

Fox Hunt and Antenna Build Events

No... we aren't actually hunting a fox!

"Be vewy vewy
qwuiet!"

In amateur radio terms, fox hunting is searching for a hidden radio transmitter utilizing portable radios and portable directional antennas.

The West Valley Amateur Radio Club is holding a fox hunt on November 13, 2021. Location and time of the fox hunt will be specified closer to the date.

On September 18, 2021 at 10 AM at Beardsley park in Sun City West the club will hold an antenna building event. This will be a hands on session where you will build your own portable fox hunting antenna (see photo below). The club will provide a parts kit at cost (estimated at somewhere around \$25). Pre-registration is required for the antenna build workshop event.

**For more information or to register for
the antenna build workshop contact:**
