Test Results: Genotype of your dog is Homozygous wild type (NORMAL/CLEAR)

Risk for developing EOPRA: This dog will not develop Early Onset Progressive Retinal Atrophy (EOPRA) as described on the OptiGen website.

Significance for breeding: Genetically Normal/Clear dogs can be bred to any dog and will produce no pups affected with EOPRA.

For further information, please consult the OptiGen website at [www.optigen.com](http://www.optigen.com)

DNA tests do not replace the importance of regular eye exams.

**International DNA Based Genetic Database:** To register this result with OFA, make a copy, sign below, mail WITH FEE, to OFA, 2300 E. Nifong Blvd, Columbia, MO 65201-3856 or FAX to 573-875-5073. [www.offa.org](http://www.offa.org)  
I hereby certify that the sample submitted was of the animal described on this application. I authorize the OFA to release all information on the test results thus placing the results in the public domain and I hereby release OFA from any and all liability associated with the release of test information.
