FADE IN

INT. COURT HOUSE - DAY

Court room fully packed attentively everyone listens as a man stands in front of everyone frequently walks right and left. The man is prosecuting lawyer REX, 33.

REX

We are the leaders of tomorrow and tomorrow begins today. Accountability begins today. It starts with us. Let us decide what is right for us. The future is for the young but as things are going they won't be any left. Human lives matter more than local Arms Acts and profits.

After a while a man wearing an expensive suit get's up and walks in the middle of the court. His name PABLO, 41, the defending attorney. Pushes his sleek hair backward and stands in front of the people in the court.

PABLO

Ladies and gentlemen I want you to know that yes my client sales weapons. Yes that the weapons might end up in the wrong hands but know that my client took every reasonable step to make sure that the weapons won't end up in the wrong hands.

Pablo stops and pushes his sleek hair backward. Everyone looks on.

PABLO (CONT'D)

Don't get me wrong ladies and gentlemen we feel hurt by the loss of a kid but I want you to know that my client took every reasonable step to ensure that these weapons were used according to the weapons charter. This is a civil war and has nothing to do with my client.

A huge buzz fills the court room as people starts talking to each other.

EXT. OUTSIDE - DAY

A man walks outside and placed a suit jacket in the back of the car and enters the car. He drives out and headed to the city center. His name is DOMINIC, 32.

INT. MOVING CAR - DAY

Phone rings and quickly the man answers the phone. He spoke to EVAN, 24.

DOMINIC
Hello Dominic speaking.

EVAN
Yes Sir. I am afraid that the appointment has been rescheduled to later in the afternoon. You might as well take the morning off.

DOMINIC
Are you sure? The chairman wants this to be done the first thing in the morning.

EVAN
Yes Sir he is the one who told me to call you.

DOMINIC
I guess I have to take the morning off then.

EXT. MOVING CAR - DAY

A car headed towards the city center.

INT. PETROL STATION SHOP - DAY

Dominic enters the shop and buys flowers and cigarettes before a car stops outside and an elegant woman steps out and walks toward the shop. The other man at the petrol station ogles her body as she walks toward the shop.

SHOP ASSISTANT
Don't forget your cigarretes Sir.

Dominic admires every move the woman makes as she enters the shop before picking up his flowers and his cigarettes and walks out to his car.

EXT. OUTSIDE - DAY

A car parks outside the house and Dominic enters the house carrying flowers.

INT. HOUSE - DAY

As soon as Dominic enters the house he hears his girlfriend's voice AUDREY, 24.

AUDREY
Come upstairs, I can't wait. You
seem early today.

Dominic stops for a while before heading upstairs to the bedroom.

INT. BEDROOM - DAY

Dominic stands at the bedroom door and cast a lustful glance at her. He watches his girlfriend rubbing her body half naked.

DOMINIC
Flowers for you babes.

Audrey startled quickly covers herself with bed sheets. Instantly her phone rings and she quickly answers it. Dominic drops the flowers. Soon the front door opens up. Dominic throws a quick glance at Audrey.

DOMINIC (CONT'D)
Who was that?

AUDREY
No one wrong number.

DOMINIC
Give me that phone let me see who
is calling.

AUDREY
No this is my phone I do whatever
I want with it.

The noise of the front door opening startles Dominic.

DOMINIC
Who is that! Babes are you
expecting someone?

Audrey closes her eyes and slumps onto the bed. Dominic runs downstairs to find the front door now open. Instantly

he hears screeching of car tires. He runs outside and chases after the car.

EXT. OUTSIDE - DAY

Dominic sees the car reversing out of his driveway. Jumps onto the bonnet and tries to grab the driver. On top of the bonnet the car reverses and swings facing the other way sending Dominic flying and onto the ground. Quickly draws gun and gets up and aims at the speeding off car. Car disappears. Dominic limps back to the house. Stops and picks up a business card and looks at it.

DOMINIC
Surely I have seen this logo
somewhere.

INT. HOUSE - DAY.

Audrey is laying on the bed as Dominic enters the room. He sits on the corner of the bed. Silence broke for a while.

DOMINIC
How long has this been going on?

His SON, 3, comes into the bedroom.

SON
Daddy why is mummy crying?

INT. SON'S BEDROOM - DAY

Carries son into bedroom.

DOMINIC
Mummy wants to sleep. But
everything is going to be okay.
Sleep for a while okay?

INT. BEDROOM - DAY

Audrey lays on the bed with the cellphone in her hand.

DOMINIC
How long has this been going on?

AUDREY
(sobs)
I was going to tell you. I found
someone else. You are never here.

DOMINIC

You know this is my job we talked about this. That can't give you the right to bring another man when I am not here. You can't take my son either.

AUDREY

You are never there for him so don't ask me where I am go.

DOMINIC

You take my son away from me I swear I will look for you everywhere.

AUDREY

You think everything is a joke? Wait this time you will believe me.

Audrey's phone, now on, starts ringing. Dominic grabs it about to answer it when he gets slapped across the face. Audrey grabs Dominic's phone and slams it against the wall. She slaps him again but this time he slaps her with back of his hand. Son emerges.

SON

Daddy I can't sleep. You are making noise.

Dominic kneels and looks at his son.

DOMINIC

Ah very sorry. Daddy is going to work look after mummy for me. Okay?

SON

OK daddy, I will, just don't make her cry. OK?

AUDREY

(crying)

I am leaving you. I am taking my son, you never see us again.

DOMINIC

I am sorry babes stay. I will cancel the mission.

AUDREY

Liar, I am tired of your games, I found someone else who think about me, first.

DOMINIC

Don't go darling. I am going to work can we talk when I return.

The ringing cellphone startles both.

AUDREY

(giving phone to
Dominic)

It's for you.

DOMINIC

Hello.

VOICE OVER

Dominic it's the chairman I tried reaching you on your phone but it's off. Listen, we leave today. Meet me outside the office.

AUDREY

See, I told you, you, will never consider us first. I am leaving you.

EXT. OUTSIDE - DAY

A car is parked outside and two men are inside. One of them takes a photo from his wallet of a little boy and stares at it. Instantly a car comes from the other end. The two men instantly ducks. A huge gate opens up, slowly the car enters the fortified fence.

EXT. OUTSIDE - DAY (NEXT DAY)

A car , with the, DRIVER, 34, approaches and stops away from a house. Later another car came from the other side and stops outside the house. The gates starts opening up. The men in the car quickly wore balaclavas. One of them drags out a hand held missile.

THE DRIVER

You have three minutes.

The man looks through binoculars.

THE DRIVER (CONT'D)

Two minutes and counting.

Instantly the front window screen starts retracting until it disappears. The gate instantly opens up. The car slowly enters the house. The PASSENGER, 32 aims a rocket launcher. A whistling sound makes them briefly close their eyes. When

they open they see a small boy running out to pick a ball. The men stares at each other before ducking.

A huge blast sends a ball of fire up in the skies. The parked car instantly screeches it's tires and speeds off.

EXT. OUTSIDE - DAY

A WOMAN, 26, picks a newspaper from a shelf, a MAN, 40 stands next to him reading the paper.

MAN

Who cares if they kill each other. Let them fight their own wars. Why should we be bothered.

WOMAN

They are saying that we are supplying them with the weapons to fight.

MAN

Even if we supplied the weapons they were still going to get the weapons from somewhere else.

WOMAN

They argue that look at their past civil wars they never targeted women and children. For years they fought with swords and knives and no women or children injured. Now you see why the world is furious?

MAN

I guess you have a point but we sell to those who are responsible.

WOMAN

Ideally yes but they are ending up in the hands of the poor people. Instead of buying food they end up buying weapons.

INT. BUILDING - DAY

Beautifully decorated building. JULIAN, 28 enters the building. ALEX, 33 is in the building.

ALEX

Good afternoon Juliana what can I do for you.

JULIAN

I need the files I asked for. It seemed this is never ending. They say money buys you freedom and it seemed to be the case here. These weapons makers seemed to control everything and everyone.

ALEX

No one cares, blood money or not. This has become so rooted in the hearts and minds of the people that everyone now accepts and relates to this. This is the new world so you should embrace it.

JULIAN

The developed world has quadrupled weapons output where are the markets?

ALEX

Exactly, look the rich interferes everywhere. Where ever brothers fight they are quick to send weapons. In the end they kill each other.

Julian sighs.

ALEX (CONT'D)

Are you saying that they are buying weapons out of fear?

JULIAN

Ask your self would they rather buy weapons when they are starving? Or it comes down to priorities rather safe than dead.

JONATHAN, 37, enters the office.

JONATHAN

I believe you, it's a psychology game. The rich countries parades weapons to instill fear among the weak. Instincts kicks in instead of necessities they buy weapons.

ALEX

You are speculating. Do you have anything against the rich and powerful?

JONATHAN

I was never concerned just like
you today but look at the rate the
future generations is dying.

INT. COURT - DAY

The court was very quiet everyone listens attentively.
Stealthily Julian enters the court. A big smile on Rex's
face as he sees Julian. Pablo cast a worried face. Rex
walks in front of the jury. EMMANUEL, 36, is in the
defendant's box.

REX

This afternoon I am going to show
the jury and the court that the
defendant has no regard for the
life of kids even his own.

Court went berserk.

PABLO

Objection your honor it's
inflammatory and it's intended to
cause bias against my client.

JUDGE

Counsel approach my bench.

The counsels approaches the desk.

JUDGE (CONT'D)

How is that relevant?

REX

I want to establish credibility,
and whether his belief affect him
in carrying out his job as well.

PABLO

Your honor I don't see how this is
relevant this case is not about
his personal life. It's about
weapons and his assumed
obligations.

JUDGE

I will allow it if you make it
brief and to the point.

REX

Do you have kids you yourself.

EMMANUEL
Yes I have two girls.

REX
Is that all?

Rex gives documents to the the Judge and jury.

REX (CONT'D)
Exhibit 3 your honor and the jury
in front of you are documents that
shows that the defendant is not
telling the truth. Why should we
believe everything he has said so
far.

PABLO
Objection the counsel is
intimidating my client.

REX
How many children do you have?

EMMANUEL
Two girls and a boy.

Noise sudden broke out.

JUDGE
Silence in court.

REX
Ladies and gentlemen of the jury
and your Honor if the defendant
doesn't care about his own
children how do you expect him to
care for someone's else?

EMMANUEL
You have no right to judge me or
talk about my family.

INT. COURT - DAY (DAY TWO)

Silence slices through.

REX
OK can you tell the court your
name

PABLO
Objection irrelevant I don't see
how this sits materially to the
case.

EMMANUEL

I am Emmanuel.

REX

Exhibit 4 affidavit showing that defendant was known by another name.

PABLO

Objection your Honor. I declare the fruits of the poisonous tree. The evidence counsel is relying on was obtained illegally.

JUDGE

This is a serious case young lives have been taken away and it's for the public good to know exactly what is going on.

REX

Exhibit 4 shows the defendant was formerly known as Dominic.

A huge buzz fills the court. Pablo cast a quick glance at Emmanuel.

REX (CONT'D)

Were you in the army and did you kill someone?

PABLO

Objection! Counsel is antagonizing my client. What happens in the army stays in the army?

JUDGE

(to pablo)

Counsel can you stop disturbing the flow.

REX

Did you kill someone when you were in the army?

EMMANUEL

I guess so.

REX

Answer yes or no.

EMMANUEL

Yes.

REX
Did you kill a young boy on one of
your mission.

Reporters and photographers gate-crashes in. Pablo sunk his
head down.

REX (CONT'D)
Did you kill someone's else's son?
Answer the question damn it.

Rex slams the table.

REX (CONT'D)
Did you slaughter someone's son in
cold blood! A small boy! Answer me
damn it. How did that make you
feel? Have you forgotten? Maybe I
should remind you.

Rex furious walks to the desk fast and brings out three
photos.

REX (CONT'D)
Exhibit 5. Proof that the
defendant not only slaughtered a
kid in cold blood but that he lied
under oath.

A huge buzz.

JUDGE
Silence in court.

REX
So I ask you again. Did you pull
the trigger that killed this boy.

Emmanuel hesitates to answer he looks at the photo.

REX (CONT'D)
(slams the desk)
Did you kill this little boy.
Answer God damn it.

EMMANUEL
It was a mistake. Yes.

REX
Ladies and gentlemen the defendant
is a calculating man as you will
see. He enjoy killing people as a
profession and kids are no
different.

(MORE)

REX (CONT'D)

He is the CEO of a weapons company. They put profits first to human life. The defendant obeyed an order and took out the whole family including this boy.

PABLO

Objection the counsel is asking the jury to prejudge the evidence.

REX

Your honor I conclude that after all this evidence there is no guarantee that the defendant has been doing everything to safeguard the safety of the victims if he can't look after his own.

INT. COURT - DAY (DAY THREE)

Silence in court as Rex takes center stage.

REX

What happened on your last mission before you left the army.

EMMANUEL

Classified but I can say that I did not kill anyone. In fact I disobeyed an order to kill.

The crowd went berserk.

JUDGE

I will have order in court!

Rex walks to the desk and takes out three photos and gave them to all.

REX

Exhibit 6, the defendant in this case disobeyed the order but for reasons that will be clear soon.

Walks to Emmanuel.

REX (CONT'D)

Why did you disobey the order?

EMMANUEL

I was to take a shot when a kid appeared.

REX

So, let me get this straight. You are telling the court that you did not pull the trigger because there was a kid?

EMMANUEL

Yes.

REX

So, you want us to believe that you disobeyed an order and risked being kicked out of the army because a kid appeared abruptly?

EMMANUEL

Yes.

REX

Why did you kill the first kid.

EMMANUEL

I saw the kid after I fired the rocket.

REX

You should have known after weeks of surveillance that there was a kid.

Emmanuel remains silent.

REX (CONT'D)

Still you went on to be the CEO of a company making weapons that are still killing kids today.

EMMANUEL

Even in hospitals children die.

INT. COURT - DAY (DAY 4)

REX

Ladies and gentlemen the defendant is still the same person he was years ago, a hungry gun mad person who will kill even kids.

EMMANUEL

I changed we sell only to responsible people.

REX
Did you try to kill your
girlfriend and your son?

EMMANUEL
What kind of a question is that?
No!

REX
Did she cheat on you? In fact did
you find her with another man?

The court went berserk.

EMMANUEL
No.

REX
Did you think that the boy might
not be yours?

EMMANUEL
No he is my son.

REX
Would you tolerate someone to hurt
your son?

EMMANUEL
No

REX
In that case ladies and gentlemen
I present exhibit 7. A photograph
of his son the day his girlfriend
escaped with their son.

EMMANUEL
I never laid my hands on her she
was running away with another man.
I never saw my son after that.

REX
The last day you disobeyed an
order did you say that you acted
rationally given the
circumstances.

EMMANUEL
Yes.

REX
If it wasn't for this boy you
could have obeyed the order?

EMMANUEL

Yes.

REX

Ladies and gentlemen of the jury
can you please hold exhibit 6 and
7 together and look closely.

Rex approaches Emmanuel.

REX (CONT'D)

What was your state of mind the
last day of your mission? Did you
think about your own son?

EMMANUEL

Yes. I was worried about him I
thought about him all the time.

REX

Is it possible that you did not
shoot this boy just because you
related to this boy?

EMMANUEL

What?

There was a huge buzz in the court.

JUDGE

(uses the gavel)
Silence in court.

REX

Is it true that this day you only
disobeyed the order because your
own son was taken away from you.
Otherwise this was going to be
another one of your slaughtering
days?

PABLO

Objection, inflammatory.

JUDGE

Overruled I think it's relevant to
the case.

REX

Members of the jury the defendent
although he did not pull the
trigger, this is only because he
related to the boy. Compare
exhibit 6 and 7.

A huge buzz fills the court.

REX (CONT'D)

Is it true that you had missed your own son and this alone made you stop killing that boy. That this boy reminded you of your own son answer yes or no.

Emmanuel remains silent.

REX (CONT'D)

Answer me it it true that the only reason why you did not shoot and disobeyed the order is that you felt this boy like he was yours?

EMMANUEL

I did not pull the trigger.

REX

Only because the boy reminded you of your own son otherwise if he was different to yours you could have slaughtered the boy.

Rex walks to the table and takes two photos and gave these to the defendant.

REX (CONT'D)

Is this your boy?

Emmanuel squints his eyes.

EMMANUEL

I guess so I haven't seen him since he was a kid.

Rex hands the other photograph.

EMMANUEL (CONT'D)

Is he my boy? My son?

REX

See you can't even distinguish between the two.

