

Net Controller Profiles - Krissy KI7GJJ

Krissy KI7GJJ first received her Technician radio license in August 2016 and progressed to General, and then Extra class ticket in November 2022. She has done the Tue morning net for some time and is a substitute net controller filling in whenever needed.

Her interest in camping and outdoor activities was the inspiration for diving into the Amateur Radio hobby. She enjoys learning all aspects of the hobby including digital modes (DMR, D-star, Fusion), APRS, chatting on Nets and exploring the HF Bands. She has been primarily exploring the 10m band when it is cooperating.

She is also a member of the West Valley Ham Shack, Arizona Red Cross Communications Club, and the Arizona GMRS clubs. She is active in the Maricopa County Emergency Communications Group (MCECG) using her ham radio to support public events. She enjoys sharing what she's learned by teaching classes at the West Valley Ham Shack.

She and her "non-ham" husband Mike enjoy traveling and camping in their small camping trailer. They enjoy fishing, hiking, biking, kayaking and just enjoying nature.

Ed's note: If you attend any of the club's activities, you'll find Krissy in the center of them. She shares her time and technical expertise with any who needs it and what would the West Valley Ham Shack do without here? When she and Mike take off on one of their wild adventures, deep space has less vacuum than the West Valley. Ray-W0IVB

Next month's Controller will be John-WA7SO
