Mobile Infrastructure

Mobile Infrastructure

To select the right solution, need to clarify the following:

- Technology Decision (GSM, UMTS, LTE, NR)

- Band Decision (800, 900, 1800, 2100, 2600, 3500)

- Number of Operators

- Solution Type (DAS or Active DAS)

- Easy installation, Authorities approval (Equipment locations, HW shape, antenna size and location,

etc.....)

- Meet KPI's "Coverage, Capacity & Quality". (Hot Spot Areas)

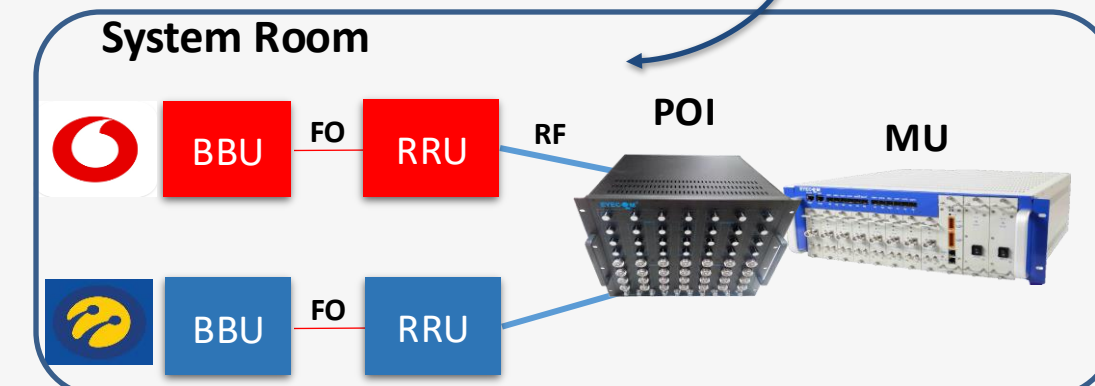

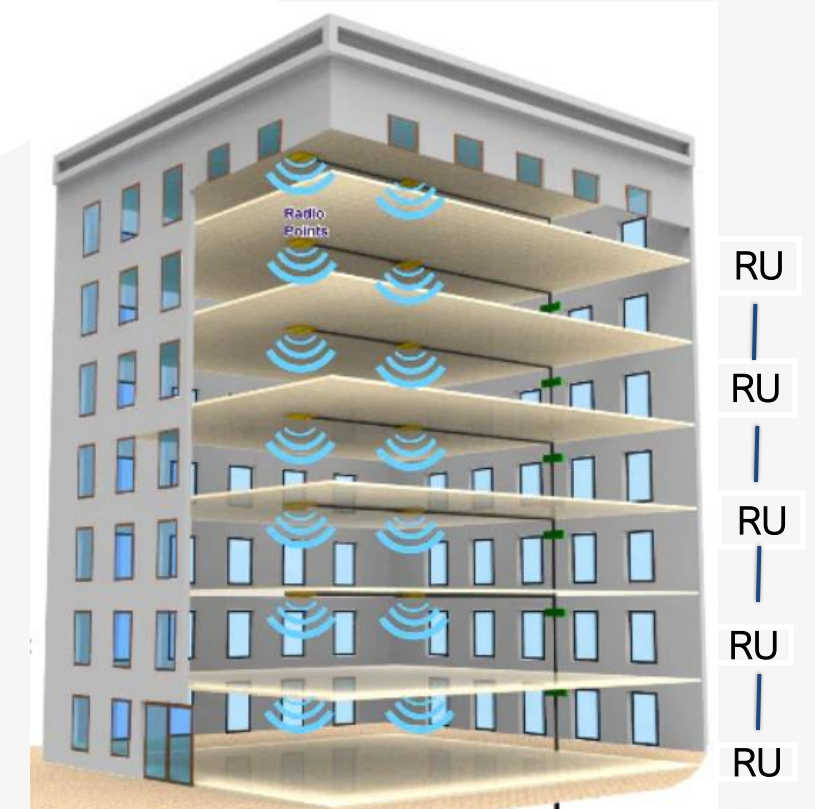