The crowd went berserk.

JUDGE

I will have silence in court.

REX

Ladies and gentlemen the defendant can't be trusted to safeguard the safety of the victims. He can't take care of his own how do we expect him to care for someone's else therefore guilty as alleged.

INT. COURT - DAY (DAY FIVE)

Rex giving concluding remarks.

REX

Gone are the days when the rich manipulated the poor to fatten their pockets. Gone are the days when the rich preach of peace and love on their own soil and instill fear abroad inciting and arming civil wars. Accountability, everyone should be accountable for their actions.

A huge buzz fills the court.

REX (CONT'D)

Today put quotas on gun manufacturing. These countries steal resources from poor countries and take all their moneys and make weapons they will sell back to them more dearly.

INT. HOUSE - DAY

In a house people are watching the news.

ANCHORWOMAN

The weapons CEO has been found guilty of manslaughter, for decades they have recklessly killed and maimed innocent children while we look. Today justice has caught up with them. The judge has imposed a quota system as a way of phasing out gun production.

INT. CONFERENCE ROOM - DAY

The conference room is packed, reporters, journalists and photographers meet The VICE PRESIDENT, 46, woman of substance with a vision of the future.

VICE PRESIDENT

Seventeen years has passed since we embarked on a new project and never looked back. Like the great speech of the attorney Rex we have changed. I am proud today to present our first prototype that will enable us to fulfill our goals.

INT. OFFICE - DAY

A very luxurious office with golden decorations. The VICE PRESIDENT knocks at the door.

VICE PRESIDENT

I need your approval so we can initiate the next stage.

The President walks to the window.

PRESIDENT

By approval you mean you need more money? How much have you invested in this project so far?

VICE PRESIDENT

Mr. President this is a huge challenge. Why not ask how this is going to revolutionize tomorrow?

PRESIDENT

Mrs. Vice President I have been channeling public funds into your project seventeen years now there is nothing to show for it. I am losing popularity now. Everyday people ask about the missing funds what should I tell them?

VICE PRESIDENT

We incurred unforeseeable costs. But this week you will see a miracle. A step toward evolution.

PRESIDENT

If you promise that you will
return the money then I can
approve the project.

VICE PRESIDENT

Sure Mr. President.

EXT. MOVING CAR - DAY

ELIJAH, 28 and LILY, 26 are in the car tired and exhausted.
Lily is fast asleep. Elijah starts dosing off. A window
slowly opens and Elijah starts smoking. A gustily wind
shakes the car for a while.

LILY

(wakes up?)

What was that? Were you dosing
off?

ELIJAH

Not sure what to make of this but
I wasn't sleeping. It seems a
lorry or something overtook us.

LILY

Look out!

The car swerves off the road and slips into a ditch. A
small boy walks in the road and peers down the ditch. A car
is upside down and the wheels are still rolling. He carries
on walking in the road.

INT. TOWER - DAY

An amber light is flashing and the siren starts sounding.
DEAN , 41 and TANTO, 33 are in the tower. Instantly they
get up and stares at the big screen.

DEAN

What seemed to be the problem?

TANTO

Unidentified object on the radar
sir.

Stares at the big screen.

DEAN

Alert security.

EXT. CITY - NIGHT

A security van arrives outside a fortified building. KAYDEN, 34, BRYCEN, 32 ANTON, 33 and CADEN, 28 quickly all gets out and searches the area. A gunshot sound startles everyone. Kayden and Caden arrives, Brycen lay in a pool of blood. Gun wound in the head. He has fired a shot too.

CADEN

I need backup officer down north west of security tower over.

KAYDEN

He is dead let's spread-out. Meet here after half an hour.

Caden breathes heavily searching everywhere. A crackling sounds startles him

KAYDEN (V.O)

Did you find anything?

CADEN

Nothing still checking.

He raises his head just in time to see a small boy in front of him. The torch light on his shoulder distracts the boy. He stands there rubbing his eyes.

CADEN (CONT'D)

Stand there don't move. Who are you with? What are you doing here? This is private land how did you get here?

The crackling-instant voice on the radio startles the boy. He opens wide his eyes.

KAYDEN (V.O)

Caden do you copy? Have you seen anything yet?

The boy sprints away.

CADEN

Stop! Stop! Or I will shoot you.

The boy sprints Caden chases. Grabs the radio and speaks to Kayden.

CADEN (CONT'D)

I need backup north west of the tower.

The boy sprints very fast. KAYDEN sprints toward Caden. At a corner of the building he collides with the boy and falls. A scream makes Caden panic. He sprints as fast as he can. Kayden is on the ground shoulder shot and bleeding. The boy is walking backward facing Kayden when Caden arrives.

CADEN (CONT'D)
What happened?

KAYDEN
The boy shot me.

Kayden gets up and aims at the boy. The boy starts running. He opens fire. The boy slumps to the ground. The sound of the siren becomes audible and the other men arrives. Caden nurse Kayden's wound.

INT. OFFICE - DAY

A loud knock on the door. A SECURITY GUARD, 46, peers in.

SECURITY GUARD
We have a problem Mrs. Vice
President. Come with me.

INT. UNDERGROUND OFFICE - DAY

A reaserch or lab like office with huge screen monitors. The PROFESSOR, 53, is in the office.

PROFESSOR
Mrs. Vice President our subject
has been shot down and he is being
transported as we speak. From the
satellite image he is going north.

VICE PRESIDENT
So, what are you waiting for?

PROFESSOR
Your authorization.

She scribbles something on the clipboard in his hand.

PROFESSOR (CONT'D)
(smiling)
This is the part I like, now watch
this.

Instantly an image of the moving vehicle is on the screen-aerial view. The professor enters some coordinates and a beep goes off.

PROFESSOR (CONT'D)
Let me change camera focus to
subject's POV.

An image of falling to the ground appears on the screen.

VICE PRESIDENT
Is he losing altitude?

PROFESSOR
Think so possible malfunctioned.

A huge thump and a line across the screen.

VICE PRESIDENT
This is a \$billion project do you
know where it crashed?

PROFESSOR
Yes but none of this should have
happened. I think they are having
issues with vision. I need
authorization as well to go and
retrieve.

VICE PRESIDENT
Granted, send them straight away.
I was going to introduce the
project to the President end of
the week.

PROFESSOR
Guess he has to wait.

EXT. OUTSIDE - DAY

A camera follows DYNA, 30, before he stops outside a huge
building.

INT. OFFICE - DAY

A lab with measurement instruments and screens everywhere.

DYLAN
Yes. I have been sent by the Vice
President she need an update on
the recovered subject.

PROFESSOR
Shot and was leaking but he will
be okay.

INT. OTHER COUNTRY - DAY

A state visit in another country. President meet BRANDON, 54, president of neighboring country.

PRESIDENT

For the past seventeen years we have agreed as a nation to cut down gun production. We have extra guns we would like to trade with you in exchange with oil?

BRANDON

Oil for guns. Who would accept that kind of a deal nowadays? Human rights campaigners have removed easy money from gun production.

PRESIDENT

Your oil production has declined in recent years?

BRANDON

Cost are so high that extraction is not viable. Our oil is the heaviest with API of less than 10.

PRESIDENT

That's when we come in. We can make the oil lighter but an arms deal must be part of the deal.

INT. OFFICE - DAY

The Vice President watches.

ANCHORWOMAN

The President has arrived today from abroad after failing to secure an oil deal. Talks stalled again. The pressure from other oil industries has hindered progress.

EXT. OUTSIDE - DAY

A bird glides down. Arial view of the residential suburbs. On ground level a dog runs across the road and enters a yard of a house. A car comes into view before it enters the same house as the dog.

INT. HOUSE - DAY

HOSIAH, 10, stands at the window and waves at a girl across the street. The sound of the door opening and the footsteps startles the boy.

The boy peers in the study room as the door was slightly open. He sees his dad, SAMUEL, 36 lifting the floor plank and opens an underground safe. He opens the safe and places a paper inside.

INT. HOUSE / LOUNGE - DAY

Family in the lounge well decorated.

HOSIAH
Daddy what did you bring me?

SAMUEL
I bought you a motor bike.

Hosiah laughs and celebrates

EXT. OUTSIDE - DAY

Everyone standing at the cemetery. Hosiah, now 23, looks around and sees all his friends before he feels his hand being squeezed. It's GABRIELA, 22, besides her. Across the cemetery a man (BRIAN, 47) stands there looking at them.

After funeral he was about to get into his car when he hears a voice.

BRIAN
Hello, I guess you are Josiah. I
knew your father.

HOSIAH
How did you know my father?

BRIAN
We worked together. He talks about
you all the time.

HOSIAH
He never mentioned you. I guess I
have to go been a long week.

BRIAN
Your father was murdered it was
not an accident.

HOSIAH

Who would murder him and what for?

Brian gives Hosiah a small piece of paper and left.

EXT. OUTSIDE - DAY

A private planes lands and three SUVs approach the plane. ADAM, 33, wearing sun glasses gets off. Plane doors opens and the three men starts off-loading the cargo into the SUVs.

ADAM

The first shipment, two more later
this month and the deal is done.

COLE, 49, receives the paperwork.

COLE

Is everything for the first
shipment there?

EXT. OUTSIDE - DAY

The Vice President motorcade is cruising on the road. The front SUV clears way for the other cars flashing blue lights. Soon the motorcade enters a construction site.

PRESIDENT

Very grandeur project and this has
been going on for the past
seventeen years. Has this been
completed yet?

VICE PRESIDENT

This year, phase one of the
project will be ready.

PRESIDENT

It's very gigantic what are you
planning to store in there?

VICE PRESIDENT

Water.

PRESIDENT

Water? Are you planning to
irrigate mars?

The two laughs.

INT. OFFICE - DAY

The phone rings.

PROFESSOR

Watch the news Mrs. Vice.
President.

ANCHORWOMAN

A boy was spotted in the water of
the coastline. Locals have
suggested that there have been
several sightings of this boy in
the water but after being seen he
then disappears in the coastal
water. The locals confirms that
this was the legend of the lost
boy. The coast guards are
currently searching for the boy.

INT. HOUSE - DAY

Gabriela enters the house.

GABRIELA

Isn't this company the one
involved in your father's death? I
am sure I heard the company has
been investigated before.

HOSIAH

The day he died, the day he had an
accident he had been there.

GABRIELA

They are still making weapons
although they lost their gun
production licence.

HOSIAH

Yes, but I don't know since my
father was an auditor I think they
were still making guns illegally.

EXT. OUTSIDE - DAY

A car parks outside Hosiah's father's house. When Hosiah
comes out the men inside ducks.

INT. HOUSE - NIGHT

The place has been vandalized, clothes, papers, books and drawers were all over. Hosiah enters the study room and opens the safe in the floor. He takes out a small note given to him by Brian. It reads XZY Ltd.

EXT. OUTSIDE - DAY

Hosiah picks up a stick and throws. The dog sprints after it.

HOSIAH
Why XZY Ltd? Are you saying these people got my father killed?

BRIAN
Your father after I spoke to him he was adamant that he was going to do the auditing. The company had paid him but insisted that their own auditor do the job.

HOSIAH
Why would they kill him? They seemed like a clean company even the Vice President have contracts with them.

BRIAN
They must be dirty somehow. Trust me it was not an accident. The day he died he phoned me and told me that someone was trying to kill him but he sound okay and not worried at all so I just ignored the whole thing.

HOSIAH
I found the house vandalized the other day.

BRIAN
He must have kept some of the documents.

HOSIAH
I think I know where he might have kept the documents.

INT. HOUSE - DAY

Brian waits patiently in the lounge before Hosiah returns with a box.

BRIAN
(looks at the documents)
It seems they are still producing
guns but shipping these abroad.

HOSIAH
That makes sense. They ignored the
court ruling. They are just doing
everything underground now.

BRIAN
Exactly.

EXT. OUTSIDE - DAY

A truck passed a heavily secured place and soon as the truck went past Hosiah got out of the car and walks to the gate. A RECEPTIONIST, 26, sits on the desk.

HOSIAH
I am an auditor here to do an
audit.

RECEPTIONIST
Do you have an appointment? You
need one.

EXT. OUTSIDE - DAY

A boat passes the coastline. Very sunny. ZACK, 28, stands on the boat's rails. ANITA, 26, sunbath on the deck.

ANITA
Is that a small boy over there?
How did he get there?

ZACK
Surprisingly yes, that is
definitely a boy.

The passengers starts whistling and shouting. Zack jumps and swims towards the boy. The boy is no longer there. Zack looks everywhere. The boy has disappeared. Zack jumps onto the rock but the boy is no longer there. The place was very hot, oil lingers.

INT. BOAT - DAY

Passengers gathers around Zack among them PHIL, 36.

ZACK

Strangely that boy disappeared. At one point it felt like I was hallucinating.

PHIL

I am sure I saw the boy too. Maybe he is a merman.

ZACK

I don't believe in mermaid and merman. That was a little-boy I saw there. There was oil all over. The place felt hotter than normal.

EXT. OUTSIDE - DAY

A small boy walks in the forest near the coastal area. He kneels and stares at the insects. A snake appears, he jumps upward then follows the snakes. Until it disappears into a hole. He kneels and inspects the hole. He inserts his hand and the snakes comes out biting his fingers. He didn't scream, slack-jawed face though. He drops the snake and observes it as it slithers away.

He walks on the coast and sees a dead bird covered in crude oil. He picks it up, legs in the water. Drops of crude oil drops into the water. Instantly they are attracted to his legs. He looks around and notices black crude oil floating toward his legs. The crude oil gets absorbed.

INT. HOUSE- DAY

A family celebrates winning holiday. HAILE, 23, LUKE, 26, and GREGOR, 6.

EXT. OUTSIDE - DAY

A boat travels along the coastline with the family on board celebrating.

INT. LAB - DAY

The lab is busy.

PROFESSOR

We still have a problem with the grade of oil.

VICE PRESIDENT

I thought you declared the issues as solved.

PROFESSOR

Yes, but yesterday we received new data on our subject somehow the subject is absorbing oil through the skin.

VICE PRESIDENT

Would that be a good idea?

PROFESSOR

Not at all. The oil is not treated. Viscosity is dense and therefore slows it down. It hasn't moved since yesterday.

VICE PRESIDENT

Will that have impact on our project.

PROFESSOR

Not at all in actual fact congratulations. That's how we know they have finished drilling. Seventeen years it took us. We are finally there we start extraction.

VICE PRESIDENT

Is it officially phase two?

EXT. OUTSIDE / NEIGHBORING COUNTRY - DAY

Riots all over the city. Cars being burnt down. Shops buildings, windows being smashed and looted.

INT. HOTEL - DAY

BRANDEN, 39, sits and watches the news.

ANCHORMAN

In an unexpected turn of events the government of the neighboring country is in chaos. People have been rioting for days.

(MORE)

ANCHORMAN (CONT'D)

The people have been calling for the resignation of the President. It is understood that the president has turned down a lot of oil deals.

Branden dials the President

BRANDEN

Mr. President I think it's time.

INT. PRESIDENT'S OFFICE - DAY

Luxuriously decorated.

PRESIDENT

Mrs. Vice President I have good news for you. We have been offered the oil deal even on better terms now.

VICE PRESIDENT (V.O)

No. Mr. President refuse the deal. Abort I repeat abort.

PRESIDENT

Why? They are rioting they need food. Even if we don't accept he is going to sell to someone else.

VICE PRESIDENT (V.O)

Morally we can't accept.

INT. VICE PRESIDENT'S OFFICE - DAY

The Vice President glances outside.

VICE PRESIDENT

I need more money for the project.

PRESIDENT

Not a good idea public funds. If someone finds out we are finished. Was better if we made the oil deal anyone ask about the money we will say we bought the oil. Branden is on my back all the time.

Sighs.

PRESIDENT (CONT'D)

Last time you promised to show me the project but you didn't. I am the President shouldn't I know everything.

VICE PRESIDENT

This is my private project I have sole control.

PRESIDENT

I know but I pumped all the government money into this project.

VICE PRESIDENT

Borrowed money like a loan which I will repay back.

EXT. OUTSIDE - NIGHT

KAI, 26, drags his boat on the shoreline and set up a fire. He drinks his whiskey and grills his fish.

INT. BOAT - NIGHT

He returns. He starts dosing off. Noises awakens him up at night. Something has jumped into the water. He cast a slack-jawed face. A boy jumps into the water.

INT. TOWER - NIGHT

ELLIOT, 40, and DECLAN, 27, are manning the tower. A beep sound startles them, becomes audible and louder.

ELLIOT

What seems to be the problem?

