

Welcome to

THE FANNIN COUNTY QUILT BARN TRAIL

The Largest Quilt Barn Trail in Texas!

REALLY!!!

Established 2012

Fannin County has over 130 quilt barns paintings located throughout the county. Most of them have been painted by the local property owner and placed on a structure that they own. They come in all sizes from 4 foot by 4 foot to 8 foot by 8 foot. Some are located on public property and in parks.

Please be aware that most of the county roads in Fannin County are not paved and may be rough. You are welcome to take pictures of any of the squares but please respect private property and do not cross fence lines.

There is an online database of all the squares with photos and by using a smart phone you can go to the location of the square by clicking on the Go To in the description online. Due to a database limitation the Fannin County Quilt Barn trail is broken up into two online databases. The West Side Database covers the West side of the county including Bonham and the East Side Database covers the East side of the county including Honey Grove.

If you are using the online database the numbers on the slides correspond with the numbers on the following sheets. The trail both online and with the following sheets is in an order such that you can go from one square to the next without going back and forth all over the county.

The QR codes below will take you to the trail you want to visit by using your phone are click on Name to go to website:

Quilt Barn Square Information

How to Make a Quilt Barn Square

- ◆ 3/4 Inch Exterior Grade Plywood cut to size: 4x4, 6x6, or 8x8
Metal can also be used and is lighter and easier to put up
- ◆ Contact: North Texas Sign Werks at 903-989-2747 for pricing
- ◆ Prime with Kilz paint with a brush—2 coats: front, back, and edges (metal only needs front primed)
- ◆ Draw a design in Pencil
- ◆ Paint design with exterior latex—3 coats each color including edges
- ◆ Use brand name “FROG TAPE” for best results to prevent color running
- ◆ Attach square with adequate fasteners to your structure to withstand years of use
