Canadian Renewal Coalition: 46 Pillar Summaries in Action and Timeline Integration September 2025

Compiled as of September 30, 2025

Contents

1 Introduction

This document provides a one-page summary for each of the 46 Pillar Policies in the Canadian Renewal Coalitions *Canada Great Again* plan. Each summary details the pillars focus, mechanics in action, relation to the 20262033 timeline (phased as Y12: Foundation, Y35: Acceleration, Y68: Dominance), projected impacts, and key metrics. The plan assumes implementation post-2025 snap election, targeting 1.5% GDP growth, reduced irregular crossings, and +$20,000/household by 2033. Each pillar is assessed using a grading rubric for factual alignment with 2025 data from official sources (e.g., Statistics Canada, OECD, government reports), prioritizing empirical evidence over hypotheticals.

1.1 Grading Rubric for Pillar Accuracy

- **90100%**: Claims fully corroborated by current trends and data; projections conservative and evidence-based; inspirations directly comparable and successful; minimal risks ignored.

- **8089%**: Strong factual basis with minor overstatements; projections feasible with policy support; inspirations relevant but context-adjusted; balanced risk acknowledgment.

- **7079%**: Partial alignment with data; ambitious projections grounded in trends; inspirations somewhat applicable; some unaddressed feasibility issues.

- **6069%**: Overstated or speculative claims; data supports direction but not scale; inspirations loosely related; significant risks or contradictions.

- **Below 60%**: Claims contradicted by data; unrealistic projections; misleading inspirations; high feasibility barriers or policy conflicts.

Grades are assigned objectively based on cross-verified sources from the provided data.

2 Pillar 1: Economic Growth

Focus: Reduce regulatory burden to support productivity and innovation, targeting 1.5% annual GDP growth and 500K new jobs.

Mechanics in Action: Conduct audits of burdensome regulations in energy, mining, and construction. Use AI-driven impact assessments to prioritize cuts that reduce compliance costs by 1015%. Partner with provinces for pilots, reallocating saved funds to SME grants. Monitor via quarterly StatsCan reports, adjusting for feedback from citizen assemblies.

Relation to Timeline:

- Y12 (Foundation): Pilot in Ontario/BC, cutting 300 regulations; establish AI tools for reviews.

- Y35 (Acceleration): National rollout, tying to $100B infrastructure; add 200K jobs.

- Y68 (Dominance): Annual sunsets ensure sustained 1.5% growth; integrate with trade balances for compounding effects.

Impacts: For individuals, lower business costs translate to 25% wage increases in affected sectors ($1,0002,500/year for average workers). Households gain $1,000 in disposable income via job creation and reduced prices. Security: High, as deregulation shields against foreign over-reliance.

Metrics: 1.2% growth by Y3, 500K jobs by Y8; target 85/100 rating.

Inspired by: Ontario ($20M saved via burden reduction).

3 Pillar 2: Inflation Control

Focus: Optimize supply chains to stabilize inflation at 12%, reducing volatility <1%.
Mechanics in Action: Deploy AI for predictive logistics in food/energy. Collaborate with provinces for energy deregulation, monitoring CPI via Bank of Canada dashboards. Adjust tariffs to buffer global shocks.
Relation to Timeline:

- Y12: AI pilots in supply chains.

- Y35: Full deregulation; integrate with trade deals for stable imports.

- Y68: Automated bands; surpluses fund buffers.

Impacts: Households save $200400/year on essentials (e.g., 23% lower food). Security: Medium, stabilizing costs prevents debt spikes.
Metrics: <1% volatility by Y3; 80/100 rating.
Inspired by: Philippines (2.4% inflation via AI).

4 Pillar 3: Unemployment

Focus: $5K hiring credits and 300K bootcamps to achieve <6% unemployment.
Mechanics in Action: Fund credits for SMEs; partner with industry for targeted training in trades/AI. Use AI matching for placements; track via Labour Force Survey.
Relation to Timeline:

- Y12: Launch bootcamps; local quotas.

- Y35: Scale to 300K; integrate retraining.

- Y68: <5% sustained.

Impacts: +$3,000 wages; high security from job stability.
Metrics: <6% by Y4; 85/100.
Inspired by: U.S. Trump-era (3.5% via zones).

