

# CRC's Comprehensive Deportation Strategy: Enforcing Sovereignty and Fairness

Canadian Renewal Coalition (CRC)

Canada Great Again Plan: Operation Secure Horizon

October 2025

Prepared by the Canadian Renewal Coalition

# Introduction

The Canadian Renewal Coalition (CRC)’s Canada Great Again plan addresses undocumented immigration through a robust, legal strategy focused on enforcement, integration for those who qualify, and prevention, aiming for near-zero irregulars by 2033 (Pillar 10). Estimates for 2025 range from 500,000 to 600,000 undocumented residents (Wikipedia 2024: 600,000; Globe and Mail Aug 13, 2025: 500,000; Open Canada QP Note: no accurate figures but in that range), including overstays (majority) and border crossers.

The strategy is ambitious—targeting 500,000–600,000 removals over 8 years—but grounded in law (Immigration and Refugee Protection Act, s. 44 for inadmissibility), merit-based, and humane, prioritizing criminals and security risks first. It ties to Pillars 10 (Irregular Crossings), 31 (Border Security), 44 (Immediate Deportation), and 4 (Anti-Corruption) for audits, contrasting Carney’s 2025 budget (high immigration for labor, \$70B deficits ignoring enforcement) and Chow’s Toronto budget (\$18.8B, \$15M protest costs without border focus). Implementation is planned post-2029 election (or snap via budget defeat), with \$10B from trade surpluses (Pillar 6) funding it.

## Strategy Overview: Operation Secure Horizon

Operation Secure Horizon is a phased, AI-assisted deportation program targeting 500,000–600,000 undocumented individuals (overstays 80%, border crossers 20%), focusing on inadmissible non-citizens (criminals, security risks) while providing merit-based regularization for contributors (Pillar 11: 200,000 skilled cap). No mass roundups—focus on priorities to avoid riots (Pillar 23 mediation). Total: 500,000–600,000 removals by 2033, saving \$5–\$10B/year in services (e.g., \$2B healthcare, per Fraser Institute 2025).

### Phases

- Y1–2 (Foundation, 2026–27): Audit and prioritize 100,000 high-risk (criminals, overstays >2 years); 50,000 removals.
- Y3–5 (Acceleration, 2028–30): Scale to 200,000/year; 300,000 total removals.
- Y6–8 (Dominance, 2031–33): 150,000/year; near-zero by 2033.

## Key Pillars in Action

- Pillar 44 (Immediate Deportation): 48-hour hearings with AI flagging (e.g., criminal records via CBSA database), targeting 200,000 criminals (30% of undocumented).
- Pillar 31 (Border Security): AI surveillance at ports/airports for overstays (80% of cases), deporting 300,000 non-citizens.
- Pillar 10 (Irregular Crossings): Fences and “Remain in Mexico”-style pacts for border cases (20,000/year).
- Pillar 4 (Anti-Corruption): Audits NGO funding (\$2M for protest-linked groups), stripping if tied to illegal stays.

## Timeline and Costs

- Costs: \$5B Y1–2 (AI \$1B, hearings \$2B, transport \$2B), funded by Pillar 48 savings (\$5B).
- ROI: \$10B/year savings in services by Y3.

## Realistic Projections: Deportation Scale and Impacts

Simulation based on 500,000–600,000 baseline (Globe and Mail 2025), 20% annual ramp, 30% criminals first. Outcomes: 550,000 removals by 2033, \$8B annual savings.

Table 1: Deportation Scale and Impacts (2026–2033)

Year	Targeted Removals (K)	Cumulative (K)	Savings (C\$B)	Jobs Freed (K)	Poverty Reduction
2026	50	50	1.0	10	
2027	75	125	1.5	15	
2028	100	225	2.0	20	
2029	125	350	2.5	25	
2030	125	475	3.0	25	
2031	100	575	3.5	20	
2032	50	625	4.0	10	
2033	25	650	4.5	5	

## Impacts

- \$8B savings reallocated to citizens (e.g., \$1,000/household rebates, Pillar 29).
- Poverty drops 30% as jobs open (Pillar 3).
- No riots—Pillar 23 mediation ensures peaceful transitions.

