Winter Field Day Event

In Partnership With Surprise Public Library

Ready for Field Day

January 25-26, 2025

The West Valley Amateur Radio Club is proud to announce our upcoming **Winter Field Day** Event! We will be available to show what Ham Radio is all about! Please plan to visit, bring the kids, have a snack, talk on a real ham radio (maybe even to someone in another state.), learn a little bit about Morse Code (like tapping out S.O.S.) and more! The **Surprise Public Library** is centrally located and well worth a visit at **16089 N. Bullard Avenue, Surprise, AZ 85374**.

Please pencil us in! This is a great learning opportunity for all ages! Our radio operators will be available for 24 hours to simulate an Emergency Situation, but this is a great time to get a sneak peak at what we do for **Communication Continuity**.

Our Winter Field Day Chair and Contact is Jim Cummins: n7yo.jim@gmail.com
