MISSION-FOCUSED
SECURITY & ENGINEERING

Prince George's County, Maryland

CAPABILITY OVERVIEW

DAed Industries, LLC is a Maryland-based cybersecurity and engineering firm supporting mission-critical federal, defense, intelligence, state/local and commercial environments. DAed provides senior-led RMF, cloud security, ISSO/ISSE, vulnerability management, Zero Trust, DevSecOps and systems engineering support from requirements and control implementation through authorization, operations and continuous monitoring.

AWS CLOUD SECURITY & ISSO OPERATIONS

- Configure and validate account-level, multi-Region and AWS Organizations CloudTrail trails; confirm management, data and network-activity event coverage.
- Centralize logs in protected Amazon S3 repositories using KMS encryption, least-privilege bucket policies, retention controls and CloudTrail log-file integrity validation.
- Integrate CloudTrail with CloudWatch Logs, metric filters, alarms, SNS/EventBridge and incident workflows; investigate IAM, root, access-key, policy, security-group and anomalous API activity.
- Perform recurring log reviews, incident triage, evidence preservation, audit support and reporting; maintain cloud SSP, POA&M, risk, control-evidence and continuous-monitoring artifacts.

CORE COMPETENCIES

RMF / FISMA / Authorization

Security categorization, control tailoring, SSPs, SAP/SAR support, RARs, POA&Ms, ATO/IATT packages, audit readiness and continuous monitoring.

SSO / ISSE Support

Day-to-day security operations, control ownership, change and configuration review, account/access reviews, risk tracking, evidence management and status reporting.

Vulnerability & Configuration

DISA STIG/SRG, ACAS/Nessus, SCAP, CIS Benchmarks, remediation validation, IAVA support, technical findings analysis and POA&M lifecycle management.

Cloud, Zero Trust & IAM

AWS GovCloud and Azure security, NIST SP 800-207, ICAM/HSPD-12, MFA, least privilege, RBAC/ABAC, PKI/KMS and secure cloud architecture.

DevSecOps & Container Security

Security controls in CI/CD pipelines, SAST/DAST, software assurance, artifact/evidence integration, Kubernetes/EKS hardening and runtime security.

Systems & OT/ICS Engineering

Secure architecture, requirements, integration, test and modernization for IT, cyber-physical, industrial control and building automation environments.

SELECTED PERFORMANCE

- Led ATO reauthorization support for classified Intelligence Community systems with zero audit findings.
- Reduced vulnerability findings by more than 50% through targeted analysis, prioritization and remediation validation.
- Delivered NIST- and FISMA-aligned authorization packages for high-side systems under compressed schedules.
- Supported secure workload transitions to AWS GovCloud and Azure IL5 environments.
- Provided PMO-level security engineering and ISSO subject-matter support across mission programs.

REPRESENTATIVE DELIVERABLES

- Authorization packages: SSPs, control implementation statements, security plans, RARs, POA&Ms, assessment evidence and ATO/IATT decision support.
- Operations products: continuous-monitoring plans/reports, vulnerability dashboards, compliance calendars, access reviews, incident/event analyses and executive status reporting.
- Cloud security products: logging architectures, CloudTrail coverage matrices, alert use cases, IAM/KMS reviews, evidence repositories, risk registers and remediation roadmaps.

COMPANY DATA

Founded: 2011

Business Type: Small Business | Woman-Owned

FCL: Top Secret Facility Clearance

UEI: EGM7DU2AK4J4

CAGE: 54KV8

SAM Active Through: 2 / 16 / 2027

SBA Certifications: EDWOSB, WOSB

State/Local: MBE | WBE

DIFFERENTIATORS

- 30+ years of defense and Intelligence Community practitioner leadership.
- Senior-led, responsive delivery with direct access to decision-makers and SMEs.
- Classified/high-side experience combined with cloud, engineering and operational security depth.
- Compliance translated into implementable technical actions - not paper-only security.
- Credentials include CISM, CASP+, Security+, MBA and engineering expertise.

NAICS / PSC

541512 Computer Systems Design Services

541519 Other Computer Related Services

541511 Custom Computer Programming Services

541513 Computer Facilities Management Services

541330 Engineering Services

DJ01 IT Security & Compliance Support Services

DA01 Application Development Support Services

R425 Engineering / Technical Support