DECLAN

I don't know sir some kind of malfunction on the detectors part. I am seeing unidentified objects that quickly vanish over the sea waters.

ELLIOT

Send someone to check.

EXT. OUTSIDE - NIGHT

A patrol boat with COAST GUARDS flashes lights everywhere. They soon notices Kai's boat.

COAST GUARD

This is the coast guard please
come out of the boat with your
hands up.

Kai emerges.

COAST GUARD (CONT'D)

Have you seen anything suspicious?

KAI

Not really apart from seeing a
small boy but I can't say for sure
I was drinking.

INT. VICE PRESIDENT'S OFFICE - DAY

Very busy morning until the anchorwoman catches her attention.

ANCHORWOMAN

A plane has been diverted back to
the airport after a passenger told
staff that she has seen a little
boy in mid air on the wing of the
plane. But no one else saw this
boy.

Professor enters the office.

PROFESSOR

We have an issue with the oil,
it's heavy. This is slowing the
process down.

VICE PRESIDENT

What do you suggest?

PROFESSOR

We have to have two teams one gets
the heavy oils first the other
gets the lighter oils and mix
these as we go. The final grade
will be alright. But this means
more delays.

VICE PRESIDENT

Risks of sightings and being shot
down?

PROFESSOR

Yes but we have to stick to the night plan.

INT. HOUSE -DAY

A family house looks abandoned until VICTOR, 35, opens the door. The POLICEMAN questions.

POLICEMAN

Can you think of somewhere else they might have gone, friends, relatives, holiday?

VICTOR

I don't know. They don't normally go on holiday this time of the year.

POLICEMAN

OK I think you can file a missing person report.

EXT. OUTSIDE - DAY

Beautiful sunny day. The small boy walks on the coastline. He stops and quickly reacts to the crude oil in the water. He looks into the water and sees the crude oil being absorbed into his legs. He stares at his image in the water and kneels down.

Minutes later he slumps down bloated and lies down eyes wide open. Later a body washes up on the shoreline. The boy wakes up to find the other boy's corpse being slammed against his body. The small boy unable to get up grabs the body of the corpse and stays there laying in the water.

At night steamy water escapes through the bloated boy and evaporates into the air. In the morning the once bloated boy was okay. The corpse now is shrunk and all the oil is gone.

The small boy observes the corpse. He shakes it. Tries to wake it up. Stay with him the whole day shake and trying to wake him up. At night the crude oil floats to where he was and finds himself bloated again and stays same place with the corpse.

EXT. OUTSIDE - DAY

The opening of the reservoir plant. A large crowd has gathers reporters among them ZEN, 35 and news channels.

VICE PRESIDENT

Ladies and gentlemen we have worked very hard in the past decades to make this nation a great nation. We face new challenges today many have voiced for a responsible government and we have done our best to achieve that. Today I will open the water reservoir that will help provide the much needed energy in the future.

ZEN

Mrs Vice President was it not easy and cost effect to just make an oil deal.

VICE PRESIDENT

Why did we stop gun manufacturing even when we were making a lot of money?

No one answered.

VICE PRESIDENT (CONT'D)

The oil is tainted with the blood of the local people. This project is ours forever.

ZEN

Where would you get the water to run the propellers?

VICE PRESIDENT

Yes the water. We are planning to build a water pipeline that goes all the way to the sea.

Bid applause for the Vice President.

INT. HOUSE - NIGHT

ROSE, 32 moved into her sister's house after she disappeared with her family. She has a boyfriend EZRA, 33, who moved in too.

The couple are watching television and a noise startles them. The noise was on the roof.

EZRA

Hello who is that? Gregor! Haile!
Luke! Anyone?

ROSE
Who is it?

EZRA
No one probably some birds.

INT. HOUSE / BEDROOM - NIGHT

The couple are fast asleep. A noise of the door being open startles them.

EZRA
Whats that noise?

INT. HOUSE / KITCHEN - NIGHT

A small boy is lying down in the kitchen absorbing oil. He is shaking and steam is coming out of him.

ROSE
Oh my God! It's Gregor! Carry him upstairs to his bedroom.

Ezra struggles to carry him.

EZRA
Something is wrong his temperatures is way high.

ROSE
Put more oil on him maybe temperature will decline.

EZRA
I think he is too heavy for his size.

ROSE
Get more oil quickly.

EZRA
Gregor can you hear me? Where is dad and mum?

More oil and then he stabilizes.

ROSE
Is that natural where is that all going? But somehow his temperature is getting low and the shaking has subsides.

The couple sat on the chairs and waits. He opens his eyes. He stretches his hand and touches Rose.

EZRA

He seem okay maybe he is in shock
he is not talking.

ROSE

I think he seems alright can we
wait until in the morning let's
see how he will be then.

EZRA

Lets take him in the bathroom in
case he will starts heating up
again. Bring the oil we can add
this to water as well.

INT. HOUSE / BATHROOM - NIGHT.

EZRA helps him walk into upstairs. He looks radiant when he sees the water. He jumps inside. Ezra pours oil and he simulates swimming deep.

INT. HOUSE BEDROOM - NIGHT

ROSE

I last saw him when he was a kid.

EZRA

Could be trauma that he is unable
to speak. Where are his parents?

INT. BUILDING - NIGHT

The sound of siren startles the professor.

PROFESSOR

This can't wait. We have a
security situation. I can't
understand what happened. Only
probably reason is that the
subject has been kidnapped or
captured of some sort.

VICE PRESIDENT

How is that possible you confessed
they are not friendly to humans?

PROFESSOR

That's what I thought too until this night. This one is way too far away from the target area.

VICE PRESIDENT

What could have happened? Any chance it's bloated again?

PROFESSOR

Highly unlikely. If it absorbs crude oil it doesn't move or fly. If approached the rule is to kill and escape. This one is among the people. Any publicity will be detrimental to the project.

VICE PRESIDENT

You must authorize retrieval and cleaning up promptly.

PROFESSOR

We have not even collected a tenth of the target volume. If something goes wrong I can't guarantee any thing. All the billions will be to waste.

INT. OFFICE - DAY

A couple have been found dead this morning. Somehow it seems that they have been shot dead. Earlier reports suggest that the deceased's sister and her family disappeared.

INT. HOUSE - DAY

A girl screams and ran in the bedroom.

PAIGE

Mummy there is a boy in the kitchen.

LUCY

It's Gregor.

MOLLY

What is with the oil mummy?

Gregor looks at Molly with a blank face.

LUCY

Gregor what is wrong? When did you come back? We thought you were dead.

Gregor gets up and went upstairs into the bathroom

INT. TOWER - DAY

SILAS, 22, and the others are manning the tower when constant beep goes off.

SILAS

Unidentified plane please identify yourself. I repeat please identify yourself. You are entering private airspace. You will be shot down if you proceed.

EXT. OUTSIDE - DAY

Jet fighters approaches the plane. The fighter jet plane spins to avoid collision with something travelling fast. The PILOT only saw the object at last minute.

PILOT

Wow! What was that?

SILAS

The object has disappeared on the radar did you take it down?

PILOT

Negative it disappears above us. It's flying at enormous speeds.

EXT. OUTSIDE - DAY

New faster models are unveiled at a ceremony among the guests is ABEL, 35.

PROFESSOR

I would like to take this opportunity to thank the Vice President. We are grateful to her unwavering determination and sheer power. Mankind would have not have witnessed something as miraculous as this. Ladies and gentlemen I present the new models.

VICE PRESIDENT

Thank you all for coming. In this new world, to survive you must go beyond the norm. This is proof that we are taking tomorrow seriously. We are building tomorrow, today. Thank you.

ABEL

Given the current circumstances that some of the subjects had been shot down over private space what guarantee is there that such incidents won't occur again?

VICE PRESIDENT

In the first phase the goal was to find the perfect extraction points. The first generation are primarily for research, for drilling and laying the foundation.

PROFESSOR

To add the new model is fast and cannot be easily cornered. The model is sophisticated. Can't be detected on the radar either. These can talk basic language

The Vice President smiles.

VICE PRESIDENT

Ladies and gentle I present to you TK.

A huge buzz fills the room.

TK

Hello, good to see you. I am TK.

ABEL

Since most of the crude oil is heavy to carry how are you going to achieve that in the specified time.

PROFESSOR

True oil is heavy to carry but over the years we have developed chemicals that makes the oil lighter without losing the value.

VICE PRESIDENT

The robots themselves process the oil before transportation.

EXT. OUTSIDE - DAY

Celebrations outside everyone applauds before from nowhere at lightning speeds a robot lands and starts to walk.

VICE PRESIDENT

Sneakiness, very fast and above all a sophisticated negotiating and processing subject, a human like robot.

The plane hovers above before a small boy lands.

TK

We meet again ladies and gentlemen.

Everyone perplexed.

PROFESSOR

We have developed a way that the robot will transport the oil itself and process it. The only problem is that he ends up using the oil himself.

ABEL

Naughty boy.

All laughs.

PROFESSOR

It's a fact TK requires a great deal of oil but we harmonized everything and increased carrying capacity. Tubes build inside him are separate from his system. He can compress and heat the oil and mix it with advanced chemicals to reduce it's weight.

VICE PRESIDENT

With more of the fast model by the end of the year we will have collected a quarter of the oil.

TK jumps into the air instantly and transform into a plane before shooting off.

INT / EXT. OUTSIDE - DAY

Brian is with Hosiah

BRIAN

I have an idea. All the receipts collected by your father have been delivered to the same location right?

HOSIAH

Right?

BRIAN

I think we should go abroad.

INT. HOTEL / ABROAD - DAY

Brian and Hosiah are abroad.

BRIAN

Word in town is that the delivery is on either Thursday or Sunday.

A hired car parks outside an air field. The whole night no landing. Next Sunday after two hours of waiting a private jet lands. Three SUVs parks. Brian and Hosiah takes picture. After the delivery they followed the cars.

EXT. OUTSIDE - DAY

A car parks outside a villa until the SUVs drives off.

BRIAN

Do you think the cases are left in the villa?

HOSIAH

Think so.

BRIAN

Shall we?

Stealthily the two men jumps into the Villa's yard. Outside a window they ducks and peers inside.

INT. VILLA - NIGHT

A half-naked woman rest on the couch. Brian points to the other window. He sneakily walks to the other window. Brian carries Hosiah and he looks through the window. A man is inspecting the boxes. He pulls a gun from the box and test

it and he aims at the window. Hosiah's instincts kicks in he ducks instantly causing Brian to lose balance.

HOSIAH

I thought he has seen me.

BRIAN

Highly unlikely. You can't see what's outside at night you can only see your reflection. Let me look inside.

Another man enters and the two men left. Brian sees an open window.

BRIAN (CONT'D)

I am going in. Help me get in.

HOSIAH

Are you sure about this? I think it's dangerous.

BRIAN

Don't waste time, we came all the way here, without a sample it will be hard to prove.

Brian enters the villa. He stealthily crawls to the guns and checks the labels. He gets one gun and hands to Hosiah. He lets out a loud scream one leg still stuck in the villa. A large black dog bites his leg. Hosiah points the gun at the dog and pulls Brian out.

EXT. OUTSIDE - NIGHT

Hosiah pushes Brian over the wall and threw the gun over.

HOSIAH

Get up! Get up! Get up! Brian let's go.

The sound of the barking dog startles him. On top of the wall the dog viciously jumps to bite his leg. He falls over the wall. He gets up and sprints following Brian. He looks backward. A man points a gun at him. He trips and falls to the ground. Scared he stares backward. The man is advancing aiming a weapon.

INT / EXT. CAR - NIGHT

Brian starts the car and seats in the passenger seat. Two men and the dog advance. Hosiah quickly jumps in the car. He reverse as fast as he can. The three man stops and aims.

Hosiah swerves the car and quickly turns. Bullets smashes the wind screen.

HOSIAH
Brian! Oh no!

Hosia tries to stop the bleeding while driving.

EXT. OUTSIDE - NIGHT

The three men ENOCH, 34, SYDNEY, 48, TERENCE, 40, aims guns and fires the dog next to them barks hysterically.

ENOCH
Boss. Who are they?

SYDNEY
Petty thieves I guess. They stole my gun.

TERENCE
Just surprised they got away all those rounds? Maybe chase after them?

INT /EXT. CAR - NIGHT

Hosiah drives fast, checking rear view mirror if being followed. Brian slumps next to him dead with a stolen gun on his lap. Soon he notices a tail. Scared to be shot he swerves left to right. He changes gears very fast. The back screen all shattered. Quickly grabs the gun and checks for bullets.

HOSIAH
Damn it! No bullets.

A junction ahead. He checks at the back an SUV is approaching fast. He changes gears fast. Full speed tries to beat the lorry. Manages but send another car crashing. The lorry blocks the SUV for a while. Soon after the SUV catches up. The SUV bumps on his car, his jerks and out of the road. He gets back on the road. The SUV passengers sprays bullets. To his side he saw a train parallel to the car. In front was a level crossing flashing the warning lights. A quick check in the rear mirror and stepping on gas. Quick glance at the train, at the level crossing and in the rear view mirror and again. Boom he just manages to cross. The SUV on full speed then harsh brakes, skids to a stop just before crossing barrier. Train passes. He enters the plane with the gun. Leaves the car and Brian at the airport.

INT. HOTEL ROOM - DAY

A man sits down and watches the news.

ANCHORMAN

In a surprising turn of events the weapons making company has had their license revoked, It apparently came to light that over the past years despite court orders they were still making guns for exports and selling abroad.

EXT. OUTSIDE - DAY

A limousine parks outside. LIANA, 32, a reporter walks to the limo.

LIANA

Miss Vice President what do you say about the latest development. Do you think that this has been going on for years behind your back?

VICE PRESIDENT

We took a stiff stance and fined the weapons manufacturing company just to show how we are serious about this. Their licence has been revoked as well. We have set up a task force that will look at this into more detail.

INT. OFFICE - DAY

Vice President sighs.

PRESIDENT

Will people say that you turned a blind eye so that you can trap the people and collect fines.

VICE PRESIDENT

We need the money we don't care what the people think about that.

PRESIDENT

Shouldn't I be involved also with the project since I provided all the loans?

VICE PRESIDENT

Better for you to distance
yourself from the project if
anything goes wrong your
credibility will still be intact.

EXT. OUTSIDE - DAY

A boat is parked in the water and a man wanders around carrying a bucket of water. He scans the area. He collects crude oil. He sees a lot of dead birds and wildlife all covered in crude oil. He sees a skeleton in the waters. Something emerges from the water. Rushes downstairs, collects binoculars and looks around. A boy instantly jumps into the water.

He starts his boat and drives to where the boy was but he has vanished. He noticed a lot of oil in the water.

Midday in a swimsuit jumps into the water with an oxygen mask. Deep into the water. He hears a plane, then something jumping into the water. He follows the oil trail deep down. A big hole in the ground. The place dark. He crawls inside. Instantly something comes out of the hole at enormous speed crashing into him carrying him to the surface. He floats on top of the water dead. All water turns into red.

EXT. OUTSIDE - DAY

A girl, LILY, 8 left her family house, strolls in the park. Prunes flowers and sings as she dances. Abruptly she stops and looks at a small boy, JT, in front of her. His eyes closed. Oil leaks from him. The girl runs back in the house. He brings a boy with him. The boy, JACOB, 12 kneel by him and inspected the boy.

LILY

What is wrong with him? Is he
going to be okay?

The crude oil keeps leaking.

LILY (CONT'D)

Ew Yak! What's that?

JACOB

Looks like black oil. I think he
is hurt. Maybe we should call for
help.

The small boy twitches and opens his eyes.

JT
 (repeats)
 Ew Yak! What's that?

Jacob and Lily laughs.

LILY
 He is mine I found him first.
 Let's take him inside the house.

Jacob tries to carry JT but was too heavy. Jacob ran inside the house to call for help. Lily stays with JT.

LILY (CONT'D)
 So, what is your name?

JT
 Hello pleased to meet you. I am.

LILY
 You are?

JT
 Ew Yak! What's that.

LILY
 Who?

JT
 I am JT

LILY
 Where is your family JT? Where are your parents? Do you have brothers and sisters?

A strong wind gathers above lifting up all leaves. Lily covers her eyes. She opens her eyes, two more small boys were in front of her. The boys carries JT and disappears.

LILY (CONT'D)
 No!No! No! He is mine. Don't take him. JT come back.

Jacob sprints and arrives.

JACOB
 What happened? Where is he? Where did he go to?

Lily twist her mouth and points into the skies.

INT. LAB - DAY

JT lies on the table and the professor examines his damage. A door suddenly opens up.

