

CROP PROTECTION BUSINESS

GRACIA

Insecticide for Thrips and Caterpillars

Godrej Agrovet is entering in collaboration with Nissan Chemical Corporation, Japan. Together with the Power of Nissan's in-house R&D and the Trust & Strength of the Godrej brand, we are glad to present GRACIA- A world class product with a Novel chemistry that includes the power of proactive protection.

What is Gracia?

Gracia is an advanced wide-spectrum insecticide, classified under group 30 of IRAC's mode of action classification. It provides excellent control of Thrips and Lepidopteran pests in broad range of crops.

How Does Gracia Work?

Gracia's potent chemistry works on the nervous system.

BENEFITS :

POWER :

- Excellent control of various thrips, borers and caterpillars.
- Locally systemic action helps in killing pests found under leaves.

PROACTIVE :

- Gracia effectively controls various stages of the pest's lifecycle and hence provides prolonged control; thus saving time, cost and energy spent on repetitive weekly spray.
- Rainfastness- It works effectively even if it rains 5-7 hours post spray.

PROTECTION :

- Gracia has excellent safety profile for mammals and beneficial insects.
- Environment friendly.

Dose : 160 ml / acre
