**Caution: Not Intended for Those Suffering from Chronic Gravity Distortion Syndrome**

Throughout the United States most Federal Law Enforcement agencies utilize the Federal Law Enforcement Training Center's (FLETC) Practical Pistol Course (PPC) to measure their agent's duty pistol proficiency. From IRS Agents to Border Patrol to the Secret Service, this qualification is a staple of within their recurrent training and qualification. There is one federal agency that stands alone, as having the highest PPC passing standards for their agents. It is THE **Area 51 Security Force**.

That's right! I am talking about the mostly white and slightly chubby mysterious men nicknamed the "Camo Dudes". Their signature vehicle of choice a white Ford pick-up truck, would blend in most anywhere if not for the desert backdrop of Groom Lake, Nevada. This elite force protects the world's most secretive and sought after information and technology. These protectors of secrets are so mysterious themselves that even this document must be classified as **"Top Secret"** by the Pistol Performance Concepts, LLC Information Security Section. This is a big deal...
