

June 7, 2019

Greetings all 2019 ARRL Field Day Participants,

Wally and I are getting ramped up for the big weekend that is only 15 days away.

We are thinking of having the setup at the Shack starting at 0900 and be ready to get on the air by 1100. The official radio room will be ready to use and we will have additional space in shop area and perhaps some of the parking area (still thinking about this idea).

We have a plan for feeding the operators and I am sure we all will not starve during the event.

Although we will be in an enclosed area with air conditioning - remember to stay hydrated.

We have reserved a slot on the repeater to host a Net on June 22nd.

Wally and I are also thinking about utilizing the feed to the big screen TV in the conf room as a display for a demo on digital/SDR.

Field Day takes many volunteers to make it happen as well as have some fun.

Lt. Col. Jimmy Doolittle quoted from the Pearl Harbor Movie:

“There’s nothing stronger than the heart of a volunteer”

That being said we are soliciting volunteers for these specific duties:

Setup/take down:

Antennas, cables, radios, etc
