

Capability Highlights

Founded: 2016

Business Type: SDVOSB;
Maryland MDOT
MBE/DBE/SBE; Prince
George's County MBE/SBE

Headquarters: Bowie, MD

CAGE: 84TX3

UEI: V9C2HNY6WRM3

NAICS Codes:

541511 Software Development
541512 Systems Design Services
541513 Computer Facilities
Management
541519 Other Computer Related
Services
541611 Admin & Management
Consulting
541690 Other Scientific & Technical
Services
561990 All Other Support Services
611420 Computer Training
518210 Data Processing, Hosting &
Related Services
423430 Computer Equipment
Wholesale
423710 Hardware & Software
Wholesaling

About Us

Innovative Technology Enterprise Strategic Solutions, LLC (iTESS), a Service-Disabled Veteran-Owned Small Business (SDVOSB), Maryland-certified MBE/DBE/SBE, and Prince George's County-certified MBE/SBE headquartered in Bowie, MD.

iTESS specializes in secure, scalable, and mission-focused technology solutions for government agencies. Our highly credentialed team (PMP, Agile/Scrum, CMMI SVC 3.0, Lean Six Sigma, ITIL, Security+) delivers comprehensive project management, systems integration, data processing, hosting, cybersecurity, and network reliability for mission-critical infrastructure to ensure secure and continuous system operations.

With a strong foundation in defense, federal, and regulated sectors, iTESS is committed to supporting mission-critical outcomes through technology that is reliable, human-centered, and built for the future.

Core Capabilities

Domain	Key Capabilities
Program & Project Management	Portfolio governance, PMP/Agile delivery, earned value, risk monitoring, compliance documentation, coordinating schedules, resources, and reporting to ensure uninterrupted system readiness, and vendor/subcontractor oversight.
Systems Integration & Platform Sustainment	Configuration control, patching, and sustainment of computer hardware/software supporting gauge data collection, processing, visualization, dissemination, and management.
Data Processing, Hosting & Analytics	Real-time data ingestion, storage, and reporting; governance and availability for alerting workflows.
Network Reliability & Cybersecurity	Securing communications and network systems, compliance alignment; threat intelligence; network hardening
AI Storage Infrastructure	Plug-and-play storage nodes; optimized for AI/ML workloads; lease or sale; managed service
Professional Services	Compliance documentation; administrative optimization; workforce support

Differentiators

- **Dual-sector expertise** – Combining government-grade compliance with commercial innovation for mission-critical operations.
- **Certified Expertise** – PMP, Agile/Scrum, CMMI SVC 3.0, Lean Six Sigma, ITIL, Security+.
- **Proven Reliability** – Experience supporting regulated, defense, and emergency-response systems requiring 24/7 uptime.
- **Local Presence** – Headquartered in Prince George's County with rapid deployment capabilities in the Mid-Atlantic.