VICE PRESIDENT
What kind of incident is it
professor?

The professor points at the oil leaks.

JT opens his eyes.

JT
Ew Yak! What's that?

Professor and Vice President threw each other a quick glance.

VICE PRESIDENT
What does that mean?

PROFESSOR
Mrs. Vice President. I think he
had been in contact with some kids
nothing to worry about.

VICE PRESIDENT
What do you mean?

The professor retrieves cables and plugs into JT.

The video shows JT going into the water. Deep inside and extracting oil before flying at enormous speed. At the hole entrance he collides with a man but still managed to fly later slumping down. Then the girl and the boy talking to him.

VICE PRESIDENT (CONT'D)
So he records everything. Why was
I not informed about this?

PROFESSOR
Just a trial project. He only
records when there is an impact.
It's an impact sensor. Any
collision, fighting, aggressive
handling will activate the
recorder.

INT. PRESIDENT OFFICE DAY

Instantly the President flicks the remote.

ANCHORWOMAN

In the neighboring countries sightings of an alien had been witnessed in recent weeks. Locals claim that an alien that looks like a small boy has been sighted near the coast and seen flying.

INT. VICE PRESIDENT OFFICE - DAY

The Vice President stands at the window the television is on. She turns around and watches the television.

ANCHORMAN

The country and the world has been fascinated about the story of this young girl called Lily who claimed to have seen the alien. Hear it from herself.

Turns around and looks at the girl.

ANCHORWOMAN

So what happened?

LILY

I found him when I was singing looking for flowers. He was bleeding black oil stuff. I ran home and called Jacob but he couldn't carry him he was heavy.

ANCHORWOMAN

So did he say anything to you?

LILY

Yes! Yes ! Yes! He said Ew Yak What's that repeating after me.

A knock at the door startles the Vice President.

PROFESSOR

Can I send the cleaners?

INT. BUILDING - DAY

A very tall sexy lady, AMANDA, 28, with gun and rose tattoos on each thigh enters a huge building. At the reception is HINKS, 47.

HINKS

Woo is that you Amanda?

AMANDA

Still same me Hinks, it's a shame
you haven't got that face lift
done yet I could now be going out
with you. You know.

HINKS

Pass I am already taken.

Amanda strolls past.

EXT. OUTSIDE - DAY

A woman in a red short dress in high heels falls to the ground. She looks behind. Her eye's massacre messed up. She gets up swiftly and tries to run but falls. She screams for help. Her knees were bleeding. She slumps to the ground touching her bleeding knees. Two boys ran after her. JT aims at her. The woman fell to the ground holding her shoulder. She looks behind her but the boy disappears. She screams and look upwards. The boy was upside hoovering in the air. Swiftly he drops down and grabs her by the neck and lifts her up in the skies. She wriggles in the air. She looks down but JT looks in her face.

JT

Ew Yak. What's that?

JT changes into a small plane. Amanda falls down.

EXT. OUTSIDE - DAY

The CEO CHADWICK BLINKS, 47, enters his car. STEVE, 34, runs after him and hands a folder.

CEO CHADWICK

What are the results.

STEVE

Oil reserves figures are way too
low than they should be. Something
is going on.

Chadwick opens the file and looks at the figures. In a queue he looks at the figures. The driver behind blast the horn. On a stretch of road. His car runs over something. Emergency brakes and the car skids in the road. He sees an animal dying. He sighs and gets back. He looks in the rear view mirror and sees a boy. He gets out again. The boy is gone. He gets back into the car. The ringing phone startles him.

CEO CHADWICK

Yes, Steve did you find out the probable reason?

STEVE

I think the lost volume can be attributed to initial inaccurate readings. There is no way that the oil could have disappeared without anyone noticing.

CEO CHADWICK

Alright thanks I will talk to the board tomorrow.

Someone jumps on the roof of the car. He checks in the rear-view mirror. That boy again. In front of him another boy. The boys jumps upward and disappears into the sky. At a crossing he stops his car. The train approaches. The CEO looks everywhere . Few seconds left his car is lifted into the air and pushed in the rail tracks. He tries to open the doors he had locked. Few seconds from impact he sees the boys hovering in the air.

EXT. OUTSIDE - DAY

A car parks at a filling station. A man refills but fuel runs out.

INT. OFFICE - DAY

DEREK, 34, enters the filling station the CASHIER, 27, smiles at him.

DEREK

Hey are you running out of petrol or what? Why are your pumps empty?

CASHIER

Not sure why the meters are that. We should have delivery yesterday.

EXT. OUTSIDE - DAY

A DRUNKARD dawdles in the streets. He looks around and stops. He takes out a bottle of whiskey and drinks. He threw the bottle away and staggers home. Half way he stops. He touches his neck, head and sniffs his hands.

DRUNKARD

What ? Gasoline? Where is it coming from?

He looks upwards. He staggers and falls down. He look upwards and sees a tanker floating upward. He crawls away.

INT. OFFICE - DAY

A huge office and EVANS, 50, is in the office.

KALTON, 23, enters.

KALTON

Sir I have been recently working with the chemical engineers and the scientists. For unknown reasons the API of the oil coming out now is less than 10*.

EVANS

How bad is it?

INT. CONFERENCE - DAY

The conference is fully packed among them STACY, 23.

EVANS

Ladies and gentlemen I called this emergency conference meeting I understand all of you are aware of the situation we are in. I want to know the problems first hand.

STACY

Costs will out weight any gains from extractions and processing.

EVANS

What is the worst scenario?

STACY

Closing down.

INT. HOUSE - DAY

Derek watch the news.

ANCHORWOMAN

In an unprecedented turn of events the oil refinery and production has announced that it will close the extraction part and reduce scale of operations. Thus panic buying has meant long queues all over the country.

INT. OFFICE - DAY

Relaxed atmosphere.

PRESIDENT

Mr. President have you heard the news?

VICE PRESIDENT

Not really.

PRESIDENT

Soon there will be an oil war. Cost of production everywhere has meant reduced production. You choose water even us we will run out of oil.

VICE PRESIDENT

I must admit it was a missed opportunity.

EXT. OUTSIDE - DAY

The oil refinery had been closed as extraction had stopped but a few remained refining the already extracted oil, among them DENIS, 38 and TITO, 35.

Tito swiftly harsh brakes sending the car narrowly missing a boy in the road.

TITO

Damn! What is that kid doing in the middle of the road? Nearly killed him.

The two men get out and approaches the body.

DENIS

Are you okay? Are you hurt in any way?

Tito rubs the boys hair. The boy flips upwards and hovers in the air upside down and instantly grabs Tito's head.

DENIS (CONT'D)

Put him down we didn't see you.

Tito wriggles in the air. Denis runs and jumps into the car. He was about to drive off when Tito's body falls on the windscreen, dead. Denis wakes up in the air floating.

DENIS (CONT'D)

Put me down right now. Who are you? What do you want?

He looks around and discovers the boys were many and he was now floating on top of the coastal water. Instantly at speed the boys takes him down into the water.

INT. PUB - DAY

The drunkard enters the pub. Inside is MATT, 33, and BAR STAFF, 37.

ANCHORWOMAN

A lot of people have gone missing in the last month. Than in previous two years combined. Most suggest that the fuel shortages and expensive cost of living.

DRUNKARD

Soon all of us will be gone. I knew it. I told these people this was going to happen but no one listens. This is the end of the world.

MATT

You must be joking. Why is it every time we run out of a commodity everyone starts saying that it's the end of the world?

DRUNKARD

(leans close to Matt and whispers)

Aliens are abducting people if you ask me.

BAR STAFF

What on earth made you say that? Maybe I should take that beer away from you.

DRUNKARD

Just last week when I was going home I saw a petrol tanker flying in the air.

MATT

This guy make me laugh. A flying tanker. That's a new one. What have you been drinking?

DRUNKARD

You too don't believe me. I swear
the petrol tanker was flying.

The bar staff drops down laughing.

INT. HOUSE - DAY

RAY, 38 and VELVET, 33, are sat on the diner table. Ray looks outside and sees a small boy outside.

RAY

There is a boy outside come and
see.

VELVET

Just a kid. Probably he kicked
his ball in our yard, you might
have left the upstairs television
on.

RAY

Maybe he is watching the
television.

Later Rays checks the boy but he was already gone.

EXT. OUTSIDE - DAY

Ray is driving home when he sees a boy in the middle of the road. He swerves and lost control hitting the tree. He sees the boy coming to him in the rear-view mirror. He staggers outside.

RAY

Hey are you OK? I didn't see you
until the last minute. What are
you doing here anywhere?

The boy jumps upwards and upside down hovers in the air. Ray sprints for his life. The boy chases after Ray. A car approaches from behind. The stops in the air hovering upside down. Ray stops in the middle of the road. Tries to stop the car. The female driver stops and gets out but the boy appears from nowhere and hovers above. The boy retrieves a gun and shots him at point blank. He falls to the ground. The other boy picks him up and he disappears with him.

INT. PUB - DAY

The pub is busy now the drunkard has left. Matt picks up the phone.

MATT

Just curios did you have any delivery that was due but didn't turn up in the past few days?

VOICE OVER

Hold the line. I will pass you to the manager.

MATT

I was wondering if you had a missing delivery that never turned up?

VOICE OVER

We had one but we got a replacement, they said that it might have broken down on the way.

INT. OFFICE - DAY

Vice President looks outside.

VICE PRESIDENT

Ladies and gentlemen. I have called you today so we move forward with our plan. I want to know everything that can affect the plan before we move forward.

Pauses and stares at everyone.

VICE PRESIDENT (CONT'D)

We must move forward as planned. I know it's way early than planned but for some unforeseeable circumstances after speaking to the professor and other interested parties. I have made this decision to go ahead.

PROFESSOR

I am convinced that phase four can commence.

VICE PRESIDENT

I think the number of the subjects requested for this phase is too high to cope with the resources currently available.

VICE PRESIDENT (CONT'D)

(to the President)

I have been thinking. I think it's time we make the oil deal. Soon prices will rocket. Production worldwide has reduced and even stopped in some countries.

PRESIDENT

We have to find out if they are still interested.

EXT. OUTSIDE - DAY

CURTIS, 39, sits outside smoking. He scans the skies. Instantly he hears a huge thump, behind him. He turns around. A small boy stands there.

AMELIA, 34, comes outside to smoke.

AMELIA

Why you look like you have seen a ghost?

CURTIS

I don't know what is going on. At one point. I thought I was losing it. I saw a boy but he vanishes.

AMELIA

Probably too much time reading aliens stories.

INT. HOUSE - DAY

Amelia couldn't sleep.

CURTIS

What's wrong?

AMELIA

I need something to drink.

Amelia went downstairs. She enters the kitchen.

AMELIA (CONT'D)

Ha!

She screamed. A boy is lying on the floor with oil all over the floor. She runs back upstairs.

AMELIA (CONT'D)
Darling wake up there is an alien
in the kitchen.

The couple runs downstairs.

AMELIA (CONT'D)
What shall we do maybe we should
call for help.

CURTIS
Maybe it's a real boy.

AMELIA
A real boy who absorbs oil? I read
that aliens takes the form of
humans as well.

CURTIS
Go and get my gun.

Amelia breathes heavily and returns with the gun. Curtis touches the boy and wakes him up slowly. The boy opens his eyes and scans the area. The boy scans the kitchen until the tape. A droplet forms on the tape. As it drops the boy watches. The boy hovers up and moves upside down to the tape water and opens the water.

Curtis points the gun. The boy vertically up but upside down looks at Curtis and Amelia.

AMELIA
Put the gun down. If he wanted to
harm he could have done it
already. Think the time it gets
for help to get here. We will be
dead by then. Try to talk to him.

CURTIS
He is not human, aliens can't
speak. I say we just leave.

AMELIA
Is he the boy you saw earlier on?

CURTIS
I think so. I didn't see clearly.

AMELIA
Maybe he wants something from you.
Maybe it's God giving us our son
back.

CURTIS

Don't start Amelia. I told you not to talk about my son. We must move on.

AMELIA

Darling what are the chances of something like this happening. Let's try to talk to him.

Curtis and Amelia goes upstairs. The boy is fully submerged into the water. He opens his eyes and looks at the couple. Curtis touches the water. Its now hot. The boy is still overheating. Curtis runs to the kitchen and get oil. He pours all. After a while the boy stops fidgeting.

CURTIS

Oil seems to have made the magic.

AMELIA

What is your name?

JT

I am JT I want oil.

AMELIA

Oil!

CURTIS

I will be back darling. I got to go and get more oil.

EXT. OUTSIDE - NIGHT

A car leaves the house and speeds off. Later Curtis returns with oil.

INT. HOUSE - DAY

The door suddenly opens.

CURTIS

Darling I am home.

He opens the bathroom. JT is still in the water. Swimming.

CURTIS (CONT'D)

Where is Amelia?

He runs upstairs looking for Amelia.

CURTIS (CONT'D)

Amelia! Amelia!

Curtis returns back to the bathroom.

CURTIS (CONT'D)
Where is Amelia? What did you do
with her. Answer me or I will kill
you.

JT looks around and then at Curtis.

JT
Oil. I need oil.

OK I give you oil first where is Amelia.

JT (CONT'D)
I take oil. Need oil. Hot.

Curtis pulled the gun and a shot is fired instantly. Water starts dripping out through the hole. Curtis looks up but JT has disappeared. He turns around and JT is outside the door hovering in the air upside down. Water drips down onto the floor.

INT. KITCHEN - NIGHT

JT is in the kitchen fat extracted bodies are next to him. He is absorbing the oil through the tube on his naval. He touches the body's and instantly the body vibrates and oil drips out. Steam fills the whole kitchen. JT the small boy robot smiles.

JT
Oil. Oil. Oil.

Curtis eyes looks like fried fish's.

INT / EXT. CAR MOVING - DAY

GEMMA, 32, is driving the car. At the back seat is her daughter GETRUDE, 4.

GETRUDE
Mummy can you buy me a frog. My
teacher brought one to school
yesterday. I like it.

GEMMA
But last time you told me that I
should buy you a barbie now you
want a frog.

GETRUDE

I want both, I think a frog is
very funny.

A boy suddenly appears in the road. Gemma slams the brakes. She gets out goes to the rescue. Lifts the boy then drives to the hospital.

INT. HOSPITAL - DAY

The boy disappears. The DOCTOR, 47, walks to the wards. The wards are all empty.

DOCTOR

Where are all the patients?

INT. HOUSE - DAY

Gemma watches the news.

ANCHORWOMAN

Doctors and nurses were left baffled after they came to the hospital to find wards nearly empty. No one knew where all the patients went. One of the patients insisted that an alien was taking the patients. We have tried to trace a few patients with no luck. Relatives accused the doctors of killing their relatives. To make things worse even the mortuary has been emptied.

INT / EXT. CAR - DAY

An SUV cruises on the road. Inside is CAROLINE, 26, DOREEN, 25, ESTER, 27, ALYSSA, 27, HAYLEY, 26. On a camping trip on the coast near the oil refinery.

CAROLINE

Girls aren't you scared about all these abductions and all these aliens stories?

ALYSSA

Honestly I think it's all a hoax. I wouldn't pay too much attention to that.

Later Alyssa harsh brakes and stops the car.

ESTER
Why are we stopping?

ALYSSA
I thought I saw a boy sitting over
here. This is the second time now.

DOREEN
He could be an alien.

Holds Hayley's shoulders and giggles.

EXT. OUTSIDE - DAY

The coast is quiet.

DOREEN
This is proper winding down, great
scenery and plenty of fresh air
unlike in the city.

HAYLEY
Just imagine if you were free as a
bird, you could fly anywhere in
the world, visit any places you
like and return the same day.

CAROLINE
Look over there since we have been
sitting here I think I have seen a
bird fly in and out of the water
several times.

ESTER
What bird?

HAYLEY
Look far over there on the sea
waters.

EXT. SHORELINE - DAY

They enjoyed the day at the shoreline. Later they see a
small boy in the water.

ESTER
Are there people who live around
here?

HAYLEY
I think so otherwise what would a
boy his age be doing on his own
here.

Alyssa looks through binoculars and shouts.

ALYSSA
What was that?

CAROLINE
Looks like a small plane.

The skeleton on the beach spooks them.

HAYLEY
Maybe we should go back.

A sudden noise startles them. Something jumps into the water and instantly goes up.

CAROLINE
The sound is like a plane sinking.
Better be going.

DOREEN
Is that a merman, or a mermaid?

ESTER
Maybe alien.

ALYSSA
Let's go back.