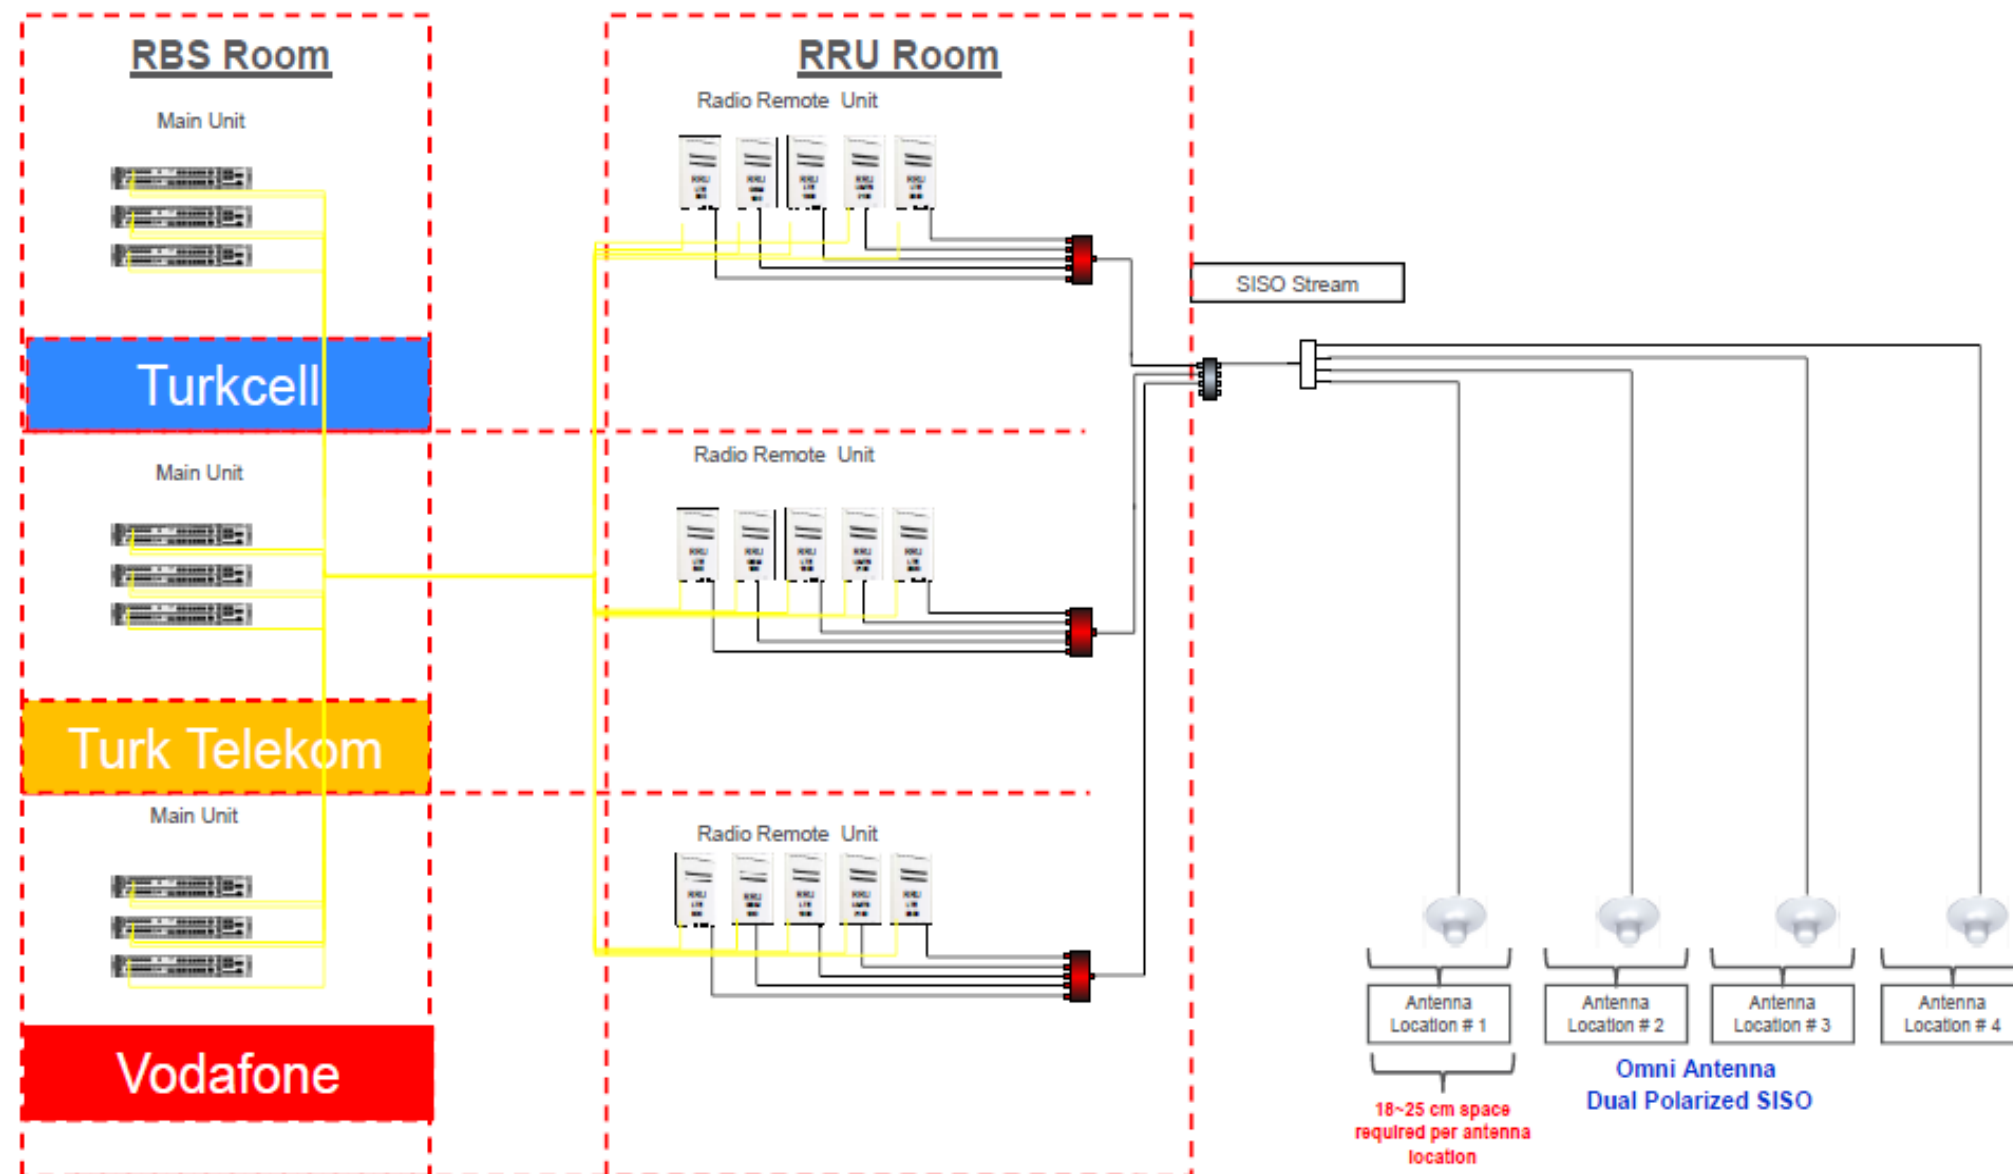

**Detailed
ACAD Files
needed**

DAS Designs

Swiss Hotel

Marriott Hotel

Mobile Infrastructure

Active DAS Units

POI

MU

RU

REPEATERS

Small Cell Units

Indoor Type LTE

LTE B1/B3/B7

Indoor Type 5G

5G NR N257/ N78

4G+5G All-In-One Box

4G(B3) 5G(N77/N78/N79)

CUSTOMIZED SOLUTIONS

- ☐ DIGITAL ACTIVE SYSTEM
- ☐ 4X4 MIMO SUPPORT
- ☐ FULL LEGACY (2G/3G/4G) + **5G** BW

- ☐ DIFFERENT POWER OPTIONS
- ☐ PASSIVE COOLING
- ☐ MULTI MNO/BAND/TECH

CPE

4G Indoor CPE

Leading indoor wireless broadband access equipment

Key Features

IP3X/IP32 rated waterproof and dustproof
4G LTE, FDD/TDD support , Up to 4x4MIMO/4CA
Wi-Fi4/Wi-Fi5 2.4G 2x2MIMO/ 2.4G 2x2MIMO 5.8G 2x2MIMO

4G Outdoor CPE

Leading indoor wireless broadband access equipment

Key Features

IP65/67 rated waterproof and dustproof
4G LTE, FDD/TDD support , Up to 4x4MIMO/4CA

5G Indoor CPE

Leading indoor wireless broadband access equipment

Key Features

IP3X rated waterproof and dustproof
5G NR SA/NSA, LTE, WCDMA support
Wi-Fi6 2.4G&5.8G 2x2MIMO