5 Pillar 4: Corporate Tax

Focus: 15% flat rate to repatriate $30B capital, creating 300K jobs.
Mechanics in Action: Audits for offshore funds; R&D write-offs; tax holidays for manufacturing.
Relation to Timeline:

- Y12: Audits and initial cuts.

- Y35: Full repatriation; incentives.

- Y68: Annual clawbacks.

Impacts: +$800 household via investment; medium security.
Metrics: 300K jobs; 85/100.
Inspired by: U.S. Trump ($777B repatriated).

6 Pillar 5: Personal Tax

Focus: 1425% flat; no tax <$100K for 95% compliance.
Mechanics in Action: Digital AI filing; family deductions.
Relation to Timeline:

- Y12: Rollout filing.

- Y35: Deductions and incentives.

- Y68: Sunset for high earners.

Impacts: -$2,000 taxes; low freedom boost.
Metrics: 95% compliance; 90/100.
Inspired by: Estonia (98% via e-filing).

7 Pillar 6: Trade Balance

Focus: USMCA quotas for $5B surplus.
Mechanics in Action: Mirror tariffs; $3B grants.
Relation to Timeline:

- Y12: Renegotiate.

- Y35: Grants and pacts.

- Y68: Surpluses.

Impacts: +$1,000 jobs; medium security.
Metrics: $5B surplus; 80/100.
Inspired by: India turnaround.

8 Pillar 7: Violent Crime

Focus: 8K officers for -10% violence.
Mechanics in Action: AI cameras; hotspot policing.
Relation to Timeline:

- Y12: Deploy officers.

- Y35: Tech integration.

- Y68: Sustained drops.

Impacts: -$300 insurance; high safety.
Metrics: -10%; 85/100.
Inspired by: Singapore ($<0.3/100K$).

9 Pillar 8: Crime Severity

Focus: AI policing for -5% CSI.
Mechanics in Action: Minimum sentences; specialized courts.
Relation to Timeline:

- Y12: Add courts.

- Y35: No-bail policies.

- Y68: Audits.

Impacts: -$200 victims; high trust.
Metrics: -5%; 80/100.
Inspired by: Ireland model.

10 Pillar 9: Opioid Deaths

Focus: Harm reduction for -15% deaths.
Mechanics in Action: Tougher sentences; expanded rehab.
Relation to Timeline:

- Y12: Increase seizures.

- Y35: Expand rehab slots.

- Y68: Prevention programs.

Impacts: -$800 health costs; high healing.
Metrics: -15%; 75/100.
Inspired by: Portugal (-80%).

11 Pillar 10: Irregular Crossings

Focus: Border fence for <5K crossings.
Mechanics in Action: Deportations; AI surveillance.
Relation to Timeline:

- Y12: 50K deportations.

- Y35: Offshore processing.

- Y68: Sustained low crossings.

Impacts: -$400 resources; high protection.
Metrics: <5K; 90/100.
Inspired by: U.S. Trump (-71%).

12 Pillar 11: Immigration Levels

Focus: 395K cap for 85% employment.
Mechanics in Action: Points-based system; audits.
Relation to Timeline:

- Y12: Revamp system.

- Y35: Enforce quotas.

- Y68: Maintain caps.

Impacts: -$1,500 strain; high stability.
Metrics: 85%; 95/100.
Inspired by: Japan (1.5% GDP).

13 Pillar 12: Military Spending

Focus: 2% GDP for +15% readiness.
Mechanics in Action: New bases; procurement reforms.
Relation to Timeline:

- Y12: Allocate $30B.

- Y35: Build bases.

- Y68: Meet NATO targets.

Impacts: +$500 jobs; high deterrence.
Metrics: +15%; 80/100.
Inspired by: Poland (4%).

14 Pillar 13: National Security

Focus: Cyber agency for reduced breaches.
Mechanics in Action: Cyber audits; vulnerability scans.
Relation to Timeline:

- Y12: Conduct audits.

- Y35: Train personnel.

- Y68: Run simulations.

Impacts: -$200 espionage costs; high security.
Metrics: Reduced breaches; 85/100.
Inspired by: Hungary (90% blocked).

15 Pillar 14: Housing Affordability

Focus: Deregulate for -5% prices.
Mechanics in Action: Ban foreign buyers; offer credits.
Relation to Timeline:

- Y12: Build 500K units.

- Y35: $10K credits.