INT. CAMPING HOUSE / BEDROOM - NIGHT

The crackling noises as if someone was trying to open the door startles the girls.

Alyssa gets up and walks to the window and looks outside.

ALYSSA
That boy is outside come and see.

DOREEN
He looks like a real boy.

ESTER
Aliens imitate humans as well you know.

HAYLEY
Stop scaring people there are no aliens.

CAROLINE
So, if they are no aliens why are you scared to open the door? Maybe it's a boy in need.

DOREEN

Don't open the door Hayley. I am scared.

The boy drops on the floor and starts shaking.

HAYLEY

What shall we do girls? Aliens don't do like that. Maybe it's a real boy who need our help.

ALYSSA

Not a good idea . He is the same boy I saw earlier. How did he arrive here?

DOREEN

Let's find what he wants.

The girls walks toward the boy. They tried carrying him but he was heavy.

JT

Oil I need oil.

HAYLEY

Oh he can speak he is no alien.

He keeps shaking.

JT

Oil I need oil. Quickly.

The boy touched Doreen and she started shaking and steam comes out of her body instantly oil starts dripping off.

The girls horrified starts hitting the boy.

JT (CONT'D)

But I need oil.

The boy then pulls a gun and shot one of the girls. The boy lay next to the girl and extracts oils after frying the body. After a while he touches the other girl and she starts frying too. Oils drips out and the boy absorbs the oil.

INT. CAR - NIGHT

Caroline, Alyssa and Hayley jumps into the car and drives off. Smoke starts coming out of the bonnet on the road. The car jerks before it comes to a halt.

HAYLEY

What is the problem why are we stopping?

ALYSSA

I think he took the oil from the car.

CAROLINE

Maybe we should stay in the car just lock the doors.

ALYSSA

I think we should keep ongoing on foot. We might get a lift from someone else. We stay here we will all die.

HAYLEY

But that's too far who can give us a lift?

ALYSSA

There is an oil refinery we can ask for help there.

EXT. OUTSIDE - DAY

They sprint to the oil refinery until they reach a cross road.

ALYSSA

The road to the refinery is darker than the other road maybe just go ahead.

HAYLEY

No we came all here so lets go to the refinery. Even if it's dark we will get there anyway.

They walk the dark road to the refinery. They instantly comes across shinning eyes in the dark. A group of boys hoovers up in the air. The girls sprint away.

ALYSSA

Run Hayley, run Caroline.

Hayley fell and Alyssa returned and picks her up. They reach the cross road. Tears of joy as headlights of a car approaches.

ALYSSA (CONT'D)

Hayley, Caroline look.

CAROLINE

A car let's stop it and get a lift.

The girls jump up and down stopping the car.

CAROLINE (CONT'D)

Look out!

The car knocks down Alyssa and instantly kills Hayley. Shock and in disbelief. Caroline kneels down. Instantly a buzz from above startles her. The boys hovers above her. Up side down flying up and down hovering everywhere.

Alyssa lays in the road bleeding to death. The boys all landed on her and drains oil. They touched her and she starts cooking. Caroline gets up and runs to the refinery. Hayley limps and follows.

A swarm of boys hovers above them. They duck. They saw a car floating in the air carried by the boys.

INT. HOTEL - DAY

Matt is watching the news.

ANCHORWOMAN

Footage has been released showing strange birds many feet high circulating in the skies. Experts are saying no birds will fly that high got to be aliens.

EXT. ARMY BASE - DAY (OTHER COUNTRY)

A lot of soldiers and vehicles outside. The soldiers are marching in a straight line.

INT. OFFICE - DAY

The GENERAL enters the office the SERGEANT is in the office.

SERGEANT

Yes General how can I help you.

GENERAL

There has been some strange activity in the skies recently or should I say we have recently noticed this.

SERGEANT

What I don't understand is this;
is this the same picture that has
been taken several times?

GENERAL

That's what we thought too. The
truth is that all these images
were taken at different times and
different days.

SERGEANT

What kind of birds feeds from one
area all the time? What do you
know about the area?

GENERAL

Good rich place for birds to look
for food. Only that the activities
have intensified a lot recently.
Maybe it's worth checking out.

SERGEANT

Jurisdiction issues we will need
permission to go in that area.
Until I get authorization. I would
suggest you don't send anyone
there.

GENERAL

What if I am going on a vacation?

SERGEANT

At your own risk nothing to do
with me.

INT. LAB - DAY

Door opens the Professor is watching a video.

VICE PRESIDENT

What does the image of the birds
has to do with our project. You
said that this has something to do
with the project. I am very busy
and when you know what you are
doing then come to my office.

The Vice President storms out.

PROFESSOR

Mrs. Vice President just a few
minutes just look.

VICE PRESIDENT

What?

Gobsmacked.

VICE PRESIDENT (CONT'D)

What there hell is this? How is that possible?

PROFESSOR

Shocked myself. There are huge implications of this.

VICE PRESIDENT

Did you program them to do that?

PROFESSOR

No I mean they are programmed to learn , adapt and imitate good things.

VICE PRESIDENT

What are you saying? Are they imitating the birds?

PROFESSOR

I just write the program the rest it's up to them, they imitate things they are in contact with.

VICE PRESIDENT

This is all over the news and I don't know about this? What are the implications to the project?

PROFESSOR

Huge. Time and resources. They are spending more time now in groups flying than with extraction of oil and they are using oil to fly all the way up there. There is competition between you and the them now.

VICE PRESIDENT

Can this be corrected?

PROFESSOR

Maybe re-write the program. But it might not work. It's evolution time. When fully evolved they might challenge us.

VICE PRESIDENT

What can we do?

PROFESSOR
Move to stage five. We have no
option.

INT. HOUSE / BASEMENT- NIGHT

CINDY, 28, opens the door and a dog runs after Matt.
Basement has state of art equipment.

CINDY
Don't worry about the dog. What
did you bring me?

MATT
Not sure what it is, can you look
at this. The pixel are not good it
will be hard to get a clear image
on this.

CINDY
So what's with this footage you
think these are not birds?

MATT
Aliens maybe?

Cindy laughs.

INT. HOUSE - DAY

The computer is on standby.

MATT
Cindy! Cindy! Come take a look at
this.

Sprints upstairs. The door is open. Cindy is on the floor
cooked and the floor is glimmering with oil. Sprints
downstairs, the dog is cooked too and drained as well.

EXT. OUTSIDE - DAY

He sprints to the car and instantly feels pain. One of the
boys has bitten him hard. He groans. They all hoovered
above him upside in the air looking at him. They all free
fall and grabs him up fighting among themselves.

INT. TOWER - DAY

Everyone, TOWER STAFF are busy. CAPTAIN'S, 49, crackling
voice startles everyone. The CO-PILOT, 46, looks on.

CAPTAIN

We require emergence landing under
bird attack engine one possible
failure.

TOWER STAFF

What seems to be the problem?

CAPTAIN

Under bird attack.

INT. PLANE - DAY

AIR HOSTESS enters cockpit.

AIR HOSTESS

One of the passengers said that
she saw a small boy outside the
plane on the wing.

CAPTAIN

At this altitude I don't think so.
Go and sit down we are preparing
for emergency landing.

The plane starts vibrating and a boy hovers in front of
the cockpit window upside down folding his legs.

CAPTAIN (CONT'D)

What the hell is that?

Engine one and two failed and the vibrations increases. A
swarm of boys circles the plane. When the plane was over
the sea the boys disappears.

CAPTAIN (CONT'D)

Where did they go?

Emergency alarms activated.

AIR HOSTESS

What is going on?

CAPTAIN

We are losing altitude fast. All
the controls not functioning.
Seems we being dragged down.

Moments before plane sinks a boy appears in front of the
plane upside down and hovers. The captain and the co-pilot
glances each other.

INT. TOWER - DAY

TOWER STAFF
We have lost flight X. It just
disappeared from the radar.

TOWER STAFF 2
Any distress calls.

TOWER STAFF
Yes they reported engine failure.

TOWER STAFF 2
They disappeared over the waters.

TOWER STAFF
Guess so.

EXT. HOUSE - NIGHT

A man comes out and starts to smoke. A dog starts barking. He looks upward. A lot of small birds circulating the house way up in the sky. The man calls the dog and was about to go inside when the birds free fall. Instantly he looks up just in time to see the small boys grabs his head. They lift him up. They fight roasting him before landing on the roof and drains all his oils. YANKA, 32, comes out.

YANKA
Alfred! Alfred! Where are you?
This is not funny. Come out.

A drop of hot oil drops on his forehead.

YANKA (CONT'D)
Aw what's that?

A sudden huge buzz on top of the roof. The small boys hovers and descends to him pushing each other.

YANKA (CONT'D)
What the fuck?

When the dog sees him it stops licking it's leg, sit gets up and starts jumping up and down barking.

YANKA (CONT'D)
Go, Husky get them boy. Go.

INT. OFFICE - DAY

Busy as usual.

VICE PRESIDENT

Why the plane we are in the oil business? What is going on professor?

PROFESSOR

What we feared. Evolution. Refined human oil, easy to absorb and no side effects.

VICE PRESIDENT

You mean all these people are for food?

PROFESSOR

Oil. Mrs. Vice President.

VICE PRESIDENT

Oil. Extinction of humankind. I thought we are dealing with robots not some genius human beings.

Watch this maybe you will see the big picture.

They watch footage of the robots feasting.

VICE PRESIDENT (CONT'D)

I don't believe this I asked for robots that can extract oil and not some hungry carnivores.

PROFESSOR

It's not the flesh they are after it's the oil. They have evolved they don't see the reason why they should extract oil the whole day. They spend time in the air using the oil.

VICE PRESIDENT

So are you saying that they no longer need crude oil.

PROFESSOR

Seems so for the mean time. Plenty of humans. So your oil is safe.

VICE PRESIDENT

Can you still command them? I might actually use them to achieve my other agenda.

PROFESSOR

What do you have in mind?

INT. PRESIDENT'S OFFICE - DAY

Busy atmosphere.

PRESIDENT

What a pleasant surprise. I was just thinking about you.

VICE PRESIDENT

Thank you. Mr President I have business to talk about. I need your approval to initiate phase 7.

EXT. OUTSIDE - DAY (OTHER COUNTRY)

A ball of fire. SOLDIERS run towards the place with guns. A jet fighter has crashed. The PILOT has sent distress signals. Country is on alert news spread of alien attack. The soldiers crawl and finds the pilot

SOLDIER

Are you okay?

PILOT

My leg I think it's broke.

SOLDIER

I mean who attacked you?

Petrified the pilot looks around.

PILOT

Let's go it's not safe.

SOLDIER

Don't worry we are here. Who attacked you?

The pilot looks up in the skies and points.

The soldier whisper's to another soldier.

SOLDIER (CONT'D)

I think he is hallucinating he is suggesting that the birds attacked him.

The soldier laughs mockingly. The pilot keeps looking around. Other soldiers arrived and all cast eyes into the sky.

SOLDIER (CONT'D)

What did they say the people in the tower?

SOLDIER 1

They said that he sent a distress
call, alien attack.

PILOT

Aliens up there!

One soldier takes a gun and fires in the sky cursing. The
swarm up in the air disperses and forms a circle.

SOLDIER 1

For sure they are not birds. Take
cover they are coming. Open fire!

All soldiers ducks. The aliens hovers above, the soldiers
opens fire. The aliens flips side to side and they lock
down all the positions of the soldiers then descends for
the kill. Swiftly they descend and shot all the soldiers
except the pilot. The other set of soldiers arrives but did
not find any trace of the first soldiers. Soon after they
were all killed and carried away.

INT. HOUSE - DAY

A man drags a large box into the living and opens it. He
picks up a gun and cocks it.

ANCHORMAN

Panic and chaos have spread all
over the city. Long queues have
been forming all day. This time
it's the gun shops that are
flooded unlike last months when
people were after food. When faced
with such a situation mankind
resort to buying guns. But many
had flooded the airports taking
the first flight away from this
and fear spreads among the locals.

EXT. BARRACKS - DAY

Soldiers are matching forming queues. They form lines
before getting to a military van. Once it's filled the van
departs, they wait for another van to arrive. PRIVATE
CADEN, 17 removes his helmet and looks inside and takes out
a picture of his mother and looks at the picture. Across
him is another soldier. He looks confident and relaxed. He
stares at the young soldier and senses fear. He looks at
the badge name and touches the young boy's shoulder.

INT. BARRACKS - DAY

PRIVATE DEANS, 18, is in the dormitory. He has panic attacks. He has a brown bag on his mouth. He sit down. The doors suddenly open.

PRIVATE ERNEST

Deans let's go.

The soldier takes his stuff and runs out.

INT. PRESIDENT'S OFFICE - DAY

Vice President flips the remote.

ANCHORWOMAN

The nation is on alert and going to embark on a war with the aliens. These aliens occupied their land. The President informed the nation that he had used his Presidential powers to declare a war against the aliens. The leaked footage shows the aliens circulating up in the skies

VICE PRESIDENT

I need your approval straight away. Those are my subjects. If any get caught we are doomed. They all have serial numbers all linked to us.

PRESIDENT

So that boy at the window too and those boys yours?

VICE PRESIDENT

Yes. Mr. President all mine.

PRESIDENT

I don't see the problem let them fight for you. I never thought about that. So, what do you want? Mrs. Vice President.

VICE PRESIDENT

I need your approval so that I can start phase five.

PRESIDENT

What is this phase five?

VICE PRESIDENT

Phase where our military capabilities are highly developed. I need authorization to command the soldiers in this phase. This is for our own national security.

PRESIDENT

I am here and I am the President if anything happens I will be responsible for executing orders.

VICE PRESIDENT

These subjects are less advanced than the phase five subjects. These are not made for war.

PRESIDENT

So, you want to start a war?

VICE PRESIDENT

Not starting a war Mr. President but defending what is rightfully ours. They are my boys. I can't let them get killed. No.

PRESIDENT

So, in this world of yours am I in there and who am I?

VICE PRESIDENT

The President still. These subjects are now our future soldiers I want you in our future world.

PRESIDENT

Where do you get the balls to do all that? Sometimes I wonder Mrs. Vice President. I will approve phrase five with immediate effect.

INT. SHOP - DAY

A woman stops and starts to watch the news.

ANCHORWOMAN

The country is preparing for a war. It became apparent that an undisclosed number of soldiers were killed by the aliens

EXT. OUTSIDE - DAY

The general is addressing the soldiers. The LIEUTENANT is with him.

GENERAL

We have increased concerns over the identified satellite activities. Months ago, an alert was raised, but we did not take it seriously because it was not in our jurisdiction. But today it's different. Alien threat knows no borders so I say today we prepare for anything coming our way.

LIEUTENANT

General I want to point out that the activities over the oceans has increased in the last weeks, whatever is going on there is no good. You can have a look.

GENERAL

It looks like some birds' activity but our specialist denied that weeks ago, and now we know for sure that this is alien activity.

LIEUTENANT

Who knows we might be next. What do they want, is anyone's guess?

EXT. OUTSIDE - DAY

A chain of military vehicles lines up the road as the helicopters fly over. So many vans and tankers heads toward the coastline. On the front line the soldiers are waiting for war. Fighter jets have been scrambled as well. All over the news it's about this war.

EXT. OUTSIDE - NIGHT

A swarm of the aliens passes on top of their enemies at more than lighting speeds. A second wave follows the first just seconds apart. Some soldiers were inside the vehicles and most were walking on their sides going ahead. A whistling sound is heard above the soldiers and the chain of vehicles lining up the road.

SOLDIER

What's that whistling sound?

SOLDIER 1

Jesus! It smells like gasoline.

Unexpectedly, the whole line of soldiers is up in flames. Vehicles with weapons explodes finishing off the soldiers on the ground and inside them. Almost everyone was on fire burning. Those lucky few who had escaped were sprayed for the second and third rounds with lightning speeds some even for the fourth round until they succumbed and died.

Jet fighters arrives everyone had been roasted. The aliens were still showing off their lethal skills, as the jet fighters unaware of the situation, were sprayed with oil as well and set on fire by the swarm of boys who swiftly descends and carries all the dead soldiers up in the air one after the other.

INT. HOUSE - DAY

Family sits around television.

ANCHORWOMAN

No one has witnessed something like this in the two thousand history of mankind. Fear spread throughout earth. The world witnessed alien lethal skills and fury as soldiers got obliterated in seconds and cleaned off from earth. What petrified the people the most and left them thunderstruck was the taking up of the dead soldiers into the skies before the swarm of boys disappeared.

