JOURNEY METHODOLOGY

OUR PROCESS TO ENSURE RESULTS

Our consulting methodology:

01 Discover

This phase focuses on uncovering insights, identifying challenges, and clarifying goals to set a strong foundation understanding of the needs and outcomes.

02 Co-Create

In this phase, we hold space to collaboratively craft tailored strategies and experiences that align with the vision and needs of the changemakers.

03 Mobilize

Here, the focus is on activating resources, implementing plans, and driving action to bring ideas to life.

04 Reflect

This final phase involves reflecting on outcomes, celebrating achievements, and gathering insights to ensure lasting impact and continuous growth.

WHOLENESS FACILITATION FRAMEWORK

WHAT MAKES OUR SPACEHOLDING SPECIAL

01 Internal Dimension

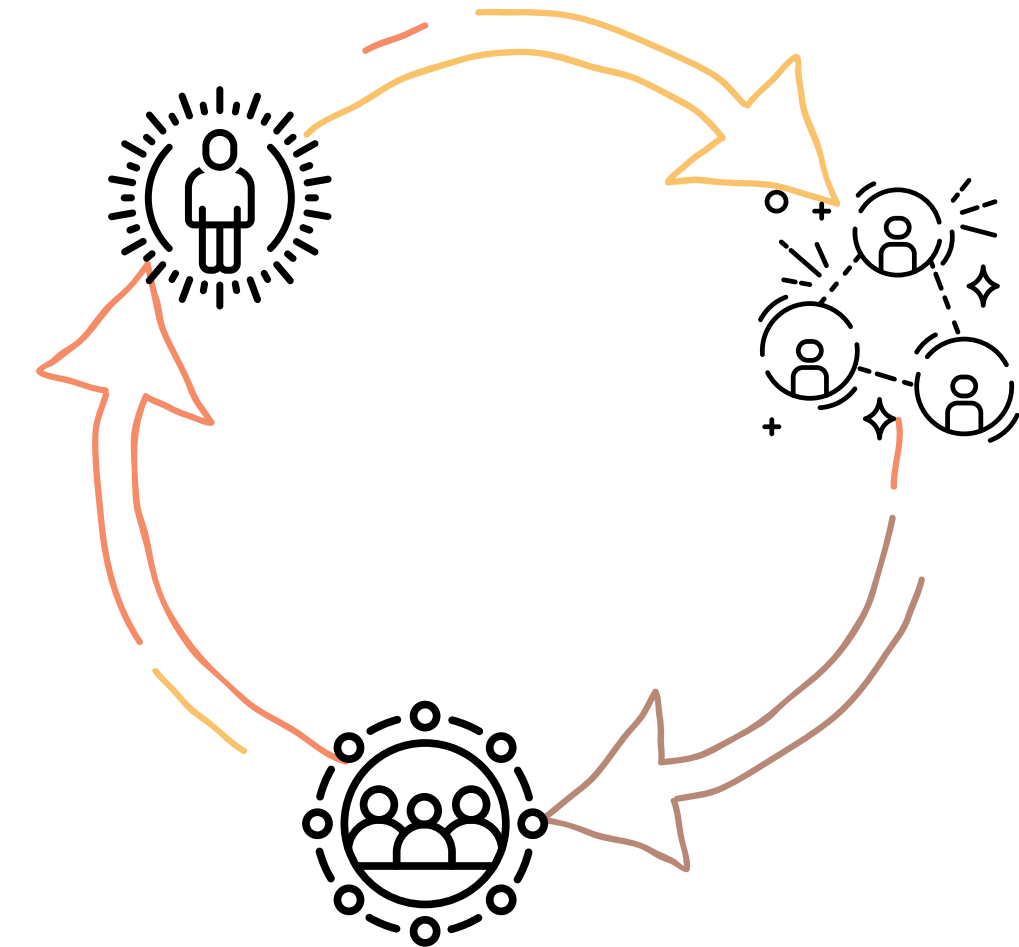

True transformation begins within. We focus on developing the internal capacities of changemakers—self-awareness, emotional intelligence, and resilience. By holding intentional, brave, and safe space, we bring individuals to presence so they can lead with clarity and purpose from the inside out.

02 Relational Field

Change is a collective endeavor. Our framework nurtures relationships by building trust, collaboration, and shared understanding among changemakers participants. We create environments where people can co-create, innovate, and support one another's journey.

03 External Action

It's time to turn internal growth and collective wisdom into actionable steps that spark real transformation and create lasting impact. Here, we focus on generating insights, building clarity, and crafting strategic action plans.

TESTIMONIAL

Eric Glustrom
Co-Founder & CEO
Watson Institute

“The Changemaker Allies have been a powerful ingredient in our recipe for continuing to offer cutting edge fellowships at Watson Institute. From the moment they joined our design team, they infused their unique spark of creativity, energy, and impact in our learning programs to make them even more transformative for the social entrepreneurs at Watson Institute. They didn't just help us create better experiences; they made our sessions feel more sacred, alive, and interactive. The feedback from the Watson Institute Fellows has been top notch, and it's clear they're leaving our program not just satisfied, but inspired. If you're on a quest to innovate how you hold spaces and elevate your offerings, the Changemaker Allies are the go-to crew. I'm so grateful for their leadership, facilitation, and impact.”
