PREFACE

The ICC Los Angeles Basin Chapter Administration Committee – Code Coordination Effort (“Committee”) is taking the lead to facilitate and strengthen code coordination efforts among the various participating chapters, organizations and jurisdictions in California (“CA”). It is the Committee’s goal that increasing collaboration among the various participating CA chapters, organizations and jurisdictions regarding code change proposals will help ensure that the voices of all CA Governmental Member Voting Representatives are uniform and consistent. As such, the Committee believes that these efforts will help to enable CA to have a significant impact on the code development process at the national level. The Committee looks forward to working with participating members and interested parties in supporting these efforts and helping to make CA once again become a leader in the code development process.

DISCUSSION

The Committee has been working closely with various CA governmental members that represent participating CA chapters, organizations and jurisdictions engaged in the code development process to evaluate and recommend positions on select code change proposals. With that initial effort now complete, the Committee is recommending to all CA Governmental Member Voting Representatives to support the CA consensus recommended positions pertaining to select code change proposals that received a floor motion during the International Code Council (“ICC”) Committee Action Hearings held on April 17-27 of 2016 in Louisville, KY.

This document consolidates and summarizes the recommended positions by the various participating CA chapters, organizations and jurisdictions to ensure ease of comparison and review for other CA governmental members. The Committee hopes that this document will help to serve as a guide for all CA Governmental Member Voting Representatives when evaluating what code change proposal with a floor motion to vote for online. In addition to the positions by the various participating CA chapters, organizations and jurisdictions, this document includes the CA Consensus Recommended Action regarding select code change proposals, the ICC Code Development Committee’s recommendation during the hearing, and the floor motion proposed. For more commentary from the various participating CA chapters, organizations and jurisdictions, including all the recommended positions not included in this document, please refer to the excel file titled “2016 ICC-CAH-PCH Group B for the 2018 I-Codes” and any other supporting documents on the ICC Los Angeles Basin Chapter’s website at http://www.icclabc.org/Code_Coordination.html. The Committee encourages all CA Governmental Member Voting Representatives to go online and vote on these select code change proposals.

The ICC online Assembly Floor Motion Voting Period begins May 11, 2016 and concludes May 26, 2016. All online votes must be cast using cdpACCESS. In order to vote during this period, please make sure you are registered with the ICC before logging into the cdpACCESS.

STATEMENT ON USE OF DOCUMENT

The primary purpose of the Committee is to serve and benefit its members and participating CA chapters, organizations and jurisdictions. To this end, the Committee provides a forum for the exchange, consideration, and discussion of ideas and proposals that are relevant to the profession and the consensus of which forms the basis for the proposed recommended actions provided herein. By making available this document, the Committee does not insure any individual, chapter, organization or jurisdiction using the information it contains against any liability arising from that use. The Committee disclaims liability for any injury to persons or to property, or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document. The Committee makes no guaranty or warranty as to the accuracy or completeness of any information provided herein. Any individual, chapter, organization or jurisdiction using this document should rely on their own independent judgment and exercise reasonable care in any given circumstances. Each individual, chapter, organization or jurisdiction using this document

should make an independent, substantiating investigation of the validity of that information for their particular use.

ACKNOWLEDGEMENT

The Committee would like to express its gratitude and appreciation to all the Committee members and participating CA chapters, organizations and jurisdictions that spent countless hours over the past several weeks and months assisting in the review, discussion, evaluation and drafting of the proposed recommended actions for the 2016 ICC Group B Code Action Hearing on the 2018 Edition of the I-Codes.