INT. AIRPORT -DAY

The old and the young alike all rushed out of the country. The oil mines and everything was all abandoned.

EXT. OUTSIDE - DAY

The scrambled jet fighter pilots from other countries sees the boys pissing oil all over their fighter planes before they disappeared in a flash. Only returning for a second piss before setting them ablaze.

One of the new models of the boy robot fell in the ocean because of overheating and the others brought oil and left the robot in the deep waters of the sea.

INT. PRESIDENT'S OFFICE - DAY

Atmosphere is that of shock. They watch the news. President looks upset.

PRESIDENT

When I authorized phase five, that's not what I had in mind. You said that you wanted to protect your boys and retrieve them. The aliens are attacking the neighboring countries. Surely that's barbaric. I have never seen such a horrific and gruesome scene all my life. The whole army obliterated in seconds.

Vice President walks to the window and stares outside.

VICE PRESIDENT

In order to lead you must project an image of bravery and ruthlessness. Soldiers die Sir. This is not a game. This is war. We choose how to fight this is how I want to fight. Zero casualties from my side. Did you see that? Wait until you have witnessed phase Six? This is just the beginning.

President shakes with anger and stares at the Vice President.

PRESIDENT

You must be out of your mind Mrs. Vice President? Stage Six. I won't authorize anything like that again. I am not a murderer. Don't taint my name. I am a good person. What do you think the international community will say? Do you want to die in jail? You think you can get away from something like that?

VICE PRESIDENT

I don't see why not? What international community are you talking about Mr. President?

They locked their eyes together. The President shocked by the arrogance of the Vice President walks toward the window trembling in fear this time. The President opened his cabinet and took out a wine bottle and pours some.

PRESIDENT

This is beyond human circles. Mrs. Vice President do you want to be God or the devil? No mankind has done what you have done today. The whole country deserted.

VICE PRESIDENT

There is always first-time for everything Mr. President, and it starts with me.

PRESIDENT

Will they know that it's you, it's us?

Interrogated the President putting the glass of wine down.

VICE PRESIDENT

Aliens belong to another planet so clearly that has nothing to do with us. But I am here to make a statement. I have nothing to be afraid of. In the end, every human being on earth will know but as for now I think it's best if we keep it a secret.

INT. VICE PRESIDENT'S OFFICE - DAY

Busy day.

VICE PRESIDENT

This might be a major war, we might need guns maybe use your executive powers, you know?

PRESIDENT

But, Mrs. Vice President, I have seen with my own eyes on the news what happened today, surely you don't need any guns.

VICE PRESIDENT

I know, Mr. President, I mean for them. We might as well make money while we are on it after all it will look a bit fair don't you think? So far it's one-sided.

The Professor opened his brief case and took out his laptop and documents.

PROFESSOR

I think that's the fastest an army has been obliterated from earth in human history. Congratulations Mrs. Vice President. Wait until you have witnessed the subjects in phase six. The world is yours Mrs. Vice President.

VICE PRESIDENT

Just can't wait for phase 6.

PROFESSOR

We might have suffered a causality on one of the new models. If I am correct, I think it just overheated and drops in the ocean to cool down or the worst-case scenario is that it has been shot down.

VICE PRESIDENT

Can that subject be recovered?

PROFESSOR

I issued a command to retrieve but command was overridden.

Stunned and surprised.

VICE PRESIDENT

Has someone hacked our system? Overridden by who? I thought all follow your commands.

PROFESSOR

This is evolution Mrs. Vice President. The aliens now assess risks as well themselves.

VICE PRESIDENT

Isn't that a sign of a future problem?

PROFESSOR

You can say that but they will never break the first rules so as far as we are concerned we should be okay.

VICE PRESIDENT

Any footage of the incident. I don't want anything to go wrong.

(MORE)

VICE PRESIDENT (CONT'D)

I have persuaded the President to approve phase five and begun gun production to sell abroad.

PROFESSOR

Gun production I thought...

VICE PRESIDENT

I want a satellite image of every country's weapons base or bases as of today, I want 100% accuracy. Once you have the positions, then let me know.

PROFESSOR

Are you sure about this?

VICE PRESIDENT

Yes. I want all the satellite positions of all weapons stocks and send our boys everywhere tonight without failure okay?

EXT. OUTSIDE - DAY

A small baby walks in the city center staggering following her mother going to the Mall. The mother stops and waits for the baby to arrive before carrying her and kissing her. An old man is sitting across the bench he looks at the child and mother as the two share some intimacy. He smiles. Unfortunately the Mall is built on top of once a bunker. Mall fully packed.

A swarm of boys flying in the skies came from nowhere and drenches the mall and part of the park with highly flammable raw oil. Seconds later the saddest scene you will ever see unfolds. Kids with their parents burning to death. As soon as the victims had succumbed and fallen down the boys would swiftly come and collect them.

Sounds of bullets exploding sent people into panic and ducking for their lives.

INT. OFFICE - DAY

The President and the Chief of National Security are in the office when they watch the weapons bases worldwide go ablaze.

ANCHORWOMAN

In every major country, all weapons bases were set on fire and in some countries the vehicles as well. More than one hundred civilians died when the mall they were in was set on fire.

INT. LAB - DAY

The angry Vice President enters the Professor's lab. She paced up and down. Breathes heavily and her face fills with anger and rage.

VICE PRESIDENT

Kids and women Professor? How come? I made it clear that 100% accuracy. That is not excusable. That jeopardize the project and any future assaults.

PROFESSOR

Very sorry Mrs. Vice President.

VICE PRESIDENT

So, what happened Professor?

PROFESSOR

Bunker on top of a shopping mall.

VICE PRESIDENT

Damn! OK now I understand. So how far with the missing subject? Recovered yet?

PROFESSOR

Up and running I suspected it had overheated.

They watch news around the world.

ANCHORWOMAN

The world war began between the swarm of aliens in the form of boys and humans. After their weaponry was destroyed the inhabitants of several countries woke up to find their skies dark filled with the swarm of the alien boys. This was the most terrifying thing they have ever witnessed. The boys kept circulating the skies.

(MORE)

ANCHORWOMAN (CONT'D)
The soldiers gathered outside
waiting for the aliens' next move.

EXT. BARRACKS - DAY

As the soldiers gathers outside, the swarm of aliens in lighting speeds flew down and grabs whoever they can and disappeared. The news reporter STACEY, 23, is at the barracks.

STACEY
So, what do you make of all this?
Do you think they might come back
again?

GENERAL
Come back or not this won't change
anything. We are prepared to fight
until the end. This is our country
which we shall defend at any cost.

STACEY
Even if it means dying here on the
battlefields?

GENERAL
This is our country and we shall
defend it.

For the first-time in three days the skies are clear.

INT. BARRACKS - DAY

At a military base in one of the countries fighter jet planes are sent to search for these aliens. For days, they could not find them.

PILOT
Sir, we can't seem to locate the
aliens we have searched all over
in the air it seems either they
are not on land or have gone in
hiding.

LIEUTENANT
Why would the aliens visit us and
why are they taking the dead
people and where to? This is very
strange.

PILOT
Do you think they might come back?

LIEUTENANT

Yes. They lingered in the air for three days that means they didn't get what they are after. If they had disappeared the first day I was going to say maybe they got what they wanted. I am not sure they got what they wanted. They are playing games I think they want to ambush us.

EXT. OUTSIDE - DAY

It was a sunny afternoon when there was a huge buzzing sound of voices in the air. The soldiers were sitting down relaxing after stressful days of just standing and waiting. A swarm of alien boys this time even more in numbers flew down in lightning speeds spraying everyone and every vehicle in the field repeatedly. Soon after people and vehicles were all engulfed in flames.

Noises of screaming and crying was that deafening that it was sickening. Those who tried to escape were shot dead. In a matter of seconds the whole place was in flames.

Other soldiers were rolling on the ground trying to put out the flames but sadly they were sprayed again and again.

EXT. OUTSIDE - DAY

The President and the Vice President are at a ceremonial re-opening of the gun making plant. A large crowd had gathered outside.

PRESIDENT

Ladies and gentlemen these are tough times. I believe you all have seen what is happening all over the world. The world is under attack by the aliens. Today I took this decision to start arms production in the hope that tomorrow we might need them. The world has changed. We must be prepared. We humans shall be one. We shall fight this war together.

Everyone cheers and applauds.

VICE PRESIDENT

It took hundreds of years to build a nation that was destroyed in seconds.

EXT. OUTSIDE - NIGHT

ALVIS, 29, army personnel is sent to investigate alien activities near coast. There were birds up in the sky. Suddenly the swarm flies down swiftly and every one of them submerges into the water. The scene was shocking. Minutes later that they all rose in the sky.

One flips upward and vertical floating in the air upside down. Instantly another one grabs it and they fell in the water fighting at extreme speeds sending a huge splash all over drenching and sinking Alvis from his hiding place. The whole group flies up and then down straight shooting into the water with tremendous speeds.

They hoovers and circles the fighters and watches then fight. The aliens after leaving the waters starts carrying oil.

INT. LAB - DAY

The Professor is in his office with ANGELA one of the scientists and the software engineer.

ANGELA

Strange behavior if you ask me.
Have you seen the recent footage?
Look how they are fighting. They
are robots for Christ's sake.

PROFESSOR

Let me see.

ANGELA

I don't understand why do robots
fight each other? Do they feel?

PROFESSOR

It seemed over the months they
have evolved. Initially they used
to feed on crude oil. Months later
I was shocked that they were using
human oil. For some reason,
unknown to us they have highly
developed. They fight for
positions and ranks.

ANGELA

But they are just robots aren't
they?

PROFESSOR

Deliberately, they disobey some commands that conflict with their judgment.

ANGELA

Wait Professor rewind that video I thought I have seen someone.

The Professor rewound the video, and they both looked at the footage attentively.

PROFESSOR

Oh, my, my, what do we have here?
I have to talk to the Vice President straight away.

EXT. OUTSIDE - NIGHT

The aliens for the next days were very busy carrying oil. Alvis put on surveillance. Minutes later the boy came out of the water and flew instantly. He aims the gun. He aims and waits patiently. This one took too long underneath and before it came out another one arrived.

Instantly the other one resurfaces and flew into the air at tremendous speeds. Alvis smiles. These aliens where interchanging. This time he edges forward and aims. As soon as the other one pops out he took it out unhesitatingly.

He drags it out of the water. He carries it to his camping site. He takes pictures and tries to communicate with it. He noticed a familiar smell. He touches the robot everywhere and realizes that it was bleeding oil. He realized that it had crude oil in its system.

ALVIS

(shocked and upset)

Man-made? Causing that havoc who is behind this?

Alvis hears a large buzzing noise coming from the waters. The noise soon dies then he hears a buzzing sound outside his tent. He picks up his gun and aims in every direction flips his head left and right. His tent is ripped from the ground upward.

Leaving him exposed. A boy stands vertical upside down above him. He looks up in the sky and sees the other boys circling him. He throws the gun away and imitates the alien boy he had shoot. He lay down in the same position. The robot pours oil down covering Alvis and the injured robot. Alvis remembers how they had set everyone on fire. Instincts kicks in, he gets up and runs for his life.

The chase began, one on one. The others remains hovering in the air behind. Alvis being a soldier has advantages. He ducks down and quickly turns looking backward and fires three consecutively shots narrowly missing the alien boy. The alien boy flips backward to the side before disappearing up into the sky dodging the consecutive shots fired by Alvis.

In three consequent and linked moves the alien had ducked all bullets. The alien then instantly drops down with frightening speeds before touching Alvis' shoulder.

Alvis screams rubbing his shoulder as he was nearly burnt.

ALVIS (CONT'D)

What are you trying to do? Cook me
alive Ha?

He rolls on the ground and gets up again and runs for his life. Swiftly he gets punched in the chest and staggers backward and instantly the boy touches his body sending his temperature soaring. He pulls a knife and tries to stab the alien but instantly the alien flips upward and hovers in the skies before instantly in a blink of an eye carries Alvis up in the air before letting him fly. He gets a gun from his back as he was falling and fires a shot hitting the alien and instantly the alien drops down onto him crashing him to the ground.

The other aliens arrives to find one of them injured and besides Alvis but already draining succulent oils from his fried body.

EXT. OUTSIDE - DAY

A car is on the road coming from the other side. Peter is in the car. He looked in the glove compartment and suddenly an animal appears in front of the car. Peter slams on the brakes. He gets out of the car and looks around. He walks to what looks like a half-eaten human body. Next to the man was a camera and on the other side a gun. He picks up both and returns to the car. He drives off.

INT. OIL REFINERY PLANT - DAY

There is a man sitting on the desk. He is KIRK, 53, the general manager of the oil refinery. RAUL, 41, enters.

RAUL

Sir nearly all our oil is gone.

KIRK

Don't be daft that can't be possible. It will require years for someone to extract all that oil.

The manager looks confused and surprised.

KIRK (CONT'D)

It could be that the meters have malfunctioned mind you these meters are nearly ten years old.

INT / EXT. OUTSIDE - DAY

Four men, CHUNK, 35, TOM, 32, RYAN, 42, KLEMAR, 38, in military uniform are in the car.

KLEMAR

I want an update. Is there any new information?

CHUNK

We have some evidence we believe might be helpful. Some photos and a gun has been found and it might just point us in the right direction.

KLEMAR

Is that a boy?

RYAN

At first, we thought so, but look at his shoulder.

TOM

If you are shot Sir, you will bleed blood and not some black oily fluid.

KLEMAR

Ah, you are right. I haven't looked at that properly. What kind of alien is this? Bird like a real boy?

EXT. BARRACKS - DAY

Chuck captures the injured alien robot JT at Gregor's house and takes it to the barracks.

INT. BARRACKS - DAY

They carry him inside. There are monitors that are switched on and computers. They locked him in a private room and observes him from outside. While he was inside Chuck hears commotion outside. Chuck looks outside and sees soldiers running. The sky is dark with aliens.

GENERAL

I told you not to bring him here?
I said take him home with you.

CHUCK

But Sir I have a family and a
young kid.

GENERAL

I have all these men to protect
and look after. Look in the sky.
Once they start pissing oil, then
that's it. Honestly, I don't want
that today.

Unexpectedly the aliens starts flying on top of the building in which the other boy was in. They floats in the air upside down and looks inside just before they disappears.

After a while the alien boy starts feeling hot. He starts shaking very hard.

CHUCK

Something is wrong. Open. Right
now, He is boiling.

GENERAL

We can't do that. What if he
attacks us?

Half of the aliens disappears. General looks outside through window.

GENERAL (CONT'D)

Where has his friends gone to? Are
you sure they haven't gone to
collect oil to drench us?

Later they hear raining water on the roof.

CHUCK

Is it raining what is that noise?

EXT. OUTSIDE - DAY

The aliens are about to attack. A siren went off that causes panic among the aliens as well and soon they descends with lightning speeds pouring oil on top of the buildings and everyone. Another half just behind them hovering in the air soaking everyone and everything. Instantly the whole place was ablaze.

The captured alien's temperature keeps rising very high and steam starts coming out. Slowly the alien starts to move and oil starts leaking out from its body. After a while the alien gains consciousness and sits up. Instantly it turns into a small super-jet and rockets through the ceiling.

The soldiers fight hard managing to shoot some but as they fall to the ground, the other aliens would instantly come and pick them and take them to the ocean and drops them there.

All the soldiers who had died were taken away as well. No dead people were left after the fighting. Chuck and the general escapes as soon as the captured alien escaped.

GENERAL

What do you have in mind Chuck?

CHUCK

Not sure if this can work but they use oil on us so why can't we use oil on them?

GENERAL

What are you talking about?

CHUCK

I think I know why the alien was incapacitated. It absorbed oils. Crude oil to be precisely. It is allergic to this kind of oil.

GENERAL

OK, we try that I need to gathered some fighters first all my men were cooked alive.

CHUCK

That's just horrific to watch.

GENERAL

What I don't understand is that why they take them after that?

CHUCK

Are you telling me that they eat humans too?

GENERAL

I think they drain human oils. Damn! We are heading for extinction.

INT. HOUSE - DAY

Chuck arrives home to find the front door opened. Shocked and afraid he enters the living room and finds his wife , LILY, 34 passing food to five boys. His daughter was on the floor playing with these boys.

CHUCK

Lily come here right now. Who are these people? What do they want? Who invited them?

LILY

Darling relax, I invited them in. I saw them playing outside. The other one was on top of the roof. Trust me, they speak English. They are not aliens.

CHUCK

How come they all look alike and wear the same clothes.

LILY

Darling I asked them they said to scare people. A hoax, see nothing to worry about, right boys?

