Meet the Director

With a background in FMCG as a Multi-skilled Maintenance Engineer, I worked my way up and gained first-hand experience of the challenges an engineering department faces each day.

I started Ace Engineers in 2023 after noticing a significant gap in the market: agencies often failed to properly vet engineering contractors, which sometimes meant that “specialist” engineers were simply an extra pairs of hands on shifts, posing real risks to colleagues around them, especially when electrical maintenance was involved.

Determined to provide a safer, higher-quality alternative; I built a team of highly skilled, reliable engineers to serve clients across the country. Our range of services gives us the edge; and if a particular need falls outside our current expertise, we partner with trusted companies to ensure our clients always receive the best solutions.

Ace Engineering Group brings together expertise, innovation, and resources under one umbrella. Comprising Ace Engineers, Ace Electrical Installation Contractors, and Ace Store Management. We deliver seamless solutions; from precision engineering to electrical services and quality store systems.

Our strength lies in our dedicated team of professionals, committed to delivering the highest quality work tailored to each client’s unique needs. We strive to be a trusted partner, providing excellence in every project we undertake.

“Everything Engineering, All in one place”

Ash Cawthorne

ACE ENGINEERS

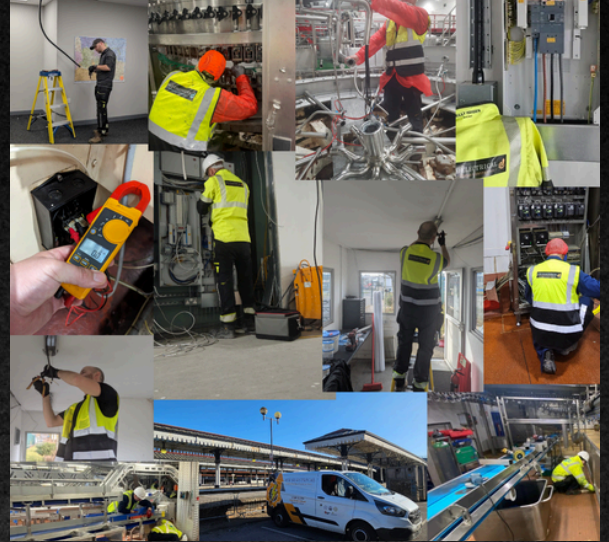

— MAINTENANCE SERVICES —

About Us:

Ace Engineers is a leading UK provider of maintenance engineering solutions. We deliver exceptional technical expertise and workforce management services across a wide range of industrial sectors, from planned maintenance to emergency callouts and shift cover.

Our team of experienced, multi-skilled engineers bring a wealth of knowledge and versatility to every project, allowing us to tackle even the most complex engineering challenges. We take pride in delivering outstanding results, achieving 99%+ shift cover reliability, well above the industry average of 85-90%.

Our Services:

Our flagship mechanical and electrical engineering division, specialising in multi-skilled maintenance engineers with over 15 years of FMCG experience. Ace Engineers handles complex systems and machinery, providing:

- ⚙ Shift cover for staff shortages,
- ⚙ Recruitment,
- ⚙ Project work and shutdown support,
- ⚙ 24/7 Emergency callout services,
- ⚙ SOP & One point lessons up to date and created,
- ⚙ Planned preventative maintenance services,
- ⚙ Machine relocations,
- ⚙ Workshop Design and Build,
- ⚙ Building Maintenance,
- ⚙ Audit work / Snag lists.

What Sets Us Apart:

- 🏆 Fully qualified engineers with verified credentials,
- 🏆 Insurance coverage for complete peace of mind,
- 🏆 Accredited: Safe Contractor, Avetta etc,
- 🏆 100+ Maintenance Engineers across the UK; Based in South Yorkshire, serving nationwide,
- 🏆 Offer 100% Emergency Shift Coverage service,
- 🏆 Compensation for Service Failures and Guaranteed Replacement for No-Shows,
- 🏆 99% Shift Cover average for 2025 (Best in the Market)(Industry Average is 89%).

Why Choose Ace Engineers?

We don't just fill shifts, we deliver reliability, efficiency and expertise when it matters most.

