Capability Highlights

Founded: 2016

Business Type: SDVOSB; Maryland MDOT MBE/DBE/SBE; Prince George's County MBE/SBE

Headquarters: Bowie, MD

CAGE: 84TX3

UEI: V9C2HNY6WRM3

NAICS Codes:

541511 Software Development

541512 Systems Design Services

541513 Computer Facilities Management

541519 Other Computer Related Services

541611 Admin & Management Consulting

541690 Other Scientific & Technical Services

561990 All Other Support Services

611420 Computer Training

518210 Data Processing, Hosting & Related Services

423430 Computer Equipment Wholesale

423710 Hardware & Software Wholesaling

About Us

Innovative Technology Enterprise Strategic Solutions, LLC (iTESS) is a service-disabled veteran-owned small business (SDVOSB) specializing in secure, scalable, and mission-focused application development. We deliver full-spectrum software solutions designed to meet the unique operational, compliance, and cybersecurity requirements of government agencies and enterprise clients.

Our capabilities span the entire software development lifecycle—from strategic planning and system architecture to agile development, integration, testing, and deployment. We build cloud-native, modular platforms that emphasize data integrity, user experience, and long-term maintainability. Whether modernizing legacy systems or launching secure new applications, we apply disciplined project management frameworks (PMP, Agile, CMMI, ITIL) and compliance-first design principles to ensure every solution is delivered with precision and purpose.

With a strong foundation in defense, federal, and regulated sectors, iTESS is committed to supporting mission-critical outcomes through technology that is reliable, human-centered, and built for the future.

Core Capabilities

Domain	Key Capabilities
Digital Ecosystem Platforms	Identity-verified user networks; trust-centric UX; scalable secure architecture
AI Storage Infrastructure	Plug-and-play storage nodes; optimized for AI/ML workloads; lease or sale; managed service
Cybersecurity	Risk management; compliance alignment; threat intelligence; network hardening
Data & Analytics	BI; predictive modeling; data governance; ML/AI pipeline integration
Managed IT Services	Cloud adoption; infrastructure modernization; systems integration
Program & Project Management	Portfolio governance; Agile delivery; earned value; risk monitoring
Professional Services	Compliance documentation; administrative optimization; workforce support

Differentiators

- Dual-sector expertise: combining government-grade compliance and commercial innovation

- Proprietary solutions in trust-centric digital engagement and AI-optimized storage

- Highly credentialed team: PMP, Agile/Scrum, CMMI-SVC 3.0, Lean Six Sigma, ITIL, Security+

- Comprehensive delivery: strategic planning, implementation, appliance sale/lease, managed services
