

March 25, 2020 Governor Beshear's Healthy At Home mandate means all locations of the Breckinridge County Public Library will remain closed to in-person services. We will be unable to check out any items, but we were able to mass change due dates. All material that was checked out in March will now be due back April 30. Fines will be waived for the entire month of April and we ask that you hold on to your items until we reopen. We will continue to update our Facebook page and will be checking Facebook messages. We are pleased to continue to offer various online services including Overdrive/Libby and Scholastic BookFlix. Also we want to remind you that the WiFi is working and open to the public at the Hardinsburg Main Library and the Irvington Branch Library. Please practice social distancing with using WiFi. We will be following the recommendations of the CDC and state government officials in determining when it is safe to resume in-person services. We will reopen when the executive order is lifted. We miss all of you, our patrons, and hope to see you soon!!!