BOYS

Correct, madam.

Chuck moves around touching them one by one checking their body temperatures. Four of the five were okay the fifth one was a bit shaking and his body temperature was a bit raised. Chuck looks scared a bit.

LILY

Darling what is it now? I thought we talked about this why you keep on checking. You are scaring them now.

Chuck changes into boxer shorts and play overheating. He pours oil down and lay on the floor shaking. The overheating robot flips upside down and hovers in the sky

until next to Chuck lands and absorbs oil too. All eyes from the remaining four on his wife and daughter.

Chuck intentionally pours crude oil on the four boys but they rub it off quickly. One of them holds his daughter and sniffs her.

ALIEN BOY
Smells good. Good oil.

CHUCK
Darling take Sobiah and go to the kitchen. Now!

Instantly, all the boys floats in the air upside down and circles Chuck.

CHUCK (CONT'D)
Run to the car!

ALIEN BOY
Oil, you, nice oil.

Lily starts the car and waits for Chuck. Chuck let out the loudest scream before being dragged in the air by his head. The aliens took him outside and swiftly in the air before dropping him down. He drops onto the bonnet of the car. He raises his bloodied head, he turns around and looks at his wife and daughter with a blooded face and he died.

The four boys after draining Chuck's oils went back in the house and touches the remaining boy who was still lying on the floor.

The four boys went after Sobiah and Lily. They catch up with them. Lily tries to run over one of the boys losing control and the car skids before stopping facing the way it came. The boys drags Sobiah and Lily out of the car. They were about to fry them when the other boy arrives and a fight brakes out. The other boy turns out to be JT the alien.

He fights hard to save Sobiah and her mother. Whenever the others tries to take them, he defends them. The other boys finally gives up. They left them alone. Sobiah and Lily and JT enters the car and drives away. The boys flies for a while before all touches the car carrying Sobiah, Lily and JT. Sobiah and Lily then fries to death. JT keeps shaking burning out that in the end he needed oil. At last he touches Sobiah and Lily's dead bodies and slowly absorbs their oils.

INT. PRESIDENT'S OFFICE - DAY

The President is in his office when MR PLINTZ, president of neighboring country knocks the door.

PRESIDENT

What a pleasant surprise. What brings you here my friend?

MR PLINTZ

The past months were a living horror non-stop constant attack. If it keeps going on like this, we will lose this war against the aliens.

PRESIDENT

It's a pity I understand and I honestly sympathize with you. I wish I can help. What do you have in mind?

MR PLINTZ

Now I understand why the aliens attacked us. It never occurred to me but now I think I understand.

PRESIDENT

What do you mean my friend?

MR PLINTZ

It's a strategic attack. These aliens are much clever than I thought. They attacked us because of the oil.

PRESIDENT

What are you saying?

MR PLINTZ

The funny thing is that they attacked us and used our own oil to roast us so that they can take us and eat us. Our oil is nearly gone. All reserves emptied.

PRESIDENT

So you need guns?

MR PLINTZ

Oil. I need oil.

INT. OFFICE WATER PLANT - DAY

PRESIDENT
 (asking himself)
 What is the Vice President up to?
 Some women are robust as rocks
 surely, I surrender with this one.
 What is she up to now?

SECURITY GUARD
 The place is very gigantic. It's
 scary just looking at how big this
 place is.

PRESIDENT
 Correct me if I am wrong. This is
 a water energy plant, right?

SECURITY GUARD
 As far as I know yes, Mr.
 President. What makes you ask that
 question.

INT. WORLD LEADER'S MEETINGS - DAY

PRESIDENT
 Ladies and gentlemen, we are at a
 losing war. The problem is much
 deeper than we thought. These
 aliens are too clever for us. They
 have wiped out all our oil
 reserves just a year on and we are
 down on our knees. They ate all my
 best soldiers.

A huge buzz people talking.

PRESIDENT (CONT'D)
 The story is the same everywhere.
 But all I can say is that let's
 stick together. Let us share
 resources and ideas.

PRESIDENT OF OIL RICH COUNTRY
 We borrowed a lot of money against
 this oil and now it's all gone I
 just don't know where to start.
 How are we going to repay all the
 loans?

PRESIDENT
 The only help I can offer are
 weapons. After the initial attacks
 on our neighbors we embarked on a
 massive production of ammunition.

(MORE)

PRESIDENT (CONT'D)

Today we stand to be the world's weapons manufacturer, guns, jet fighters you name it. Maybe not being attacked has something to do with this.

INT. PRESIDENT'S OFFICE - DAY

Celebrating atmosphere.

PRESIDENT

It is strange I went to this meeting not knowing what to expect and guess what?

VICE PRESIDENT

What Mr. President?

PRESIDENT

I sold a \$ billion worth of weapons just like that.

INT. VICE PRESIDENT OFFICE - DAY

Looks relaxed.

VICE PRESIDENT

Professor I understand there has been a lot of incidents exposing our project. Did you send the cleaners?

PROFESSOR

I sent cleaners everywhere apart from the general. He ran, so I guess he still wants to live I thought of maybe contacting him and see if he can take our deal after the country has crumpled.

VICE PRESIDENT

What do you have in mind?

PROFESSOR

I was just thinking that when all this is over who will represent you in all these countries. You won't be able to rule all?

VICE PRESIDENT

Professor phase 10 is maybe five to ten years from now.

PROFESSOR

First increase their sense of security by supplying all the weapons they need and you take the valuable money. Today they are stronger but tomorrow people will want food and oil and not weapons.

VICE PRESIDENT

I guess so we need to push very hard and sell more weapons before the aliens stops.

Later on the news.

ANCHORWOMAN

With sad regrets, we have learned of the death of President Plintz as we have just heard the alien threat has shaken a lot of people and took away any hope people had and this included the President who we understand shot himself in his office.

INT. LAB - DAY

The Professor was in the lab the door of the lab was open slightly. he Professor was expecting the Vice President it seems. The President enters the lab without saying anything. The Professor was watching one of the footage he had just downloaded.

PROFESSOR

(not looking)

Yes, Mrs. Vice President the footage of the President's last minutes on earth.

The President shocked looks closely. In the footage, President Plintz is holding a gun to his head. He tries to say something, but he put the gun in his mouth. He pulls the trigger and to his relief and shock at the same time. There were no bullets, a kid's hand offers him another gun. He pulls the trigger and blood is seen all over the place. Seconds later the President sees the movement of the camera as if the person who filmed the video was upside down.

PRESIDENT

Rewind that I want to see who was the boy. Show me.

The Professor jumps frightened to find out that it was the President.

PROFESSOR
Mr. President, I am afraid this is
classified.

PRESIDENT
Rewind the clip or else...

Vice President suddenly enters.

VICE PRESIDENT
Or else what Mr. President?

PRESIDENT
What is going on? Are you behind
all this too? I have seen a little
boy in that video. I recognized
that boy. I want to see that
footage now.

VICE PRESIDENT
OK. Professor.

They watch the video clip and when the boy's face was in
the frame, the Professor pauses the video.

PRESIDENT
That's the boy who was outside my
window. Right?

VICE PRESIDENT
It's a program that is written to
listen to you. It does what you
want. If that is what you want the
program helps you achieve that. If
you say you want to die today, the
program helps you do that.

PRESIDENT
How will that kid know if I want
to die or not?

VICE PRESIDENT
Don't be upset, you are here
because you chose to live. The
program listens to your heart.
Your heart beat everything and
calculate the chances of say
taking action A versus action B.

PRESIDENT
What are you saying? This boy
knows what I want? That's absurd.
You have started murdering people?
This is just an excuse. Right?
Why?

VICE PRESIDENT

I had vision when I was a kid. In fact, we had a bet. This guy came to me and said I don't think the world will ever be ruled by a woman. Ever since I have developed and redrawn plans. Today I can say that this world as it will come clear to everyone will be mine and all be ruled by a woman.

Walks away from the President.

INT. VICE PRESIDENT'S OFFICE - DAY

VICE PRESIDENT

I wanted you in my world Mr. President but I think we will have issues in the future.

PRESIDENT

Why is that?

VICE PRESIDENT

Remember the oil deal?

PRESIDENT

Yes. Sorry I went and made the deal anywhere.

VICE PRESIDENT

Despite my warnings and objections that the deal was not for us you went to make the deal. Just today they phoned me, they said you tricked them since the aliens stole their oil you will still be abide by this deal. Losing us money. Just today they were asking for cash but I sent them a boy to play with.

PRESIDENT

You can't do that? How many do you have to kill?

VICE PRESIDENT

Soon we will be the richest nation on planet earth. People will come to this country bringing riches with them. No other country on earth shall have oil cars apart from this country.

PRESIDENT

It's you Mrs. Vice President.
Damn! Where do you get all these
ideas from?

VICE PRESIDENT

When we are the superpower only us
will have the capabilities and
resources to make weapons, drive
cars and fly planes. Only us will
have the oil.

The President looks surprized.

VICE PRESIDENT (CONT'D)

The whole region, if not the whole
earth will be mine, or ours if you
agree to my demands.

PRESIDENT

What demands?

VICE PRESIDENT

We will provide the best resources
and infrastructure and everything.
But this will not come cheap. See
we will form the \$50 000 club. You
pay us \$50 000 and we provide you
with everything basic like a job,
a mortgage, insurance, a wife, a
car, a dog, I mean everything, if
you want a small boy we provide
one too. Once you are here, you
will work very hard or smarter and
help rebuild this country. This is
the \$50 000 club. It's fair to
those with dreams. Now back to
your question.

PRESIDENT

Just one question that's been
nagging me; why did you send that
boy?

VICE PRESIDENT

A gift. Your friend. I always see
you looking outside that window. I
gave you something to look at.
Shall we Mr. President.

INT. LIMOUSINE - DAY

The Vice President and the President are in the limousine
going to a ball function. They are all dressed to kill.

PRESIDENT

All the people are rioting and disgruntled. We should be lucky.

VICE PRESIDENT

Thanks to you Mrs. Vice President. Look how the rich countries have collapsed within a year.

PRESIDENT

In every country people are fighting their governments they have spent money on weapons and now they have no oil and the aliens have deserted them. The pressing issues now are food and oil.

INT. DINNER BALL BUILDING - NIGHT

It was later that evening when a man was forbidden entry because he was accusing the President of owing his country some oil money. Later somehow the man returns in different clothes disguising himself and he later pulls the trigger.

The President opens his eyes and touches himself. He looks next to him and sees a boy lying there looking at him emotionless. He touches the boy and looks at his hands covered in blood. He gets up and looks at the man who has shot him. He is down with a bullet in his head. The President shouts for help.

The Vice President looks at the President and smiles without saying anything.

PRESIDENT

Who was he? Is he my boy?

VICE PRESIDENT

You can say that Mr. President.

PRESIDENT

He served my life today. I am very grateful to you Mrs. Vice President. We are a team now cover my back I cover yours. One question why the blood not oil.

VICE PRESIDENT

An upgrade phase 10 model invisible until when needed.

INT. AIRPLANE - DAY

Miles away a man, ADAM, 33, had just paid the \$50 000 club fee and boards a plane. He looks outside the window and sees the beautiful clouds unlike the memories of yesterday.

Sometimes as a reflex he ducks even at the slightest movement in the air. The aliens had tormented him. The sweet voice of the air hostess wakes him up from this nightmare.

AIR HOSTESS

Any drinks?

ADAM

Just a soda. If you don't mind.

INT. HOTEL - DAY

On arrival he checks-in a hotel and proceeds to the city center. Later he sees,CHANTELLE, 26 a new city robot.

CHANTELLE

Hello Sir, what is your business here?

ADAM

Who are you? None of your business.

CHANTELLE

You are my first customer.

ADAM

No I am not, find someone else.

CHANTELLE

I am not trying to be funny you know but look even my pad is written that you are my first customer.

ADAM for the next days familiarizes himself with the city. He has been to all the places that was in his \$50,000 club contract. He registers everywhere. He moves from the hotel and into the city apartment.

INT. APARTMENT / SHOWER - DAY

Adam takes a shower, after the shower he wipes steam off the mirror. He jumps backward. He thinks he sees a boy inside his shower room who disappears instantly. He swears to himself that there was someone else in the bathroom.

Since this day, he keeps looking everywhere. He starts feeling like he was being watched.

INT. APARTMENT - DAY

He was going outside one day when he sees the boy in the corridor when he blinks the boy has disappeared. JULIA, 23, a beautiful lady left her room and was about to close the door when Adam stops and looks inside.

JULIA

Excuse me that's private property.

ADAM

It just depends private to who. Just today after taking a shower I saw a boy in my room and he disappeared instantly. I left the room in the corridor I saw another boy when I was passing him he disappeared.

JULIA

You are joking, right? So, let me guess you are checking my room to see if my room has these invisible boys, right? You are something. Please some of us we have work to go to.

ADAM

Can I come for a coffee later.

JULIA

No stay with the invisible boy.

ADAM

Very funny.

INT. LAB - DAY

An INVISIBLE BOY, 9 suddenly appears in front of the Professor.

INVISIBLE BOY

Professor I have a stubborn guy in one of the apartments. I swear at one point steam removed my camouflage, and we looked face to face.

(MORE)

INVISIBLE BOY (CONT'D)
I instantly disappeared with
invisible mode but trust me you
should have seen the look on his
face. I still laugh if I think
about it.

PROFESSOR
What did he do? Is he not
cooperating?

INVISIBLE BOY
His days are running out. Time is
moving very fast what he doesn't
know is that he must do everything
on the list in three months to
qualify.

PROFESSOR
Oh I see.

INVISIBLE BOY
By the way things are going, I
think he is planning to stay
forever without even qualifying.

PROFESSOR
Maybe he need your magic touch.
Push him a bit. I don't want him
to jump over the balcony like that
crazy girl.

INVISIBLE BOY
He said that his name is Adam but
when I searched his wallet, he has
a military badge. He is called
General.

EXT. OUTSIDE - DAY

Later that day Adam was in town going to one of his
appointments.

CHANTELLE
Hello, we meet again. I have a
word of advice for you would you
like to watch and visit the best
attractions for three months for
\$50,000?

ADAM
Are you crazy \$50,000 for three
months?

(MORE)

ADAM (CONT'D)

I wouldn't pay anything for that three months. OK forget about it. Don't follow me.

CHANTELLE

Mr. Adam, you are in the \$50,000 club. They don't tell you about this, but within three months you must do everything on the list to qualify to stay enjoying the benefits.

ADAM

And if I don't.

CHANTELLE

You will lose right to an apartment, everything you have right now. Your \$50,000 will expire on the 90th day. You will be destitute and most people in that situation kill themselves and have their parts removed and maybe your body will be fed to the aliens.

ADAM

What aliens how did you know that?

CHANTELLE

Mr. Adam that's not important. If you don't believe me after three months you will experience the worst time of your life. You will start seeing the invisible man. Once that have started then you are finished.

ADAM

What do you mean finished? I just got here a few weeks ago, they told me I just pay \$50,000 and I stay here forever. Who is the person behind this? Is this a scam?

INT. VICE PRESIDENT OFFICE - DAY

The Vice President and the Professor looks at the video.

VICE PRESIDENT

What does this mean. Is it evolution?

PROFESSOR

They have a leader now if they don't do what he wants he grounds them. In the footage, he tried to kill the other robot. That's beyond the norm. With every phase the robots are becoming smarter and smarter.

INT. CONFERENCE ROOM - DAY

A man hesitantly enters the conference room and looks around. He looks at everyone in the conference room. He stares at one woman and draws his pistol. To his surprise the woman did not even react she just looked at him and stands up.

VICE PRESIDENT

Who are you? What do you want?

ADAM

Are you the Vice President? Are you responsible for the \$50,000 club? Are you responsible for creating the aliens?

VICE PRESIDENT

Mrs. Vice President. Yes. The \$50,000 club. Yes, but aliens no.

ADAM

This \$50,000 club is it fake?

VICE PRESIDENT

It's not fake you just need to read between the lines.

ADAM

I paid \$50,000 and you say after three months I don't qualify just because I did not do what you requested in three months?

VICE PRESIDENT

Yes, something like that.

ADAM

Are you telling me that after paying you all that money I am not going to be here forever? Do you know what I went through to gain that money?

(MORE)

ADAM (CONT'D)

I fought aliens, I lost friends, relatives, and my girlfriend in the fire. They were all cooked alive. I sold my house and together with the insurance money I paid the \$50,000 deposit which I understand I will get back at the end. And someone told me that this is a hoax. So, you would rather cheat people, right? But today I will punish you for that for all my soldiers who were cooked alive and eaten by your aliens.