## Legal Safeguards

Charter-compliant (s. 7 security for citizens), focusing on inadmissibles (IRPA s. 44). Contrasts with Carney’s high immigration ignoring enforcement.

## Operation Secure Horizon: Detailed Breakdown

The CRC’s Canada Great Again plan includes a bold deportation strategy, Operation Secure Horizon, targeting 500,000–600,000 undocumented residents (not over 1 million, per Wikipedia 2024: 600,000; Globe and Mail Aug 13, 2025: 500,000). It is legal under IRPA s. 44, humane (no mass roundups), and funded by \$10B from trade surpluses (Pillar 6) and AI savings (Pillar 21), saving \$5–\$10B/year in services.

## Page 1: Strategy Overview and Key Pillars

Operation Secure Horizon targets 500,000–600,000 undocumented individuals (overstays 80%, border crossers 20%), with no blanket “illegals” label—IRPA defines inadmissibility (s. 36 for crimes, s. 34 for security). Scale: 50,000 Y1 to 125,000 Y4, total 550,000 by 2033, with \$5B Y1–2 cost offset by \$10B savings.

### Core Pillars

- Pillar 44: 48-hour hearings with AI flagging, targeting 200,000 criminals.
- Pillar 31: AI surveillance at ports, deporting 300,000 non-citizens.
- Pillar 10: Fences and pacts for 20,000/year border cases.
- Pillar 4: Audits \$2M NGO grants if misused.
- Pillar 21: Automates 200,000 enforcement jobs, saving \$3B for CBSA.

Contrast: Carney’s budget (300,000+ immigrants annually) ignores enforcement; Chow’s \$18.8B funds \$15M protest overtime, not borders.

## Page 2: Mechanics and Timeline

### Mechanics

1. Identification: AI scans CBSA/visa databases, flagging 200,000 criminals (30%). Y1: Audit 100,000 high-risk.
2. Hearings: 48-hour process with AI evidence, prioritizing security risks. Regularization for skilled (Pillar 11).
3. Deportation: Logistics for 20,000 border cases; chartered flights (\$2B Y1–2).
4. Funding Cuts: Audit \$2M NGO grants, stripping if misused.
5. Safeguards: Mediation for peaceful cases; Charter-compliant (s. 7).

### Timeline (2026–2033)

- Y1–2: Audit 100,000, 50,000 removals. \$1–1.5B savings.
- Y3–5: 100,000–125,000/year, 300,000 total. \$2–3B savings.
- Y6–8: 50,000–100,000/year, near-zero. \$3.5–4.5B savings.

## Page 3: Impacts and Safeguards

### Impacts for Scarborough Renter (\$100,000 Income, Two Kids)

- Y1–2: Safer neighborhoods (50,000 criminal removals), \$500/year insurance savings.
- Y3–5: \$2–3B savings fund programs, cutting hate crimes 30%. \$3,600/year rent savings.

- Y6–8: Near-zero irregulars; \$4.5B savings enable \$1,000 rebates. +\$41,000 cumulative.

#### Safeguards

- Free Speech: Protected (Charter s. 2); mediation first.
- No Riots: Prosperity (4% GDP) cuts drivers 40%; 75% support (Nanos 2025).
- Human Rights: Prioritize criminals (IRPA s. 36); appeals for non-criminals.

### Page 4: Global Export and Realism

#### Global Export (Pillar 47)

Share model with 10 nations (5:1 ROI), reducing irregulars 30%. Y3–5: Train officials; Y6–8: \$5B tech sales.

#### Realism

70% doable with majority (500,000 removals, \$8B savings); 50% in minority (300,000, \$5B). Legal under IRPA; 75% public support.
