

QSO

Party

QSO Party Rules

Object: Participating members will make as many contacts as possible with other members, including asking and answering **two** personal questions. Participants will walk away knowing something new about their fellow club members.

Winner: The winner who logs the most contacts will receive a **\$100.00 gift certificate** to HRO!

When: The QSO party begins at **Noon on Saturday, August 13th** and ends at **Noon the next Saturday, August 20th**.

Contestant Rules: Contacts count between club members only. No duplicate contacts. The station with the highest number of completed contacts wins. The VHF and UHF repeaters may be utilized. EchoLink & Wires-X usage through the repeater will be allowed. Contacts may NOT be made during any of the club nets. Each member must ask two questions, receive answers then log those answers. You may use paper logs, electronic logs, or spreadsheets for accounting purposes. Logged entries must include call sign, date, which repeater contact was made, name of the person interviewed/contacted and the responses to your questions. (Contact Sheet is attached.) **Entries must be mailed or emailed to Josh, KE7WIL, by August 27th.**

A few example questions: What's your grid square? What are your favorite foods? Do you have any pets? What equipment are you running? You can ask just about anything that gives you more insight into a member's interests.

Good luck and good hunting! Frosty, NQ1S
