Kuhn GT4100 rakes

set of 2 with tandem hitch 12,500

A photograph showing two green John Deere tractors in a field, each pulling a red Kuhn GT4100 rake. The tractors are moving from left to right, creating long, neat rows of hay. The field is a mix of green grass and golden-brown hay. In the background, there is a line of dark trees under a blue sky with some light clouds. The rake being pulled by the tractor in the foreground is a tandem model with two sets of tines.