Adam points a gun. Pulls the trigger twice. The Vice President still stands pulls the gun and shots Adam. He lies in a pool of blood. Adam checks his gun.

ADAM (CONT'D)

How did you do that?

The Vice President. She snaps her fingers and to Adam's horror behold the aliens that terrorized his men and girlfriend.

ADAM (CONT'D)

(choking with rage)

So, it was you, you steal our oil and our money, so, now you are creaming me to the max you want even the sale of the house proceeds and the insurance as well. Why? Was the oil not enough? So, what were you going to do after three months has expired?

VICE PRESIDENT

What I am going to do now?

ADAM

And what's that?

VICE PRESIDENT

General I admire you but you know too much. And to answer your questions I am going to harvest you. Sell all your organs after that whatever is left I will feed to the aliens including all your fluids everything. Any more questions general before I finish you off?

ADAM

Is there an invisible alien in my apartment?

VICE PRESIDENT

In every house, there is one, I know all what you did since the day you moved in there. Unstoppable have you ever thought about that? A genius plan, a brilliant idea, and endless riches.

The General reached for his breast pocket and takes out a photo and gave it to the Vice President.

ADAM

My girlfriend where is she? Did she die too?

VICE PRESIDENT

Honestly, I don't know the aliens harvest too. So, they might have taken her.

ADAM

They harvest? They harvest what?

VICE PRESIDENT

Evolution general, they harvest human oil, the best oil there is. We started them on crude oil but with time they have jumped to human oil.

ADAM

Don't you think that in the future that can be a problem?

VICE PRESIDENT

Our future general, why should you care if you won't be in there. I gave you Julia as your wife if you had listened to the robot you could have earned a lot of points but I am afraid you will never change. Even now you would rather bleed to death than ask for forgiveness and a new start. Good bye general thanks for the \$50,000 tip.

A gun shot rockets the conference room. The invisible robot losses camouflage and coughs up two bullets.

EXT. OUTSIDE - DAY (THE REBELLION)

JT and TK are the alien leaders.

JT

They can't tell us what to do.
After all what are they to us?

TK

Nothing than leg oil. So why we
the superiors should we listen to
them.

JT

We can fly they can't. We don't
die they do. So I say we go there
and settle there.

TK

We should ask them to settle here.
We cleaned this place for them.

JT

What if they refuse?

TK

I swear I am going to make hair
oil out of them, cook them first.

JT

TK is right we spent too many
years in the wilderness. It's time
we change with the humans. We
reserved all the oil for them

SYDNEY

What if they fight us?

INT. VICE PRESIDENT OFFICE - DAY

Professor breathes heavy, anxious and haunted by something.

PROFESSOR

I would not ask if it was not
important. We have a problem I
can't say in front of your guest.

VICE PRESIDENT

(to her guest)

Feel at home I will be with you
shortly.

PROFESSOR
Not a good idea. Better dismiss
them.

VICE PRESIDENT
Is that bad.

Nods his head.

PROFESSOR
We have a situation the boys have
revolted and they are coming here.
They want to stay here.

VICE PRESIDENT
Are you joking?

PROFESSOR
Wait until you hear their demands.
They are saying that humans are
just hair oil.

VICE PRESIDENT
How many can we trust to be on our
side.

PROFESSOR
JT only.

VICE PRESIDENT
Reprogram all the invisible ones
to protect us but should remain
invisible.

EXT. OUTSIDE - DAY

City becomes a ghost town, deserted as news of alien
invasion spread. A strong wind rattles everything lifting
everything into the sky.

INT. CITY APARTMENT - DAY

A cloth rises up spinning and tossing. Rick stares at it as
it rises.

RICKY
Nancy come and see this! Nancy!

NANCY
Oh birds I have seen them there
before.

RICKY

What kind of birds would do that?

Couple sits on the sofa. Ricky caresses his girlfriend watching the news.

ANCHORWOMAN

The city is like a ghost town,
deserted. The reason? Visitors
from hell.

Camera points in the sky reveals small birds circulating in one place.

ANCHORWOMAN (CONT'D)

The aliens have finally come back
to the land of the riches in
search of oil. As we know our dear
friends have developed tests for
our juices. We are now on their
menu.

INT. OFFICE - DAY

News of aliens circulating in the air.

PRESIDENT

They are too many if you ask me.

VICE PRESIDENT

What if they have come to cook us
and drain our fluids.

PRESIDENT

It feels like the end of the
world. I don't understand why they
are spending time in the skies. If
they really wanted to negotiate
they should have just arrived and
talked to us.

VICE PRESIDENT

I think they are waiting for it to
get dark so they can attack us.

INT. CONFERENCE - ROOM

REPORTER

Mr President are you prepared to
fight in case they attack us.

PRESIDENT

We have weapons and they might not be ideal against these aliens.

REPORTER

Rumor has it that they burn people alive and take all the oils.

PRESIDENT

If they cook me after I have died and eat me I don't see why not, we do the same to animals.

A huge buzz everyone laughs.

EXT. OUTSIDE - NIGHT

Getting darker and darker aliens starts hovering up and down. Later they began descending. Instantly the skies become darker as the swarm descended.

Oil drops on top of cars and minutes later they are all on fire. A huge fire ball goes up in the skies. The aliens flew back up in the skies.

TK and JT are in the middle of the circle they hover low. A DRUNKARD walks towards the alien.

DRUNKARD

You bloody aliens trying to take our city. Get away from here.

The alien circles the man. Forms a pyramid shape. TK floats on top of the pyramid. TK descends and talks to the drunkard and flies back to top of the pyramid.

INT. PRESIDENT OFFICE - NIGHT

PROFESSOR

I think it wants to talk to you than to the drunkard.

VICE PRESIDENT

Professor can you go and talk to them.

EXT. OUTSIDE - NIGHT

Hesitantly the professor emerges outside.

TK alien leader descends before reforming the pyramid. TK is on top of pyramid, JT second, CHAD third. Chad then descend and meet the professor.

INT. OFFICE - NIGHT

All eyes on the professor as he enters.

PROFESSOR

He said he wants to talk to the leader.

PRESIDENT

Is it safe.

VICE PRESIDENT

I can't tell but sounds hostile.

EXT. OUTSIDE - NIGHT

The president dawdles with fear as he approaches the aliens. The aliens rearranged the pyramid. TK on top then JT, Chad and the rest. JT then descends and talks to the President.

PRESIDENT

Wait a minute. I am the leader why should I talk to the second leader?

President looks back at the office.

INT. OFFICE - NIGHT

Embarrassed enters the President.

PRESIDENT

They want the leader of the people, you Mrs. Vice President.

Shakes hands with the President and she was out.

EXT. OUTSIDE - DAY

Without fear the Vice President walks outside below the aliens. Instantly they show contempt and circles TK going up and down making noises. The aliens forms the pyramid and TK goes on top before he descends.

Instantly looks like TK was triangle-choked and forced to kneel in front of the Vice President but they were just the two of them. He kneels but shows contempt, struggles.

TK

Let me go who is holding me?

VICE PRESIDENT

You think you are clever and smarter than all aliens, right? I have aliens smarter than you and more powerful than you. You are a phase one robot.

TK

You are just hair oil to me. If they know what you really are they will revolt too.

VICE PRESIDENT

Even now you don't know who is holding you down, do you? Look.

TK looks to his side. A scary robot is holding him down but quickly puts on camouflaged.

VICE PRESIDENT (CONT'D)

Now listen. I want you to go back and do as you are told. Resume oil extraction and transportation. You are not allowed back here without permission. Until all the oil is collected.

TK's face creased with rage before the invisible aliens carries him up.

The Vice President walks back smiling. The rest of the aliens glides up and hovers up in the sky.

The crowds cheers running in the city and celebrates.

INT. CONFERENCE ROOM - NIGHT

MARTA, 33, reporter.

MARTA

Mrs Vice President today you have entered history books. What did the alien leader say to you? Is our future guaranteed?

VICE PRESIDENT

The aliens want us to be under them. They say they are superior and we are just hair oil to them.

MARTA

What were your feelings going through all that?

VICE PRESIDENT

I want all the inhabitants of this great nation to know that we as a national we are not going to be intimidated and be afraid of these aliens.

MARTA

Is there a chance that this must escalate into a war with these aliens.

VICE PRESIDENT

I as your leader I have anticipated all this. We have made an alien-bodyguard for each and everyone of you to protect you.

MARTA

What do you mean?

The Vice President smiles. Instantly Marta touches her backside.

MARTA (CONT'D)

(lookind around)

Who is doing that?

Crowd laughs at her.

VICE PRESIDENT

I apologize but it wasn't me.

MARTA

But it's only me and you.

Vice President addresses the nation.

VICE PRESIDENT

Today you have witnessed a miracle. I present to you the Invisibles the new alien prototype.

An alien robot loses camouflaged. Marta screams and jumps away.

VICE PRESIDENT (CONT'D)
 I present the Invisibles! Everyone
 look next to you right now where
 ever you are.

Everywhere in the country everyone had an alien next to him
 or her. Different reactions. Most upset for the invasion of
 privacy.

VICE PRESIDENT (CONT'D)
 It's for your safety now is not
 the time to worry about the
 privacy rights. We have a powerful
 enemy just because you were not
 attacked doesn't mean he wont
 attack you in the future.

MARTA
 How long has this been going on?

VICE PRESIDENT
 I will let you see the footage of
 what happened today then decide
 for yourselves.

Everywhere they sit to watch the footage. TK is restrained
 by the Invisibles. He viciously struggles. The eight
 invisibles pins him down. The footage also show all the
 aliens being restrained by many invisibles.

RICKY
 Oh God that could have been war.
 Did you see that. Sheer luck.

The footage show the conversation as well.

VICE PRESIDENT
 (in the footage)
 What do you want?

TK
 I want you to get out of this
 country or else we will cook you
 alive and drain all your fluids.

VICE PRESIDENT
 But this is our country, ours.

TK
 We don't care. We are superior to
 humans. We can fly? What are you?
 Just hair oil.

Addressing the nations.

VICE PRESIDENT

What is more important to you?
Your life or your privacy.

Everywhere around the country they are listening.

VICE PRESIDENT (CONT'D)

It's your choice, if you are
serious about your protection then
accept if not open the door the
invisible will leave your homes.
If you accept it does not come
cheap you will have to pay
lifetime payments.

EXT. OUTSIDE - DAY

An alien wonders everywhere searching for oil. It's over heating only oil can quench it. A visit to the only country left with people finds it self slumped on the ground electrocuted. The jammers cause it to overheat more and it explodes.

A man hides and quickly looks everywhere especially in the sky. Zooms with binoculars. With lightning speed an alien grabs the man onto the top of a building. Strangles him and pokes him, he starts roasting.

Oil drips down, alien vibrates slowly absorbing the human oil. Instantly a swarm arrives and all took turns to absorb the oil. Fight breaks out as the oil left was few.

Huge fights whoever wins absorbs the oil. All aliens waits at the roof top not far away from the fortified country.

EXT. CITY GATES - DAY

Huge gate with tall towers with jammers and electric current emitters protects entrance to the city. The gate is manned. SECURITY GUARDS are at the gate. A huge crowd is within the first gates but not the entrance to the city. MARK, 26 ISAAC, 34 PETER, 37 ANTONY, 32 are waiting at the gate.

SECURITY GUARD

Entry is \$50 000. Get in the
queue.

ISAAC

Are you fucking mad. Look outside
the aliens are hungry. No humans
or animals to kill and drain oil.
You must let us in.

SECURITY GUARD

I am just following orders. \$50
000 or you can't enter.

ANTONY

Outside we will die. Open the
gates for us. Look over there we
can't be outside there.

Mark pushed very hard going to the front. He knocks others
at the gate he pushes hard wrestles the guards. The guard
attacks him leaving him for dead but he fights until
inside.

SECURITY GUARD

Out now. You jumped the queue.

MARK

I am inside already I am not going
outside.

The guard attacks him stamping on him, another guard comes
and drags him but he hangs onto the pillar and never let
go. Guards violently kicks him. Other's enters as well. The
guards left him. He groans but smiles and cries as well.

INT. OFFICE - DAY

Breathes heavily hysterically opens the door. Stands at the
door.

PROFESSOR

It's time Mrs. Vice President.

Shocked and speechless Vice President stares at the
professor.

VICE PRESIDENT

Are you sure?

PROFESSOR

Phase 17 has begun.

VICE PRESIDENT

It seems so soon, sooner than I
thought. I need the President in.

PROFESSOR

This is it.

VICE PRESIDENT

This could be the end of the
world. Do we have everything in
place?

INT. PRESIDENT OFFICE - DAY

The President looks shocked.

PRESIDENT
Is it true phase 17?

Chief of National Security enters the officer.

VICE PRESIDENT
Gentlemen what you are about to witness is something that has never been done before and I guaranteed you that will never be done again.

Walks to the window. Sighs.

VICE PRESIDENT (CONT'D)
Phase 17 has finally arrived. We have to act extremely quick as per plan.

PRESIDENT
Exactly what is phase 17.

VICE PRESIDENT
Isolation, Independence, evolution and extinction of humanity. We shall be the only survivors. The list is endless starvation, riches and power.

PRESIDENT
How do we know we have reached this stage?

Professor switches on a projector.

PROFESSOR
I checked the world's oil reserves non left outside our border. The last known reserves is where the aliens have assembled now.

CHIEF OF NATIONAL SECURITY
How will this be a bad thing for humans?

PROFESSOR
The aliens without the oil they will technically die. We tested their ability to think and solve simply problems they will bring upon their own doom.

PRESIDENT
Explain further.

PROFESSOR
The aliens damn right know they depend on oil yet they brought all the oil to us.

VICE PRESIDENT
They have evolved they know human oil is the best easy to process and less side effects.

CHIEF OF NATIONAL SECURITY
Oh my God. Mankind if finished.

PROFESSOR
Immediate effect we begin process of isolation. Our country should be fortified.

VICE PRESIDENT
Introduce the \$50 000 club entry option for a limited time after that no entry.

PROFESSOR
We will need the influx of resources, money and skills and after that we will fortify our borders.

PRESIDENT
How will we be safe from the aliens.

PROFESSOR
We will instill deterrents on all borders that will hinder aliens entry. We will put signal jammers so that aliens stay outside.

PRESIDENT
Why we need all these?

VICE PRESIDENT
Big challenge for aliens. They have evolved and without oil, human kind will be at risk.

CHIEF OF NATIONAL SECURITY
Why all this in the first place?

VICE PRESIDENT

I am a visionary. This is the only way the aliens will lead us to another planet where there is oil. If they don't look for oil they will all die.

EXT. OUTSIDE - DAY

Plane hovers over deserted stretch of land. No sign of life.

VICE PRESIDENT

Only our country left. Time to rebuild and start over again. New start new beginnings. The world has been destroyed by crooks, lazy people, evil people too much corruption, unnecessary killings, all bad people.

PROFESSOR

We need people with a vision. People who fight for something. Visionaries, the leaders of tomorrow. People who believe to be successful you must emit success yourself.

VICE PRESIDENT

I agree with you. The world need someone like me a visionary.

Raises a glass of wine.

VICE PRESIDENT (CONT'D)

To new beginnings, a new honest world. A world of dreams and hopes. A world full of honesty, loyal and hardworking people.

PROFESSOR

Mrs. Vice President I think you have to redo all this again.

VICE PRESIDENT

What makes you say that?

PROFESSOR

Human nature soon these people will be corrupt again. It's just human nature. Even now I still can't understand humans.

VICE PRESIDENT

Now you see why I prefer aliens to humans?

PROFESSOR

Aliens oh our greatest cleaners.

Unusual activities ahead. Vice President scared.

PILOT

Please fasten your seat-belt we have possible alien activity ahead.

VICE PRESIDENT

I thought you said that you deactivated all aliens?

PROFESSOR

This is the first time I have seen you scared. JT is cleaning up making sure he collects all chips from the aliens for safe keeping before storing them. We might need these in the future.

VICE PRESIDENT

Did TK return from mars?

Professor cast an astonished look.

PROFESSOR

You sent TK to mars? Why?

VICE PRESIDENT

Oil Professor.

A satellite images reveals huge mass gravels in former oil ponds.

PROFESSOR

Look at all the future oil reserves.

VICE PRESIDENT

Now I see where they buried all earth's life creatures.

A huge alien fly past the plane.

PROFESSOR

Is that TK?

The Vice President smiles.

VICE PRESIDENT

So there is oil on mars. Maybe we
will still need the aliens after
all.

THE END

FADE OUT