ACE ELECTRICAL

— INSTALLATION CONTRACTORS —

About Us:

Ace Electrical Installation Contractors is a high-quality electrical installation and maintenance services working across the UK. We combine decades of electrical expertise with modern innovation to serve industrial and commercial clients. Our commitment to safety, reliability, and precision has made us a trusted partner for businesses requiring professional electrical solutions that keep operations running smoothly.

Our team of fully qualified electrical engineers bring extensive experience and unwavering dedication to every project. Each engineer is committed to delivering precision work that adheres to agreed schedules and budgets while maintaining the highest safety standards.

Working as one of the Ace Engineering Group divisions, our electrical specialists collaborate seamlessly with mechanical engineers to provide comprehensive solutions for complex industrial challenges.

Our Services:

- ⚡ Electrical Installations & Refurbishments - Complete electrical system design and installation,
- ⚡ Electrical & Mechanical Shutdown Projects - Planned maintenance during facility shutdowns,
- ⚡ Routine Maintenance & Repairs - Ongoing electrical system upkeep and troubleshooting,
- ⚡ Electrical Inspections & Testing - Comprehensive safety and compliance assessments,
- ⚡ Emergency Electrical Services - 24/7 call-out for critical electrical issues,
- ⚡ PAT Testing & Certification - Portable appliance testing and safety certification,
- ⚡ EV Charging Point Installation - Electric vehicle charging infrastructure,
- ⚡ Solar PV Installations - Renewable energy system installation,
- ⚡ CCTV & Fire Alarm Systems - Security and safety system installation,
- ⚡ Thermographic Surveys - Electrical system thermal imaging diagnostics.

Why Choose Ace Electrical?

We don't just flip switches, we deliver power, precision and expertise when it matters most.

ACE STORES

— MANAGEMENT —

About Us:

Ace Stores Management is dedicated to revolutionising inventory management for industrial and manufacturing facilities.

We provide comprehensive store management solutions that ensure critical parts and equipment are always available when needed. Our integrated approach combines cutting-edge QR code technology with expert inventory oversight to minimise downtime and maximise operational efficiency.

Our experienced stores management professionals bring decades of engineering and inventory expertise to every client. Working closely supporting Ace Engineers and Ace Electrical, we understand the critical importance of having the right parts available at the right time. We are dedicated to maintaining high availability standards while providing responsive, knowledgeable support.

Our Services:

- ⚙️ Inventory Management Systems - Complete stores management with QR code integration,
- ⚙️ Emergency Parts Supply - Rapid access to critical components during Breakdowns, Projects,
- ⚙️ Equipment Audits - Comprehensive assessments with maintenance recommendations,
- ⚙️ Parts Procurement - Strategic sourcing through our preferred supplier network,
- ⚙️ Integrated Software Solutions - Seamless connection between inventory and maintenance systems.

Why Choose Ace Stores Management?

Because we don't just manage stores... we deliver efficiency, organization, and results when it matters most.

Audit Work

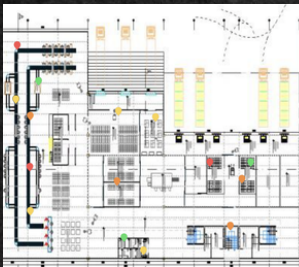

At Ace Engineers, our goal is to help clients elevate their operational standards to meet and exceed customer and compliance audit requirements.

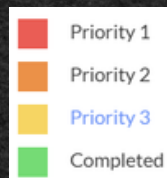

Through our comprehensive audit work system, we ensure your site not only achieves full compliance but also demonstrates excellence that sets you apart in the market.

We provide specialised reports for each production line or area, offering full visibility and traceability. Any remedial actions identified can be seamlessly assigned to the appropriate Ace Engineering Group department, ensuring efficient follow-up and resolution tracked and trackability.

Immediate Updates:

Live Status

We offer our clients advanced real-time tracking through the site's floorplan. This feature provides minute by minute updates, allowing you to monitor the progress of each job, see when it's completed with a report, and stay informed about any outstanding tasks.

Full Site Checks Include:

- ✓ Lighting Survey,
- ✓ Electrical Compliance,
- ✓ Fire Safety Risk,
- ✓ Pest Control,
- ✓ Contamination Risk,
- ✓ Air Leaks Report,
- ✓ Rusty Motors & Cables,
- ✓ Rusty Parts,
- ✓ Broken Enclosures & Buttons,
- ✓ Electrical Solutions,
- ✓ Damaged Plugs & Sockets,
- ✓ Cable Trailing on Floors,
- ✓ Cable Management,
- ✓ Damaged Cables,
- ✓ Poor Cable Installation,
- ✓ Trip Hazards,
- ✓ Building Damage,
- ✓ Holes in the Walls,
- ✓ Redundant Equipment,
- ✓ Floor, Wall & Machine Label & Signs.

