Western
English
Vaulting

Camp Description:

After greeting, grooming and tacking the horses, a typical camp day can find students in the arena learning to sit and post a trot, riding horses through a trail course, practicing a canter on the lunge line, or learning vaulting positions. Advanced students may enjoy a jumping lesson or working on vaulting freestyle moves.

Camps provide an in depth learning experience for young people motivated and eager to learn successful horsemanship skills. Focus will be on safety and self-control, awareness, and consideration and understanding of others. Activities are designed to develop and increase confidence and capabilities in a fun, social, and supportive atmosphere. Teaching model follows the United States Pony Club Manual skill levels.

Prerequisite to camp: Prospective students must attend an Introductory one hour private lesson. Cost of the Introductory lesson is \$65. **All participants must possess and wear a certified ASTM riding helmet for equestrian activities!**
