VIEWING -All bulls are available for viewing at the Barwick Ranch until the morning of Friday, February 14th when the cattle will be hauled to Alma Sale Barn.

CAN'T BE THERE ON SALE DAY?- If you are unable to attend and would like to submit a bid, please feel free to contact Rodney at number listed above.

ABSENTEE BIDDING- absentee bidders who wish to utilize the internet may bid online at www.dvauction.com. Please register online 24 hours prior to sale. We guarantee your satisfaction of all bulls purchased sight unseen. All bids will be handled with integrity and confidentiality.

TERMS AND CONDITIONS- Terms are cash or check, all settlements must be made day of sale before bulls leave the grounds. All bulls sell under the terms of the AGA (American Gelbvieh Association).

HERD HEALTH- All bulls will sell with health and brand papers.

SEMEN INTEREST- we will be retaining a 1/3 semen interest in all bulls sold, unless otherwise noted

ANNOUNCEMENTS- A supplement sheet will be available on sale day with updated information **including homozygous black and carcass traits**. This sheet and any announcements made form auction block take precedence over catalog. All responsibility goes to the buyer after the auctioneer says SOLD. Every effort will be made to ensure safe handling of cattle throughout the sale and load out process.

GUARANTEE- All bulls are guaranteed against injury or death through the first breeding season. (90 days after turn out). If a replacement bull is not available, a credit will be given toward the purchase of a bull at the sale the following year. If a problem should arise, please contact Barwick Gelbvieh immediately to resolve this issue.

DELIVERY- All cattle can be delivered free of charge in Nebraska and northern Kansas. Arrangements can be made for delivery anywhere in the US.

**** If you haul your bull(s) day of sale, you will be given a \$100 discount per bull****

FREE CARE- All bulls not taken home on sale day will feed and cared for until April 1st free of charge. Bulls needing fed after April 1st are subject to a cost of \$3.5 per head/per day.

RESPONSIBILITY- All persons attending the sale do so at their own risk. Neither the sales management nor the consignors assume any liability, legal or otherwise, for any accidents which may occur.

Dear Beef Producers:

Welcome to the 11th Annual Barwick Gelbvieh Production Sale. Most importantly we want to say THANK YOU, 1st to the mighty God we serve for seeing this through and 2nd for your interest and support of our breeding program. It's always a pleasure doing business with each of you and appreciate your evaluation of our offering.

We are excited to have Steinkruger Farms as friends and guest cosigners at our sale.

Our numbers are not large, but the quality runs deep with bulls that will flat add pounds to the scales and \$\$\$\$ in your pocket. We take great pride in calving ease and their gentle disposition. The bulls are fed a high roughage ration for longevity and we have strived to put together an outstanding set of functional bulls that will be evidenced by performance, carcass quality, and maternal traits in their offspring allowing for pounds on sale day and quality replacement females.

We are sincerely honored to have you evaluate our genetics and invite you to visit our ranch to view the cattle prior to sale day. See you on Friday, February 14th at Alma Livestock, Alma Nebraska !!

Sincerely,

The Barwicks and Steinkrugers

7	1.6	79	114	17	56	-0.29	38	0.72	0.03	72.71

Calving Ease Direct (CED): Represented as percent of unassisted births of a bull's calves when he is used on heifers. A higher number represents more favorable calving ease.

Birth Weight (BW): predicts the difference, in pounds, for birth weight. (actual birth weights can be deceptive as the environment, nutrition, and over due calves are key factors).

Weaning Weight (WW): predicts the difference, in pounds, for weaning weight (Adjusted to age of dam and 205 days of age). This an indicator of growth from birth to weaning. Higher number preferred.

Yearling Weight YW): predicts the difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This an indicator of growth from birth to yearling. Higher number preferred.

Milk (MK): The genetic ability of a sire's daughters to produce milk expressed in pounds of weaning weight.

Total Maternal (TM): An index that combines growth and milk information as a prediction of the weaning weight performance of calves from a sire's daughters. A greater TM value means a mother that returns comparatively higher weaning weights on her calves. TM Index = MK EPD + ½ WW EPD.

Yield Grade (YG): Differences in yield grade score, which is a predictor of percent retail product. Smaller values suggest that progeny will have a better lean to fat ratio.

Carcass Weight (CW): Differences in pounds of hot carcass weight, adjusted to an industry standard age endpoint. Higher number preferred.

Ribeye Area (REA): Differences in ribeye area in inches between the 12th and 13th rib. Greater are preferable.

Marbling (MB): Predicts the differences in the degree of marbling within the ribeye as expressed in marbling score units. Greater marbling numbers are preferable and are an indicator of higher carcass quality grades

Feeder Profit Index (FPI): An economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on grade and yield. Well ranking sires for FPI have higher marbling and carcass weight than their contemporaries. As a terminal index, little emphasis is put on maternal traits such as stayability and calving ease.

Multi-Breed Genetic Evaluation - All of the AGA EPDs are backed by the industry's largest and most robust multi-breed international genetic evaluation in the world. Growth and carcass EPDs for Gelbvieh and Balancer animals are directly comparable to Simmental, Red Angus, Shorthorn, Limousin and a growing number of other breeds. The multi-breed EPDs combine pedigree, performance, ultrasound, carcass and genomic data into one easy to use set of numbers. Seedstock breeders and their commercial customers can have confidence in the AGA's EPDs to evaluate the genetic merit between breeds for both purebred and hybrid seedstock.

