7.0 PROGRAM – Green Building Code Standards

Presenters: Melanie Jacobson

This presentation will:

Students of this course will gain current knowledge about sustainability and green buildings in the context of the 2022 California Green Building Code. This course will bring awareness to the innovative CALGreen code and standards by empowering our industry to apply sustainable design and construction strategies. This course provides introductions to green building and sustainability subject matters to help bring knowledge of environmental building strategies and policy. The course will focus on key changes made to the 2022 California Green Building Standards Code.
