

UNITY of CONSCIOUS with CONSCIOUSNESS

“What AM I?” is “Who I AM!” by “What I AM.” and “How AM I is Why”.

The Oxford English Dictionary is the source for defining words. To Be Conscious, we use Language. Without language, we cannot communicate and be known.

Definition - the exact meaning of a word Word - a single unit of language

Language - principal method of human communication

Communicate - share or exchange ideas Idea - a thought Thought - an *idea*

Meaning - something as significant in the *language* Significant - have a *meaning*

Conscious - aware and responding to ones stimulus Aware - perception

Respond - to a thing Perceive - *conscious* Consciousness - *respond to conscious*

Be - exist Exist - objective reality Real - *existing* as a thing

Stimulate - raise activity Act - to do something Action - to engage something

Engage - establish *meaningful* connection Connection - thing linked to something

Link - relationship between things Relate - make a *connection*

defined words - underlined then *italicized* for linking meaning and significance

Who we say is “I AM” is a three-step **process**. The middle step is consciousness.

The **illusion** appears as *real* in the third step. **IMagining** is the first step.

Process - *actions* or steps for an end result Result - thing by something else

Illusion - misinterpreted *perception* of sensory experience

Imagination - forming *ideas* Appear - become visibly *real* (visible *defined* later)

Senses - body *perceives* a *stimulus* Experience - *connect* and observe facts

Observe - something *appears* as *being real* Fact - a thing *known* to *be* true

True - *reality* (*truth* of *experience*) Know - *be aware* of something

Experience is an awareness, observed, sensory, process, and appearing as real.

Experienced by You and You by Me is to connect, to relate, and be known.

What is being Conscious with Consciousness? “I AM Conscious” - a point, a circle, or a sphere, observing. “I AM” is made *aware* by *senses relating* as *experience*.

A Thought is communicated using language in stories.

Point - a dot or spot

Circle - round figure whose boundary consists of *points* equidistant from a *point*

Sphere - solid figure of *points*

Story - an account of past events (*actions*) or (the *point*) of something

Point has not-Point defining point's boundary, in/out. This is significant.

'What', is points, circles, and spheres (observing in/out).

What - asking for something (here and now) Ask - for an answer or something

'Who' is What is observing as "I AM Conscious".

Who - *what* person or thing Person - individual human

'How' is communicated by language defined in the meaning of words.

How - by *What* means

'Why' is to know what is Conscious with Consciousness as "I AM".

Why - for *What* purpose (*significance* and *meaning* do I exist?)

Purpose - reason something exists Reason - (the *Why*) cause of *action*

Object - a Thing (*observed*) Cause - *stimulating* a person or thing

'Where' is observed as here.

Where - *what* place (*point-circle-sphere* as a *Person* or *Thing*)

Here - this place Place - *a point* in space (*space defined* later)

'When' is now.

When - at *what* time (*time defined* later)

Now - at this moment Moment - a brief *period* of time

Where-When is What-I-AM and Who-I-AM defined by How-and-Why "AM I".

THING is fundamental. THING is "I AM CONSCIOUS".

Thing appears in the circle with Consciousness.

>>> focus on the definition of A THING <<<

**Thing - an object that one need not,
cannot, or does not give or have a NAME.**

Thing is a not-a-Thing object. NoThing is A Thing observed, NAMED.

Identity - the fact of *being* a Thing

NAME - a word by which A Thing is known (to exist)

Entity - a **Thing** with a separate/independent *existence*

Not - to form the negative Form - shape of some **Thing**

Negative - characterized by the absence of a **Thing**

Not is the definition of the Form as Negative Defines Positive or out not in.

The *observing* of “I AM” in words is *defining* separate **THINGS.**

Separate - *forming* or viewed as a unit (*object*) apart or by its Self

Self - a *person* distinguished (*separate*) from Others (other *defined* later)

*** Thing is a *not-NAMED Thing*, *NAMED object*. *Object separated* is **A Thing**.**

*** AnyThing is *circular* in its *definition* of a noThing as a *NAMED Thing Entity*.**

“I AM *Conscious*” is hidden by *NAMING* a noThing.

“I AM” is and cannot be “*Conscious*” by *defining* **A Thing from a noThing.**

***Conscious* precedes *Consciousness*. The *POINT*, seek *Who* is “I AM *Conscious*”.**

***Who* is Conscious with Consciousness? (The Answer is *defined* later)**

Hidden - out of sight (*not-visible*) Precede - before some **Thing** in time

Seek - to find some **Thing** Find - to discover (some *Thing*) Discover - to *find*

It is **dizzying** getting to the “I AM” Conscious with Consciousness using *definitions* of words. The *point* is to have the *definitions* of **Words exist** as **A Thing**, tedious.

Dizzy - having a *sensation* of spinning around (in *circles*) and losing one’s balance

Tedious - too long, slow, or too dull Hiding is the Other “**NOT I AM**” is **formed**.

Further, the word “a” and the word “i” is simply a sound until another sound gives it *definition* as words. Sound’s sound giving *meaning* to sound is *circular*.

a - when referring to a some **Thing** or **Person** (sound *defined* later)

I - the One *Who* is *Identified* (from Merrian-Webster, OED uses ‘i’ math *definition*)

One Thing is “I AM *Conscious*”.