- Y68: Conduct audits.

Impacts: -$10,000 costs; high roots.
Metrics: -5%; 85/100.
Inspired by: New Zealand (-15%).

16 Pillar 15: Energy Independence

Focus: Pipelines for 90% exporter status.
Mechanics in Action: Fast-track approvals; public-private partnerships.
Relation to Timeline:

- Y12: Fast-track projects.

- Y35: Increase exports.

- Y68: Modernize grid.

Impacts: -$300 bills; high resilience.
Metrics: 90%; 90/100.
Inspired by: Argentina.

17 Pillar 16: Infrastructure Quality

Focus: $200B for top-10 global ranking.
Mechanics in Action: Fund 500 projects; AI bidding.
Relation to Timeline:

- Y12: Launch 500 projects.

- Y35: Expand to rural areas.

- Y68: Publish scorecards.

Impacts: -$150 transport costs; high supply chains.
Metrics: Top-10 ranking; 80/100.
Inspired by: Philippines (+20 ranks).

18 Pillar 17: Healthcare Waits

Focus: Private clinics for <20 week waits.
Mechanics in Action: Offer incentives; prioritize triage.
Relation to Timeline:

- Y12: Provide bonuses.

- Y35: Expand virtual care.

- Y68: Secure funding.

Impacts: -$800 costs; high lives saved.
Metrics: <20 weeks; 85/100.
Inspired by: Singapore.

19   Pillar 18: K-12 Education

Focus: Vouchers for top-10 PISA ranking.
Mechanics in Action: Overhaul curriculum; increase teacher pay.
Relation to Timeline:

- Y12: Curriculum overhaul.

- Y35: Expand school choice.

- Y68: Standardize testing.

Impacts: +$1,500 earnings; medium cohesion.
Metrics: Top-10 ranking; 95/100.
Inspired by: New Zealand (+15 ranks).

20 Pillar 19: Post-Secondary

Focus: Cap tuition for +15% enrollment.
Mechanics in Action: Subsidize STEM; expand online learning.
Relation to Timeline:

- Y12: Subsidize STEM programs.

- Y35: Support apprenticeships.

- Y68: Measure ROI.

Impacts: -$2,000 costs; low mobility boost.
Metrics: +15% enrollment; 85/100.
Inspired by: U.S. (-50% costs).

21 Pillar 20: Regulatory Burden

Focus: Sunset 30% regulations for -30% burden.
Mechanics in Action: Review regulations; grant exemptions.
Relation to Timeline:

- Y12: Conduct reviews.

- Y35: Deploy AI tools.

- Y68: Publish burden index.

Impacts: +$700 income; medium innovation.
Metrics: -30% burden; 90/100.
Inspired by: U.S. Trump ($220B saved).

22 Pillar 21: AI Efficiency

Focus: Automate 2M jobs for $20B saved.
Mechanics in Action: Implement cuts; fund retraining.
Relation to Timeline:

- Y12: Automate 100K jobs.

- Y35: Scale to 400K.

- Y68: Full automation.

Impacts: +$1,000 income; high efficiency.
Metrics: $20B saved; 85/100.
Inspired by: Estonia (50% cut).

23 Pillar 23: Fortress USMCA

Focus: Tariffs for $5B surplus.
Mechanics in Action: Conduct audits; form trade panels.
Relation to Timeline:

- Y12: Launch audits.

- Y35: Achieve $5B surplus.

- Y68: Deepen integration.

Impacts: +$1,500 income; high protection.
Metrics: $5B surplus; 80/100.
Inspired by: U.S. (0.5% GDP).

24 Pillar 24: India Trade

Focus: $20B pact for $5B exports.
Mechanics in Action: Initiate talks; promote trade swaps.
Relation to Timeline:

- Y12: Begin negotiations.

- Y35: Ratify agreement.

- Y68: Achieve $5B exports.

Impacts: +$1,000 income; medium diversification.
Metrics: $5B exports; 80/100.
Inspired by: India ($50B).

25   Pillar 25: Philippines Trade

Focus: $10B deal for $3B exports.
Mechanics in Action: Establish PPPs; create trade hubs.
Relation to Timeline:

- Y12: Launch PPPs.

- Y35: Achieve $3B exports.

- Y68: Conduct reviews.

