OREGON LEGAL PET GUIDE

POSSESS		IMPORT			TAKE	COMMENTS
Legal as Pets	ODFW Permit	Legal for Pets	ODFW Permit	Ag Permit	Legal for Pets	
						This is only a guide of animals that <u>MAY</u> be legal in a state. Due to the extensive amount of laws involved that are constantly changing, UAPPEAL cannot guarantee the accuracy of the information. Users are responsible for checking all laws BEFORE getting an animal.

SUMMARY: Exotic: Exotic animals (nonhuman primates, bears other than native black bear, nonnative canines except domestic hybrids, nonnative felines except domestic hybrids, and crocodilians) are banned as pets. All other nonnative species fall under one of these categories: Exempt, Noncontrolled Species, Prohibited Species, and Controlled Species. Exempt species are not considered wildlife, noncontrolled are legal without a Fish & Wildlife permit, controlled can only be possessed and imported according to the specific terms listed, and prohibited are banned unless specially approved by department after demonstrating sufficient knowledge and experience in such species. Native: Up to 2 listed nongame species are legal without a permit, but more than 2 requires a Wildlife Holding Permit; rest are banned. Most game species including black bears, bobcat, cougar, wolf, fisher, raccoon, ringtail, certain squirrels and voles, skunks were banned as pets in 2017 unless grandfathered. Captive-bred game birds are legal without a Fish & Wildlife permit.

DISCLAIMERS:

- * The laws listed above lists whether a species to legal to possess and import according to state laws and then any federally protected species with stricter regulations than the state. Be sure to review all federal laws as some ban certain species as pets or make it legal to possess a species but bans their interstate import in commerce or purchasing across state lines (you can still move with your animals across state lines).
- *For states that do allow keeping wild-caught native species as pets, it is usually limited to game birds, game animals, furbearers, reptiles, amphibians and invertebrates. Such taking usually requires some type of hunting or fishing license in addition to any required captive wildlife permits. All laws must be followed, including daily bag and possession limits, seasons, size limits and location specific regulations.
- * These guides are usually based on state fish & game laws, state agriculture and health import laws, and marine resource laws except when otherwise noted. Check laws for all requirements. Additional state laws may apply, including general animal control and care, livestock, and other health laws.
- * Species lists vary on each state page depending on each state's law. While we try to include as many native vertebrate species as possible, we cannot guarantee that all species are covered above.
