Home Storage Fails to Protect Valuable Assets.

More than **53 million** high-net-worth individuals worldwide face **over \$5B** in annual insured losses, as valuables such as jewelry remain exposed to theft, physical harm, and environmental risks in the home.

Vaulté is a modular showcase with integrated smart monitoring and secure access controls designed to protect valuables of various sizes from theft, physical harm, and environmental damage.

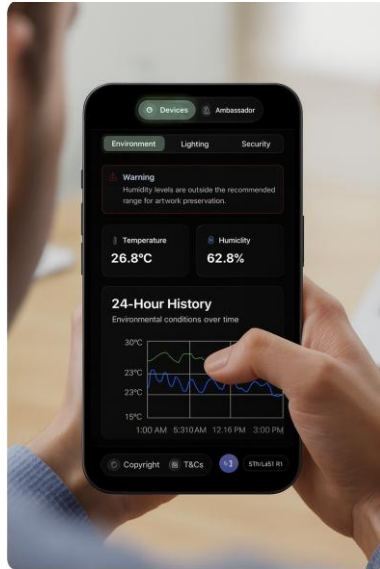

The only product that securely showcases valuables with IP-rated protection and app-based monitoring.

Valuables Protected in Vaulté

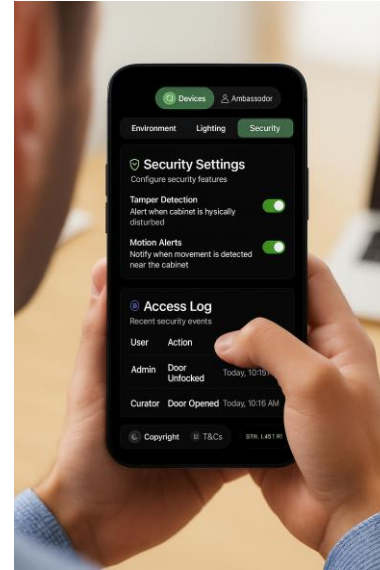

User's valuables are locked inside and showcased in a Vaulté.

Environmental Monitoring within Vaulté Connect App

Users can monitor environmental variables and set alerts in the Vaulté Connect app for:

- Temperature,
- Humidity,
- Moisture content, and
- Any other environmental variables through the addition of extra sensors.

Security Monitoring within Vaulté Connect App

Users can monitor the security of their valuables and set alerts in the Vaulté Connect app for:

- Motion detection,
- Door access,
- Tamper detection, and
- Any other sensors that the user needs to secure their items (GPS).

Home Automation and Security System Integration

Vaulté + Vaulté Connect App will connect to most home automation systems such as:

- Google Home,
- Alarm.com,
- Amazon Alexa,
- Control4,
- Samsung SmartThings,
- etc.

Revenue Streams and Pricing Strategy

- Primary revenue: Direct-to-consumer & ambassador-driven unit sales
- Pricing tiers:
 - **A4 model: \$2,799 MSRP** (\$1,400 average Kickstarter pricing)
 - **A3 model: \$4,099 MSRP**
 - Rationale: IoT functionality + customization = higher price & margin
- Gross margins: ~45% today → 65% at scale
- Future revenue streams:
 - Premium monitoring & control plans
 - White-glove installation services
 - Insurance, luxury brands, influencers, & protection partnerships
 - Custom marketplace (custom doors, parts, upgrades)

LuxandArt's Vaulté combines elegant presentation, ingress protection, and advanced environmental and security monitoring for luxury valuables.

Jewelry Boxes

- ✗ No showcasing,
- ✗ limited protection from water and dust,
- ✗ non-configurable, and
- ✗ no security features.

Vaulté

- ✓ Front and rear showcasing,
- ✓ IP66 protection from water and dust,
- ✓ numerous configurable options, and
- ✓ environmental monitoring and control features with smart home connectivity security features.

Safes

- ✓ Protection from theft however,
- ✗ no showcasing,
- ✗ non-configurable, and
- ✗ no monitoring or control features with smart home connectivity.

Projected Financials for the Next 4 Years

COGS based on current material prices and engineering and operational expenses

Key Financial Metrics: Profitable from April 2026

	Year 1 (2026) Kickstarter	Year 2 (2027)	Year 3 (2028)	Year 4 (2029)

Your trade mark has been filed

Trade mark number: 2587467
Your reference: -
Trade mark: LuxandArt
Applicant name: LuxandArt

Dear Customer,
Your trade mark application has been successfully filed.

The next steps
An examiner will assess your application to check it meets the requirements under the *Trade Marks Act 1995*. This usually takes about 3 or 4 months.

In some circumstances it's possible to expedite your application. You can ask us to consider your request and we'll let you know if it can be done.

How to expedite the examination
In online services:
• navigate to 'Expedite a trade mark application'
• enter your trade mark application number
• select 'Start a new request'
• follow the instructions to complete your request.

If your application is accepted:
• we'll publish your trade mark for 2 months on [Australian trade mark search](#). Anyone can oppose your trade mark during this time
• if nobody opposes your trade mark, or if an opposition isn't successful, your trade mark will be registered.

If your application isn't accepted:
• we'll send you a report explaining why
• you'll have 15 months from the date of the report to address the issues.

What you need to do now
Review Your application summary below and make sure all the details are correct.

With 15+ years in engineering, Kevin is a Registered Professional Engineer and leads technical strategy at LuxandArt.co.

\$148B Global Collectors Market

Serviceable Obtainable Market (SOM)

- SOM (Initial Program): **~\$7M**
- 5,000+ Kickstarter units at ~\$1,500 average launch price.
- Kickstarter = launch channel; ongoing post-campaign sales expand SOM further past \$7M over 1–3 years.

Total Addressable Market (TAM)

- TAM (Global): **\$148B**
- 53M High-Net-Worth Individuals globally × \$2,799 minimum unit price.
- Conservative baseline — excludes accessories, services, and institutional buyers.

Serviceable Addressable Market (SAM)

- SAM (U.S.): **\$22B**
- 7.9M U.S. High-Net-Worth Individuals × \$2,799 minimum unit price.
- Focus: U.S. individual collectors (jewelry, watches, art, antiques, memorabilia).