5G Outdoor CPE

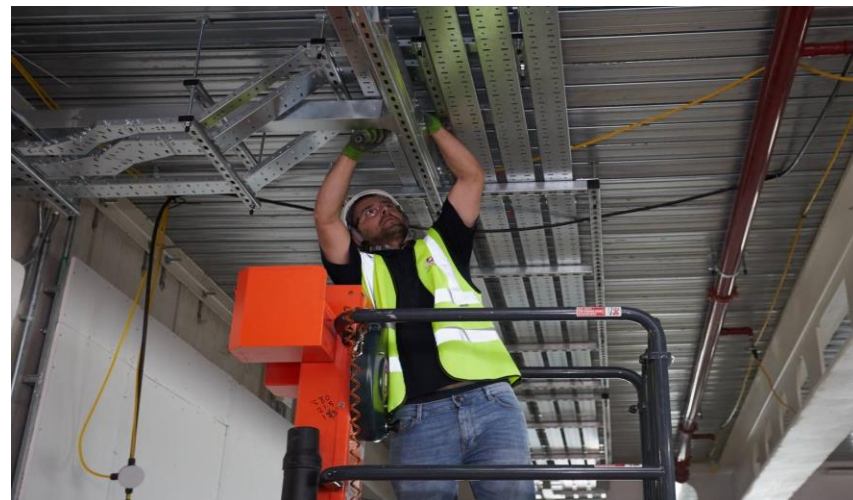

Leading outdoor wireless broadband access equipment

Key Features

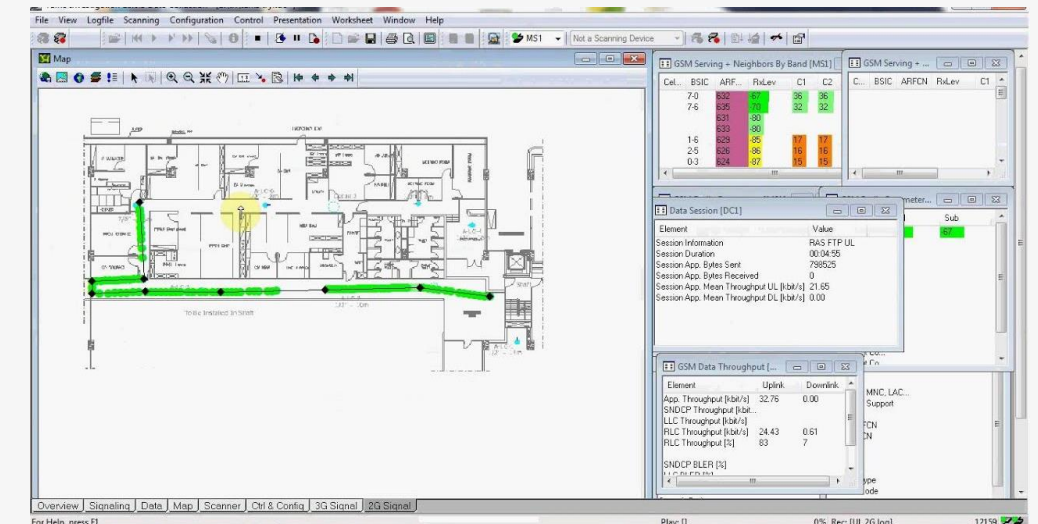

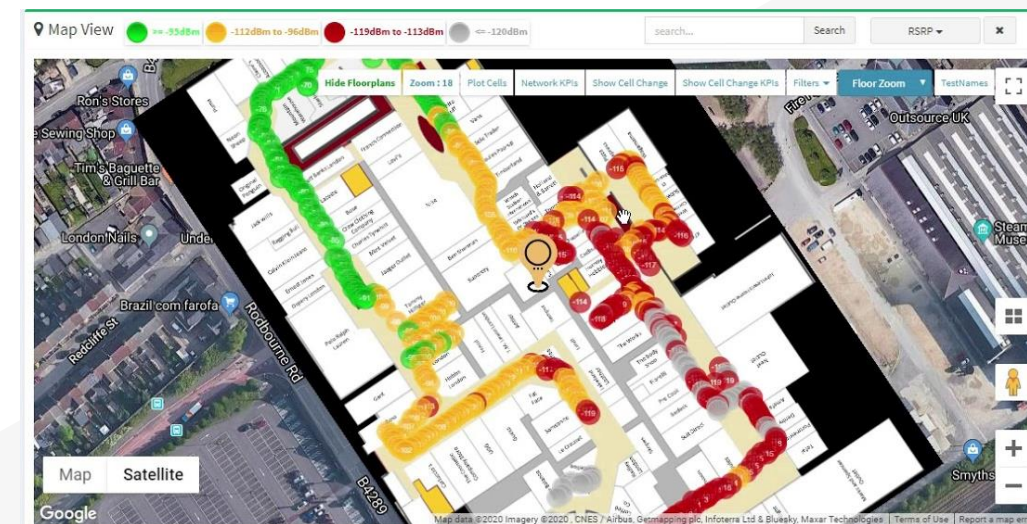

IP65/67 rated waterproof and dustproof
5G NR SA/NSA, LTE, WCDMA support

Installation & Testing, Reporting

Indoor expert installation teams are ready for global projects.

Detailed reports for all parties to ensure the quality.

THANK YOU

We look forward to working with
you