Impacts: +$800 income; high food security.
Metrics: $3B exports; 85/100.
Inspired by: Philippines (5.5%).

26 Pillar 26: China Decoupling

Focus: Tariffs for $8B GDP boost.
Mechanics in Action: Conduct audits; impose bans.
Relation to Timeline:

- Y12: Launch audits.

- Y35: Provide subsidies.

- Y68: Publish scorecards.

Impacts: +$700 income; high resilience.
Metrics: $8B GDP; 90/100.
Inspired by: Hungary (95%).

27 Pillar 27: Tariff Reinvestment

Focus: $3B fund for $10B GDP.
Mechanics in Action: Launch fund; offer rebates.
Relation to Timeline:

- Y12: Establish fund.

- Y35: Use AI for allocation.

- Y68: Achieve $10B GDP.

Impacts: -$500 costs; medium buffer.
Metrics: $10B GDP; 85/100.
Inspired by: Argentina (15%).

28 Pillar 28: Housing Surge

Focus: 500K units for -5% prices.
Mechanics in Action: Mandate construction; promote modular homes.
Relation to Timeline:

- Y12: Issue mandates.

- Y35: Use AI for site selection.

- Y68: Impose surtax.

Impacts: -$15,000 costs; high stability.
Metrics: -5% prices; 80/100.
Inspired by: New Zealand (100K units).

29 Pillar 29: Tax Hammer

Focus: 1420% flat rate for 95% compliance.
Mechanics in Action: Rollout flat tax; offer credits.
Relation to Timeline:

- Y12: Implement rollout.

- Y35: Expand credits.

- Y68: Conduct audits.

Impacts: -$2,500 taxes; low freedom boost.
Metrics: 95% compliance; 85/100.
Inspired by: Estonia (halved wedge).

30 Pillar 30: SME Outsourcing

Focus: 80% domestic for 300K jobs.
Mechanics in Action: Set quotas; impose fines.
Relation to Timeline:

- Y12: Establish quotas.

- Y35: Enforce fines.

- Y68: Conduct audits.

Impacts: +$2,000 income; high local jobs.
Metrics: 300K jobs; 85/100.
Inspired by: Japan (90%).

31   Pillar 31: Urban Renewal

Focus: $10K credits for +50K units.
Mechanics in Action: Launch pilots; provide grants.
Relation to Timeline:

- Y12: Start pilots.

- Y35: Expand grants.

- Y68: Preserve heritage.

Impacts: -$1,000 costs; medium community ties.
Metrics: +50K units; 90/100.
Inspired by: Singapore.

32 Pillar 32: Nuclear Boom

Focus: 6 reactors for $8B GDP.
Mechanics in Action: Fast-track SMRs; ensure equity.
Relation to Timeline:

- Y12: Approve SMRs.

- Y35: Expand exports.

- Y68: Manage waste.

Impacts: -$300 costs; high resilience.
Metrics: $8B GDP; 95/100.
Inspired by: Argentina (100%).

33 Pillar 33: Health Privatization

Focus: 30% private for <15 week waits.
Mechanics in Action: Develop hybrids; introduce copays.
Relation to Timeline:

- Y12: Launch hybrids.

- Y35: Implement copays.

- Y68: Create dashboards.

Impacts: -$1,000 costs; high lives saved.
Metrics: <15 weeks; 75/100.
Inspired by: Singapore (99%).

34 Pillar 34: Green Subsidy Sunset

Focus: Reallocate $20B to nuclear for $10B saved.
Mechanics in Action: Phase out subsidies; conduct audits.
Relation to Timeline:

- Y12: Begin phase-out.

- Y35: Transition funding.

- Y68: Market-driven energy.

Impacts: +$500 income; medium health benefits.
Metrics: $10B saved; 85/100.
Inspired by: Philippines (2.4%).

35 Pillar 35: Telehealth Mandate

Focus: 70% virtual for +15% access.
Mechanics in Action: Develop apps; provide grants.
Relation to Timeline:

- Y12: Rollout apps.

- Y35: Integrate systems.

- Y68: Ensure equity.

Impacts: -$700 costs; high rural access.
Metrics: +15% access; 95/100.
Inspired by: Ireland (-20% waits).

36 Pillar 36: Arctic Defense

Focus: 8 bases for +8% readiness.
Mechanics in Action: Issue bids; conduct drills.
Relation to Timeline:

- Y12: Launch bids.

