

## Innovative Technology Enterprise Strategic Solutions (iTESS), LLC

### About Us

Innovative Technology Enterprise Strategic Solutions (iTESS), LLC is a Service-Disabled Veteran-Owned Small Business (SDVOSB) and certified MBE/DBE/SBE that delivers secure, scalable, and mission-focused digital solutions for federal, defense, and state agencies—while also building modern commercial SaaS platforms that translate government-grade discipline into real-world product outcomes.

We specialize in modernizing the systems, workflows, data, and infrastructure that power operations—improving efficiency, strengthening compliance, enhancing decision-making, and accelerating modernization mandates.

Backed by expertise in **Digital Business Process Workflow & Operations Systems, Cloud Computing & Modernization, Data Management, Digital Product Development (SaaS & Mobile Platforms)**, and **AI & Applied Analytics Solutions**, iTESS combines technical engineering with deep operational insight to support organizations across their full digital transformation lifecycle.

Our solutions equip organizations with the tools they need to improve operational performance, strengthen oversight, and adopt emerging technologies safely and effectively. With certified expertise in PMP, Agile/Scrum, ITIL, cybersecurity fundamentals, and digital engineering, we provide a low-risk, high-value partner dedicated to enabling mission success.

### Capability Highlights

**Founded:** 2016

**Business Type:** SDVOSB;  
Maryland MDOT  
MBE/DBE/SBE; Prince  
George’s County MBE/SBE

**Headquarters:** Bowie, MD

**CAGE:** 84TX3

**UEI:** V9C2HNY6WRM3

### Past Performance

#### National Guard Bureau Project Data System (PDS) (2015-Present)

*Supported multi-year enterprise program with a \$500M+ portfolio; built compliance workflows and performance dashboards, enhancing visibility, reporting accuracy, and operational readiness.*

#### Prince George’s County Circuit Courts (2018–2022)

*Migrated legacy case systems; integrated data sources; coordinated stakeholders; ensured regulatory compliance and improved system usability and performance.*

#### Core Services

- Digital Product Development (SaaS & Mobile Platforms)
- AI & Applied Analytics Solutions

- Digital Business Process Workflow & Operations Systems
- Data Management
- Cloud Computing & Modernization

#### Differentiators

- **Dual-sector execution** — We bring government-grade workflow rigor and compliance thinking into commercial product development, delivering secure and scalable platforms.
- **Proprietary Platform Development** — Experience designing and delivering commercial digital platforms (e.g., CircleMatch), demonstrating end-to-end capability in modern software engineering, workflow engines, and cloud-based user engagement systems.
- **AI + Analytics Enablement** — We turn operational data into decision intelligence using applied analytics, automation, and responsible AI patterns (personalization, scoring, forecasting, and operational insights).
- **Certified Expertise** — PMP, Agile/Scrum, CMMI SVC 3.0, Lean Six Sigma, ITIL, Security+.