Are you Audit Ready?

We don't just help you get through, we help you go beyond, building a site that impresses customers and stands out where it matters most.

What do our clients think of our service?

— “ —

Our experience with Ace Engineering Group has been outstanding, The rapid response and support has been essential in keeping the factory output at a high level. Any issues that have been raised to Ashley have been rectified with haste.

— ” —

Matthew G.
Engineering Manager

Marc C.
Head Of Engineering
& Capital Projects

— “ —

Top notch service from ACE Engineers - We called upon Ash and the team for support over a busy X-Mas period and they delivered 100% of the time - Some great feedback about their Engineers from our on-site team - Keep up the good work.

— ” —

— “ —

Ash and the team provide an extremely professional service. And their response time when emergency cover is required is second to none. Amazing.

— ” —

Site Engineering Manager

Results That Speak for Themselves

Exceptional engineering isn't just our goal, it's our standard. The results speak for themselves.

FAQs

Q: Which industries do you serve?

A: We operate across diverse sectors, providing bespoke solutions designed to meet the specific requirements of each industry, such as Food Manufacturing, Drink Production, Cardboard Packaging, Building Materials, Steelworks, Injection Moulding, Automotive and Parts Manufacturing.

Q: Are your engineers fully qualified and accredited?

A: Yes. All our engineers are highly skilled, fully vetted, and our company holds the necessary accreditations to guarantee quality, safety, and compliance.

Q: How quickly can you respond to projects or emergencies?

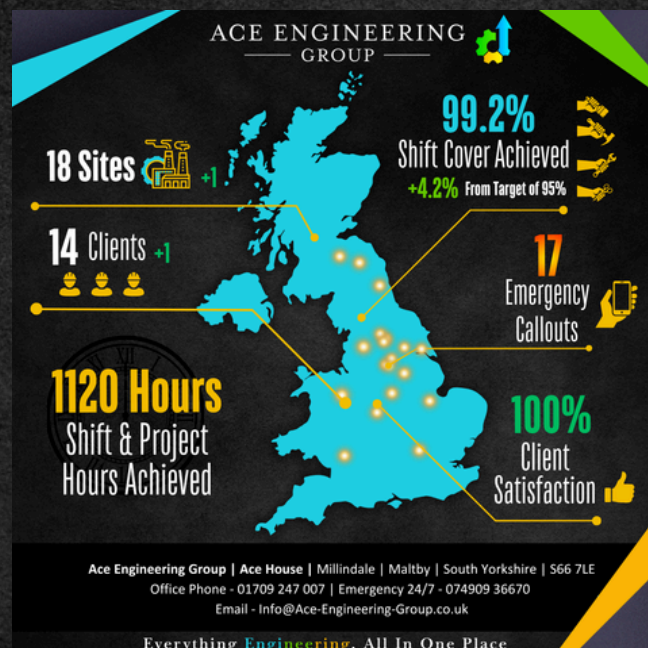

A: We pride ourselves on being reliable and responsive. Our team is available nationwide and can adapt quickly to meet urgent or scheduled project needs.

Q: How do I get a quote or discuss my project?

A: Simply contact us via phone, email, or our website. We'll discuss your requirements and provide a tailored proposal to suit your needs.

Q: How can I keep up to date with your services?

A: Stay informed on our latest services, updates, and company news by following us on LinkedIn, we regularly share insights, project highlights, and monthly updates on the business like below.

Accreditation

Operating Nationwide from Yorkshire

Delivering expert engineering solutions across the UK with reliability, precision and quality craftsmanship at the core of everything we do.

Serving a Wide Range of Industries

We provide expert engineering solutions across a diverse range of sectors, delivering reliable, high-quality services tailored to each industries unique needs.

Our Accreditations

We are fully accredited and certified. Demonstrating our commitment to quality, safety, and industry standards. These credentials ensure our clients receive trusted, professional, and compliant engineering services every time.
