Helen Du, President

Dear members and friends of USCCC Dallas, as we gather to celebrate the end of the 3-year long Covid pandemic and discuss opportunities awaiting us, I would like to thank you all for allowing me to have served as the president of USCCC Dallas during the last two years.

I am grateful and proud to have worked with a group of hardworking and talented volunteers in our executive team, who devoted their precious time and resources to support members and friends of USCCC Dallas. Particularly we are proud to see our chamber officers volunteered to nurture the signature YES program fostering entrepreneurship among DFW area Chinese American youth, to lead the Nihao grass-root movement to work with North Texas Food Bank in fighting hunger in our community, to orchestrate monthly educational programs and networking events, and to organize healthy outdoor activities such as dragon boating and walk in the park. Through all, our chamber of commerce is growing, our mutual support system is stronger, and we are becoming ever more responsible members of the DFW community.

As USCCC Dallas continues to create more next working opportunities for members and friends of this chamber, I encourage and welcome more business minded friends to join this growing organization. It has been extremely satisfying and encouraging to hear that new business relationship was formed as a result of participating in USCCC Dallas events. Our resilient members have survived the pandemic well, and we are looking forward to a more prosperous future for all of us.

There are more work to do, though. We must remain vigilant when discrimination based on race and national origin is showing up in our legislation process. We should responsibly discharge our duties to our younger generations in mentoring and supporting them. We will continue to do our part to help the less fortunate members of our community, and above all, we must foster an even closer relationship to support each other. We look forward to growing together.

Helen Du,
President

USCCC encourages businesses and entrepreneurs to contribute to and become an integral part of their local community, and this mission aligns perfectly with our goals. The City of Coppell is proud to partner with the US China Chamber of Commerce – Dallas that works to promote business and cultural exchange, while also encouraging community members to get involved with local government.

Hello Friends:

As Mayor of the City of Frisco, it is my pleasure to welcome all attendees and sponsors of the US-China Chamber of Commerce, Dallas (USCCC) Annual Meeting and Chinese New Year event celebrating the Year of the Rabbit. I congratulate you on your 29th year of cultivating business partnerships and opportunities in the Dallas-Fort Worth area.

I not only appreciate the support you provide local business and community leaders, but I also commend you for the work you do mentoring and developing aspiring entrepreneurs through the Youth Entrepreneur Society (YES). I've been able to spend some time with some of the students in the program, and they are impressive! YES is preparing our next generation of leaders well.

I trust the conference will be a great time of learning, connection and celebration. While in the North Dallas area, I hope you will experience our Texas-style hospitality while exploring the rich and diverse heritage of our city and North Texas. I encourage you to explore the many activities Frisco has to offer, including touring The Star in Frisco, home to the Dallas Cowboys headquarters and practice facility; visiting the National Soccer Hall of Fame at Toyota Stadium, home to FC Dallas; visiting the National Video Game Museum; dining at the many excellent restaurants; or shopping at the area malls, including Stonebriar Center, also home to Kidzania, a unique "edutainment" attraction and city built just for kids!

On behalf of the people of the City of Frisco, I wish all of you a wonderful visit and successful event!

Sincerely,

Jeff Cheney,
Mayor

INCOMING PRESIDENT'S MESSAGE

Dear Members of the US-China Chamber of Commerce - Dallas,

It is my pleasure to welcome you to the 2023 Annual Conference of the US-China Chamber of Commerce – Dallas (USCCC). I wish you all a happy and prosperous Year of the Rabbit. As we enter this new lunar year and emerge from the COVID-19 pandemic, we find ourselves facing both opportunities and challenges in the post-pandemic era. In this context, the role of the Chamber in fostering collaboration and promoting economic growth in the community has never been more important.

The pandemic has accelerated the digitalization of the economy, creating new opportunities for Chinese American businesses to collaborate and innovate. At the same time, it has also heightened geopolitical tensions and trade disputes, making it more challenging for international trade business. As members of the Chamber, we must address these challenges and find ways to overcome them.

At this year's conference, we will focus on the post-pandemic opportunities and challenges for members of the USCCC. Through keynote speeches, member expo, and networking sessions, we will explore the latest trends in technology and innovation, and examine how we can leverage these developments to foster collaboration and create new opportunities for economic growth.

Our members are encouraged to embrace digital transformation, to remain competitive in the rapidly evolving global economy. This can include promoting e-commerce and digital services, and building partnerships between our members and entrepreneurs in the community to develop innovative solutions. By leveraging technology and innovation, and by promoting cross-cultural understanding, the Chamber can help unlock new opportunities for economic growth and development in the community.

I am confident that this year's conference will be a great success, and I look forward to working with all of you to create a brighter and more prosperous future for all of us.

Thank you!

YES provides opportunities for growth through workshops, company visits, speaker series, personal interviews, event hosting, etiquette training, business plan, mentorship, and pitch formulations to help participants grow in leadership, communication, business acumen, and professionalism to enhance their future career in their chosen professions.

Currently, YES holds monthly meetings with notable guest speakers in different backgrounds (the likes of which have included CEOs, Mayors, and professionals from various career fields and industries) and conduct official business tours at places such as AT&T Global Headquarter, Mary Kay etc. We also provide our members with many opportunities to get involved into their local communities such as through Thanksgiving "Spread Love" programs; Frisco Arts 5K Walk & Run; Lunar New Year's Art Contest; Members have fun and celebrate together too, Holiday party, End of Year party, and Award Ceremony etc. YES strongly believes in the progression of professionalism through experience; just listening to other people's success stories won't create yours. For this reason, YES partners with local businesses to provide opportunities that can strengthen essential skills—no matter what field members may pursue—like public speaking, posture, and making a strong first impression.

Our Junior YES program is now available for 8th graders, so middle schoolers have the opportunity to get involved in their community and further their career interests even before starting high school! They will be active onlookers and shadows during our meetings and are welcome and encouraged to participate in other events YES hosts and/or sponsors.
