game?

KEYON
Yes, press the remote button every
time the picture comes into the
target area.

It took a while before a target is acquired.

Dante presses the button and a splash appeared on the
screen.

DANTE
Only 5 remains.

KEYON
Play until you have blown all up.
Thanks.

INT. HOUSE - DAY

Jocelyn watches the news.

ANCHORWOMAN
It is understood that five leaders
of the company that makes
synthetic as well as software
viruses which they use to abuse
women and children were blown up
in their homes in front of their
families and kids. It comes after
the court ruling that they had to
stop and close with immediate
effect. The submitted claims and
the court costs will bankrupt
them. This should be a lesson to
many who think they are above the
law. In this edge there is nothing
more important than the good
health and life of women and
children. Those who think they can
make a quick dosh at the expensive
of kids and women watch out the
trigger man is coming to blow you
up.

INT. HOUSE - DAY

Keyon watches the news making dinner. He stops and listens
to the news.

KEYON
Pick up! Pick up!

The phone rings but no one picks up the phone. Keyon grabs his jacket and opens the drawer and gets a spare gun. Quickly he drives off. Tapping his fingers nervously on the steering wheel. His heart beating fast. He passes other cars most of the times ignoring the traffic lights. He dials again.

He slams on the brakes and parks the car. He stealthily enters the yard looking everywhere pointing a gun. Nervously he inches forward his heart beating very fast with every step.

He slowly slides the door open. Stealthily he tips toes inside the house. He can see Dante watching television in the lounge. Instantly he feels a barrel of gun poking his head. It's the BAD GUY, 40, smartly dressed up though.

BAD GUY
Drop the gun! Move! Don't try
anything stupid.

The bad guy hits him and pushes him onto the couch pointing his gun.

BAD GUY (CONT'D)
Enter your password right now.

Keyon enters the password and about to give the tablet back he drops it. The man kneels gun still raised but the moment he looks down Keyon grabs and twists his hand, kicks the man in the face.

KEYON
Dante! Pick up the tablet finish
the game! You! Hands up!

Dante did not say anything but looks at Keyon.

KEYON (CONT'D)
Dante, finish the game!

Dante folds his lips and points at the man.

KEYON (CONT'D)
Oh, I see. You don't want him to
spoil your carpet ha?

Dante nods his head.

KEYON (CONT'D)
Move! Go outside now! Move!

The man walks before being pushed by Keyon.

KEYON (CONT'D)

Who is the seventh person in your organization?

BAD GUY

If I tell you will you let me go?

KEYON

Are you fucking made. You nearly crippled this lad and if I hadn't turned up he was going to witness another accident isn't it?

BAD GUY

So, you don't want to know?

KEYON

Okay you tell me, and we will let the lad decide okay?

BAD GUY

We are a cult if you want to call it. Each one has separate responsibilities. I am responsible finance, for money collection.

KEYON

Very funny. Is that how you call daylight robbery.

BAD GUY

We provide a service and like everyone else we expect to be paid but if they don't pay then no one cares they end up tripping or falling or just having a bad day.

KEYON

The name?

Keyon jerks backward hit in the face by fluids of the bad guy.

Wipes blood of his face and stares at Dante, then cast a cheeky smile.

KEYON (CONT'D)

Guess you just couldn't wait ha?
Can't blame you.

FADE OUT

(CONT'D)
