Spencer

Summer Intern – Risk Management & Insurance - Gain hands-on experience supporting real construction projects through risk analytics and insurance data. You'll work with large datasets, build dashboards, and help track key risk indicators like insurance compliance and Subcontractor Default Insurance (SDI).

San Diego, CA | 10–12 Weeks

What You'll Do:

- Analyze and organize risk and insurance data
- Build dashboards and reports for project insights
- Support SDI performance tracking
- Collaborate with IT teams on data tools
- Use Excel to interpret large datasets

What You'll Gain:

- Real-world experience in risk analytics
- Exposure to insurance decision-making
- Skills in data visualization and reporting

Apply: Email your resume to ann.parnigoni@bnbuilders.com

Scout Insurtech Conference – Student Concierge Opportunity - Spencer is excited to support student participation at the **Scout Insurtech Conference**, where innovation meets insurance.

We are seeking **6 students** to serve in "**Concierge**" roles, connecting with **10–20 companies** throughout the event—an incredible chance to build your network and gain exposure to the insurtech space.

Columbus, OH | May 26–27

Opportunity Highlights:

- Direct interaction with leading insurtech companies
- Hands-on conference experience
- Expand your professional network in a high-growth sector

 **Stipend:** \$300 (travel and accommodations not included)

Liberty Mutual Group

Underwriting Trainee – Environmental Team - Are you always asking “*What if?*” This role puts you at the center of evaluating business risks and deciding how they should be insured.

What You’ll Do:

- Assess environmental risks and policy eligibility
- Analyze and price insurance risk
- Work directly with clients and internal teams
- Apply analytical and negotiation skills in real scenarios

What Makes It Unique:

You’ll help answer two critical questions:

- Should we insure this risk?
- What’s the right price for it?

Qualifications:

- 0–2 years experience
- Degree in RMI or related field
- Strong analytical & communication skills
- U.S. work authorization + valid driver’s license

 No relocation | Rolling applications (apply early)