Gelbvieh and Balancer Breed Average EPDs – Active Sires

	CED	BW	WW	YW	MK	TM	ST	YG	CW	REA	MB	FT	FPI
Gelbvieh	13	0.1	69	102	23	57	15	-0.25	28	0.68	0.18	-0.04	74.77
Balancer®	13	-0.4	72	112	23	58	14	-0.06	37	0.50	0.35	-0.01	81.23

Gelbvieh and Balancer Breed Average EPDs - For non-parent animals

	CED	BW	WW	YW	MK	TM	ST	YG	CW	REA	MB	FT	FPI
Gelbvieh	13	0.1	69	103	23	58	16	-0.23	28	0.66	0.2	-0.04	75.99
Balancer®	13	-0.4	72	112	23	59	15	-0.07	37	0.51	0.37	0.005	81.91

Sire Selection: A large portion of a ranchers revenue comes from pounds sold on sale day. If you are looking to put your cow herd on the fast-track to herd improvement, sire selection is key to meeting your goals. While we believe structure and phenotype are essential in the selection process we encourage you to take into account EPDs and carcass data. Understanding EPD data is a useful tool in making the best sire selection for your herd.

Take a close look at the tremendous quality this bull represents! He is barrel ribbed, wide from the ground up and expressive in his muscular design. Out of our resident herd sire who's first calf crop featured our 2 lead off bulls in last years sale. His dam is an impressive female sourced from the Jim Beastron dispersal sale who is a direct descendant of the widely renowned DLW Ms Edison 321A cow. This bull puts it all together, great look, performance, strong EPS, and an elite pedigree!

Out of a beautiful first calf heifer that has certainly outdone herself in her first year in production! Go Time was our Balancer Bull Futurity Winner in 2022 and every one of his progeny is stamped with this unique look. This son is stylish made and eye appealing from every angle. Smooth fronted with a big middle and bold stature.

Lot 10

Lot 10 BARG Mr Growth Fund 098M ET is an exciting young sire! This stud is the full package boasting an incredible look from every angle. Wide from the ground up with a bold middle capacity and a smooth front 1/3. Elite set of EPDS featuring top 20% for BW, top 10% WW, top 3% YW, top 2% CW and top 5% for FPI! Now for his pedigree! His Grand Dam DLW Ms Edison 321A is no stranger to fame within the Gelbvieh breed. We pounced on the opportunity to buy 6110D from Beastoms dispersal and we couldn't be happier with the first set of ET calves. 098M's maternal brother is our 2025 Balancer Futurity Entry. After his retirement from showing he will be retained as resident herd sire here to introduce more of this bloodline into our herd. Crossed with Growth Fund this combination is one that certainly deserves a hard look!

Lot 11, BARG Master Plan 785M is truly incredible. We knew this bull was special from the very start and has only aged like fine wine. Born from a beautiful 3G Zipline daughter with a perfect teat and udder. When we crossed that female with Grand Plan we were expecting great things but are certainly blown away with the success of this mating. Master Plan is wide as can be with a huge amount of capacity with a long extended body and bold rib shape. Throw all these features together with an attractive and angular front 1/3. Enough about his looks now lets talk EPDs. Top 2% WW, Top 5% YW, Top 15% TM, Top 15% YG, Top 2% CW, Top 1% Ribeye, Top 15% FPI. Performance driven with elite carcass EPDs! ADJ WW of 709 and ADJ YW of 1561! Homo Black and Homo Polled

Selling as Lot 31, BARG Mr Growth Fund 302M. This bull continues to wow us more each and every day! This 11 year old cow is still kicking butt and taking names. She raised our all time high selling bull to the Beastrom Ranch in 2021 and featured one of the highest performing bulls in last years sale. To say this cow has aged like fine wine is an understatement as this bull is believed to be her best one to date. He is super stout no matter what angle you view him, deep soggy middled with structural integrity. Its not only about the looks though, this bull also packs a great lineup of EPDs suggesting moderate birth weight and high growth and great carcass merit.

This Raile Franchise son puts together a great phenotype balanced well with eye appeal, depth of rib, muscle expression, and soundness. Adjusted weaning weight of 715 lbs and adjusted yearling weight of 1308 combined with a calving ease EPD of 14 and birth weight EPD of -1.6 makes him a great heifer bull that offers growth and performance post calving.

Closing thoughts...
**We would like to thank you for taking the time
to come to our sale. We are truly blessed by
the support of so many friends, family and
breeders. We look forward to serving you and
the beef industry for years to come!**

**Sincerely,
The Barwick
& Steinkruger Families**

BALANCER[®] CATTLE MAKE THE GRADE

FEEDLOT AND CARCASS ADVANTAGES WITH BALANCER[®] GENETICS

Today, feeders favor buying cattle with genetics that predict performance both in the feedyard and on the rail. To help breeders select for these more favorable animals, the American Gelbvieh Association offers a full suite of EPDs for growth and carcass traits. The industry demands an animal that grades Choice or higher, while posting a Yield Grade 1 or 2 carcass. A combination of marbling and a lean meat yield is often not an easy target to hit. Using Gelbvieh and Balancer genetics can help get you there.

**Gelbvieh ranks #1 for
percent retail product
according to U.S. Meat
Animal Research Center
Progress report #22**