A group of Things is a Conscious GROUP THING.

One - a single *Thing* Group - number of *Things* or *Persons* in a *Place*

Thus begins the *language of words in circular meanings defining “I AM” by the “Conscious” observing of circular pointing definitions. Communicating gives purpose and meaning to BE known.*

“THING” as an “I AM Conscious”, defined herein as, One Sound and One Energy circled by One Gravity. Any aware object/Entity is A Thing NAMED, “I AM Conscious”. (energy and gravity defined later)

Restating, language is words defined in circles of words. As is “I AM” Conscious with Consciousness in the seeking to be known by stories. The Observer is one Person, Group, or Thing NAMED “I AM” that is Conscious with Consciousness.

Words Stimulating actions will be the ‘*how to*’ stimulating “What I AM” as Conscious with Consciousness. ***Stories have a begin-middle-end.*** For “I AM Conscious” to be with Consciousness, the ***three-step process*** needs to ***form a Story Circle connection*** with the ***circles of Others’ Stories***.

Other - denoting a ***Thing*** that is different or distinct (*separate entity*)

Engage - establish *meaningful connection* (with a ***Person, Group, or Thing***)

BEGIN: Conscious is the “***What (AM I) Question***” formed by observing ***sound-energy*** within ***gravity*** as ***A Thing***. “I AM Conscious”, ***Person or Thing***, by defining an object as a some ***Thing*** that cannot be ***NAMED a Person, Group, or Thing***.

Begin - first part of *action*

Question - to elicit information (*communicate, relate*)

MIDDLE: Consciousness is “***What (Who I AM) Exclaimed***” inside NAMED as “I AM Conscious”. **The Answer** is the *Truth* to a ***Person, Group, or Things’*** identity.

Middle - the *point* equidistant from the edges (*begin-end*)

Exclaimed - cry out (*communicate*) strongly (*energy*)

END: Conscious with Consciousness is “***What (I AM) Period***”. Engaging Who “I AM” stimulating Other’s “I AM” observed as a separate NAMED ***Person or Thing***. Others stimulated then engaged story in action is ***related/not-related KNOWN***.

End - final some ***Thing***, a *point* in time

REPEATING steps in *process* again is *processing*.

Repeat - some **Thing** again and again Again - another time

**The Three fundamentals of A Person, Group, or A Thing is,
sound/not-sound, energy/not-energy, and gravity/not-gravity.**

Fundamental - *forming core* Core - some **Thing** that is central (*BEing*) its *existence*

Sound - vibrations Energy - strength Gravity - force that attracts

Force - *strength or energy* Attract - come to a *place (point in time)*

Thing/noThing is the Entity of sound/energy circled by force of gravity.

EveryThing, NAMED Entity, is a formed object observed as separate.

What is Now/not-Now, identified by time/not-time, and space/not-space?

We call it “BEing present” or “Be Here Now”. To BE known is the Point.

Now - at the present moment Present - in a *place (point in time)*

Moment - a *brief period of time* Place - *point in space*

Time - the *indefinite continued progress of existence* Progress - to *result*

Space - *continuous area unoccupied* Continue - *activity in progress processing*

***Identity of any “I AM Conscious” is BEing defined/NAMED by the separated
“I AM Conscious” Self-named Other Person, Group, or Thing.***

‘Others’ Thing/Entity is “I AM Conscious” as is “I AM Conscious”.

This is A Person, Group, or Thing BEING Conscious with Consciousness.

Separate yet connected is unity, ubiquitously. (unity defined later)

Ubiquitous - *present everywhere as common*

Common - *occurring often, ordinary* Ordinary - with *no distinct place*

Now is noThing, not-time, not-space, not-gravity, and not-defined.

Not-Now is Now’s time, space and gravity existing as IMagined-Now, DEFINED.

*Conscious/not-conscious is a separated **Thing**, observed, in not-Now, BEing*

“I AM Conscious”. Consciousness is defining A ONE THING as “I AM Conscious”.

Entity as a Thing and Thing as an Entity is circular.

One is a Thing and a Separated Thing is A Thing not-connected.

***Entity forming is the repeating process of the three-steps of “I AM” BEcoming
Conscious with Consciousness.***

1. **First Step** is the What (AM I) Question of this circled Thing. "I AM Conscious" begins by what A Thing is as separated, **Hidden** until **NAMED** from **noThing**.
2. **Second Step** is the What (Who I AM) Exclaimed inside the circle as Self/Group. The answer is the Truth of Self/Groups consciousness (separate from Others)
3. **Third Step** is the What (I AM) Period. The reality of Self-Truth engaging/acting separately with Others' (Groups) self-Truth is Conscious with Consciousness.

This is Why "I AM Conscious" is known by relating stimulated stimulating circles.

Entity is Truth of Self/Group as "I AM".

FROM MY "WHAT PERIOD" Truth stimulating Others' What Question engaging as separate Entities What Exclaimed Truth inside made real as this Things' engaged What Period Truth is circles **BEing** Circles, **NAMED** noThing, from an outside Thing/noThing.

