

An ARRL-Sanctioned Event

WVARC's

2024 Field Day

June 22-23, 2024

Check it out:

This is a Ham Radio Open House!

The event covers **Public Service, Emergency Preparedness, Community Outreach** and **Technical Skills** all into one 24-hour period. It has been the most popular Amateur Radio gathering since 1933. More than 40,000 hams from all over the country will be contacting each other to earn points and bragging rights. The fun begins at 11 AM on Saturday, with members bringing food for the guys and gals later on that day. Sunday morning everything gets taken down and cleaned like we weren't even there. More info is on our website: <https://westvalleyarc.com/>
