Rosette

Premier Champion Overall of Individual EWE, RAM, MKT

LIVESTOCK INFORMATION

EXHIBITION OF LIVESTOCK AND POULTRY IN MINNESOTA SUMMARY OF STATE RULE GENERAL REQUIREMENTS

The exhibition management may adopt more but not less restrictive health requirements than required by state rule.

Livestock or poultry known by the exhibitor to have an infectious, contagious or communicable disease or to have been exposed to an infectious, contagious or communicable disease, or to be from a quarantined herd or flock may not be entered in an exhibition. **Warts and ringworm are considered contagious communicable diseases.** Therefore, livestock affected by these diseases cannot be exhibited. A statement from a veterinarian that an animal is being treated for these diseases is not acceptable.

All animals must be examined by the official veterinarian on the day they are admitted to the exhibition and at least once daily during the exhibition. Prior to entering a public exhibition, animals must meet the requirements for exhibition, importation, and intrastate movement as defined by the Board of Animal Health. No animal may enter or be at a public exhibition that shows clinical signs of any infectious, contagious or communicable disease, including ringworm and warts.

The Official Veterinarian will order the immediate removal to a quarantine facility or removal from the exhibition premises of any livestock with clinical signs of infectious, contagious or communicable diseases. Animals placed in a quarantine facility must remain there until removed from the exhibition premises.

Livestock and poultry entered in any public or petting exhibit are required to follow exhibition requirements.

CATTLE-Cattle must be individually & officially identified using AIN system after 11-5-24 or NUES system or breed registry tattoos and tags prior to 11-5-24.

SHEEP AND GOATS-Sheep and goats must be officially identified.

LLAMAS & ALPACAS-No requirements.

POULTRY-Chickens, turkeys, and game birds must be individually identified with numbered leg/wing bands. Hatching eggs and young poultry too small for bands can be exhibited as a group but must be accompanied by Hatchery Permit number or NPIP number written on cage. Chickens, turkeys, game birds, and hatching eggs from these birds must be accompanied by a certificate or test chart to show that they originate from a hatchery or breeding flock that is classified U.S. Pullorum-Typhoid clean under NPIP or are negative to a pullorum-typhoid test within 90 days prior to the opening date of the exhibition.

WATERFOWL & PIGEON- Waterfowl and pigeon will follow the same identification requirements as poultry.

SWINE-Swine must be individually & officially identified.

HORSES-Horses, except suckling foals accompanying a negative dam, must be negative to an official test for Equine Infectious Anemia (EIA) (e.g. Coggins test) conducted within 12 months prior to the opening date of an exhibition.

DOGS-Dogs four months of age or older must be accompanied by a certificate of rabies vaccination issued by a licensed veterinarian.

STEELE COUNTY FREE FAIR AUGUST 12-17, 2025

ENTRY BLANK – DAIRY, SHEEP, GOATS

Return completed form to Department Superintendent

(All entries below will be considered as from one exhibitor unless otherwise clearly specified)

No entries recorded unless accompanied by proper fees. Please accept the entries of animals indicated below for exhibition at the Steele County Free Fair subject to the rules and classifications published in the Premium List by which I hereby agree to be governed. I declare all statements made in connection with said entries are true.
