### Important Facts

- Furniture

As The Damascus Road Foundation homes are fully furnished, NO outside furniture is allowed. All mattresses are covered in bedbug preventative mattress covers. Do not remove them unless they are somehow torn. If torn request another immediately and do NOT sleep on the mattress until it is covered with a one.

- Bedding

All bedding provided is brand new and of good quality. No additional bedding is allowed.

### Treatment / Intake Process

- Luggage / Boxes: Inspection of either/both will take place outside the home to look for signs of live insects, eggs, and droppings. Boxes will be sprayed and thrown into brown city trash bins and luggage will be sprayed and sealed in large black trash bag (provided).
- All plastic bins are sprayed once on the bottom,
- All items will be transferred into provided bins.
- Each bin is then sprayed twice more and lids closed for the next 24 hrs.
- Initial UA is witnessed by House Staff.
- New program member is escorted to the upstairs hall bathroom where Welcome Tote, assigned towel set and lounge suit are waiting for them.
- House Staff steps out and processes UA, while program member removes their clothes, seals them inside the provided bag, and places said bag in the bathroom sink and showers.
- Once showered and dressed, the new program member will hang their towels to dry, take the bag with dirty clothes downstairs, transfer the dirty clothes to the processing bins and dispose of the bag into the brown city bin,
- New program members will then wash their hands, reconnect with House Staff for a tour of the home, introductions to housemates, and to complete the computer portion of the intake process.
- After all belongings have processes for 24 hrs. all clothing shall be washed before moving them into a closet. The bin is again washed, dried and returned to its place in the garage.

\*\*\*\*\* NOTE \*\*\*\*\*

Due to the limited space within this shared home:

- Luggage once treated and bagged, can be stored under your bed.
- Bedrooms, if your belongings do not fit within YOUR spaces, and begin encroaching into the space reserved for another, you need to begin pairing down your belongings.
