Description of Course:

This internship provides students with **hands-on ministry experience** by serving in a **church or Christian organization** outside their home church or educational institution. The course is designed to bridge **theoretical knowledge and practical ministry**, allowing students to actively participate in real-world ministry operations, outreach, discipleship, administration, or pastoral support.

Through this experience, students will observe and engage in leadership, teamwork, and ministry practices while developing skills in spiritual leadership, organizational management, and relational ministry. Reflection, mentoring, and evaluation ensure that students integrate their practical experience with biblical principles and personal spiritual growth.