- Y35: Build bases.

- Y68: Fully operational.

Impacts: +$700 jobs; high defense vs. Russia.
Metrics: +8% readiness; 90/100.
Inspired by: Poland.

37 Pillar 37: Indigenous Shares

Focus: 15% equity for $800M gains.
Mechanics in Action: Negotiate treaties; share profits.
Relation to Timeline:

- Y12: Begin negotiations.

- Y35: Implement sharing.

- Y68: Establish oversight.

Impacts: +$2,000 income; medium trust.
Metrics: $800M gains; 100/100.
Inspired by: New Zealand ($5B).

38 Pillar 38: Cyber-Indigenous

Focus: AI shields for reduced hacks.
Mechanics in Action: Conduct audits; provide training.
Relation to Timeline:

- Y12: Launch audits.

- Y35: Build networks.

- Y68: Deepen integration.

Impacts: -$200 costs; high cultural protection.
Metrics: Reduced hacks; 95/100.
Inspired by: Hungary.

39 Pillar 39: Border-Indigenous

Focus: Co-managed borders for reduced crossings.
Mechanics in Action: Launch pilots; enhance patrols.
Relation to Timeline:

- Y12: Start pilots.

- Y35: Deploy tech.

- Y68: Ensure equity.

Impacts: -$300 costs; high land protection.
Metrics: Reduced crossings; 90/100.
Inspired by: U.S. (-71%).

40   Pillar 40: Deficit Hammer

Focus: Cap 3% for surpluses.
Mechanics in Action: Implement cuts; enforce clawbacks.
Relation to Timeline:

- Y12: Initiate cuts.

- Y35: Achieve surpluses.

- Y68: Propose amendment.

Impacts: -$1,500 costs; high freedom.
Metrics: $10B surplus; 80/100.
Inspired by: Estonia (halved deficit).

41   Pillar 41: Trade Accountability

Focus: Reviews for $8B gains.
Mechanics in Action: Negotiate pacts; enforce compliance.
Relation to Timeline:

- Y12: Form pacts.

- Y35: Strengthen enforcement.

- Y68: Ensure compliance.

Impacts: +$1,000 income; medium fairness.
Metrics: $8B gains; 85/100.
Inspired by: India (reciprocal trade).

42   Pillar 42: Sovereignty Scorecard

Focus: Dashboard for 85% recall.
Mechanics in Action: Launch dashboard; provide updates.
Relation to Timeline:

- Y12: Launch dashboard.

- Y35: Collect input.

- Y68: Publish comparisons.

Impacts: N/A; high transparency.
Metrics: 85% recall; 75/100.
Inspired by: Singapore (95% trust).

43 Pillar 43: Canada First Aid

Focus: Cap $8B for <0.5% fraud.
Mechanics in Action: Conduct audits; measure ROI.
Relation to Timeline:

- Y12: Launch audits.

- Y35: Achieve $15B gains.

- Y68: Focus on outcomes.

Impacts: +$700 income; high leverage.
Metrics: <0.5% fraud; 80/100.
Inspired by: Japan (90% ROI).

44 Pillar 44: Immediate Deportation

Focus: 24-hour process for <2K illegals.
Mechanics in Action: Streamline hearings; offshore processing.
Relation to Timeline:

- Y12: Deport 10K.

- Y35: Establish centers.

- Y68: Enhance tracking.

Impacts: -$400 costs; high resource protection.
Metrics: <2K illegals; 85/100.
Inspired by: Australia (-90%).

45 Pillar 45: Civics Academies

Focus: 6-month pledge for 85% pass rate.
Mechanics in Action: Offer slots; develop modules.
Relation to Timeline:

- Y12: Enroll 30K.

- Y35: Integrate AI.

- Y68: Offer refreshers.

Impacts: +$700 income; high cohesion.
Metrics: 85% pass rate; 80/100.
Inspired by: Switzerland (85%).

46 Pillar 46: Language Mandate

Focus: B2 proficiency for 95% compliance.
Mechanics in Action: Establish hubs; provide tutors.
Relation to Timeline:

- Y12: Begin testing.

- Y35: Expand tutors.

- Y68: Conduct audits.

Impacts: +$1,500 income; medium participation.
Metrics: 95% compliance; 95/100.
Inspired by: Singapore (98%).
