1 Executive Summary

Fellow Canadians, as Justin Doyle of the Canadian Renewal Coalition, I call for a no-confidence vote against Prime Minister Mark Carney and his Liberal minority government. Elected on April 28, 2025, with 150-160 seats and NDP support, Carney's government has failed to deliver on critical promises, leaving Canada at a D+ (47.5/100) across key metrics: 1.0% GDP growth (Bank of Canada), 59.5% housing burden (RBC Economics), 33% healthcare waits over one month (OECD), and a \$70B deficit (Finance Canada). Public approval stands at 58%, down from 64% (Abacus Data, September 2025), with 54% disapproving of economic handling (Liaison Strategies, August 2025). Of 20 key campaign promises, none are fully delivered, 12 are partial or in progress, and 8 are stalled (Brock Press, September 15, 2025). With Parliament resuming in October, a no-confidence motionsupported by Conservatives, Bloc Québécois, and potential NDP defectorscould trigger a snap election by November, mirroring Joe Clark's 1979 fall after nine months. Our 48 Pillar Policies offer a path to C+ (66-69/100) by 2029 and A+ (90-100/100) by 2033, addressing every failure with simple, results-driven solutions: \$41,000/household gain, 2 million homes, 100,000 doctors, and 0.99 CAD/L gas. This document lists Carney's promises, their status, and our fixes, grounded in data from Statistics Canada, CMHC, and public polls.

2 Current State: D+ (47.5/100)

Canadas performance under Carney is graded D+ (47.5/100), averaged from six areas: Economy (55/100), Housing (40/100), Healthcare (35/100), Safety (65/100), Immigration/Integration (50/100), and Efficiency/Corruption (40/100). Key issues include sluggish 1.0% GDP growth (below G7 1.4%, Bank of Canada), 7.1% unemployment (StatsCan August 2025), 59.5% housing burden (RBC), and \$400M in

opaque anti-hate funding (CIPS, 2025). Carneys minority government, reliant on NDP support, faces 58% approval but 54% cost-of-living disapproval, justifying a no-confidence vote.

3 Carneys 20 Campaign Promises: Status and Failures

Below are 20 key promises from Carneys 2025 campaign (Liberal Party platform, CTV Promise Tracker, Global News, Politico), with fulfillment status as of September 2025, sourced from Brock Press, National Post, Hill Times, and PMO releases. Status is factual: Delivered, Partial/In Progress, or Unfulfilled/Stalled, with specific reasons for deductions.

#	Promise	Source	Status	Details and Reasons for Deductions
1	Stand strong against Trumps tariffs with a Regional Tariff Response Initiative.	Liberal Plan; Politico (April 19, 2025)	Partial/In Progress	\$450M fund launched September 5, 2025 (PMO), but trade deficit persists at \$4.94B/month (StatsCan July 2025); concessions reported in U.S. talks (National Post, September 18, 2025). Deduction: Slow progress, deficit unchanged.
2	Create new jobs and build the fastest growing G7 economy.	Liberal Plan; BBC (May 2, 2025)	Unfulfilled/Stalled	GDP at 1.0% (below G7 1.4%, Bank of Canada Q3 2025); unemployment 7.1% (4-year high, StatsCan August 2025). Brock Press (September 15, 2025): "No major job initiatives." Deduction: No growth or job gains.
3	Cut middle-class taxes for cost-of-living relief.	Global News (April 7, 2025); CTV Tracker (April 24, 2025)	Partial/In Progress	Modest rebates in June 2025 budget, saving \$200/family (Finance Canada); no bracket flattening. Hill Times (September 22, 2025): "Insufficient for 54% disapproving cost handling." Deduction: Minimal relief, high disapproval.
4	Build 500,000 affordable housing units by end-2025.	Liberal Plan; Narwhal (April 28, 2025)	Unfulfilled/Stalled	Only 100,000 units built (CMHC September 2025); burden at 59.5% (RBC). Brock Press: "Agency launched, deadlines missed." Deduction: 80% shortfall, prices unchanged.
5	Meet NATO 2% spending by 2030.	CDA Institute (2025); Atlantica (April 29, 2025)	Partial/In Progress	At 1.37% (NATO June 2025); on track per Carneys February 5 statement (CBC), but no 2025 increase. Deduction: No interim progress.
6	Reduce deficit to pre-pandemic levels.	Global News (September 3, 2025); Yahoo (September 3, 2025)	Unfulfilled/Stalled	\$70B deficit projected for 2025-26 (Finance Canada), up from \$48B in 2024. Poilievre: "Promised strength, delivered weakness" (Yahoo). Deduction: Deficit rising, not falling.

