EVERGREEN PLOT

Main plot:
Conflict of good people being turned on by bureaucracies
Outsiders forming a bond and love
Act of kindness being recognized by other animals

Sub plot:

The migration of humans into the US
The dark side of human nature, by trafficker, drug smugglers, cattle rustlers, gun runners, and those who hunt other humans for fun
The survival of a dying species that survived the Young Dryas Period when most of large mammals in North America died…the threat of meteor strike to our civilization today
A mother’s love for her offspring, and the ancient bond between man and wolves, once thought to be only our predator
