HIGH SCHOOL - SOUTH LAKE

REMIXING EDUCATION
BELIEVE. INSPIRE. EMPOWER.

Internships at ATS South Lake

The Student-Interns at Alan T. Sugiyama High School experience working and learning in non-profit arts organizations, learning skills that are "learned on the job", like working in a team and yet these skills are transferable to most other work environments. Student-Interns work with industry professionals at CD Forum For Arts, Converge Media, The Seattle Rep Theatre, Pacific Northwest Ballet, Seattle Theatre Group, Kreative Collective, KEXP Radio, The Residency and GZ Radio at VERA. Students experience marketing, podcasting, event production, media production, theatre costuming and much more.

At Alan T. Sugiyama we offer Students the opportunity to learn with professionals in the field of Arts and Entertainment. Students are matched with professional organizations in the Artistic, Technical and Administrative areas. Steve Sneed, the coordinator for Student-Interns, looks to understand a student's hidden talents, skills and curiosities, to determine the best organizational fit. Once a student is matched with an organization, the work begins. To receive the school credit and financial stipend a student must complete 90 intern hours and be evaluated by the arts organization. The 90 hours equals about 4-6 hours per week in a semester.

Students assume more responsibility leaving the school campus and working in professional environments. Transferable skills are learned, which will serve them in all their future pursuits. It is a great learning experience for the students, one they will never forget.