7	Diversify trade to "Trump-proof" Canada.	Politico; Atlantica	Partial/In Progress	USMCA talks ongoing; \$450M SME fund (September 5, 2025), but non-US deficit \$59B annual (StatsCan). Deduction: No new deals, deficit grows.
8	Advance green transition with carbon capture extensions.	Narwhal; Atlantica	Partial/In Progress	Credits extended to 2035 (June 2025), but emissions up 1% Q2 2025 (Environment Canada); gas +17¢/L (Deloitte). Deduction: Emissions rise, costs increase.
9	Reduce healthcare waits with pharmaceutical pilots.	CTV Tracker; Brock Press	Partial/In Progress	Pilots for 1M Canadians (July 2025), but 33% waits unchanged (OECD September 2025); rollout delayed to 2026 (Hill Times). Deduction: No wait reduction.
10	Strengthen borders with Strong Borders Act.	Liberal Plan; National Post (September 18, 2025)	Partial/In Progress	Act passed June 2025, crossings down 40% to 10k/month (IRCC August 2025), but 300k-500k undocumented remain. Deduction: Backlogs persist.
11	Advance Indigenous reconciliation by Canada Day.	Liberal Plan; Brock Press	Unfulfilled/Stalled	Partial cabinet tweaks (May 2025), deadlines missed (Brock Press, September 15, 2025). Deduction: Stalled progress.
12	Renegotiate USMCA for 10% export quotas.	Politico; Hill Times	Partial/In Progress	Talks started July 2025, no quotas; \$59B deficit (StatsCan). Deduction: No tangible outcomes.
13	Extend middle-class tax relief, no new hikes.	Global News; Yahoo	Partial/In Progress	No hikes, but \$200/family relief (Finance Canada); Poilievre calls "insufficient" (Yahoo). Deduction: Limited impact.
14	Position Canada as energy superpower with LNG.	Atlantica; Narwhal	Partial/In Progress	BC LNG fast-tracked (July 2025), but prices up 15% (NRCan); \$60B GDP slow (Atlantica). Deduction: Costs rise, slow progress.
15	Unite economy with "one Canada" vision by Canada Day.	BBC; National Post	Unfulfilled/Stalled	Cabinet formed (May 2025), but divides widen (58% approval down 6 points, Abacus). Deduction: Unity faltering.
16	Advance climate action with clean fuel regulations.	Narwhal; Global News	Partial/In Progress	Regulations in July 2025 add 17¢/L to gas (Deloitte); emissions up 1% (Environment Canada). Deduction: Costs up, no impact.
17	Increase military spending to 2% of GDP.	CDA Institute; Atlantica	Partial/In Progress	At 1.37% (NATO June 2025); no 2025 increase (CDA). Deduction: No progress.
18	Expand \$10/day childcare nationwide.	CTV Tracker; Brock Press	Partial/In Progress	1M spots (July 2025), but 200k wait-listed (Brock Press). Deduction: Access gaps remain.
19	Launch pharmaceutical pilots for all Canadians.	Global News; Hill Times	Partial/In Progress	Pilots for 1M (July 2025), delayed to 2026 (Hill Times). Deduction: Slow rollout.

20	Achieve reconciliation with Indigenous nations by Canada Day.	Liberal Plan; National Post	Unfulfilled/Stalled	Partial tweaks, deadlines missed; "faltering agenda" (National Post). Deduction: No progress.

4 Summary of Carneys Failures

Of 20 promises, none are fully delivered, 12 are partial/in progress, and 8 are unfulfilled/stalled. Brock Press (September 15, 2025) notes "uneven translation of campaign pledges," with economy (1.0% GDP), housing (100k vs. 500k units), and deficit (\$70B) as key failures. Public distrust (58% approval, 54% cost-of-living disapproval, Abacus/Liaison) and NDP fragility (150-160 seats) justify a no-confidence motion. With 20 Liberal defectors or Bloc/NDP support, a snap election by November 2025 is feasible, per Joe Clarks 1979 precedent.

5 Our 48 Pillar Fixes: Simple Catchphrases for a Great Canada

Carneys failures leave Canada at D+ (47.5/100). Our 48 Pillar Policies deliver C+ (66-69/100) by 2029 and A+ (90-100/100) by 2033 with clear, results-driven catchphrases. Funding: \$100B reallocated from waste (e.g., \$6.4B from anti-hate envelope, CBC, Pillar 48) and \$50B tariffs (Pillar 6). Outcomes: \$41,000/household gain, 2M homes, 100,000 doctors, 0.99 CAD/L gas, 200,000+ jobs.

6 Call to Action: No-Confidence Vote

Carneys unfulfilled promises demand accountability. With 58% approval and 54% cost-of-living disapproval (Abacus, September 2025), Parliament must act in October. Conservatives (39%, Abacus),

Bloc, and NDP (fragile coalition) can pass no-confidence with 20 defectors, triggering a snap election by November. Our 48 pillars deliver: \$41,000/household, 2M homes, 0.99 CAD/L gas. Join the Coalitionvote for change. #NoConfidenceCarney.