The forming circles of repeating Self-Truth is >>>What Question>>>What Exclaimed>>>What Period<<< stimulating/activating Other Things in Time. This is **Common Reality** as ubiquitous for all Things BEing an Entity's Truth.

EveryThing's Entity is Common by way of How "I AM Conscious" appearing as a What (AM I) Question, answered by its defined Self-Truth as What (Who I AM) Exclaimed inside, and made Real as a "I AM Conscious" as What (I AM) Period. Stimulating then Engaging outside separate "I AM" is a process of Conscious with Consciousness. How/Why is to **BE** "conscious" of I's (Groups) consciousness. Appear - BEcome visible

'Then', **Big Bang** is from **Now's** first two "I AM Conscious" circles formed as an object **BEing** separated from **Others' Thing in not-Now**. This is time/space/gravity formed separated as A Thing appearing in the (outside) not-Now from Now.

Now has noThings as everyThing not-separate. **Not-Now is NOW's NOT!**
Then - at the time in question Question - to give words meaning

LIGHT is the **Moment** noTHING BEcomes VISIBLE as a SEPARATED THING in not-Now! These **NAMED** "I AM Conscious" formed by a sound/energy/gravity is a **Thing** as a "Conscious". **Thing** is known by being seen Consciousness by Others.
Light - makes a Thing (Persons, Groups or Things) visible (as separate)
Visible - the physics of **Light** able to be seen (I AM Conscious with Consciousness)
See - discern (define) visually

Light is the not-Light of Now appearing as IMagined-Now in the illusion of times/spaces in not-Now. Light, on all levels, is How Science measures A Thing made of gravity attracted sound/energy. A Thing is One Sound/Energy/Gravity.

"I AM" Conscious with Consciousness is NOW observed in Not-Now.

This **separation** into **IMagined-Now** visibly in **not-Now's illusion then**, is the continuing progressions of time/space as **"I AM Conscious" separate** from Other's **"I AM Conscious"** as a **Person, Group, or Thing**.

This **Thing** is called "BEing Present" to each Other's Entity of Consciousness.
Present - in a place, now Now - present time or moment

The Unity of Conscious with Consciousness is for **"I AM Conscious"** and Other's **"I AM Conscious"** to be entirely whole as **One** and **Separate** as **not-One** in Now and not-Now, both Forms.

Unity - make whole (from a separated Persons, Groups, or Things)

Whole - entire (**noThing** separated) Both - meaning two Things (Persons/Groups)

Entire - no part (formed a Person, Group, or Thing) left outside, whole

When everyThing of Now becomes a lighted object in not-Now, not-Now BEcomes Now with noThing defined separately. EveryThing has been BEing someThing by NAMING separate objects as A Thing defined as "I AM". Then, Now is to not-Now to Now in the repetition of a three-step "CIRCLE STORY" forming a Conscious with Consciousness to relate to BE KNOWN.

What if this Thing/Group is thirteen billions of years into multiple repeats?

Repeat - some**Thing** again and again

Again - another time once more

CONCLUSION

“I AM” Conscious with Consciousness is by using a circular defined word named THING.

Thing - an object that one need not, cannot, or does not give or have a NAME.

A Thing is NAMED “I AM Conscious”.

*A Thing can-cannot be “I AM Conscious” by defining a Thing from nothing.
Fundamental of A Person, Group, or Thing is gravity circled sound and energy.*

“I AM” Is A Person, Group, or Thing when Conscious with Consciousness is a lighted sound/energy by an attraction of forced gravity in not-Now stimulated by another “I AM”, Visibly.

“I AM Conscious” is hidden by NAMING a nothing a something, which when united with everything is The One Thing “I AM Conscious” is seeking.

Using language to define then find who is Conscious with Consciousness has been elusive.

Elusive - difficult to find

The beginning is elusive (hidden) by asking the “What (AM I) Question” as “Who AM I” to ‘Conscious?’. The Answer in the middle “What (Who I AM) Exclaimed” is by NAMING “I AM Conscious”, Consciousness. When Visible in the end Story of “What (I AM) Period” is appearing as Reality, Truth.

“I AM” is Discovered/Seen in the visible stories, separate yet related, by “I AM”.

“I AM” Conscious with Consciousness is the process circling story stimulating >>>What Question>What Exclaimed>What Period<<<.

“I AM” is Knowing A Thing is THE THING in the Unity of Conscious with Consciousness.

THE UNITY OF CONSCIOUS WITH CONSCIOUSNESS is WHAT AM I ?!. as “I AM”

With - another Person, Group, or Thing as I AM A Thing AS THE ONE THING.

The POINT of the What (AM I) Question is to discover THE ANSWER to Who is Conscious with Consciousness?

“I AM” and Conscious with Consciousness is Now DISCOVERED/FOUND in THE ANSWER.

THE - ONE THING (PERSON or GROUP)

ANSWER - A THING STATED (EXPERIENCED and COMMUNICATED)

“THE ANSWER - Begin and End is NOW - IMagining an answer to WHAT NOW”.
